 there are four **Eyugha** Cycles of expansion. Now, some people have heard the word  
 And it's actually **Eyugha** with an Eon the front before the Y. And you have  
 expansion cycles called **Eyughas** and then you have three what are called Adashi Cycles

---

Page: 22

 in the KaLE **Eyugha** cycle, the end cycle, and the options out are Starfire-

 is how the **Eyugha** structures of time cycles are formed, and this is how

---

Page: 88

 we have 4 **Eyughas**, and 3 Adashi Return Cycles, and all these anatomy parts

 bodies or our **Eyugha** Bodies form. We would have 4 Eyugha bodies, 1, 2,  
 would have 4 **Eyugha** bodies, 1, 2, 3, 4 expanding outward in the EtorA  
 the Ka-LA **Eyugha** point. A Ka-LA Eyugha point is ... each one  
 A Ka-LA **Eyugha** point is ... each one of these are a Eyugha  
 these are a **Eyugha** body and they each have a name. And the name  
 the Ka-LA **Eyugha**, that is the end cycle. And it is that point

 structures of the **Eyugha** cycles, which are the ones going out on the EtorA  
 of them, there's **Eyughas**, EyADAs, and ... what were the ones in Voyagers that

---

Page: 108

 to understand our **Eyugha** Bodies, where we have four ... These are called the  
 be the four **Eyugha** Bodies. These are each time cycle. Each one of these  
 have the four **Eyugha** Bodies, this one is the -what is it- the  

it- the RaLA **Eyugha**; this is the Aah-LA Eyugha; this is the Sha-

 the Aah-LA **Eyugha**; this is the Sha-LA Eyugha, and that is the  
 the Sha-LA **Eyugha**, and that is the Ka-LA Eyugha. And, that's where  
 the Ka-LA **Eyugha**. And, that's where the whole Mayan thing, with the Ka-  
 the Ka-LA **Eyugha**, and the whoever ... the Sanskrit stuff, I believe, were  
 the Ka-LA **Eyugha** and that kind of thing. They were ... had pieces  
 have the four **Eyugha** Bodies going out on the Copyright A "shavana &

 sets offours; the **Eyugas** and things in them. So, this is a very large

---

Page: 123

---

 the small the **Eyugha** Bodies that have to do with that and the point  
 the bodies; the **Eyugha** Bodies, and, actually, they're pointing it down this way, this

---

Page: 126

 of its little **Eyugha** Bodies and such ... .This is really large. And,  
 of those little **Eyugha** Bodies has a structure like this within it, and, each

---

 just like the **Eyugha** Bodies. And it has what are called Fire Chambers, which

the Sha-LA **Eyugha** Sun Cells, the Edon Suns, and again, this is the

 the Ka-LA **Eyugha** Sun Cell Radon Suns. And we're in the Ka-LA

 the Ka-LA **Eyugha** now because we're in the Outer Domain. This is the

 the Ka-LA **Eyugha**, they would naturally open and activate the frequencies of the

 SEda cycle, SEda **Eyugha** 1, then you have the, that is called by the  
 the Ra-LA **Eyugha**. Alright, you have then the inner domains cycle, the cycle  
 the Ah-LA **Eyugha**, not Allah, but it's Eyugha 2, the Ah-LA Eyughas,  
 Allah, but it's **Eyugha** 2, the Ah-LA Eyughas, alright. These have to do  
 the Ah-LA **Eyughas**, alright. These have to do with their closest to Alons  
 the Ah-LA **Eyughas** are the Alon Eyughas, the ShAion Eyughas and the KAion  
 are the Alon **Eyughas**, the ShAion Eyughas and the KAion Eyughas .... you have  
 Eyughas, the ShAion **Eyughas** and the KAion Eyughas .... you have the Ah-LA

 the Ah-LA **Eyughas**, the Sha-LA Eyughas and the Ka-LA Eyughas. This  
 the Sha-LA **Eyughas** and the Ka-LA Eyughas. This is what the Ka-  
 the Ka-LA **Eyughas**. This is what the Ka-LA Eyughas stuff was supposed  
 the Ka-LA **Eyughas** stuff was supposed to be about in the Hindu texts  

have the 4 **Eyughas** or expansion cycles. Those 4 together are called the Eckashi

 Alright? The 4 **Eyughas** which were the Ra-LA Eyugha, the Ah-LA Eyugha,

 alright, the 4th **Eyugha** and that has been talked about before with other New  
 our Ka-LA **Eyugha** cycle here. We should have had another, I forget what  
 a Ka-LA **Eyugha**, after that cycle of expansion is finished, there is a  
 of the 4 **Eyughas**, then you have the Kryst-Born Cycle or the Krystar

 had the 4 **Eyugha** Cycles coming out going back, you have what are called

 are called four **Eyugha** cycles. Some of us heard of Eyughas before and a  
 us heard of **Eyughas** before and a lot of people in the New Age  
 The Ka-LA **Eyugha**, the end time cycle. A Ka-LA Eyugha has to  
 A Ka-LA **Eyugha** has to do with RashaLAe body. Again, RashaLAe body has

---

Page: 11

 cycles, the four **Eyugha** cycles that create the core, the inner, the middle and  
 four cycles. The **Eyugha** cycles are referred to as the Eckashi expansion cycles, or

---

Page: 39

---

 to the fourth **Eyugha**, finish the fourth Eyugha, and then in a natural system,  
 finish the fourth **Eyugha**, and then in a natural system, that isn't falling, they

---

Page: 45

---

 and their evolutionary **Eyughas** or passage through the light body structure of the outer

---

Page: 49

---

 the Ka-LA-**Eyugha** in the outer cycle. You have to be able to

---

Page: 58

---

 of it The **Eyugha** cycles that we've mentioned- one for each of the domains,  
 the outer- those **Eyugha** cycles take place. They are the expansion cycles as consciousness  
 happens in the **Eyugha** cycles. At the end of every Eyugha cycle, there is  
 end of every **Eyugha** cycle, there is a Prana Exchange cycle, and that Prana

---

Page: 59

---

 of a regular **Eyugha** expansion cycle, which I believe the Eyughas expand out on  
 I believe the **Eyughas** expand out on the spiral thing; then there is this  
 that is the **Eyugha** cycle, the cycle of expansion and contraction that generates sparks  
 end of an **Eyugha** cycle, there is a NaVAHo Prana Exchange cycle, which is

 you're in your **Eyugha** cycle, it will contract into a certain point, be replicated,  
 of the Edon's **Eyugha**, birthed our Eyugha cycle. Actually it birthed our Tauren cycle,  
 Eyugha, birthed our **Eyugha** cycle. Actually it birthed our Tauren cycle, and that whole  
 got our outer **Eyugha** cycle. At the end of this Eyugha, the Ka-LA  
 end of this **Eyugha**, the Ka-LA Eyugha, a natural Kristiac exchange is the  
 the Ka-LA **Eyugha**, a natural Kristiac exchange is the NaVAHo cycle. This one's

---

Page: 61

---

 to the four **Eyugha** ones, and their NaVAHos. Then, there's also ShaTA cycles that

---

Page: 67

---

 Eckashi four outer **Eyugha** cycles, and the Adashi three return cycles. It is also

---

Page: 70

---

 layers do an **Eyugha** cycle, and that had an Eyugha cycle too the Eyugha  
 that had an **Eyugha** cycle too the Eyugha cycle comes after the Par-TE"-  
 cycle too the **Eyugha** cycle comes after the Par-TE"-KEi template you have  
 you have the **Eyugha** cycle that is the cycling through or the expansion/contraction  
 end of the **Eyugha**, the NaVAHo cycle. This one would birth the seed for  
 would do their **Eyugha** cycles and then you'd have another NaVAHo, which would give  
 these are considered **Eyugha** cycles. This, because it corresponds with the Alons. This, with  
 the Aah-LA **Eyugha**, which is the second cycle. The Rasha Eyugha is the  
 cycle. The Rasha **Eyugha** is the first cycle in the seeding cycle, from the  
 the Aah-LA **Eyugha**, because it is cycling of the Alons. Where most stuff  
 are the ShaLA **Eyugha**, the third Eyugha. These are the RashaLEa bodies, where the  
 Eyugha, the third **Eyugha**. These are the RashaLEa bodies, where the ones we were  
 end of that **Eyugha**. That would birth out the seed for here. Where this  
 the Ka-LA **Eyugha**, we would hit another NaVAHo cycle, and in that NaVAHo

---

Page: 119

---

 considered ... the **Eyugha** Cycles are considered the Cycles of the Lower Heavens, and

---

Page: 122

---

 a Ka-LA **Eyugha** Cycle, you know. And that's when we get into the  
 the Ka-LA **Eyugha**, and that's what we are participating in right now. So

---

Page: 130

---

 goes through its **Eyugha** Cycle, which is the Outer Light Body Cycles, ok. At

 end of the **Eyugha** Cycle there is a NaVAHo Cycle. Through the NaVAHo Cycle,

---

Page: 136

---

 of the 4th **Eyugha** or the Ka-LA Euygha. 143 So where it all

---

Page: 146

---

 the Ka-LA **Eyugha** Cycle and moving through what is now the Shamu NaVAHo

 Cycle of the **Eyughas** coming outward and then the Adashi's coming backward, fill in

---

Page: 178

---

 a Ka-LA **Eyugha** cycle, into the turnaround where you go back, begin the

 a Ka-LA **Eyugha** and an Adashi cycle is taking place and you are

 a Ka-LA **Eyugha** cycle which is the end of- there are 4 Eyugha

 there are 4 **Eyugha** cycles that we'll talk about later- and we're at the

 the Ka-LA **Eyugha**. And at that point it is the Turnaround Point, and

---

Page: 180

---

 a Ka-LA **Eyugha**, to get out there and finish that cycle meant you

 the Ka-LA **Eyugha**, he still had stuff to finish He hadn't finished it

---

Page: 184

 out for four **Eyugha** cycles, and then you go through this, this and this.

 to as an **Eyugha** ... E y u g h a. And the Eyugha

 a. And the **Eyugha** cycles the last one out of the Outer Domains when

 the Ka-LA **Eyugha**. The one before it, the Edon cycle is called the

 the Sha-LA **Eyugha** alright, then there is the Aah-LA Eyugha and then

 the Aah-LA **Eyugha** and then I believe the other one is the Rha-

 the Rha-LA **Eyugha**, first one going backward. So when we get all the

 the Ka-LA **Eyugha** and the completion of it, that is the point where

---

Page: 208

---

 the Ra-LA **Eyugha** I believe, I don't have the Eyugha names down there.

 don't have the **Eyugha** names down there. Yeah that would be the Ra-LA

 the Ra-LA **Eyugha**, yeah I forgot to put it in. I believe it's

 the Ra-LA **Eyugha** cycle and then that creates, that is from where you  
 the Aah-LA **Eyughas**, so you have the Ra-LA Eyugha, the Aah-LA  
 the Ra-LA **Eyugha**, the Aah-LA Eyugha. The Sha-LA Eyughas of the  
 the Aah-LA **Eyugha**. The Sha-LA Eyughas of the Middle Domains or the  
 The Sha-LA **Eyughas** of the Middle Domains or the Edons, they're the Edon  
 the Ka-LA **Eyugha** Cycle and the Outer Domains Light Body set. It is

---

Page: 209

---

 the Ka-LA **Eyugha** is the most difficult cycle of all of the space-  
 the Ka-LA **Eyugha** and you survive a Ka-LA Eyugha and you get  
 a Ka-LA **Eyugha** and you get through to where you can make the

---

Page: 210

---

 a Ka-LA **Eyugha**. That is why there is a lot of- in the  
 the Ka-LA **Eyugha** can be really brutal. And it can be, because there  
 a Ka-LA **Eyugha**- Ka-LA Eyughas are not hard to run if you're  
 Eyugha- Ka-LA **Eyughas** are not hard to run if you're not in a

 you have a **Eyugha** cycle right Then after the Eyugha cycle there is a  
 Then after the **Eyugha** cycle there is a NaVA-Ho cycle and after the  
 is the next **Eyugha** cycle. So it's a bit complicated, like what happens in-  
 you finish your **Eyugha** right oh you're going to go to the next Eyugha  
 to the next **Eyugha** --not yet First you are going to have a  
 the Ka-LA **Eyugha**, we are finishing in your class and your set of

 a Ka-LA **Eyugha** you know because you can't jump from here to here  
 that after a **Eyugha** cycle, on any one of the Eyughas is completed, the  
 one of the **Eyughas** is completed, the RashaLae Body, or the RaSha Body, goes

---

Page: 213

 end of an **Eyugha**, any of the Eyughas, you will have a NaVA-Ho  
 any of the **Eyughas**, you will have a NaVA-Ho cycle. In the NaVA-  
 the Ka-LA **Eyugha** end. But, there is still that potential, and while the

---

Page: 214

 this Ka-LA **Eyugha**, because it can get very, very weird and it might

---

Page: 230

---

 the Ka-LA **Eyugha** of the outer domains, will be the Edonic set that

 the Sha-LA **Eyugha** of the Edon middle domains- so we'll begin to get

---

Page: 233

---

 our Ka-LA **Eyugha**, be able to go into the Adashi turn around- how

---

Page: 244

---

 are how the **Eyughas** form All right, the Eyughas are formed by these. We

 All right, the **Eyughas** are formed by these. We talk about the Eyugha space

 talk about the **Eyugha** space time cycles, they are the light body cycles of

---

Page: 251

 that, after an **Eyugha** cycle- lets say a Eyugha cycle is the expansion cycle

 lets say a **Eyugha** cycle is the expansion cycle through a domain. After a

 domain. After a **Eyugha** cycle there is a NaVA-Ho cycle and it is

 you have a **Eyugha** cycle that at the end of the Eyugha will be

 end of the **Eyugha** will be a NaVA-Ho cycle and at the end

 a Ka-LA **Eyugha** cycle which means we're moving through in fact what you're

---

Page: 268

---

 the Ka-LA **Eyugha** Cycle and moving past it to the next And each

 the Ra-LA **Eyugha** cycle or the First Eyugha cycle. And we haven't even

 or the First **Eyugha** cycle. And we haven't even gotten it into plugging in

 end of a **Eyugha** ... we won't even go there yet But, a little

 to the next **Eyugha**, cause there would be 2 more compartments over here on

 the Ra LA **Eyugha**, the Aah-LA Eyugha, the Sha-LA Eyugha and the

 the Aah-LA **Eyugha**, the Sha-LA Eyugha and the Ka-LA Eyugha. And

 the Sha-LA **Eyugha** and the Ka-LA Eyugha. And this has to do

 the Ka-LA **Eyugha**. And this has to do with the KAions, the Ka-

 the, of the **Eyughas** ... where the, the Ka-LA comes from the KAions,

---

Page: 269

---

 uh Sha-LA **Eyugha**, right. And over here we have the Sha-mu NaVA-

 Its Ka-LA **Eyugha**, comes out into the Sha-mu cycle, the Sha-mu

---

Page: 270

---

 this Ka-LA **Eyugha** and begin to clear them. Because the templates back here

---

Page: 271

---

 functioning on its **Eyugha** cycles it will do the turnaround, and it will expand

---

Page: 272

---

 the Ka-LA **Eyugha** because it, it still has its own connection, it should

---

Page: 273

---

 the Ka-LA **Eyugha** again as Dha-LA ... uh, as Dha-LE Lha-

 the Ka-LA-**Eyugha** for the second time and then they go, because two

 the Ka-LA-**Eyugha** is usually enough for Anybody [chuckles]. But some, there"s

---

Page: 277

---

 the Ka-LA **Eyugha** that got a bit like, clueless, thanks to a lot

---

Page: 294

---

 refers to the **Eyugha** and the light body structures that have to do with

 the Ka-LA **Eyugha** cycle or the outer domains. The Ka-LE," as they

 the Ka-LA **Eyugha** cycle, from its 3/3rds manifest into a state of

---

Page: 334

---

 or the KaLA **Eyugha** Cycle and at the end of the KaLA Eyugha Cycle

 of the KaLA **Eyugha** Cycle there are three options. One of the options is

---

Page: 338

---

 of the KaLA **Eyugha** Cycle. It"s KaLA Eyugha, its E-y-u-g-h-

 Cycle. It"s KaLA **Eyugha**, its E-y-u-g-h-a, KaLA Eyugha. When

 h-a, KaLA **Eyugha**. When you reach the end of that, that is where

---

Page: 342

---

 to it"s KaLA **Eyugha** alignment where it"s at the End Cycle will bring it

---

Page: 371

---

 to as an **Eyugha** Cycle. So this is where the 4 Eyughas come from

 where the 4 **Eyughas** come from They are not Yugas - y u g

 g a- so **Eyughas** and the 4 Eyughas, there"d be one for the Core,

 and the 4 **Eyughas**, there"d be one for the Core, one for the Inner,

 The Core Domain **Eyugha** is called ... what? Let me find my Eyughas, do

 me find my **Eyughas**, do I have them on this one, yeah .. [  
 the Ra-LA **Eyugha**, yeah Ra-LA Eyugha and that is the first one,  
 yeah Ra-LA **Eyugha** and that is the first one, that's the Core Domain  
 Domain Cycle. A **Eyugha** Cycle gets followed by a NaVA-Ho Cycle that births  
 through into its **Eyugha** Cycle. The Eyugha Cycles are the cycles of the Eukatharista  
 Eyugha Cycle. The **Eyugha** Cycles are the cycles of the Eukatharista Light Body. So  
 inside of the **Eyughas** that are happening at the same time. And the cycles  
 the Ra-LA **Eyugha** in the Core, then you go out into what is  
 the Aah-LA **Eyugha** in the Inner, and the Middle Domain is called the  
 the Sha-LA **Eyugha** and the Outer Domain is called the Ka-LA Eyugha.  
 the Ka-LA **Eyugha**. The Aah-LA, the Sha-LA and the Ka-LA

---

Page: 372

---

 the Ka-LA **Eyugha**. We are at the end of the Ka-LA Eyugha  
 the Ka-LA **Eyugha** now. And at the end of the Ka-LA Eyugha  
 the Ka-LA **Eyugha** this is where the Turnaround -that is the Full  
 the Ka-LA **Eyughas**, the next natural space is going into what is called  
 we have 4 **Eyughas** down here, these are called the EyADa Cycles, so the  
 you know the **Eyugha** Cycles and then the StarFire Cycle that is a natural  
 here in the **Eyugha** and if a thing can't make the leap here, it

---

Page: 374

---

 has its own **Eyugha** Cycle which is passage through the Light Body structure It

---

Page: 375

 would represent the **Eyugha** for that one. Next one please .. [Graph] [

 something called the **Eyugha** Bodies. So the domains that we've talked about with the  
 about with the **Eyugha** Cycles has to do with the fact that we've got  
 that we've got **Eyugha** Bodies. But first we get Hara Bodies. But this is  
 get the 4 **Eyugha** Bodies, 1, 2, 3, 4, the Core, the Inner, the

---

Page: 401

 set of 4 **Eyugha** Bodies that (inaudible) be going outward and then 3

 in the KaLE-**Eyugha** out here all right. We have the Core Domain, and

 the Aah-LA **Eyugha**, the Sha-LA Eyugha and the Ka-LA Eyugha. And

 the Sha-LA **Eyugha** and the Ka-LA Eyugha. And we are in the

 the Ka-LA **Eyugha**. And we are in the Ka-LA Eyugha, the End-

 the Ka-LA **Eyugha**, the End-Time Cycle that the Mayans were trying to

 So we have **Eyughas** going out on the ElorA side, E-Yanas going out

 the Ka-LA **Eyugha** cycle came, that this could be finished, and there would

---

Page: 82

---

 out into the **Eyugha** Cycles, and then into the Eckashi Cycles that come outward,

---

Page: 105

---

 it, those little **Eyugha** Bodies, right, so our Eyugha Bodies would be there. And

 right, so our **Eyugha** Bodies would be there. And here would be the Ethos

 ones from the **Eyughas**, into the state of Rainbow Body and then you could

---

Page: 115

---

 in Ka-LA **Eyugha** End Cycles, where it depends on what is happening with

---

Page: 116

---

 end of KaLA **Eyugha** to the beginning of Stage Two. So, the Earth was

---

Page: 117

---

 dates showing the **Eyughas**-and there"s bigger ones called Eyardos and bigger ones called

---

Page: 120

---

 particular Ka-LA **Eyugha** End Cycle. It depends really on what happens with the

---

Page: 122

---

 the last KaLA **Eyugha** Cycle. And what we are participating in now-or being

---

Page: 135

---

 talked about the **Eyugha** Bodies. We"ve talked about the fact that we have a

---

Page: 137

---

 identity Outer Domain **Eyugha** Body. The Eyugha Body ... there are four Eyugha Bodies,

 Eyugha Body. The **Eyugha** Body ... there are four Eyugha Bodies, one for each

 there are four **Eyugha** Bodies, one for each of the Domains, the Core, the

 at one little **Eyugha** Body, and one Dimension"s worth of it They wanted us

---

Page: 138

---

 the structure of **Eyugha** Bodies and Hara Bodies, where using this same structure we

---

Page: 139

---

 of our own **Eyugha** Bodies. Because where"s your sound pattern? It"s right behind you.

 is just the **Eyugha** Body in the Outer Domain. It means you would have

---

Page: 140

---

 you that same **Eyugha** Body structure, with its Hall of Records on the D31level.

---

Page: 141

---

 us in our **Eyugha** Bodies, and in our Hara Body structures, and we're going

---

Page: 142

---

 to our next **Eyugha** Body back, which would be our Edonic Middle Domain Body,

---

Page: 145

---

 at, of a **Eyugha** Body, this one outer domain Eyugha Body. There is back

 one outer domain **Eyugha** Body. There is back here, in this little ... that

---

Page: 147

---

 this is the **Eyugha** Body for the Outer Domain, that implies our Middle Domain

 there'd be another **Eyugha** Body that goes with our Edon levels. And we'll see

---

Page: 148

---

 each of the **Eyugha** Bodies. If a being goes into this natural process of

---

Page: 149

---

 that is the **Eyugha** Body. This is the Ka-LA Eyugha Body, that's the

 the Ka-LA **Eyugha** Body, that's the Sha-LA Eyugha Body. This one's the

 the Sha-LA **Eyugha** Body. This one's the Aah-LA Eyugha Body. Here would

 the Aah-LA **Eyugha** Body. Here would be its Gha-Fa" and there would

 Core Ra-LA **Eyugha** Body. This one actually has 2 Gha-Fa"s, 1 on

---

Page: 152

---

 way through the **Eyugha** bodies back to the Core, and opens the DhaLALUma Gate

---

Page: 157

---

 a Ka-LA **Eyugha** Cycle. And it's a little bit different for them but

---

Page: 243

---

 are called the **Eyugha** Bodies. And the Eyugha Bodies have to do with-like

 Bodies. And the **Eyugha** Bodies have to do with-like the Ka-LA Eyugha

 the Ka-LA **Eyugha** Body is the last one out And that's where the

---

Page: 244

---

 structure of the **Eyugha** Bodies. This would be just your one little self in

 relation to the **Eyugha** Body structure and this is also simplified, because there's also  
 your Outer Domain **Eyugha** Body, your KalA Eyugha Body, then you would have behind  
 Body, your KalA **Eyugha** Body, then you would have behind that where you came

---

Page: 248

---

 our Ka-LA **Eyugha** Body. Then we would have the Sha-LA Eyugha Body  
 the Sha-LA **Eyugha** Body of the Middle one, the Edonic Level of self  
 was that one **Eyugha**? I forget the Eyugha name on that one-Aah-LA  
 I forget the **Eyugha** name on that one-Aah-LA Eyugha and Ra-LA  
 one-Aah-LA **Eyugha** and Ra-LA Eyugha Bodies. So these are your Eyugha  
 and Ra-LA **Eyugha** Bodies. So these are your Eyugha Bodies and they're the  
 these are your **Eyugha** Bodies and they're the Eyugas that they talk about in  
 and they're the **Eyugas** that they talk about in larger terms of "end time  
 the Ka-LA **Eyugha** and that kind of stuff This is what they're talking  
 The Ka-LA **Eyugha** is the end cycle of the Turnaround, where you're supposed  
 all of the **Eyugha** Bodies come together, the Hara Bodies come together into the

 are called the **Eyugha** Cycles. So there are four Eckashi Expansion Cycles. This is  
 is called a **Eyugha**. That's what the Mayans were trying to teach everybody about  
 everybody about the **Eyughas**, and the fact that we have entered the KaLA-Eyugha.  
 entered the KaLA-**Eyugha**. Yes, we have. The KaLA-Eyugha is here. The Eyugha  
 have. The KaLA-**Eyugha** is here. The Eyugha Cycles have to do with things  
 is here. The **Eyugha** Cycles have to do with things called Alons, ShAions and  
 the Aah-LA **Eyugha**, which has to deal with Alons, we have the Sha-  
 the Sha-LA **Eyugha**, which has to do with ShAions and we have the  
 have the KaLA-**Eyugha**, which has to do with KAions. That's where the KaLA-  
 where the KaLA-**Eyugha** name came from. So this is the process we evolve  
 showing you the **Eyugha** Cycles. After you get out here, you fully expand, you

---

Page: 15

 these are the **Eyugha** bodies-E-Y-U-G-H-A, the Eyugha bodies  
 H-A, the **Eyugha** bodies going outward. The four Eyughas and then the three  
 outward. The four **Eyughas** and then the three Adashi Return Cycles, which are the
