 there, from the **Ecka** realms, you have a chance to decide whether to want

 problems in our **Ecka/V** eca system - this whole Ecka/V eca system

 - this whole **Ecka/V** eca system is actually falling into black hole status

 host from their **Eckasha** system far far away, down through the Andromeda 9 and  
 creation of the **Ecka** maps of the God world gates, which is the outer  
 quickly, in the **Ecka** maps, we have four V eca quadrants, one Ecka core  
 eca quadrants, one **Ecka** core system. They exist within a larger structure that's called  
 that's called an **Eckasha** system. The Eckasha has larger stargates. These are off the  
 Eckasha system. The **Eckasha** has larger stargates. These are off the charts as far  
 go with the **Eckasha** level. Then there's a larger structure that this is part  
 you have four **Eckashas**, each with their Ecka/V eca system inside. You have  
 each with their **Ecka/V eca** system inside. You have four Eckashas, and this  
 You have four **Eckashas**, and this is called the EckashaA. Here we have four  
 is called the **EckashaA**. Here we have four EckashaA that form the external body  
 we have four **EckashaA** that form the external body of Source. It is called  
 is called the **EckashaAah**, and collectively, when you see it with its parallel, it  
 you took the **EckashaAah** body, and made another set of points this way, there's  
 about our Parallel **Ecka**- there is a Parallel Ecka, a parallel levelit is literally  
 is a Parallel **Ecka**, a parallel levelit is literally ... if you could look  
 particle spin. The **EckashaAah** Krist body, the level of the Stairway to Heaven, holds  
 holds the four **EckashaA**, and each of the four Eckashas and each of the  
 of the four **Eckashas** and each of the V eca/Ecka sets within them.

 the V eca/**Ecka** sets within them. So we're way down here in one

 would be our **Eckasha** level. This would be our EckashaA. This would be our

 has its own **Ecka/V** eca system, just like we have our own Ecka/  
 have our own **Ecka/V** eca system. It's in the parallel Eckasha that the entire  
 in the parallel **Eckasha** that the entire Ecka/V eca system fell. This occurred  
 that the entire **Ecka/V** eca system fell. This occurred 950 billion years ago

 raided their own **Ecka**, they took down their Ecka, not just the V eca  
 took down their **Ecka**, not just the V eca system. They had spliced from  
 spliced from their **Ecka** into their Parallel Ecka, which was our Ecka, over here.  
 into their Parallel **Ecka**, which was our Ecka, over here. So, if anyone had  
 which was our **Ecka**, over here. So, if anyone had tried to re-quarantine

 support of the **EckashaAah** races all the way up the chain as far as

 falling. Cause our **Ecka** is also falling. So, basically, after 450 billion years of

 this is the **Eckasha** part. It's not just the Eca/V eca level. It's

 not just the **Ecka**/V eca level. It's the Eckasha level of their system

Page: 62

 this was the **EckashaAah** of the Eukatharista body. Now we're building up to a  
 the outer Eukatharista **EckashaAah** body for the EtorA. This one would be the same  
 creation of the **Ecka** maps of the God World Gates that start with the  
 which is the **Eckasha** Aah level, inside of which you have all these small  
 inside of our **Eckasha**. So this is the process from the first partiki all

 Power on the **EckashaAah** body. The Pillar of Power is also known as the

 is how the **Ecka** Maps of the God World Gates were created from the

 all have their **Ecka** levels - then there is birth of the middle seed  
 have the outer **Ecka** maps that we've been looking at. And that would be

 we're doing three **Eckasha** levels now plus two Hubs - I don't think my

 you have the **Eckashi** Expansion Cycles on the EtorA side; we're in the EtorA

 "Jesus Code" **Eckashi** Expansion. And when it's time for that to contract back

 are called the **Eckashi** Return Cycles. So, there's this immense process. There's also a

 where there, the **Eckashi** Expansion, going in to the EtorA side. Um, on the

Page: 114

 which is the **Ecka** maps of the God World gates, and all of those

 have the four **Eckasha**-A inside of the Light Body Structure of the Eckasha-  
 Structure of the **Eckasha**-Aahs would birth. And then you would have their Key  
 Monad and the **Eckashas**. And there's actually 24 Eckasha God Seeds, where you have  
 there's actually 24 **Eckasha** God Seeds, where you have 4 of the Eckasha-A,  
 4 of the **Eckasha**-A, and each of them get a set of 4  
 plus 2 (**Eckas**) at the center of the Eckashas. And it ends up with  
 the center of the **Eckashas**. And it ends up with 16 outside and 8 inside  
 .. on the **Ecka** Maps you could only see 16 of them. And the  
 centers of the **Eckasha**-A's-that's why we couldn't see them. So you have  
 Monad and the **Eckashas** birthing, and then they have their Phase Cycles. Then you  
 goes with the **Ecka**-Vecas. So in all of the Eckashas, this is where  
 all of the **Eckashas**, this is where the Ecka-Vecas are born. And you  
 is where the **Ecka**-Vecas are born. And you have 4 Vecas and 2

 in our parallel **Eckasha**. And at this point the Aquari and neighboring Eckashas were  
 Aquari and neighboring **Eckashas** were not turning a blind eye to this, they were

 **Eckasha**"s still fine, but its EckaNeca System is basically trashed. It

 fine, but its **EckaNeca** System is basically trashed. It is Black hole and it

 tap into our **Ecka** to infiltrate our system in order to eat it. Because

 was our parallel **Eckasha**, an EckaNeca System in our Parallel Eckasha. We were the

 parallel Eckasha, an **EckaNeca** System in our Parallel Eckasha. We were the closest thing

 in our Parallel **Eckasha**. We were the closest thing over here in our Eckasha

 here in our **Eckasha** for them to go after, because we were a Density  
 called the WEsaLA **Eckasha**. That is where the WEsaLA Matrix is. The WEsaLA Matrix,  
 was, a Kristiac **Eckasha** Matrix, and the EckaNeca System was Kristiac. Now, the WEsaLA  
 Matrix, and the **EckaNeca** System was Kristiac. Now, the WEsaLA is not fully fallen  
 considered our Adjacent **Eckasha** so we're over here and that's our Adjacent Eckasha. It's  
 that's our Adjacent **Eckasha**. It's actually in a different Eckasha-A Spectra so here's  
 in a different **Eckasha**-A Spectra so here's our Spectra; there's their spectra. This  
 but their whole **EckaNeca** System and the WEsaLA Ecka isn't fallen So they have  
 and the WEsaLA **Ecka** isn't fallen So they have 2 fallen black hole systems,  
 Parallel to Adjacent **Eckasha**, right? So that's their Eckasha; that's their Parallel Eckasha. This  
 So that's their **Eckasha**; that's their Parallel Eckasha. This is the Aquious Matrix. They  
 that's their Parallel **Eckasha**. This is the Aquious Matrix. They are Fully Kristiac and  
 spliced into our **Ecka** system 1st and then over into the Wesedrak system and  
 pierced our Universal **EckaNeca** System's E-Umbic Line, alright, that's in the history line  
 Matrix, but not **Eckasha** strength. It's only EckaNeca strength falling current-distorted,  
reversed current  
 strength. It's only **EckaNeca** strength falling current-distorted, reversed current And that's  
what they  
 it's not an **Eckasha** level. They don't run currents to the Eckasha level. They  
 currents to the **Eckasha** level. They can't because you can't make an Eckasha fall.  
 can't make an **Eckasha** fall. It will take everything in it back to space  
 generation before an **Eckasha** will fall. So what we have are, the Tri-Matrix  
 falling with our **EckaNeca** system, however, we're getting support now from the WEsaLA  
Councils  
 the Parallel Adjacent **Eckasha**-where the Full The MCEO Freedom Teachings® Series

 any of its **Ecka** or Veca system wiped out. So, it is from here  
 left in our **EckaNeca** system here are the The MCEO Freedom Teachings® Series

 is a 3 **Eckasha** stream. So, our Eckasha level, even though our EckaNeca system  
 stream. So, our **Eckasha** level, even though our EckaNeca system is in trouble, part  
 even though our **EckaNeca** system is in trouble, part of the AdorA system is  
 falling in their **EckaNeca** level and our Eckasha is not falling. So our Eckasha  
 level and our **Eckasha** is not falling. So our Eckasha still has a full  
 falling. So our **Eckasha** still has a full Eckasha strength current to run. So  
 has a full **Eckasha** strength current to run. So does WEsaLA Eckasha and so  
 So does WEsaLA **Eckasha** and so does Aquious Eckasha. So they are the three  
 so does Aquious **Eckasha**. So they are the three matrices that are forming the  
 that's when the **Ecka** Eieyani were seeded into the Ecka domains of this ElorA  
 seeded into the **Ecka** domains of this ElorA EckaNeca system. So, that's where we're  
 of this ElorA **EckaNeca** system. So, that's where we're starting this timeline. There's other  
 of our parallel **Eckasha**. This is where they witnessed an organic fall and implosion

 part of its **Ecka-Veca** fell and that is where we got the Wesedraks  
 has its Core **Ecka** but its Eckasha never fell So we have the WesaLA

 Kristiac in their **Eckasha** levels and we have our Matrix and they didn't give

 it is their **EckaVeca** and Eckasha system So without the Aquious Matrix we would  
 their EckaVeca and **Eckasha** system So without the Aquious Matrix we would not be

 adjacent to our **Eckasha**. So if you understand even just the basic structure of

 the Eukatharista Body's **Eckasha**-Aah level. You have the large Eckasha-Aah, inside of

 of the 4 **Eckashas** and an Ecka you have your 4 Veca Systems and

 configuration of the **Eckasha**-Aah Eukatharista Body that you will be able to see  
 see where our **Eckasha** is in relation to the Eckasha Matrix that is the  
 relation to the **Eckasha** Matrix that is the Aquious Matrix and the one that  
 is our Parallel **Eckasha** and the one that is the WesaLA Matrix. We go  
 we have our **EckashaA** and our Eckasha in here, this is the Eckasha-Aah,

 this is the **Eckasha**-Aah, here is our Eckasha-A and our Eckasha and

 in a different **Eckasha**-A we have this Eckasha that is the WesaLA Eckasha  
 we have this **Eckasha** that is the WesaLA Eckasha alright Now starting with there  
 is the WesaLA **Eckasha** alright Now starting with there when that information was first

 you have the **Eckasha**-Aah, you have the 4 Eckasha-A 1, 2, 3

 escape before the **Ecka** fell They were evaced here and that began a process  
 considered the Adjacent **Eckasha**. If we have our **Eckasha** here with our **Ecka Veca**  
 we have our **Eckasha** here with our **Ecka Veca** System in it, here is  
 here with our **Ecka Veca** System in it, here is our Parallel **Eckasha** at  
 is our Parallel **Eckasha** at 90°, over here in this other **Eckasha-A-** it  
 in this other **Eckasha-A-** it is considered the Adjacent System because it is  
 in a different **Eckasha-A** than ours and our Parallel So these are considered  
 Matrix, the Adjacent **Eckasha** and their Parallel over here is where the Aquious Matrix  
 3 Matrices-3 **Eckashas**-Krystal River Co-operative. And this was set in motion  
 of flows, 3 **Eckashas** Krystal Spiral, natural Kristiac Krystal Spiral frequencies blending  
together to  
 fact, their particular **Eckasha** Matrix is dedicated to full on Kristiac service to every  
 bones that the **Ecka** maps show us. Inside of **Ecka** maps there are more  
 us. Inside of **Ecka** maps there are more Kathara grids that if you have  
 you have the **Ecka** map representing the Outer Domains, then there are a set

---

Page: 433

 there is our **Eckasha** Matrix with its now Falling **Ecka-Veca** System. There is  
 its now Falling **Ecka-Veca** System. There is the Bourgha Fallen Matrix that was  
 considered our Parallel **Eckasha**, here is our Adjacent **Eckasha** and that is where the  
 is our Adjacent **Eckasha** and that is where the WesaLA Matrix is. They have  
 fallen and their **Ecka** is not fallen so there are still friends there. We  
 invincible ... its **Ecka-Veca** System is almost invincible because it has the open  
 there in the **Ecka-Veca** maps. Are there like certain ones that are like,  
 one of the **Eckashas** will always -it might be more, it might be  
 one in each **Eckasha-A** might have one white blood cell that will be

 We have our **Eckasha**. The Eckashas go in sets of four, so these are

 these are four **Eckashas** together. We would have ... just like we have our

 of those 3 **Eckasha** Matrices. So we are a part, and a very needed

 in the Parallel **Eckasha** Matrix, they are both fallen groups. Well the Wesedeks are

 this is the **Eckasha**-Aah I believe, yeah. And we've seen these in the

 Eukatharista maps, the **Ecka** maps of the God-World Gates. Everybody seen those? Good,

 This is our **Eckasha** system, Eckasha-A here and this is our Eckasha system

 our Eckasha system, **Eckasha**-A here and this is our Eckasha system here, this

 had in our **Ecka**-Veca system When we talk about the Krystal River cooperative

 about 3 different **Eckashas**. We are talking about the Kristiac Races of our Eckasha,

 Races of our **Eckasha**, the still remaining Kristiac Races of this Eckasha that is

 Races of this **Eckasha** that is called the Adjacent Eckasha. Now the Adjacent Eckasha

 called the Adjacent **Eckasha**. Now the Adjacent Eckasha is where the Wesa Matrices are.

 Now the Adjacent **Eckasha** is where the Wesa Matrices are. This Adjacent Eckasha was

 are. This Adjacent **Eckasha** was called the WesaLA Matrix. The Wesedraks and the Wesedeks  
 system but their **Ecka** did not fall So they still have viable Life fields  
 working from the **Eckasha** levels, and also the Eckka-Veca system in this Matrix,  
 and also the **Ecka-Veca** system in this Matrix, in their Lifefields primarily. Then  
 The Parallel Adjacent **Ecka-Veca** system, is Parallel to the Adjacent one, so they  
 the Parallel Adjacent **Eckasha**. This is the Aquareion Matrix. This Matrix has nothing fallen  
 rest of the **Eckashas** around them. So they are in that sense a fully  
 parts of our **Ecka-Veca** system that have the ability to anchor the An-

 from 3 different **Eckashas**. Not from this one, not from our Parallel, the Fallen  
 of our Parallel **Eckasha**, but from ours, our Eckasha level and our HUB"s and  
 from ours, our **Eckasha** level and our HUB"s and what is remaining there even  
 our Veca, or **Ecka-Veca** is falling. Again we"ll be in a similar situation  
 of the 3 **Eckashas** is ours, because you know we have most of the  
 just the 3 **Eckasha** levels. The 3 Eckasha levels but also going all the  
 levels. The 3 **Eckasha** levels but also going all the way in to the

 is that the **Ecka** Map of the God World Gates were taking us here,

 top of the **Eckasha-Aah**. Now, 2 Eckasha-Aah's would give you the Eukatharaista,

 Aah. Now, 2 **Eckasha-Aah**'s would give you the Eukatharaista, the full Eukatharaista. So

 Eukatharaista. So you're **Eckasha-Aah** ... inside of 1 Eckasha-Aah you have the

 are the 4 **Eckashi** cycles. You have the Ra LA Eyugha, the Aah-LA

 These are the **Eckashi** Cycles moving outward in expansion. Let's see ... anything more

 from the last **Eckashi** cycle to the turnaround. And this is the turnaround that

Page: 364

 what's called an **Eckashi** Expansion moving CW outward which implies a Back Current, like  
 studied in the **Ecka** maps of the God World Gates, before you get there.

 think of the **Ecka** Maps of the God-World Gates, that big thing at

 this is the **Eckasha-Aah** and it has its 4 Eckasha-A and inside

 of the 4 **Eckasha-A** there are 4 Eckashas, and inside each of the

 each of the **Eckashas** there are 4 Veca"s forming an Ecka-Veca System. And  
 Veca"s forming an **Ecka-Veca** System. And what is really interesting, it"s even more  
 get the 24 **Eckasha** God Seeds that long ago they talked about. And I  
 This is an **Eckasha-A**, so these would be 4 Eckashas, that implies there  
 would be 4 **Eckashas**, that implies there is 2 more at the center in-

 we have the **Eckasha**-Aah with its four **Eckasha-A**, and inside of each

 with its four **Eckasha-A**, and inside of each of the four **Eckasha-A**

 of the four **Eckasha-A** there are four **Eckashas**, and inside the **Eckashas** are

 there are four **Eckashas**, and inside the **Eckashas** are their **EckaNeca** systems In understanding

 and inside the **Eckashas** are their **EckaNeca** systems In understanding that as a map,

 **Eckashas** are their **EckaNeca** systems In understanding that as a map, we can go

 This is an **Eckasha**-Aah map. This is showing our location in relation to

 location in our **Eckasha**. This is the **Eckasha-A** that we're a part of.

 This is the **Eckasha-A** that we're a part of. Here is our **Eckasha**

 Here is our **Eckasha** here. Down in here is our **EckaNeca** system. This, here,

 here is our **EckaNeca** system. This, here, is our **Veca**. So, we are located

 is our parallel **Eckasha**. Inside of that parallel **Eckasha** there is an **EckaNeca** system,

 of that parallel **Eckasha** there is an **EckaNeca** system, and a very long time

 there is an **EckaNeca** system, and a very long time ago the beings from

 core of our **Ecka**. This began a very large problem for the life fields

 manifest in our **EckaNeca** system It was at this point of the fall ...

 fall ... their **Eckasha** didn't fall, cause **Eckashas** can't fall black hole status, but

 didn't fall, cause **Eckashas** can't fall black hole status, but the **Veca** systems within

 can, and the **Ecka** within them can. The **EckaNeca** system of what is called

 them can. The **EckaNeca** system of what is called the **Bourgha** matrix did fall,

 technology into our **Ecka** system And this is where the whole problem began. And

 here in this **Eckasha-A**, all right This is a different **Eckasha-A** over

 is a different **Eckasha-A** over here. This over here, we've heard about before,

 called an adjacent **Eckasha** matrix. It's adjacent because it's in a different **Eckasha-A**.

 in a different **Eckasha-A**. This is called the **WEsala** matrix- the **WEsala** matrix

 fall, but its **Eckasha** is fine and **Kristiac**. The **WEsala** races are the ones

 the parallel adjacent **Eckasha**. So, it's the parallel adjacent.. this is the adjacent **Eckasha**,

 is the adjacent **Eckasha**, and this is its parallel. So, the parallel adjacent **Eckasha**

 the parallel adjacent **Eckasha** ... these are a completely **Kristiac** domain. They have nothing

 fall of these **EckaNecas** and these **EckaNecas**, and if it couldn't be prevented, they

 EckaNecas and these **EckaNecas**, and if it couldn't be prevented, they would at least

 in the Adjacent **Eckasha** Systems -it's not even in our Eckasha, connects through

 even in our **Eckasha**, connects through the Arimathaea Wormhole into the centre of the

 here in our **Eckasha**. Over here in this different Eckasha, in this literally different

 in this different **Eckasha**, in this literally different Eckasha-A, in this Eckasha, there

 this literally different **Eckasha-A**, in this Eckasha, there is a system called the

 A, in this **Eckasha**, there is a system called the Wesa system This is

 connect into the **Ecka** center, etcetera So, these would be the 12 Primary Star

 for the particular **Ecka**-Veca system that we're in. So these diagrams not only

---

Page: 16

 know in the **Ecka** maps of the God-world gates, we know where our  
 of its little **Eckasha**, inside of its Eckasha-A, etcetera We can get an  
 inside of its **Eckasha**-A, etcetera We can get an idea of where these  
 in our little **Ecka**-Veca System that we are in. I wanted to show

---

Page: 20

---

 the expansion, the **Eckashi** Expansion and the Adashi Return, then, after you go all  
 you begin the **Eckashi** Expansion in the next Vector. And it starts that way

---

Page: 21

 center, because our **Ecka**, which would be in the Light body level, our **Ecka**  
 body level, our **Ecka** is ... it's a sun called, a central sun, called  
 And, if the **Ecka** falls at the center ... let's say this was a  
 If the central **Ecka** is falling, it will take this with it unless a

---

Page: 22

---

 closer, is the **Ecka**-Veca map that pertains to our Eukatharaista body, our Light  
 referring to our **Eckasha**-A actually, all right And, in here there is a  
 would be the **Eckasha** level of ELum-Eiradhona. And, that would also have its  
 would be our **Ecka** center in the center of our Eckasha, in the larger  
 center of our **Eckasha**, in the larger Eckasha-A all right So, this is  
 in the larger **Eckasha**-A all right So, this is showing the relationship to

---

Page: 23

---

 This is our **Eckasha**-A and we are Eckasha-A, Spectra 3. This is  
 and we are **Eckasha**-A, Spectra 3. This is Spectra 3. We are Eckasha  
 3. We are **Eckasha** Corridor 4 ... this is the 4th little Eckasha inside  
 the 4th little **Eckasha** inside of that We are Veca-Quadrant 4, PCM, Veca-  
 terms of the **Ecka** -Veca maps and those kind of things. So, we  
 from which this **Ecka**-Veca system sprung, and that is called Pro-sEda. Pro-  
 but not their **Eckasha**. And, this is the Aquareion Matrix. This is where our

---

Page: 25

---

 in our little **Eckasha**-A, in the Eukatharaista Map, we were down here. The  
 literally a different **Eckasha**-A. And that there is a wormhole link that links

---

Page: 26

---

 here in the **Eckasha**-A, Eckasha-Aah, to ours over here. So, there's this  
 the Eckasha-A, **Eckasha**-Aah, to ours over here. So, there's this link between

---

Page: 27

---

 of the adjacent **Eckasha**-A. It's like over in the other Eckasha-A system  
 in the other **Eckasha**-A system But they plug in directly. They plug in

---

Page: 41

---

 here in the **Ecka**-Veca Maps. This is our little Eckasha-A, Eckasha and  
 is our little **Eckasha**-A, Eckasha and that's our little Veca here. This is  
 little Eckasha-A, **Eckasha** and that's our little Veca here. This is showing you

---

Page: 42

---

 go through the **Eckashi**-1, Eckashi-2, Eckashi-3 and back to center This  
 the Eckashi-1, **Eckashi**-2, Eckashi-3 and back to center This is a  
 1, Eckashi-2, **Eckashi**-3 and back to center This is a process that  
 back on the **Eckashi** Return on the other side. So there are names for

---

Page: 44

---

 I forget, the **Eckashi**. The Eckashls are in the Eiros, right So during the  
 the Eckashi. The **Eckashls** are in the Eiros, right So during the KaLE-Hara

---

Page: 65

---

 in our Parallel **Eckasha**, that it fell, that it ended up falling and then  
 fall, so this **Ecka** level of them decided they were going to make it

 of like the **Eckasha** Level Karma or something, of where the 1st fall that

---

Page: 75

---

 plugs into our **Ecka** that would normally plug into our **Ecka**. So, this one,  
 plug into our **Ecka**. So, this one, on this natural vertical axis, is actually

---

Page: 76

---

 in the adjacent **EckashaA** Spectra. Alright? We saw those on the maps before So,

---

Page: 80

---

 located, where our **EckashaAah** is located. So, this is just telling you about those.

---

Page: 82

---

 then into the **Eckashi** Cycles that come outward, you know, that move you outward

---

Page: 101

---

 us how our **EckaVeca** System-or not our **Ecka-Veca** System but our full,  
 or not our **Ecka-Veca** System but our full, the top of our Stairway  
 had in the **Ecka-Veca** maps of the God World Gates. And over here,  
 is on the **Ecka-Veca** maps-no, right over here, sorry. And that over

---

Page: 103

---

 see how the **Ecka-Veca** system-or not **Ecka-Veca**, but **Eukatharaista** system-fit  
 system-or not **Ecka-Veca**, but **Eukatharaista** system-fit into the **ELumEiradhona** structure, so  
 just like the **Ecka** maps do, except they're cells within cells. They're like-here"s  
 are in our **Eckasha-A** level, the 4 **Eckasha-A**, and they would be  
 level, the 4 **Eckasha-A**, and they would be held in the Density level

---

Page: 104

---

 of the 4 **Eckasha** and everything in it So the 4th one out, the  
 contain from the **Eckasha-A** level, not **Aah**, but **A** level down. The **D-**  
 contain from the **Eckasha** down, and the **D1** level would contain from the **Ecka-**  
 contain from the **Ecka-Veca** memory, the **Quadrants** memory. So your **Memory Matrix** is  
 got your 4 **Eckasha-A** here, this is one **Eckasha-A** grid. That would  
 this is one **Eckasha-A** grid. That would be the **Rajhna Flame** of the  
 **Flame** of the **Eckasha-A**, so you would have two **Rajhna Flames**, there and

---

Page: 105

---

 looking at the **Eckashi** Cycles, the outgoing. These would be the **Return**. These are

---

Page: 107

---

 hand into the **Eckasha**-A Rajhna Flames and taking a handful of it, because

---

Page: 108

---

 Flame on the **Eckasha**-A level. Now, the Center Flame on the Eckasha A

 Flame on the **Eckasha** A level is the Addondra 360. I don't know what

---

Page: 149

---

 here in our **Ecka**, they had AdonA. And just like we had our Founders

---

Page: 150

---

 you're like an **Ecka** Level person and it starts to be a massive drama

 that involves an **Eckasha**, you need to hand it over to the Eckasha people,

 over to the **Eckasha** people, you know, where they know the bigger mechanics. Just

 AdonA were their **Ecka** equivalent of our EyanA. So, just so you know who

---

Page: 152

---

 up through the **Ecka**. So, it opens the whole thing. And the LUma-Eterna,

---

Page: 165

---

 in the other **Eckasha**-Aah system They would have to pull that line because

---

Page: 176

---

 Core of our **Ecka** but in the HUB level. We talked about the Flame

 terms of our **Ecka**. Like we're in the PCM Veca, we had our Parallel

---

Page: 177

---

 center, that's the **Ecka**. Well we'll be going there but we're going into the

 because the Outer **Eckas** are falling up in that area. But we're going to

 through the KaLA **Ecka** HUB- and this is where we're going to meet the

 somewhere in the **Ecka** HUBs is where this meeting place is. And that's where

 us into the **Eckasha** level. Now we're just dealing with the Eckasha-Veca level

 dealing with the **Ecka**-Veca level down here. They're going to jump us up

 up to the **Eckasha** level Dot-Matrix Field which is looking at our Infrasound

 exists within the **Eckasha** Gha-Fa's. So we'll be calling our dots to ourselves.

---

Page: 178

 Veca Maps, our **Ecka**-Veca System, it would be in the Ecka center point

 be in the **Ecka** center point but deeper in the HUB layers. So you're

 level of the **Ecka**. So this time we're pushing up to move down, OK.

 spot underneath the **Ecka** but not quite where we're aiming for yet and it's

 and into the **Eckasha** Level Dot-Matrix Field which is the side you can

 it its four **Eckasha-A**: one, two, three, four. And each ofthe Eckasha-As  
 And each ofthe **Eckasha-As** have their four Eckasha Systems. And, actually, there"s two

 And, each ofthe **Eckasha** Systems has its four Veca Quadrants, alright? So, in this  
 So, in the **Ecka** Veca Maps, we had learned a while back, that our  
 PCM Veca is **Eckasha-A** Spectra 3. So, the Eckasha-A things are called

 in Spectra 3, **Eckasha** Corridor 4. So, the Eckasha things are called Corridors. And

 even within the **Ecka** structures; but they don't tend to go up and beyond

 that into the **Eckasha** levels or other levels of consciousness and structures that deal

 part of the **Eckasha** teams, they call them the Ma-Sha"-Yah-Ha"-Na.

 start with the **Eckasha**-Aah level, that we talked about in the Ecka Maps

 about in the **Ecka** Maps of the God World Gates. And we moved in

 Sarasota from the **Eckasha**-Aah to the Eckasha-A to the Eckasha, and to

 Aah to the **Eckasha**-A to the Eckasha, and to the Veca levels, and

 A to the **Eckasha**, and to the Veca levels, and we left it at

 levels from the **EckashaAah** down to the Veca system, in the Sarasota workshop. We

---

 us of the **Ecka** Maps of the God World Gates, and this is the

 is the full **EckashaAah**. And down here is our location in our Eckasha system,

 location in our **Eckasha** system, with our four-at the time they only talked

 gave us the **Ecka** Maps of the God World Gates, just to keep things

 Vecas in every **Eckasha**. Because wherever you see four, it implies two more sets

 would be our **Ecka** at the center We have our Parallel system here, our

 in the Adjacent **Eckasha**-A, we had the Wese Black Hole systems over here.

 in our own **Eckasha**, but there is actually a set of twelve of them.

of them. The **Eckasha** itself would be considered a multiverse. And, a cosmos is

- 📌 plug into our **Ecka**, and our **Veca**, and this would be our natural PCM
  - 📌 which is the **Ecka** Map of the God World Gates, and there we are
  - 📌 is our Parallel **Eckasha**, where the fallen Bourgha Black Hole system is. This is
  - 📌 between, what the **Ecka** maps are part of what's called the Light Body structure,
  - 📌 would be our **Eckasha-A**. There's actually-the **Eckasha-Aah** is here, and we
  - 📌 There's actually-the **Eckasha-Aah** is here, and we always said that then there
  - 📌 there are four **EckashaA**. Well, actually there are twelve **Eckasha-A** for every place
  - 📌 there are twelve **Eckasha-A** for every place we've said there were four This
  - 📌 is called an **Eckasha-1**, alright, the big one. And when we've talked about
  - 📌 we've talked about **Eckasha-A**'s, they didn't even talk about this structure, because it
- 

Page: 42

---

- 📌 So, here's our **Eckasha-A**, and here's our **Eckasha-Aah**. What we have down
- 📌 and here's our **Eckasha-Aah**. What we have down here-there are specific numbers
- 📌 this is our **Eckasha-A**, and this would be eleven other **Eckasha-A**'s that

- 📌 are eleven other **Eckashas**. One of them that would be at a 45- degree
- 📌 Parallel. Inside our **Eckasha**, there would be four **Vecas**, and those **Veca** PCMs, one
- 📌 right on the **Ecka** maps in the right positions. I thought that was hard
- 📌 were in the **Ecka** maps, we can tell where they are in relation to
- 📌 we have the **Eckasha-1**, and this **Eckasha-1 # 4**- it was called

- 📌 it was called **Eckasha-Aah #4**, because they hadn't talked about **Eckasha-I**'s
- 📌 hadn't talked about **Eckasha-I**'s yet. But it is **Eckasha-1**, or **Eckasha-Aah**,
- 📌 But it is **Eckasha-1**, or **Eckasha-Aah**, the big one, #4. It
- 📌 **Eckasha-1**, or **Eckasha-Aah**, the big one, #4. It has to do

 Here we have **Eckasha-A #12**, so you have the top number would  
 get to the **Eckasha** number, that was # 11, I believe. Then we get to  
 5 within the **Eckasha**. That is how the structure works. Over here now, if  
 where on the **Ecka** maps our Parallel Veca system was. That would be Veca-  
 look at our **Eckasha** level, this is our Eckasha here, our Eckasha-11. And  
 this is our **Eckasha** here, our Eckasha-11. And up here, I believe it's  
 Eckasha here, our **Eckasha-11**. And up here, I believe it's Eckasha-8, is  
 I believe it's **Eckasha-8**, is our Parallel Eckasha, and that is the one  
 is our Parallel **Eckasha**, and that is the one that holds this completely fallen  
 Hole system Now, **Eckashas** can't fall, but the **EckaNeca** systems within them can. That  
 fall, but the **EckaNeca** systems within them can. That is what is occurring in  
 that's in our **Eckasha-1** structure, all the way over into the Adjacent system  
 pattern in the **Ecka** maps, it implies The MCEO Freedom Teachings® Series Presented

 This is the **Eckasha-A**. So it's not showing the whole huge structure with  
 structure with the **Ecka** maps in them anymore. It's taking into the Probability map  
 built on the **Ecka** map structure It's actually vice versa. This actually comes first,  
 first, and the **Ecka** maps that are the Light Body structures form upon and  
 We have our **Eckasha-A**. This would be our Eckasha-A. And that's Probability-  
 would be our **Eckasha-A**. And that's Probability- 12. Our Eckasha is, I believe,  
 Probability- 12. Our **Eckasha** is, I believe, Eckasha-11. And there's our Veca-5.  
 is, I believe, **Eckasha-11**. And there's our Veca-5. There's a Parallel Veca  
 There's the Parallel **Eckasha**, Bourgha Black Hole system So, this isn't showing the other

 the Bourgha Parallel **Eckasha** Black Hole system passing through into our Eckasha, right? Not  
 through into our **Eckasha**, right? Not into our Eckasha, but into our Parallel Veca,  
 Not into our **Eckasha**, but into our Parallel Veca, and not into Veca-5,  
 would be our **Ecka**, alright, our **Ecka** Core that we've talked about, in the  
 **Ecka**, alright, our **Ecka** Core that we've talked about, in the center of our  
 center of our **Eckasha**. So, we'd have an **Ecka** and our Veca. There would  
 we'd have an **Ecka** and our Veca. There would be a Veca Core. Now  
 this is our **Eckasha**. Well, this is our Eckasha here, so it's taking this  
 this is our **Eckasha** here, so it's taking this section only and enlarging it,  
 this is the **Eckasha**, right? And there are twelve lines, 12 Allurean Chambers, inside

 Chambers, inside the **Eckasha**, that lead to that central point, and each one of  
 from this, the **Eckasha-A**, the Eckashas would birth, so their 12"s would

 would be the **Ecka** set of gates And then each of these, metagalaxies, would  
 would be the **Ecka** Core. Actually, no, this is the Veca Core. The Ecka  
 Veca Core. The **Ecka** Core -1 have to go back to the other  
 have the, actually **Ecka** Core there. I think I am saying that right. Am  
 we have an **Ecka** Core, this would be the Core of a Veca, and  
 would be the **Ecka**, where you have the twelve Eckas coming together. So, we're  
 have the twelve **Eckas** coming together. So, we're dealing with twelve metagalaxies coming  
together  
 you'd have the **Ecka** Core at the center There"s where I tripped over myself  
 actually from the **Eckasha** that we don"t see, to one Veca, and within one

 be the Parallel **Eckasha**. So, you got your-this is our Parallel Veca and  
 and that"s Parallel **Eckasha**, and that is the Bourgha Black Hole interface So, you

---

Page: 53

---

 this is the **Ecka** Core I talked about. Before we had the Veca Core  
 center of the **Eckasha**, which is the Ecka. So, that would be our Ecka  
 which is the **Ecka**. So, that would be our Ecka at the center of  
 would be our **Ecka** at the center of all the Vecas, in our Eckasha.  
 Vecas, in our **Eckasha**. And behind here, right here-I"m just showing how these

 back to the **Ecka**. So, there's all these gate offsets here, and what we

Page: 56

 lost That's our **Ecka**. It's our Ecka, sorry. The center of our Veca-5

 Ecka. It's our **Ecka**, sorry. The center of our Veca-5 would be here.

 at least the **Eckasha** level. Now, we've been talking about the structure of Probabilities

 way from the **Eckasha**-Aah on down, all the way through. The Milky Way

 information from its **Ecka**-the Core of its Veca, whole Veca System-the Ecka.

 transmissions from the **Ecka** and beyond-come through into M31, and the other part

---

Page: 65

 was where the **Ecka** Core was, right? That would be coming off .. up

 coming from the **Ecka**. Would be right, here. The sphere that's here. That would

---

Page: 67

 up with the **Ecka**, and that should be over here actually, in the other

---

Page: 69

 frequencies from the **Ecka** and stuff like that, that have been shut down because

---

Page: 70

 coming from the **Ecka**, frequency would flow in, and it would go out that

---

Page: 71

 starting with the **Ecka**. It comes in, loops around, comes back down. At the

 this is the **Ecka** line, and coming straight through this should be number ...

 flow from the **Ecka** should be coming in from the back. The left rear.

 connection to the **Eckasha**-Aah. There is a long time between now and when

 presentation involving the **EckashaAah**, the Eckasha-A, the Eckasha, and the Vecas, OK. So

 the EckashaAah, the **Eckasha**-A, the Eckasha, and the Vecas, OK. So this is

 Eckasha-A, the **Eckasha**, and the Vecas, OK. So this is just to remind

 you and the **Eckasha**-Aah, the significance of what we're doing in the Sarasota

 Galaxy within the **Ecka** Universe-5, and this was our M-31 system, which

 into the massive **Eckasha** ... the whole Eckasha had fallen- the Eckasha didn't fall

 ... the whole **Eckasha** had fallen- the Eckasha didn't fall but the whole Ecka-

 had fallen- the **Eckasha** didn't fall but the whole Ecka-Veca system in it

 but the whole **Ecka**-Veca system in it did- in the Bourgha set. So

 quantum from our **Ecka**-Veca system where the whole thing fell So we actually

Page: 113

 center of our **Ecka**. That would be our Ecka Center, and these are our

 would be our **Ecka** Center, and these are our Veca Centers, but that's our

 but that's our **Ecka** Center, and then here, if you go all the way

 connection into the **Eckasha**-11, and that takes you up to the Eckasha-A

 up to the **Eckasha**-A 12, and the different stack that we have. So

---

Page: 115

---

 up to our **Eckasha**-Aah level. But then they also go over into the

 in an Adjacent **Eckasha**-A. So those Codes were actually given to make a

center of the **Eckasha-A** into the Eckasha, it would come into the Ecka

 A into the **Eckasha**, it would come into the Ecka Center and than it

 come into the **Ecka** Center and than it can run here. And I will

---

Page: 119

 looking at the **Ecka** map of the God-World Gates, and we're looking at

 inside of this **Eckasha** so we're building ... this is going up all the

 coordinates within the **Eckasha-Aah** over here, which is our Adjacent Eckasha-Aah. This

 is our Adjacent **Eckasha-Aah**. This is where the Aquareion Matrix is, the ones

 is this our **Eckasha-A**, yeah, through our Eckasha-A Core or Eckasha-A-

 yeah, through our **Eckasha-A** Core or Eckasha-A-12 then into Eckasha-11,

 A Core or **Eckasha-A-12** then into Eckasha-11, through the Eckasha-11

 12 then into **Eckasha-11**, through the Eckasha-11 Core and then directly into

 11, through the **Eckasha-11** Core and then directly into the center Sorry, this

 this is the **Eckasha**, this is our Eckasha and these are the Vecas. I

 this is our **Eckasha** and these are the Vecas. I missed a step in

 center of our **Eckasha**, our Ecka Center. And from here, it will create a

 our Eckasha, our **Ecka** Center. And from here, it will create a triangulation that

---

Page: 120

---

 to enter our **Eckasha-A**, and our Eckasha Core, and into our Veca Cores;

 A, and our **Eckasha** Core, and into our Veca Cores; you'll see where it

---

Page: 121

---

 like a little **Eckasha** looping around us from the Aquareion Matrix. It will come

 come through our **Eckasha-A**, which is Eckasha-A-12, and it would come

 A, which is **Eckasha-A-12**, and it would come down through Veca-12line

 Veca-12line into **Eckasha-11** Center. And, from there it would ride through, actually

---

Page: 122

---

 into the whole **Ecka-Eckasha** center Then there is a stage after that. We

---

Page: 130

 alignment for that **Ecka** point, and the circulations ... we've talked about those before

 relation to the **Ecka**, and that takes us out to the Eckasha, and the

 out to the **Eckasha**, and the Eckasha-A, and the Eckasha-1, and up

 Eckasha, and the **Eckasha-A**, and the Eckasha-1, and up into the Aquareion
