 an in-between **zone** that will combine the matter bases of both places, that

 it's a medium **zone** the aurora zones, and it has something to do with  
 zone the aurora **zones**, and it has something to do with aurora platforms, but

Page: 74

 are called hibernation **zones**. If you take this light field, for example, and force  
 would create a **zone** that was like a mirror image of this, that would  
 exists? In the **Ozone** layer! (Laughter) The stories have been fed to us  
 it's about the **ozone** hibernation zone. Think about holes in the Ozone layer. Oh  
 the ozone hibernation **zone**. Think about holes in the Ozone layer. Oh dear, it  
 holes in the **Ozone** layer. Oh dear, it looks like Oz has a hole.  
 in that hibernation **zone**, which means there's a hole in the frequency fence net

---

Page: 75

 are also hibernation **zones** there. But, for now, this is the natural structure when  
 didn't have hibernation **zones** happenings from the reversals. We would literally have our  
surface,  
 call the Gap **Zone** between the Van Aliens, and then there is the Van  
 below that. The **Ozone** layer is about half way, I believe, in that. These  
 would be the **Ozone** layer. So, from the Ozone down to halfway down into  
 So, from the **Ozone** down to halfway down into the upper mantle is where  
 literally, from the **Ozone** and going upward, we have a reversed spin area, and

---

Page: 76

 up through the **Ozone** layer. There is another Net layer that runs here from

---

Page: 77

 into a hibernation **zone**, or get entangled in the Net. That's why we've waited  
 you through safe **zones** that are called Aurora platforms. There are Aurora platforms that  
 through the hibernation **zones** so you don't get trapped in those areas when you

 into the Aurora **zones** that are between here and Urtha. Now, I would like

---

Page: 80

---

 where the hibernation **zones** are and the split fields are. This is where you  
 to as Aurora **zones**. There are four Aurora zones that actually are bands. They  
 are four Aurora **zones** that actually are bands. They are not just little spots.  
 that are safe **zones** that help you leap from a natural zone through a  
 from a natural **zone** through a hibernation zone so you can land in the  
 through a hibernation **zone** so you can land in the Auroras. Eventually those Auroras  
 to have these **zones** open here, and create the fields, once the Gyro dome  
 the Aurora slide **zone**, the Aurora field, that will allow parts of this to  
 have the Aurora **zone** fields coming from the Aurora platforms once they fully activate.

---

Page: 81

 to the Aurora **zones**. Down here you have the etheric doorways. They would appear

---

Page: 82

 the hibernation reverse **zones**. It's funny ... I found myself in one of those  
 and the hibernation **zones** because my cat had been pulled into one of the  
 of the hibernation **zones** and I needed to get her out. I didn't know  
 with the hibernation **zones**. They are not pleasant. They look physical when you are  
 in a hibernation **zone** if you lost the quantum your bodies carry. Our bodies

---

Page: 85

 into the Aurora **zones**, after that's all activated, after the Peru trip. Anyway, I  
 into a hibernation **zone**. You are only flashing past some of your own memory

 covered the Net **zones**. We are going to look more closely at those, at  
 mean? The hibernation **zones** are on the other sides of those Nets. (Oooooooooooooohhhh)

Page: 88

 holding the hibernation **zones**, the cores were reclaimed, I believe on the 23 and

---

Page: 89

 with the hibernation **zones**, but I didn't know where. Where did Atlantis and Lemuria  
 now, what hibernation **zones** they are connected to. The Illuminati races that I had  
 in the hibernation **zones**, that are called the Beli Mahatma groups. At a certain

 quickly? And hibernation **zones** are all Page89of 151

---

Page: 90

---

 are in that **zone**. They are physical manifestations. They are in a D2 hibernation  
 a D2 hibernation **zone**. What we're looking toward at this point, I'm not even

---

Page: 93

---

 as the Aurora **zone**, will allow for, even though we are upside down, it

---

Page: 94

---

 where the Aurora **zones** are. Right now, the Gyrodome isn't activated yet. It means  
 means the Aurora **zone** isn't fully opened yet. It means there are four platforms,  
 of the safe **zones**, the Aurora safe zones, but it is not a fully  
 the Aurora safe **zones**, but it is not a fully activated field yet that

---

Page: 95

---

 or the Aurora **zone**. When we're looking at these layers, it helps just to  
 This is the **Ozone** layer, right around here, about halfway through. And we'll find  
 things about the **Ozone** layer too. I'm wondering what all these activations that the  
 do to the **Ozone** layer, because the Ozone layer and the Van Allen Belts  
 layer, because the **Ozone** layer and the Van Allen Belts are actually formed from  
 wipe out the **Ozone** layer very very quickly, and without the Ozone layer, at  
 and without the **Ozone** layer, at this point, we'd all get poisoned from what

---

Page: 96

---

 Then the Gap **Zone** would be out here. When we look at the bigger

---

Page: 98

 once the hibernation **zones** had happened, to prevent Urtha from being raided by the  
 created the hibernation **zones**. Im sorry. I can love creeps too. Seriously, I don't

 It forms the **ozone** layer up there. Down here into the upper mantle it

 bug in Kristic **zones**, actually. (Applause) We may have them in the Aurora  
 in the Aurora **zones**, because it takes part of this imprint and still carbon  
 that fully Kristic **zones** are fully silica based. They don't have any carbon based  
 of the hibernation **zones**. I mean, what does live in a hibernation zone? That's  
 in a hibernation **zone**? That's a very good question. They tend to be the

---

Page: 106

---

 in a hibernation **zone**. So, we have part of our consciousness fields stuck there.  
 healing. These hibernation **zones** ... the part of ourselves that are stuck in them.  
 for the hibernation **zones** or related affiliated races. We're going to be able to,

---

Page: 107

---

 there's a gap **zone** between them, and every once in a while something funny  
 call the Gap **Zone**. The outer Van Allen Belt is here, and it spans  
 where the hibernation **zones** are. They are literally places that are put on opposite  
 live in those **zones** created that condition by creating the Nets. So, they are  
 while. The hibernation **zones** were created in 9562 BC. Before that, there were two  
 there were two **zones** that had started to be created. This is where we  
 called time warp **zones** created then, and that was before the hibernation zones were  
 before the hibernation **zones** were created. So, we'll see a little bit of where

---

Page: 108

---

 into the Urtha **zone**, we will experience them as physical. Right now, we're beginning  
 experience the Aurora **zone** ... almost like the basement. It would be like a  
 be an Aurora **Zone**. I'll show you where that activates in a little bit.  
 once the Aurora **Zone** is activated, will be able to come into the Aurora  
 into the Aurora **Zones**, just like we will as our bodies activate a bit  
 into the slide **zones**. We will be able to at some point physically meet,

---

Page: 109

---

 slides into that **zone**, and then the rest just kind of slides out of  
 work, the slide **zones** and being able to slide is the first phase that

---

Page: 111

---

 level the Aurora **Zones** are coming in on. You can see there are these

---

Page: 112

---

 this reverse spin **zone** that is called a hibernation zone. The hibernation zones were

 called a hibernation **zone**. The hibernation zones were created by creating the Nets, which  
 zone. The hibernation **zones** were created by creating the Nets, which form, literally, tubular  
 reversed spin hibernation **zone**, and we have the lower mental plane, that is what's  
 allow for safe **zones**. If you start to project, you can jump the zones,  
 can jump the **zones**, so you can get up to the Adashi Temples without  
 reverse spin hibernation **zones**. The reverse spin hibernation zones, when you start to project,  
 reverse spin hibernation **zones**, when you start to project, if you astral project out  
 happens with hibernation **zones** a lot, and not just the mental one- that's the  
 of the hibernation **zone** created by the D2 Net. But there's another level, a  
 a physical hibernation **zone**. People experience from here ... if you're stuck down here,  
 inadvertently adopted hibernation **zone** lovers, where they have experiences when they go to sleep  
 from the hibernation **zones**. What you pick up in the part of your consciousness

---

 dealing with hibernation **zone** life and visitors. Not everything in the hibernation zones can  
 in the hibernation **zones** can come here either. A lot of it is visitors  
 systems. The hibernation **zones** are quite well structured. The whole thing can be found  
 creates a hibernation **zone** above it, and it creates a hibernation zone below it.  
 creates a hibernation **zone** below it. If this is Earth's crust, this implies that  
 is a hibernation **zone**. So, there is one below our feet. There is one

 D-2 hibernation **zone**. Beyond this, there is what is called the 2nd Aurora  
 from these hibernation **zones**, from raiding through the Aquifers, that are water systems that  
 the Aurora buffer **zone**, because they are literally buffers that keep these guys from  
 level of hibernation-**zone**-1. You go down here on the other side of  
 D-2 hibernation-**zone**-1. So there is the subterranean level of them, and  
 in this nasty **zone**. And we've got these. This is the false Inner Earth.  
 are the Aurora **zone** seals. If we go out further from our manifest reality  
 and where the **zones** are that you don't want to go, when you start  
 call the gap-**zone**, between the inner and the outer Van Allen Belts. Technically  
 be either a **zone** where I guess properties of this one aren't in the  
 aren't in the **zone**, and then there is another Van Allen Radiation Belt that  
 it a gap-**zone**, our science does. The MCEO Freedom Teachings® Series Presented

 In this gap-**zone**, it would be from here to here, we have ...  
 up, right? This **zone** here, the gap zone, should technically be- according to what  
 here, the gap **zone**, should technically be- according to what our science is saying  
 where the gap-**zone** is or where they consider that, but then going out  
 in the gap-**zone** between the Van Allen Radiation Belts. When you come out  
 body no-fly **zones** in this area, and in this area. So here's the  
 and these Aurora **zones** all pertain to blocking the hibernation zones so the "

 the "hibernation **zone** people" that have put the shields of these areas and  
 of the gap-**zone**, where the second inner part of the outer Van Allen

 in the hibernation **zones**. We have this, which is the lower mental body and

 these are buffer **zones** that will protect us, that will plug us in to  
 called the hibernation **zones** and the raider races, and we will be able to  
 with these shadow **zones**, which are the hibernation zones. I went in after for

 into the Core **zones** right now through the Aurora level-1. But, we are

 in a hibernation **zone**. And they are waiting, they have been waiting since the

 through the hibernation **zones** to surround them, that is above and below. So we've  
 where the hibernation **zone** of Shamballah is, that is about 120 km up- where  
 enter the gap-**zone** between the Inner Van Allen and the Outer Van Allen  
 considered a gap-**zone**. And in that gap-zone you've got ... this would  
 in that gap-**zone** you've got ... this would be our normal, this whole  
 and create that **zone**. And it creates below it this one, which are the  
 are the hibernation **zones** the D-3 subterranean chambers. And above, they create the

 where that frozen **zone** was. So this would mean ... this would be the

 cause. When these **zones** open and they start throwing scalar frequency, we've been in  
 in the Shamballah **zone**, which is a physical plane that is the split D-

 band. In the **ozone** layer itself, that's where Oz is. Isn't that awful? I

 good laugh, oh **ozone** layers right, ok great Let's channel this guy the story

 Somewhere Over the **Ozone**" That is literally a fragmented part of the stratosphere that

 Oz" in the **ozone**, and right above that there is the Olympus hibernation zone

 the Olympus hibernation **zone** where you get all your Gods of Olympus dudes hanging

 in a hibernation **zone**, that is not fun because then they've got you and

 in the hibernation **zones** that are up here ... What are called the frozen

 trapped in hibernation **zones** sometimes for a long time. So that is why the

 literally have safe **zone** platforms to side-step, sometimes right in-between two hibernation  
 between two hibernation **zones**. But you have to know where you are aiming for,

---

Page: 249

---

 and the hibernation **zones**. Then they'll do another one and just give indication of  
 stratosphere is the **ozone** layer. And that's where Oz is. We've got Oz up  
 got the reversal **zones**. So I think we've got something else is down here.

---

Page: 250

 of the reversals **zones**, or the hibernation zones. So, we've been given the Aurora-  
 or the hibernation **zones**. So, we've been given the Aurora-2 platform is right  
 go through the **ozone** layer. We go up through what they call here, they  
 and Shamballah reversal **zones**, you've got the Aurora-2 platform and through these maps,  
 leap through the **zones**. You can get from Core through Aurora-1 and go  
 of the reversal **zones**. In fact they are the ones running most of the  
 within the safe **zone**. So there's going to be that kind of play later,

---

Page: 253

 the higher frequency **zones** of Urtha surface, Urtha D-2 surface And it may

 avoid the hibernation **zones** whilst at the same time, bringing as much of yourself

 talk about Hibernation **Zones** tomorrow when we talk about the vertical maps because you

 something called Hibernation **Zones** were formed here. This is what led to the disappearance  
 the full Hibernation **Zones** went into effect when Ruta and Urta, the Earth side  
 about the Hibernation **Zones**. That's where that history started and this is where, when

---

Page: 303

 in the Hibernation **Zones**. And they went into a place that's .... there's a  
 with the Hibernation **Zones**. Their bodies ... when you see them, and in projections  
 of the Hibernation **Zones** and so their consciousness didn't get assimilated into the  
Hibernation  
 into the Hibernation **Zones** and absorbed where all sorts of very important coding would

 are like safe **zones**. There are four different safe zones that are called Aurora  
 four different safe **zones** that are called Aurora zones that between here and the

 and that modulating **zone** that will help it align, like flash off, flash on,

 something called Hibernation **Zones** formed First, I wanted you to understand in simple terms,

 but stratosphere, the **ozone** layer, troposphere that creates all the weather- so all the  
 Van Allen Gap **Zone**. This is the gap between the inner and the outer  
 got the Gap **Zone** instead. What we have here, running from the 02 Lla

---

Page: 344

 gaps-the Gap **Zone**-between the Van Aliens and goes partially down into the  
 runs with our **ozone** layer up here. Yeah. No wonder they're so worried about  
 hole in the **ozone** layer. We've got a hole in the NET, right? Yeah.  
 holes in the **ozone**. Not that I'm suggesting it would be right now, because  
 mess, but the **ozone** layer is manifested not because it is a natural structure  
 we've got our **ozone** layer sealing us in halfway into our atmosphere. We don't  
 zap our own **ozone** layers inside of ourselves, and get our minds, our emotions

---

Page: 346

---

 around the Gap **Zone** area of the Van Allen Belts, and part of which  
 We have Hibernation **Zones** here since in Seeding 3, since 9562 BC, when the  
 and the Hibernation **Zones** in it, there are so many stripes there you can't  
 we have Oz- **Ozone** layer Oz, right? I mean, all of these things, these  
 in the Hibernation **Zones** that should be naturally part of our own radial body  
 from these Hibernation **Zones**. There is a race there that was during the 9562  

in the Hibernation **Zones**. When they got trapped they did drop their bodies and

 running the Hibernation **Zones**. The Hibernation Zones connect through to Shasta, to Telos, to

 Zones. The Hibernation **Zones** connect through to Shasta, to Telos, to Belletrix, and then

---

Page: 347

 activate the Hibernation **Zones**. And if that occurs, they will overpower the natural geleziac

---

Page: 348

 have the Gap **Zone**, and that is the number two Intra-NET, that's the

 about where the **ozone** layer is. It's running the ozone layer. The outer band

 It's running the **ozone** layer. The outer band of the Derma-NET. That is

---

Page: 349

---

 that the Hibernations **Zones** are starting to open, and that's dragging people all over

 of the Hibernation **Zones** in the 9562 BC mess, where the Hibernations Zones were

 where the Hibernations **Zones** were created. This is what we're trying to overcome, in

 from the Hibernation **Zones**, right through the mind control NETs, and they get all

---

Page: 350

 miles to the **Ozone** Upper Stratosphere. That's the Derma-NET. The chemical NET goes

 km "Gap **Zone**" to about 13,000 km. And that's Van Allen outer electron

 and the Hibernation **Zones**. So, we have the Ozone Layer and the Van Allen

 we have the **Ozone** Layer and the Van Allen belts that are completely unnatural,

---

Page: 352

---

 in the Hibernation **Zones**. [next graph] I just wanted to show you one

---

Page: 353

---

 of the Hibernation **Zones**, it has been a very long time since the seals

---

Page: 354

 avoid what hibernation **zone**. This took hours just to get it where you could

---

Page: 355

 into the hibernation **zones**. What's over there? That's a pretty crystal temple." You can

 I'm from these **zones**" cause once we publish this stuff, it's out there. Once

 in the hibernation **zones**. So, there are certain things, that once you meet these

 interference from hibernation **zones**, where they are trying to take over the work, because

 in the hibernation **zones**, which are the reversed zones that go with our natural  
 are the reversed **zones** that go with our natural gezeziac structures They are the  
 resided in these **zones**, and they really do reside there, and they do play  
 because the hibernation **zones** will be going Wesedrak way when there's a final separation.

Page: 358

 the non-smoking **zone**. It's under frequency protection. So, when we start to bring

---

Page: 361

---

 with the hibernation **zones**, all you have to do is go, "Help I"

---

Page: 366

---

 in the Hibernation **Zones**. Oh they'll float around in their white robes and they'll

---

Page: 367

---

 into a Hibernation **Zone**. It will throw you right into maybe a visit down

 set of safe **zones** that will take you ... that move through the planes

---

Page: 376

---

 of the hibernation **zones** and to keep you in the safe zones with the

 in the safe **zones** with the Aurora fields We are going to start this

---

Page: 386

---

 into this anchoring **zone**. So what we are going to do to leave the

---

Page: 397

 happening in the **Ozone** layer? What is up there in the Van Allen radiation

 There are Safe **Zones** that we can move through, we are learning to project

 to travel Safe **Zone** routes to certain places that we'll talk about The next

---

Page: 399

 at a meeting **zone** called the Adashi-7 Temple. So there is some interesting

---

Page: 402

 are called Hibernation **Zones** which are negative zones that don't belong in there that

 which are negative **zones** that don't belong in there that are controlled by some

 in the Hibernation **Zones** or get trapped by them. Using the technologies of the

 they are Safe **Zones** that can get you through where you can actually glide

 Here is the **Ozone** layer in our atmosphere. Here would be the top of

 place called Hibernation **Zones**. If you imagine all of this represents- say this was

 These are Hibernation **Zones**. There are various Hibernation Zones that are formed above and

 are various Hibernation **Zones** that are formed above and below these NET's and these

 here is our **Ozone** layer, here is this NET. Oz is in the Ozone

 is in the **Ozone** layer. Who do you think inspires writers to write these

 to the Hibernation **Zone** Bands that are 3-D experiential places. Well some of

 are in Hibernation **Zones** and what is going to be interesting is at some

 and the Hibernation **Zones** are going to reveal. And if that was all done

 in the Hibernation **Zones** have been trying to take over this Planet in order

 are the Safe **Zones** so you don't get dragged in to one of the

 of the reversed **zones** when you are doing a glide or later a slide,

 Biome Field Safe **Zone** but when you are in there it looks like you

 in the Hibernation **Zones**. Shala-13 has been the only gate that has held

 here is the **Ozone** layer, here is- and this is where that band that

 you have the **Ozone** layer that is caused by the NET. It is not

 have the Hibernation **Zone**, the "Oz Zone" there and above that between the

 the "Oz **Zone**" there and above that between the Oz Zone and the  
 between the Oz **Zone** and the next Hibernation Zone and the light field that  
 the next Hibernation **Zone** and the light field that is between those and we'll  
 But between the **Ozone** layer and the Inner Van Allen is where you have  
 to, the Safe **Zones** and that stuff These also allow us to project there  
 of the Hibernation **Zones** and that has happened to a lot of people over  
 years. The Hibernation **Zones** were fully formed in 9,562 BC right before the final

---

Page: 416

---

 and the Hibernation **Zone** would actually be the first, that if you would just  
 to the Safe **Zones**, so we'll actually be able to see this as the

---

Page: 430

---

 from the Hibernation **Zones** and the Hibernation Zone groups that we have mentioned work  
 and the Hibernation **Zone** groups that we have mentioned work with these people, they

---

Page: 433

---

 in the Safe **Zones** so you can get a clear line open. We can't

---

Page: 434

---

 are the Safe **Zone** platforms and that is why, they've never taught projection like  
 in a Hibernation **Zone** because you have both reversed codes and natural Krist codes  
 once the Aurora **Zones** open. And they will literally be a field, a spherical  
 area-the Aurora **Zone**-and it will be a 3-dimensional physical system just

---

Page: 435

---

 into this other **Zone** that is part frequencies from here and part of the  
 house in Slider **Zones** or a version of your town and versions of people.  
 So the Aurora **Zone** is just forming with the activation of the Gyrodome. But  
 connect with Aurora **Zone** and leap you exits. We've had that happen a couple

---

Page: 436

---

 in a frequency **zone** that can modulate their reality field and ours together so

---

Page: 437

---

 from the Hibernation **Zones** that were trying to get people to go there for

---

Page: 439

---

 becoming a war **zone** for everyone. Now before the Thetans would be able to

---

Page: 440

---

 to enter certain **zones** of the Aurora Field. So it's ... there is even

---

Page: 448

---

 now the Hibernation **Zones**. The Hibernation Zones weren't fully created before but something called

 Zones. The Hibernation **Zones** weren't fully created before but something called Time-Warps were

 became the Hibernation **Zones** which are literally taking the natural Light Body structures of

---

Page: 449

---

 affect their Hibernation **Zones**. Because later, when the Hibernation Zones became created up in

 when the Hibernation **Zones** became created up in this period, well they helped to

 of the Hibernation **Zones** by taking the Time-Warps that Atlantis and Lemuria had

---

Page: 450

---

 into the Hibernation **Zones**. So this is just how this history with Hibernation Zones

 history with Hibernation **Zones** evolved. We have 13,400 BC, after this period where Ruta-

---

Page: 452

---

 create the Hibernation **Zones**. So they took the Time-Warps that had been used,

 Earth and create **zones**, 3-dimensional systems that split the natural RashaLae Body structure

---

Page: 453

---

 And these Hibernation **Zones** exist There are also Aurora Fields that have to do

 activation of Safe **Zone** Fields, like buffers in-between some of these bands, so

 by a Hibernation **Zone**. So when we are projecting, the projection issues of Hibernation

 issues of Hibernation **Zones** became a reality here-9,562 BC. And I believe 9,560

 from the Hibernation **Zones** that they call in through anything from Satanic rituals to

 with the Hibernation **Zone** people. And they have been. They create spawn for the

 for the Hibernation **Zone** people. They engage in interactions with them and birth babies

 alright... the Gap **Zone**. And then you have the Outer Van Allen Belt spanning

---

Page: 524

 it creates the **Ozone** layer that is not natural. It is created by the

 fields From the **Ozone** layer out is on reverse spin and in that Stratosphere

 have a Hibernation **Zone**, which is a reverse-spin-zone. There are 3 hibernation

 a reverse-spin-**zone**. There are 3 hibernation zones. There are 3 NETs. There

 are 3 hibernation **zones**. There are 3 NETs. There are 3 splits of the

 how the hibernation **zones** were formed By using the BeaST and Threshold technologies progressively

---

Page: 525

 between the Hibernation **Zone** fields And it is the Aurora Fields that will eventually

 an Aurora Slide **Zone**, which literally is another whole 3-Dimensional holographic reality like

 in the hibernation **zones**. This one, the 01 NET creates below it, right remember

 the lower hibernation **zone**, 01 hibernation zone. And here, running from the Ozone layer

 zone, 01 hibernation **zone**. And here, running from the Ozone layer up to the

 running from the **Ozone** layer up to the Thermosphere is the Upper 01 hibernation

 Upper 01 hibernation **zone**. Alright. When we go for the second NET, we find

 lower D2 hibernation **zone** and an upper D2 hibernation zone. The lower D2 hibernation

 upper D2 hibernation **zone**. The lower D2 hibernation zone is where Lumeria and Atlantis

 lower D2 hibernation **zone** is where Lumeria and Atlantis and a few other places

 D2 telluric hibernation **zones**. These are physical like we are, alright? These are physical

 lower D3 hibernation **Zone** and an upper D3 hibernation zone above it. So, above

 upper D3 hibernation **zone** above it. So, above and below the NETs, you end

 up with Hibernation **Zones**. And this place is the upper hibernation zone D3 hibernation

 the upper hibernation **zone** D3 hibernation zone, which is the atmhc hibernation zone, right

 zone D3 hibernation **zone**, which is the atomic hibernation zone, right at the outer  
 the atomic hibernation **zone**, right at the outer edges of the Outer Van Allen  
 of where hibernation **zones** are of where the NETs are that create them and

 from a hibernation **zone** that is really intent on harming you, or using you  
 from the hibernation **zones**. So you will get a clear ... you will have

 with the hibernation **zone** people and the plans they have had for invading the

Page: 13

 lot of Hibernation **Zone** people who are not happy at all with the Indigo  
 into the Hibernation **Zone** matter planes, which we'll see on the vertical maps. The

---

Page: 14

---

 is called Hibernation **Zone** 1, which is the 01 etheric Hibernation Zone. They are  
 01 etheric Hibernation **Zone**. They are called the Gates of Iron. The 02 Telluric  
 to the Hibernation **Zones**, the Atlantian and Lemurian Hibernation Zones of 02, which are  
 and Lemurian Hibernation **Zones** of 02, which are physical Hibernation Zones. The third one  
 are physical Hibernation **Zones**. The third one is called the Gates of Steel. That

---

Page: 17

 to the Hibernation **Zones**, and we are going to be learning as we clear  
 invaded by Hibernation **Zone** Fallen Angelics, and they hang around with them in their  
 what the slide **zones** are for That's what Ascension Earth is for You got  
 currents, into that **zone**, some of them will be at various levels. The ones  
 Earth, Gyrodome slide **zone** field, which is the host Other people, depending on what

---

Page: 18

---

 you into Hibernation **Zones**. These are done specifically in a way that first you're  
 already two slide **zones** open. To be able to use them biologically, we've got

---

Page: 21

---

 drawn into Hibernation **Zones**, not to be drawn into the fall cycle. It also  
 the new Earth **zones**. So, they will be able to follow Krystal Spiral ascension,  
 with the Hibernation **Zone** people who will try to take over this planet, what's

---

Page: 22

---

 in the Hibernation **Zones** will try to stop that There are ones here that  
 find the Hibernation **Zone** people trying to fight them. This is long after we

---

Page: 32

---

 there are Hibernation **Zones** just sitting there waiting to suck you in. It's a

---

Page: 34

---

 first the slide **zones**, which are the Aurora field between Earth and Urtha, the  
 We're in a **zone** right now that ... we're in a very toxic radiation  
 very toxic radiation **zone** because of the planetary grid messes, and because of the  
 activate the Aurora **Zones** between Earth and Urtha, in order to have a host

---

Page: 35

---

 into the Hibernation **Zones**, into reverse spin, which would force Earth into its Bardoah

---

Page: 36

---

 into the Aurora **Zone**, which is the frequency modulation zone between our Earth and  
 the frequency modulation **zone** between our Earth and Urtha. Next one, please Graph [

---

Page: 37

---

 into the Hibernation **Zones**, and I believe plugs into Bellatrix. So, what we're moving  
 into the Hibernation **Zones**. We did have- and I might as well start this

---

Page: 38

---

 from a Hibernation **Zone**, they would be blasting reversed frequency. They've been hitting the  
 upset the Hibernation **Zone** people and their operatives on Earth that has to do

---

Page: 39

---

 into that intermediary **zone**, between Earth and Urtha, so we will be able to  
 into the Aurora **Zone**, can rebirth into an upgraded human form, that would have

---

Page: 42

---

 create the Hibernation **Zones**. That was such a compromise of the original promises they  
 in the Hibernation **Zones**, just waiting to fight them. So, that is the Angelic  
 into the slide **zones**, into the New Earth, Aurora fields, and kind of make  
 of the Hibernation **Zones** that they helped to create That's something that ... there

---

Page: 50

---

 in the Hibernation **Zones** are still trying to run their little "Masters of

---

Page: 56

---

 ourselves into slide **zones**, so we can help others to get out that are

---

Page: 58

---

 So, the Aurora **zone**, or the New Earth field are the places where we

---

Page: 62

---

 shouldn't need an **Ozone** layer. The Ozone layer is part of the Hibernation Zones  
 Ozone layer. The **Ozone** layer is part of the Hibernation Zones that we'll talk  
 of the Hibernation **Zones** that we'll talk about later when we come back from  
 magnetosphere, and our **Ozone** layer, and all those things, these are constructs that were

---

Page: 64

---

 that the Hibernation **Zone** people started, it's 250 years, if it holds. Yeah. That's  
 notice, to slide **zone**, to New Earth, and that is at least a saving  
 into the Hibernation **Zones** directly from Atlantis -let's say there is a part  
 in the Hibernation **Zone**, which there is, because there is a part of every  
 of the Hibernation **Zones**. Sure, you can teach people how to open up their  
 in the Hibernation **Zone**, and how to burn off those cords that are coming

---

Page: 65

---

 the most safe **zone** that we can possibly be to do it, and we're  
 reside in slide **zone** Earth. One more thing I want to show you here.

---

Page: 66

---

 this, the Hibernation **Zone** people, we've got the Thetans, we've got Bourgha. We've got  
 basically the Hibernation **Zone** crew of the order of the Golden Serpent that are

---

Page: 68

---

 called the Hibernation **Zones**. So, the structure isn't just as simple as just 15.

---

Page: 71

---

 caught in Hibernation **Zones**, when you start projecting, and I think it will all

---

Page: 72

---

 the Aurora slide **zone** activated. It is the Ascension Earth. It is a field

---

Page: 73

---

 in the hibernation **zones**. So, what I wanted to do is just let you  
 to the middle **zone**-the New Earth that is forming. It is, literally, as

---

Page: 74

---

 running the hibernation **zones** and all of that In 9,562BC, during this great encasement  
 create the hibernation **zones** was they used these black hole technologies that were already

---

Page: 75

---

 lower D1 hibernation **zone** and an upper D1 hibernation zone. We have them on  
 upper D1 hibernation **zone**. We have them on D1, D2 and D3. These hibernation  
 D3. These hibernation **zones** used to be part of the natural holographic field of  
 in those hibernation **zone** fields Some of them are already embodied or been body  
 of the hibernation **zones**. Once those gates start to drop, you can go in

 holes in their **ozone** that frequency still can come through that will allow them  
 in those hibernation **zones** would be part of you. It's like being in the  
 new. The hibernation **zones**, it was like a jewel in their crown of anti-

---

Page: 76

---

 on the hibernation **zones** are hell bent on activating the Cadeucus network; and what  
 into the hibernation **zones**, which means pull these fields Activate the NETs, make them  
 have activated their **zones** and because of that we don't have the full coding

---

Page: 77

---

 emerging, New Earth **zone**. We'll see at the end, finally, we've goLy you will be  
 about the Aurora **zones** and all of those kinds of things, but I want  
 um, the Aurora **zone** that will be New Earth and Urtha. The MCEO Freedom

---

Page: 79

---

 Earth into this **zone** here that is being activated as the Gyrodome Field or

---

Page: 80

---

 here getting these **zones** open which are called the Slide Zones. Let's look at  
 called the Slide **Zones**. Let's look at this a little bit closer. I don't

---

Page: 81

---

 to the Aurora **Zone** and all of that So this is how the maps

---

Page: 82

---

 into a hibernation **zone**. We want to look for the safe zones and they're  
 for the safe **zones** and they're called Aurora platforms. And with the activation of  
 up to the **ozone** layer, above the D1 NET. The D1 NET forms the  
 NET forms the **ozone** layer. Above that you have the hibernation zone, upper D1  
 have the hibernation **zone**, upper D1 hibernation zone. That's where the Wizard of Oz  
 upper D1 hibernation **zone**. That's where the Wizard of Oz stories come from and  
 are the hibernation **zones** down under here. As we go up further and look  
 Well, they're hibernation **zone** places and they've been tricking people who know just a  
 into this hibernation **zone** stu If and being run by some very not nice  
 with the hibernation **zones**, people are going to start looking for religion real fast.

---

Page: 84

---

 from the hibernation **zones** want us to believe and it's about time we stopped

 where the gap **zone** is and where the outer belt is and out there  
 up in hibernation **zones** where we would have our mental body selves in the  
 by the NET **zones** and the NET zones run ... I think I have  
 and the NET **zones** run ... I think I have a clearer one than  
 into the Hibernation **Zones**. So, the D1 NET is an etheric NET that is  
 below this NET **zone** ... so the NET zone is showing in white, right  
 so the NET **zone** is showing in white, right This would be the crust  
 lower D1 Hibernation **Zone**. Above it, going up past the crust, this layer here,  
 NET is the **ozone** layer. And above that there is the D1 upper Hibernation  
 D1 upper Hibernation **Zone**. These would be etheric in nature because the D1 bands  
 We're at the **ozone** layer. This would be the thermosphere here, this circle here

---

Page: 85

---

 the Aurora safe **zone** platforms that have to do with interfaces of Urtha's body  
 create a safe **zone** field right in the same place running through them, running  
 through the Hibernation **Zones** but, at a different ARPS and a much faster BPR,  
 in the Hibernation **Zones** so that can't be attacked and raided once they are  
 the Aurora 1 **zone**? Now if this was our crust here we're going down,  
 the Aurora safe **zones** to bounce through the NETS so we can get up  
 to those Hibernation **Zones** we will have very rapid Pole Shift for apparently no  
 And the Hibernation **Zone** people don't care at this point They don't care who

---

Page: 86

---

 snared into Hibernation **Zones** and so you can break through the NETs. We have  
 Telluric lower Hibernation **Zone** and a 02 upper Hibernation Zone. The lower Hibernation Zone  
 02 upper Hibernation **Zone**. The lower Hibernation Zone has places in it like Atlantis  
 The lower Hibernation **Zone** has places in it like Atlantis and Lumeria. They were  
 of the Hibernation **Zones** in Atlantis. We are taking on the Atlantians because they  
 into the Hibernation **Zones**. It's going to get really strange out in this world  
 in their Hibernation **Zones** because the only recourse, when they try to do that  
 means the Hibernation **Zones** will start to reverse spin. They will start to go  
 allow the Hibernation **Zones** to, once the NETs drop to just snap back and,  
 with the Hibernation **Zones** and that is not going to be allowed. So, the  
 of them, the **Ozone** hole. This isn't being caused by fluorocarbons They don't help

---

Page: 87

---

 of the Hibernation **Zone** crews gave to the Earth Soul. That's not our Earth  
 running into Hibernation **Zones**, we're running into the outer NET fields as well and

---

Page: 88

---

 in the Hibernation **Zones**. That's being controlled by this one and by the chemical  
 upper D3 Hibernation **Zone** and I think this one, somewhere I have it On  
 in those Hibernation **Zones**. And it doesn't hurt them to do it, but unless  
 into the ascension **zones**. So this is the mess we're working through to get  
 there. The Aurora **zone** will actually form in between here and here and it  
 reclaim the Hibernation **Zone** parts and turn them back around and put them back

---

Page: 91

---

 under the Hibernation **Zones**. I think ... I'm not going to get into these  
 and the Hibernation **Zones** were created by, in 9562BC when the raids, the Fallen  
 Aurora 1 Safe **Zone**. It's the Aurora 1 Platform. It's the subterranean Earth between  
 of the safe **zone** location that is the access point, the Ah"RU-NE"wa and  
 with the Aurora **zones**. We have here Aurora 2 Platform Now the Aurora 2  
 Earth, here's our **Ozone** layer, here's our thermosphere. It's in Earth's thermosphere so  
when  
 the OZ Hibernation **Zones**. We start to see a bit of cities in the  
 from the Hibernation **Zone** Oz lands. So this one is called Ah-SA-LE"-  
 Aurora 3 Safe **Zone** which is in the Van Allen Gap, all right. That  
 like a meeting **zone** where they could create the Aquafereion hybrid races that were  
 upper Telos Hibernation **Zone**, so it's above Telos. And this plugs right into the

---

Page: 92

---

 an Aurora Slide **Zone**. So you have one and two merge, when Ecousha 1  
 We have Slide **Zone** 1 open. The next one is for 2 and 3  
 the Second Slide **Zone**. You have Slide Zone 1, Slide Zone 2, Slide Zone  
 You have Slide **Zone** 1, Slide Zone 2, Slide Zone 3 is here. We  
 Zone 1, Slide **Zone** 2, Slide Zone 3 is here. We are going to  
 Zone 2, Slide **Zone** 3 is here. We are going to begin the process  
 a physical slide **zone**. It is a new Earth birthing right around the one

---

Page: 93

---

 around the Slide **Zones** because there's all sorts of things that slide in through  
 forget which Hibernation **Zone** it is there, but OZ, the one that's in relation

---

Page: 94

---

 connects into the **Ozone** Layer and moves through it so you can get into

---

Page: 96

---

 where the slide **zones** will be. So they're very close. They're not, ya know,

---

Page: 98

---

 open the Hibernation **Zones**, which if that were successful it would suck in every

---

Page: 103

---

 the Aurora Slide **Zone** and the relationship with New Ascension Earth and the coordination

---

Page: 112

---

 with the hibernation **zones**, which were the iron gates of the d-1 etheric,

 level of hibernation **zones** and the d-3 gates of steel. By the end

---

Page: 113

---

 into a Hibernation **Zone**. And that's the stuff they've been running We've never countered

---

Page: 116

---

 running the Hibernation **Zones**, have the image of the Procyones because they were part

---

Page: 117

---

 in the Hibernation **Zones** who would love for us to think so, so they're

 behalf, the Hibernation **Zone** people's behalf, and we need to be careful of that

 from the Hibernation **Zones** or from other life times where you got stuck in

---

Page: 118

---

 Mental Body Hibernation **Zone** interference where it's very hard to tell what's right from

---

Page: 123

---

 to the Hibernation **Zone** and find the part of our own consciousness that is

---

Page: 124

---

 the "slide **zones**" and then eventually there's another set of these that go

---

Page: 125

 of the Hibernation **Zones** and those kind of things. We'll cover that again too  
 into the Hibernation **Zones**. The Cadeucus network was meant to do just that, to  
 inhabit the Hibernation **Zones** -that we'll look at the structure of more later-  
 into the Hibernation **Zones**. If they were able to do that it would break

 rapid depletion of **ozone**, all of those kind of things, that they would give  
 from the Hibernation **Zones** -this is where we get into a Red Dragon

 between the Hibernation **Zone** crews that we can't see, and the Wesedrak Matrix that

 of the Hibernation **Zones** and they took over and activated the big, what we

 shift, the Hibernation **Zones** are ... and they are going to get pulled into

 what the Slide **Zones** are for So at the moment we've again gone through  
 because the Hibernation **Zone** people were, they were not too happy about the fact

 Crust, here the **Ozone** layer. So this is where our reality field is taking  
 up to the **Ozone** layer. Now we go up into what's called the Thermosphere,  
 the Aurora Slide **Zone**. The Slide Zone activates through a process of activating what  
 Zone. The Slide **Zone** activates through a process of activating what are called 4  
 up a Slide **Zone**. The first level of a Slide Zone, which is a  
 of a Slide **Zone**, which is a 3-dimensional reality field that has part  
 will open Slide **Zone-2**. And again it's another 3-dimensional set, it's like

 field of Slide **Zone-1** that would be like the Density-1 Slide Zone  
 Density-1 Slide **Zone** and this would be the Density-2 Slide Zone, then  
 Density-2 Slide **Zone**, then the Density-3 Slide Zone ... So it would  
 Density-3 Slide **Zone** ... So it would give you 3 densities of Holographic  
 to a Modulation **Zone**, where it has a chance to turn on more of  
 be the Slide **Zones**, and we're having a very rapid activation at this point  
 of the Slide **Zones**. When we referred to before the Gyrodome .. The Gyrodome

 over the Hibernation **Zone** issues and who is controlling the Big Ankh, and right  
 into the Hibernation **Zones**, which the Reds perceive as all of us assisting the

 where the Hibernation **Zones** are beginning to transmute And down here is our surface,

 The lower Hibernation **Zone** is where Atlantis and Lemuria are. They have physically been

 Zones. The Hibernation **Zones** go above and below each of these. These three tube  
 all into Hibernation **Zones**. Up above and below a NET -that's the D-  
 D-3 Hibernation **Zone** and below it the Lower D-3 Hibernation Zone. They  
 D-3 Hibernation **Zone**. They all have names. I forget which ones are which,  
 Oz in the **Ozone** layer, which is really sad. That's one of these NETs  
 upper forms the **Ozone** layer. The Ozone layer is not natural. It's a part  
 Ozone layer. The **Ozone** layer is not natural. It's a part of the Hibernation  
 of the Hibernation **Zone** structure At the moment, yes, it's blocking out solar rays,  
 form a Slide **Zone**-1, which itself will be a three dimensional system- the  
 one. Then Slide **Zone**-2 would be from Aurora-2 and 3 Platforms activating  
 merging together. Slide **Zone**-3 would be from Aurora-3 and Aurora-4 Platforms  
 or New Earth **zone**- you know the new heavens and new Earth stuff in  
 in the slide **zone**. That is what we mean by activating the Gyrodome field  
 with the slide **zones**. I just want to get them to where they see

 where the Hibernation **Zones** are, and NETs are, going all the way up to

 the Aurora slide **zone** sets So, we're actually activating the Gyrodome very quickly. This

 from the Hibernation **Zones**. All right, they're coming in from the reversed fields and

Page: 252

 and the slide **zones**, all of this is assisting to buffer the planet They

---

 and the Slide **Zones**. They're giving them a place to step down TO, and

 us through Slide **Zones**. They will probably come and do something here to help

---

 do in hibernation **zones**. It's not like that at all. Going home to Source

 being able to **zone** out and go with it. You know, I can't wait

 dealing with hibernation **zone** people- oh they love to play games and send us

---

Page: 292

 by the hibernation **zones**, and that are actually within the eyes, and also within

---

Page: 294

---

 the Aurora slide **zones**, that are that halfway modulation spot This is going to

---

Page: 295

---

 roll the hibernation **zones** into us, and I have no idea what that will

 draw the hibernation **zones** into here, and cause messes on both sides, cataclysmic messes

 sorts of slide **zone** opportunities opening up for people all over the place, so

---

Page: 301

---

 from the hibernation **zones** and from other systems, and just mowed people down with

 where the slide **zone** is. But, they would actually be able to come in

---

Page: 303

---

 from the hibernation **zone** here, because what they've done is they've split the outer

---

Page: 308

---

 have the hibernation **zones** of the split natural fields running We don't have the  
 opens this slide **zone** area. In-between here, you would have the Ecousha 1  
 into the slide **zones**, and these are progressively being activated and it's almost as  
 Aqualene sun slide **zones**. I'm not going into where is everybody, because this is

---

Page: 309

 creates a hibernation **zone**, and in the Net is the natural zone. So, what  
 is the natural **zone**. So, what is happening now with the large Ankh of  
 in the hibernation **zones**. Too bad it's not mutual. But they will try to  
 lot of hibernation **zone** ones trying to send you out on that, so you  
 to the slide **zones**, so we can go back and forth between them, and  
 them into safe **zones**, slide zones. There is still a big mission here for  
 safe zones, slide **zones**. There is still a big mission here for us. I

 or make the **ozone** layer go away, because the ozone layer is being formed

 roll the hibernation **zones** into here. That is what they did on 7-7-

---

Page: 311

 of the hibernation **zones**. So, thank you AI Gore, and the team of the  
 way the time **zones** work. So, if you started them there and then go

---

Page: 312

 of the hibernation **zones**, a progressive falling of the ozone layer- depletion- for no  
 falling of the **ozone** layer- depletion- for no apparent reason, and a very rapid

 These are the **zones** you want to this is what's holding, again, more of

 of all, safe **zones**, where you can go through the natural structures that will

 what these ascension **zones** that are created by the Aurora platforms do. The Hibernation

 do. The Hibernation **Zones** have been trying to use certain technologies called the Caduceus

 into the Hibernation **Zones**. To do that would create a three-day pole shift,

 running the Hibernation **Zones**, tried to stop them on July 7 (2007). So,

 to the Slide **Zones** faster There's something else that that will do for ..

 by the Hibernation **Zone** people, which would have created the three-day pole shift

 are the safe **zones** and these blend through what are called Ecousha platforms that  
 bringing the Slide **Zones** . they are already open, but opening them into our

 talk about slide **zones** and even when we talked early, way, way back about

 into the hibernation **zones** under Red's control, because they have been fighting with the

 where the safe **zones** were, to compare them to the other maps and those

Page: 71

 that shows safe **zones**, I'm sure that they will be one of the top

 get the safe **zone** map out and show how that works. So, it shows

---

Page: 72

---

 about the hibernation **zones** in Atlantis, which is in hibernation zone 2, and that

 is in hibernation **zone** 2, and that is the physical solid one. So Atlantis

 in your time **zone**, the whole bit, if they pulled the shield, all of

---

Page: 73

---

 give us Red **Zones. Zones** that are likely ... you know ... because of

---

Page: 78

---

 and the hibernation **zone** people that we've talked about before, as far as the

---

Page: 83

---

 sucked into Hibernation **Zones**. This is the progression that began in 9562BC, right before

 pulled into Hibernation **Zones** in the 9562BC period, when the certain other groups of

 created the Hibernation **Zones** by reversing-putting the NETs in on Earth and reversing

---

Page: 84

---

 into the Hibernation **Zones**, which means the Rigel ian crews lost them actually. So

 between the Hibernation **Zone** Fallen Angelic groups- and some of which, numerous which, are

---

Page: 87

---

 than the Hibernation **Zones** people agenda was. They are working with some of them

 in the Hibernation **Zones**. But they also have ... are not friendly, they are

 into the Hibernation **Zones**. And if that happened, it would be an interesting thing

---

Page: 88

---

 Both the Hibernation **Zone** crew-which were not the Rigelians even though they have

 with the Hibernation **Zones**. But the first ones that started to come out didn't

 on the Hibernation **Zone** maps-which are the ones that are being put out

---

Page: 89

---

 away from Hibernation **Zones**, and they tend to-1 don't know if any of

 from the Hibernation **Zones**, alright Now it gets interesting where we see the other

 is a Hibernation **Zone** map, where the other is the Rigel ian land map,

 into the Hibernation **Zones**, or they're lands that fell and went deeper down into

 the reversed Hibernation **Zones**. So if the Caduceus Rod, the artificial rod on the

 is the Hibernation **Zone** map, what would be in the Hibernation Zones of Earth.

 in the Hibernation **Zones** of Earth. You'll also see-it's really fascinating. You've got

---

Page: 90

---

 when the Hibernation **Zone** crew working with -well some of them, there are

 in the Hibernation **Zone** crew. But in those groups of FAs, their intention was

of the Hibernation **Zones** after they roll in the Earth as we know it

 maps in their **zone** that isn't the Hibernation Zones. And the other one would  
 isn't the Hibernation **Zones**. And the other one would have been slower. It would  
 into the Hibernation **Zones**, but at a hyper-accelerated rate to fulfill the Kill  
 were the Hibernation **Zone** maps. And it's like, oohhhh, oh cool, I never thought

---

Page: 91

---

 that are Hibernation **Zone**. Because the ones that show California nice and tidy, and

---

Page: 92

---

 it's a Hibernation **Zone** map so .. A"zah \_\_ perhaps and this one ..  
 are the Hibernation **Zone** ones. These are the I AM people, OK, and they  
 definitely getting Hibernation **Zone** stuff, because you got part of the Mississippi stuff going,  
 it's a Hibernation **Zone** map. If it has most of California still intact, it

---

Page: 95

---

 in the Hibernation **Zone** that we showed on the other map. It's up around,

 our own safe **zones**, like zones that are definitely going on the Ascension Path.  
 safe zones, like **zones** that are definitely going on the Ascension Path. And to  
 going into Hibernation **Zones**. So we see which ones-because their maps would change

 into the Hibernation **Zones**. Next one, please. [graph 03537] We need to show

---

Page: 103

---

 where are safe **zones**. But at least we know what's going to happen, when

---

Page: 104

---

 to that time **zone** actually, that you could directly link there if you could

---

Page: 108

---

 get the Safe **Zone** Maps done and that's going to take a while. Plus

---

Page: 111

---

 have our Safe **Zone** Maps and I'm not sure how long that's going to

Page: 117

 into the Hibernation **Zones** that we spoke about. But the Green Dragons got a

 roll the Hibernation **Zones** into Earth, instead of Earth into the Hibernation Zones. Either

 into the Hibernation **Zones**. Either way you've got rolling happening. You've either got incoming

 Maps. Now, Safe **Zones**, it helps to understand what a Safe Zone is, first

 what a Safe **Zone** is, first of all. As far as Earth in these

 really a Safe **Zone**, I'm sorry. But it's what the Caduceus Rod has the

---

Page: 119

 places called Subduction **Zones** where one plates starts to move under another-where the

 be called Subduction **Zones**. And that's where you tend to have quaking and tremoring

 be a Subduction **Zone**. And, these are moving away from each other, there are

 there are Subduction **Zones** over here, and you'll see where these are and it's

---

Page: 121

---

 showing the Subduction **Zones** pushing at each other, the Spreading Ridges pushing away from

---

Page: 123

---

 creates the Hibernation **Zones**. They were only created in 9562 BC when they finally,

---

Page: 125

---

 of the Slide **Zones**. Those areas would have to open. Now, because they are

 where the Safe **Zones** are going to appear, because of the other things that

 into the Hibernation **Zones**, so that second third that was broken into two pieces-

---

Page: 126

---

 now controls Hibernation **Zone** but still interfaces directly here with our Earth where you

---

Page: 127

---

 mean the Slide **Zones** close. So, that's one of the things we're hoping to

---

Page: 128

---

 constitutes a Safe **Zone**, and what does not, because-do you go here? But

---

Page: 130

---

 have the Safe **Zone** Maps that will show the probabilities of what and when,

---

Page: 132

---

 where the safe **zones** are, and so we can let people know where you

 in the Hibernation **Zones** and that would grab about an equal quantum of Median

---

Page: 134

---

 are those Safe **Zone** Maps, right? So, they're in the process of that But

---

Page: 173

---

 in the Hibernation **Zones**. So it's up to us, the Aquafereion Shield here as

---

Page: 174

 opening the Median **Zone** fontanel They're also known as "The Fountains" because the

 from the Hibernation **Zones**, for example, talking to you and saying "Hi, come

 to the Hibernation **Zone** with them and not realizing it. You can get yourself

 into a Hibernation **Zone** by accident But, anyway, they will train us in the
