 is the 01 **etheric** Hibernation Zone. They are called the Gates of Iron. The

Page: 15

 made that fourth **etheric** spark. That's when it all kind of pulls in, does

Page: 16

 is our 01 **etheric** level, what level is our 02 chemical level that connects

Page: 19

 body, and your **etheric** body. So, if you want to reclaim any of your

Page: 35

 represent the atomic **etheric**, D2 is called the telluric atomic, or the atomic telluric.

Page: 63

 of those, like **etheric**, **ketheric**, keriatric. There's all sorts of names. Another reason the

Page: 69

 are others, like **etheric** matter I believe is 1!3 out in manifestation, 2/

 would give you **etheric**. **Ketheric** is a combination, where you have half of it

 connected to the **ketheric** energy to the etheric energy through the structure of the

 energy to the **etheric** energy through the structure of the Rasha body, but is

Page: 74

 in our D1 **etheric**, we call it The D11level is the Etheric-Atomic. The

 D11level is the **Etheric**-Atomic. The D21level is referred to as the Telluric-Atomic

Page: 76

 It is the **etheric** NET and it controls the template of the DNA which

 with the D1 **etheric** level. The second one is called the Intra-NET and

Page: 82

 would get the **etherics**, alright, where you get the little peoples and all of

Page: 84

 bodies and our **etheric** bodies, alright So this would be ... the Van Allen

 NET is an **etheric** NET that is controlling the Telluric template here, right, which

 by controlling the **Etheric** Body level It controls our Etheric template which is the

 It controls our **Etheric** template which is the DNA template on a bio level

 of the planetary **Etheric** Body. What we have below this NET zone ... so

 These would be **etheric** in nature because the D1 bands are primarily etheric type

 bands are primarily **etheric** type of energy, which has certain ... it's a certain

 different levels. What's **Etheric** versus Tell uric versus Atmic, etc All right, so going

Page: 85

 Urtha's D1 little **etheric** grid. And, that's where they interface That's how you can

Page: 88

 correspond to the **Etheric** NET, the D1 Etheric NET. The Gates of Rust correspond

 NET, the D1 **Etheric** NET. The Gates of Rust correspond to this one. That's

Page: 89

 That should be **Etheric** there. OK, it's EthericAtomic of Urtha. Then you have the

 there. OK, it's **EthericAtomic** of Urtha. Then you have the D2 physical level of

Page: 93

 This shows an **etheric** Machu Picchu because in the AdorA side there is a

Page: 112

 the d-1 **etheric**, the gates of rust of the d-2 Physical level

 running on the **etheric** levels and on the atmic levels-the d-3 Mental

 the d-1 **Etheric** Body. They are starting to meet in the middle, in

Page: 114

 and making an **Etheric** Spark then rotating down and making another Atmic Spark, then

 Spark, a 4th **Etheric** Spark ... and then, everything pulled in and the Tauren

Page: 128

 compared to "**etheric**" and those kind of things ... it was considered an

 encryption of "**etheric** " This gets into the Original Encryption versus the Reflection

 as an "**etheric**" encryption. And these are quantums of radiation, ok, quantified radiation.

Page: 129

 encryption of "**etheric**" and it came through, took its place, split and they

Page: 130

 be it "**etheric**," "telluric," "atmic" ... they all have different qualities

Page: 131

 that's called "**Ketheric Matter**" all right. It's part "atmic" and part "

 and part "**etheric** ." With the Replication of that quantum, when that crystallized

Page: 132

 that's called "**Etheric Matter** " This is the stuff that once we get

 as well. So **Etheric Matter** would have 1/3 of itself manifest and the

Page: 144

 the d-1 **Etheric**, pulls inside of it and leaves only a 1/3

 our d-1 **Etheric**, we would then have our Cousha Krystal. So it appears

 1 level, their **Etheric** Level is one step behind their Cousha Seed, so there

 called the real **Ketheric** Template, all right, as far as frequencies go. Because the

 Cousha is a **Ketheric** Structure, it is 1/2 in Manifestation and 1/2

 what's called "**Ketheric Energy**" It's 1/2 Etheric and 1/2 Atmic. So

 It's 1/2 **Etheric** and 1/2 Atmic. So we had the d-1

 level of our **Etheric** Body that corresponds with our DNA Template as well. Then

 our d-1 **Etheric**, our d-2 Telluric, our d-3 Atmic Layers and

 the d-1 **Etheric** level for the next one up. This is the Adashi

 level for the **Etheric** Level. And then we have the Cousha Krystal for that

 same configuration, the **Etheric** d-1 stands behind the Cousha, which was the original

 have the Ecousha **Etheric** d-1 for the next level out So we're progressively

Page: 147

 the d-1 **Etheric** frequency of this reality field and our Cousha. Here we

 our d-1 **Etheric** that corresponds with our DNA Template, right would actually be

 which is the **Ketheric** Template for the 3 Density Levels of the d1, 2,

 each of the **Etheric**, the d-1 Etheric, the d-2 and the d-

 the d-1 **Etheric**, the d-2 and the d-3. Now these here

Page: 148

 d-1, the **Etheric** ones ... on these little stars, that if your pupil's
 fast sometimes, like **Etheric** bodies do where you'll see it and then it's gone
 the d-1 **Etheric** level and that connects with the AI on joules in

Page: 149

 from d-1 **Etheric** are the blood Krystals, as far as I remember my

Page: 159

 link is an **etheric** tunnel that comes into the upper Hibernation Zone 1, known
 consciousness trapped in **Etheric** d-1, in Physical d-2 and in Atomic d-
 Oz" Hibernation Zone, **Etheric** d-1 upper, and we're going to move upward, and

Page: 208

 they call the **etheric**-atomic layer. On the D-2 we have what is

Page: 216

 is made of **etheric** matter So, they are all atomic. We have a correspondent
 the D-1 **etheric** layer, the D-2 telluric layer- that we see as
 dense than the **etheric**. So, these are just different states of matter that coexist

Page: 217

 would be an **etheric** Hibernation Zone. On the D-21 level, the level that we

Page: 232

 that's made of **etheric**-atomic matter is referred to as the DNA template. The

Page: 234

 get atomic and **etheric** sparks. Then it comes back down and it makes another
 one for the **etheric**, something happens and a convolution occurs and, because of the

Page: 235

 that one is **etheric**, and they rub together and at a certain point the

Page: 264

 1, or the **etheric** atomic. The 2nd one will form the D-2 or
 think it's the **etheric** at the next level up. I think that's how it
 the D-1 **etheric**, the D-2 which would be ... just remember the

Page: 279

 would be the **etheric** spark. So, we get the etheric sparks happening up here

 we get the **etheric** sparks happening up here and the atmic sparks happening down
 makes its first **etheric** spark, that spark goes back in as back flow, and
 spark of an **etheric** back flow return spark up here, and that would give

Page: 280

 out and one **etheric** spark, back flow return spark from Partiki two, and at
 which is an **etheric** backflow spark that hadn't come all the way in to
 spark of the **etheric**, come in and they become krystallized as a core krystal.

Page: 281

 4th back flow **etheric** spark is made, everything reaches a certain level of frequency

Page: 283

 referred to as **etheric** matter base, so that is the etheric matter base where
 that is the **etheric** matter base where you'd have 1/3rd manifest and 2/

Page: 284

 we talk about **etheric**, we usually end up with 01 etheric-atomic, 02 telluric-
 up with 01 **etheric**-atomic, 02 telluric-atomic. This is where this starts, where

Page: 321

 top of the **etheric** body. They will just kind of glitter there, as if

Page: 322

 the right palm **etheric** body until we get home, and what we've got to

Page: 364

 which is the **Etheric**-Atomic Template. So all along we've been working with Kathara

Page: 365

 would represent the **Etheric**-Atomic level just like our D-1, 2 and 3

Page: 370

 dimensional, some are **Etheric** in nature, some are Atmic in nature It is the
 and then the **Etheric** are even less dense than the Atmic. And it's funny

Page: 382

 one is considered **etheric** and Partiki1 is considered atmic. And this has to do

Page: 384

that creates the **etheric** field So you have Partikl2 splits, you have PKA and

 that is an **etheric** spark, that has the same quantum of 1 Partikl and

 Spark 2, the **etheric** one, and that splits Partikl1 again So now you got

Page: 385

 flow Spark 4 **etheric** getting ready to come back down in and go into

 sparks and one **etheric** that are already out, actually spasm and close real fast

 1, Spark 2 **etheric**, Spark 3 atmic-they were the backflow sparks left from

 that is the **etheric**, and one that is half and half The MCEO Freedom

Page: 386

 that is called **Ketheric** Matter. It is 1/2 Manifest and 1/2 Spirit

 and that forms **Ketheric** Matter. So this is a Ketheric Matter Krystal. And these

 this is a **Ketheric** Matter Krystal. And these each have a partial encryption of

Page: 387

 is called an **etheric** current or Etheric Matter. When you look at it this

 etheric current or **Etheric** Matter. When you look at it this way you have

Page: 388

 out of The **Etheric** Matter is what the D-1 matter is made out

Page: 394

 the atomic and **etheric** domain individuations through the 3 transfiguration points. So this- it

Page: 395

 2 and that's **Ketheric**. That's the Adonic Matter. You have the middle 2/3

 and you have **Etherics** going back there behind the Creation Point Door. And this

 Inner Domain, the **Ketheric**-Atomic. Over here you would have the Ketheric-Etheric which

 would have the **Ketheric-Etheric** which would be the Ketheric Template. It would be

 would be the **Ketheric** Template. It would be the Template Body that sets the

 have the Telluric-**Etheric**. So you have Telluric-Atomic, T elluric-Etheric. Over here

 Atomic, T elluric-**Etheric**. Over here you would have the Outer one the Atm

 is called Atmic-**Etheric** and this one has 0 in Manifestation and 3/3

 these other- they're **etheric** energy, frequencies here, the Eiradonis ones, they are going to

 a D1 level **Etheric** Body. Then we have a D2 level Telluric Body that

Page: 139

 where you have **Ketheric** energy that is ... it would be a sphere that

 If you have **Etheric**, one-third of it would be in the ManA and

 we talk about **Etheric**, when we talk about Ketheric, when we talk about Atmic

 we talk about **Ketheric**, when we talk about Atmic and those kinds of things,

 is made of **Etheric**, which means one-third in ManA and in manifestation, and

Page: 140

 be the 01 **Etheric** Body. That's two-thirds of it behind the line, and

 the proportions for **Etheric** energy. The next one is the 02 one, and these

 like the 01 **Etheric** and the 02 Telluric Body that's your physical one, then

 the line, the **Etheric**. Here's your 02 Telluric. And up here, in the third

Page: 143

 which is the **Etheric** Body. Usually there's only a third of the Etheric Body

 third of the **Etheric** Body out on this side and the other is on

 which is called **Ketheric** energy, which is normally at its base state half and

 half, with the **Etheric** energy-the Etheric, the Telluric and the Eiradonis. That would

 Etheric energy-the **Etheric**, the Telluric and the Eiradonis. That would be the first,

Page: 144

 energy and the **Etheric** Body energy, you get something called the Keriatic type of

 if you take **Ketheric** which is higher oscillation energy-It's not as dense as

 is taking the **Ketheric** energy and turning it into Atomic Kristiac energy. This is

 energy that is **Ketheric**, and part of the Etheric characteristics. So it de-densifies

- part of the **Etheric** characteristics. So it de-densifies by one-half So, when
- frequencies of the **Ketheric** and the Etheric and the Telluric to continually bond together
- Ketheric and the **Etheric** and the Telluric to continually bond together into Keriatic energy.

Page: 152

- would be our **Etheric** and our Telluric bodies "where it interfaces with the

 ... these are **Ketheric**. Notice each one of them has ... if you have,

 D-4 is **Etheric**, just like D-1, D-2 and D-3 is

 Atmic, and then **Ketheric** in between them-different kinds of energy. So, they are

 the Density 1 **Ketheric** field That would be the D-5 Tell uric field,
