 Aquareion Cloud-Walkers **SEda** Psonn Circle Part-1 [MP3 Audio file 6 0]

 you begin the **SEda** Psonn Circle Part-1 of the Aquareion Cloud-Walkers Stand,

Page: 259

 and this is **theSEda** Psonn Circle and-which is Part 1 of the whole

Page: 309

 cycle, or the **SEda** cycle. And that's where the triad actually forms and here

Page: 312

 go into the **SEda** cycle, which is back home. So, this is the path

Page: 314

 set was the **SEda** cycle, and that's where we had the first Partiki, second

Page: 316

 at the first **SEda** cycle, between axis zero and one, and this is the

 part of the **SEda** cycle, that's the seed cycle, yeah. Now, this is referred

 cycles, plus a **SEda** cycle, or a seed cycle. This is the structure of

 cycle, and a **SEda** cycle is what they're considered. We'll get into those more.

Page: 327

 that was the **SEda** cycle, and the Tauren light seed cycle. That was actually

 you have a **SEda** cycle between axis zero and one. So that's a **SEda**

 So that's a **SEda** cycle, that's not the same as a Takeyon cycle. It

Page: 328

 would be the **SEda** cycle, the Tauren cycle, and the little SEda cycle that
 and the little **SEda** cycle that started first creation in the first place. So,
 called the Yuna-**SEda** cycle, or the one-seed cycle. The MCEO Freedom Teachings

Page: 329

 called the Yuna-**SEda** state The inner state of matter and consciousness is called

Page: 338

 cycle and its **SEda** cycle-that whole thing is an Euyugha. Now, I don't
 yet, probably the **SEda** Euyugha or something. But this one, that has the Alon

Page: 367

 called the Yuna-**SEda**. The inner state that goes with the RaSh ala body

Page: 368

 have the Yuna-**SEda** state and the Yumah so you've got the Yumah-Yuna

Page: 370

 and then the **SEda** state where you go completely back into Source to come

Page: 472

 creation of the **SEda** Psonn Circle. And what this part A does is opens

Page: 493

 is considered the **SEda** cycle or the Yuna SEda cycle, the one seed cycle,
 or the Yuna **SEda** cycle, the one seed cycle, alright. This is Eyugha 1.

Page: 494

 and that's the **SEda** cycle, SEda Eyugha 1, then you have the, that is
 the SEda cycle, **SEda** Eyugha 1, then you have the, that is called by
 have the Yuna **SEda** state of the seed cycle which is the Starseed cycle.

Page: 495

 or the Yuna **SEda**, that's like Yunasai, the one seed, that's what it means,
 you consider the **SEda** Cycle one, of the 4 Eyughas, then you have the

Page: 332

 what"s called the **SEda** Cycle. The SEda Cycle is what happens before the Lightborn

 SEda Cycle. The **SEda** Cycle is what happens before the Lightborn Cycle and this

Page: 338

 of left the **SEda** Cycle for after we understood some basic things about the

Page: 339

 but then the **SEda** Cycle and that"s where you find out what the system

Page: 344

 jumped over the **SEda** Cycle because it is quite complex and that"s where we

 was that first **SEda** Cycle in here before the Tauren was born. And when

Page: 345

 and starts the **SEda** Cycle for the next one out So, it"s quite a

 this rather complicated **SEda** Cycle that we"ll look at later and then by the

 end of that **SEda** Cycle, the whole thing that happened in the SEda Cycle,

 happened in the **SEda** Cycle, whatever quantum was generated there, pulls into the creation

Page: 347

 going over the **SEda** Cycle from before and its actually the SEda Cycle for

 its actually the **SEda** Cycle for the next one out. And here is where

 it"s called the **SEda** Spiritborn Cycle. Next one please. [Graph] [Sat2 00

 place in that **SEda** Cycle-that have to do with the Spirit Body that

Page: 349

 would be the **SEda** Spiritborn Cycle. Then, from the Tauren, where the Tauren is

Page: 371

 getting into the **SEda** Cycle that does the Spirit Body and all that jazz

Page: 372

 end of the **SEda** Cycle, which is the cycle that happens between Partikl1 and

Page: 379

 ... into the **SEda** Cycle. And I want to be able to do this

 end of that **SEda** Cycle and the configurations of energy that form the height

Page: 382

 back to the **SEda** Cycle and what takes place there. And finally we are

 Cycle of the **SEda** Spirit Born Cycle. I may have to look at this

 this is called **SEda** Spirit Born Cycle Trimester-1, the Triad Stage OK I'm

Page: 407

 learned about the **SEda** Cycle and how Partiki 1 and Partiki 2 come together,

Page: 464

 structure and the **SEda** Cycle in order to do that But because of the

Page: 467

 end of the **SEda** Cycle. That is the configuration that forms around the Tauren,

Page: 477

 we start the **SEda** cycle, that is where you'll be able to see where

Page: 487

 called a Veca-**SEda** or Seed atom Sun that is born of the Ecka

 Suns. The Veca-**SEda** Core is the first Sun Galaxy from which the Universe

 Suns are called **VecaSEda** or Jhala Suns. And there is a reference there in
