 you have Fire **Chambers** of the Rasha Bodies and of the Light Bodies, you

 When Allure an **Chambers** activate, and fully open and turn on, they allow for

 are. And, these **chambers**, when they fully ... when you activate the outer portions,
 of the Allurean **Chambers**, they allow these two~notice these are offset, right? Where,

-  They are the **chambers** that run through the center core. Now, next one, please

-  those twelve Allurean **Chambers**; you will have one EtorA Body. And, behind it, on

-  is an Allurean **Chamber**. So, there are technically twelve Allurean Chambers. There's really six
-  technically twelve Allurean **Chambers**. There's really six of them, but they each carry a different

-  that is the **chamber** for, say, number eleven, and that connects to the chamber

in their Fire **Chambers** ... The process of Prana Exchange has to do with

 in the Fire **Chambers**, making a communication of currents through the center point, back

 to the Allurean **Chambers** and back into the Spirit Body; so, it's making the

 how these Fire **Chambers** form what become Hydrogen and Oxygen , and all of

 where an Allurean **Chamber** crosses through a Span, it creates a specific type of

Page: 208

 the 12 Allurean **Chambers**. The AdorA and EtorA Hall of Records 8-Cells merge

 encryption of Allurean **Chambers** 1 through 12. And it's only the 6th chamber-these
 only the 6th **chamber**-these are Allurean Lines-they run between the chambers. They're

 because the Allurean **Chambers** are a set of twelve. If you put the 12

 now they're fire **chambers**. What happens is, through a process of the Rashalon fertilization

Page: 58

 lines, these fire **chambers**, by these guys phasing up and down sparking ... it

Page: 63

 about the fire **chambers**. There's something here. Oh. I wanted to point out, in

Page: 73

 are the fire **chambers** here, the natural fire chambers of the Earth's body structure,
 the natural fire **chambers** of the Earth's body structure, and they opened them just
 open the Ascension **Chambers** to the middle zone-the New Earth that is forming.

Page: 77

 are healing water **chambers** when you go to the Adashi temples and they can

Page: 92

 the 7 Fire **Chamber** Lines of Earth. You'll be moving through that one starting

Page: 94

 this, the Central **Chamber** on 7. So we had this part activated then the

Page: 95

 our Krystal Heart **chambers** also do that I don't want you to look at

Page: 122

 and the Fire **Chambers** so you see that they all go together. And when

Page: 124

 are each "**chambers,**" each one of these is a set of frequencies or

 are all ascension **chambers**. And progressively they activate within and around you, and as

 the 12 Fire **Chambers** or Key Lines of the Planetary RashaLAe and also the

Page: 125

 of the Astura **Chamber**. Now, if the others, the fallen angelics from the Hibernation

 in the Ecousha **Chambers** of the AdonA. Now we're going to take one more

 the AdonA Ecousha **Chambers**. The energy feels different here. Try to see if you
 part of the **chamber**, the staff pointing down, you will have your shield at

Page: 172

 HE de Sala **Chamber**. This is what is evolving on our wall. It's the
 HE de Sala **Chamber**. I'll know a lot more about the technicals on that,
 is a particular **Chamber** that ... [to Beloveds] go ahead guys ... does

Page: 176

 tube, it's a **Chamber**. OK, they said it's a Chamber. Hm, in a moment
 said it's a **Chamber**. Hm, in a moment the tube went up, from something
 when the first **Chamber** opened. And we'll know more about what that means by
 because the big **Chamber** opens then. Ah what Chamber? Is that the one, that
 then. Ah what **Chamber?** Is that the one, that is that LA HE de

 a set of **Chambers** like round pieces of very wide spaghetti within round pieces
 and these are **chambers** that run off them at their precise width. And up

Page: 202

 HE de Sala **Chambers**, before any of those can open which we are going

Page: 207

 Firelines or Fire **Chambers**, they all mean the same thing. There would be Keylines
 they become Fire **Chambers**, where the Alons, KAions and ShAions come together. The
KAions

Page: 220

 of the fire **chambers** in the planetary shields, it gives you the Astura set,

Page: 221

 allows for these **chambers** to open. So, it is a window that allows you

Page: 240

 they're called fire **chambers** and what is firing at each of those chambers has

 each of those **chambers** has a set of what look like the keys that

Page: 248

 the 12 fire **chambers**. So, here's where the RaSh a body becomes like a

Page: 254

 open the fire **chambers** where the bands, where they open as tubes between them.

Page: 287

 I have these **chambers** taken off so first of all you can see these

 is like a **chamber** or a tunnel. A chamber of frequency composed of the

 a tunnel. A **chamber** of frequency composed of the matter base that it is,

Page: 290

 those tunnels, those **chambers** that form from the spheres of the Eye of God,

 of that inner **chamber**, wasn't it dear? [to Az] Do you remember? Yes,

Page: 291

 levels of these **chambers** from each of the Eyes of God coming upward, and

Page: 294

 get opened, the **chambers** that are going to be opened tonight, through the journey

 those tubes or **chambers** once they're open, to go and meet the Aquafereion directly,

Page: 295

 Ka-LE solar **chamber**, and to run that chamber down from Sal a 4

 to run that **chamber** down from Sal a 4 gate, over to Urtha 3,

 that Ka-LE **chamber** has enough power, that it will allow not only these

Page: 298

 see where this **chamber** of Ka-LE, or the Solar Chamber of Ka-LE

 or the Solar **Chamber** of Ka-LE is going to be opening And it

 is the power **chamber**. There's something in this, they even haven't told me yet,

Page: 299

 actually like spinning **chambers** of frequency that are coming out from these structures On

Page: 300

 is without the **chambers** showing, without the currents showing, that are spiraling from each
 each of the **chambers**. It shows you the structure better. I just wanted you

Page: 301

 once these solar **chambers** are open, they can't be broken, but how the Earth
 And opening the **chambers** tonight is ... that will allow that to occur, because

Page: 302

 those Ka-LE **chambers** are open, they are high enough in frequency where we

Page: 308

 traveling up the **chambers** through the window, through the Luna windows, into the Krystar
 into the Krystar **chambers**, and then we're going to ride them up into the

Page: 313

 to run the **chamber**. What was just the line ... they had me do
 draw this whole **chamber**. It's like a tube. It's even shaded as if you
 Ka-LE solar **chamber** looks like. All right? It is literally ... this is

Page: 314

 the Ka LE **chamber** to hold. This is the chamber that the Aquaferion can
 This is the **chamber** that the Aquaferion can come down in physically, and that

 through the Solar **Chamber**, and they will be glad to make arrangements to meet

 to activate the **Chambers** that they will activate at any time. 28) What we're

 of the Solar **Chambers** any time you would like. Simply, again, by physically stimulating

 pool there's a **Chamber**. So, it's as if there's hole, a nice big hole

Page: 324

 Solar Ka-LE **Chamber** can be opened. 35) So now we are going to

 Ka-LE Solar **Chambers**, and this point is located at a specific coordinate in

Page: 325

 received, the Solar **Chamber** Keys. But you can begin the process, if you feel

 planet, that these **Chambers** are now beginning to open to, because they will begin

 Ka-LE Solar **Chambers** that are going to sheath it. It will start with

Page: 326

 there are thin **Chambers** of what look like a lovely pale silvery gold light

 These are the **Chambers** you will be able to meet them in. This is

Page: 330

 into the Ascension **Chambers** that have to do with, are referred to as the

Page: 333

 of frequency, certain **chambers** are opening that wouldn't otherwise open. And it is because

 the Sala-KaLE **Chamber** on the planet wasn't opened. And in the sun, because

Page: 342

 are called Fire **Chambers** that work very similarly to the Key Lines in the

 in those Fire **Chambers** that sparks are generated, and quantum's are generated to the
 Fire, the Fire **Chambers** of the Rasha Body operate in a similar way as

Page: 351

 are called Fire **Chambers** and they work like the little Fire Lines did. So
 in the Fire **Chambers** and generate more sparks at certain points in Natural Spark

Page: 376

 like tubes, tunnels, **chambers**, right Imagine your central vertical current- CVC- all these currents
 forms tubes, tunnels, **chambers**, Ascension Chambers, where you literally become your own Ascension Chamber
 tunnels, chambers, Ascension **Chambers**, where you literally become your own Ascension Chamber basically. The
 your own Ascension **Chamber** basically. The one that runs vertically, we're going to learn
 the HaRA-Krysta **Chamber** is the vertical one that connects into the Core Flows
 the KaLE-Hara **Chamber**, and the other one that we're going to be activating

Page: 380

 and also the **Chambers** that run from that and that run around the body

Page: 390

 is representing this **chamber** that--outside of here right now you've got the undifferentiated
 find that these **chambers** open between the undifferentiated God-Source Consciousness Field and the
 is opening those **chambers** that allows for the currents from these areas of anatomy

Page: 396

 NaVA-Ho Birth **Chamber**. This is the beginning, you see the Chamber opens from
 you see the **Chamber** opens from where it popped the sphere and went into
 the KaLE Hara **Chamber**. And it's the KaLE Hara NaVA-Ho Birth Chamber between
 NaVA-Ho Birth **Chamber** between 1st Creation Point and God-Source Field, so between
 the KaLE-Hara **Chamber** and return from the Source Field with a times 2
 Hara NaVA-Ho **Chamber**. The times 2 AmourA Body coming to rest at the
 the KaLE-Hara **Chambers** that run this way, they are the front to back
 front to back **Chambers**. That is what I was trying to figure out before
 the KaLE-Hara **Chambers** ran side to side horizontal or front to back horizontal.
 NaVA-Ho Birthing **Chamber** within the Kryst Body. So now you have the Creation
 have this full **chamber**, you see it runs the whole size of those bodies

 would be the **chambers** that run front to back, future, past These are actual

Page: 397

 out the Birthing **Chamber**, back out to Source. And this forms- OK back to

Page: 399

 the Sala-KaLE **Chambers** and we go to Sala. We're visiting these portions of

Page: 400

 Vertical HarA-Krysta **Chamber** opens, allowing for phasing and quantum building between the Mahata-

Page: 409

 is where these **chambers** form. We had the KaLE-Hara Chamber which was the
 the KaLE-Hara **Chamber** which was the horizontal, running from front to back from
 the KaLE-Hara **Chamber** that formed when the 3 Hara Bodies formed And then
 get the HarAKrysta **chamber** (brief blank spot on recording) too that forms once
 when those 3 **chambers**, we opened the other chambers in the Aquaferion Shield during
 opened the other **chambers** in the Aquaferion Shield during the last workshop here, the
 when those 3 **chambers** open there"s something that can occur. These cells or these

Page: 418

 vertical HarA-Krysta **Chamber**, but it changes. It does something where it combines and
 part of the **chamber** that runs this way and shuts off part of the
 part of the **chamber**, which is the KaLE-Hara chamber and part of this
 the KaLE-Hara **chamber** and part of this one, and it actually shifts the
 creates an artificial **chamber** that ends up as your projection chamber, as your front
 as your projection **chamber**, as your front So hmm, that"s new, that just came
 set of the **chambers**. And this has to do with the Caduceus Rod that

Page: 419

 is showing the **chambers**. This would be the KaLE-Hara chamber, as it"s supposed
 the KaLE-Hara **chamber**, as it"s supposed to be, running front to back, well,
 your HarA-Krysta **chamber** that corresponds with that, right, one"s there. And literally, at

Page: 420

 all the 3 **Chambers**, which is the KaLE-Hara Chamber that goes front to
 the KaLE-Hara **Chamber** that goes front to back, the HarA-Krysta Chamber that
 the HarA-Krysta **Chamber** that comes vertical, and the other one that you don't

 the DhaLA-KaLAah **Chamber**. When the 3 of those chambers open ... that's the
 3 of those **chambers** open ... that's the one that you opened tonight with
 the KaLE-Hara **Chamber** running that way, and from here you would have that
 that DhaLA-KaLAah **Chamber** running out this way, which implies these are a set
 and opening the **chambers** that allow for the transmutation to, or the transfiguration to

Page: 423

 front KaLE-Hara **chamber** that does the main run of ManA going front-wards

Page: 424

 to have a **chamber** going horizontal this way, and we're supposed to have Rod
 to have Rod **chamber** going this way. It actually splits part of this one
 way once these **chambers**, the 3 natural chambers, are activated, which we have now
 the 3 natural **chambers**, are activated, which we have now accomplished with the last
 with the last **chamber** that you guys activated with your Stand. It allows for

Page: 425

 by phasing the **chambers**, or phasing the cells of the Ecousha-TA, we will
 with the natural **chambers**. Then, we will be able to pull this body through,
 open those 3 **chambers** to allow for the phasing of the Ecousha-TA, to
 have the 3 **chambers** opened and the Aquafereion Shield is linked with the Urtha
 the HarA-Krysta **Chambers** flows and then bring it back down into our body.

Page: 426

 align with this **chamber**, cause even though our bodies move, that chamber, the HarA-
 bodies move, that **chamber**, the HarA-Krysta chamber stays vertical. So, when we lay
 the HarA-Krysta **chamber** stays vertical. So, when we lay down, we put ourselves
 alignment with that **chamber**. And that is the chamber that's needed to clear and
 that is the **chamber** that's needed to clear and transmute the goop that this
 the HarA-Krysta **Chamber**, the one that's vertical now because the body is lying
 the HarA-Krysta **Chamber** to purge and burn off- talk about burning off your

 the full HarAKrysta **chamber** to open. Without that, it was always a risk to

 about the Allurean **Chambers**, that's what we are referring to Now, one Vector Line
 has 2 Allurean **Chambers**. For instance, in the Cosmic Level they've said our system
 the 10 Allurean **Chambers** are the ones that we are in, in the Cosmic

 Rod and the **Chambers**. The Staff is still coming out north and south except
 natural KaLE-Hara **Chamber** and Rod are. They still are there. They interface here

 the rear KaLE **Chamber**, but it's called Zero front of the planet type thing,

 the twisted KaLE **Chamber**. The problem with these isn't so much as just like,

 the 12 Allurean **Chambers** of the ELum-Eiradhona Body. It gets really complicated trying

Page: 84

 there's also the **Chambers** that run forward that's the projection into the future and
 then the Bhardoah **Chamber** that runs out the back. Ok, so it's energy moving
 front and back **Chambers** aligned front and back, and you should have the Rod
 have the Rod **Chambers** aligned East and West or left and right. The Chambers,
 and right. The **Chambers**, these would be the Chambers ... if you took that
 would be the **Chambers** ... if you took that sphere and flattened it out,
 front to back **chamber** and you'd have the side-to-side chamber. One side
 side-to-side **chamber**. One side would be East, one side would be west,

Page: 85

 the Rods and **Chambers** and in the Solar Fields, because the Sun has sets
 of Rods and **Chambers** like these too And that has to do with misalignments

Page: 86

 the true front **chamber**, and that should have energy coming in and projecting outward
 the true rear **chamber**. That's the Bhardoah Chamber. And the Bhardoah Chamber would actually
 That's the Bhardoah **Chamber**. And the Bhardoah Chamber would actually open up like this

 the true rear **chamber**, so that's actually our Bhardoah Chamber, the one that goes
 actually our Bhardoah **Chamber**, the one that goes out the back. They're calling this

 The actually rear **chamber** is at 22 degrees West, and Greenwich is the false
 of the true **chambers** ... there's the true rear chamber and the true front
 the true rear **chamber** and the true front chamber ... it will hold them,
 the true front **chamber** ... it will hold them, all right, so they can't

Page: 91

 you know, one **chamber** going out the back, one chamber coming out the front,
 the back, one **chamber** coming out the front, and you'd have the Kathara Grid

Page: 92

 ... that's a **chamber** isn't it! yeah ... yes, true rear, that's the natural Bhardoah
 the natural Bhardoah **Chamber**. This is the false front one. So this is, there

Page: 93

 to use Ascension **Chambers** because it will plug in the network through them. So

Page: 97

 that's our Bhardoah **Chamber** isn't it! yeah, that's our natural Bhardoah Chamber. So it runs
 our natural Bhardoah **Chamber**. So it runs down the natural Bhardoah Chamber. It will
 the natural Bhardoah **Chamber**. It will actually stop this guy from spinning, or it

Page: 99

 ... the Solar **Chamber**. And that connects back into the Galactic Chamber. So we'll
 into the Galactic **Chamber**. So we'll look at more of what that is and

Page: 107

 filling the whole **chamber**. So we're being surrounded by this beautiful cone of pale

Page: 123

 you, the Allurean **Chamber** lines. And imagine like a big sunrays, 12 sunrays, around

Page: 146

 both the Allurean **Chambers** and the Fire Chambers. So, release a 24-point exhale
 and the Fire **Chambers**. So, release a 24-point exhale breath outward from the

 the 12 Fire **Chambers**. So, on that exhale, the Pale Rainbow Metallic Light is
