 hole in the **parallel** universe was intended to be ripped all the way down

 system and it's **parallel**. It could work its way from there. This is what

---

Page: 6

---

 those of the **parallel** universe. If they have help to get the Heliotalic frequencies,

---

Page: 14

---

 even more than **parallel** Earth, because parallel will be the more electrical. So, there's  
 parallel Earth, because **parallel** will be the more electrical. So, there's something coming with

---

Page: 22

---

 are from the **parallel** system in the Wesedrak black hole. It just so happens  
 Wesedrak system in **parallel**, their black hole. Now it's a whole series of events  
 the anti-particle **parallel** universe, all the way back in our universe, through our

---

Page: 35

---

 over here (**parallel**). Again, it had to do with the black hole experiment,  
 phantom sides on **parallel** and in the particum universe, and you had the remaining

---

Page: 37

---

 Wesedaks infiltrate Earth, **parallel** Earth, planetary arc gates 2 (Stonehenge) via the Halls  
 Earth and into **parallel** Earth. They opened the Arc 2 wormhole, activated the Arc

---

Page: 39

---

 here and in **parallel**. From there, they created the planetary Solar Cross and 34/

---

Page: 40

---

 Earth and partike **parallel** Earth, into the phantom black hole counterpart, and to accelerate

---

Page: 41

---

 alignment with the **parallel** Wesedrak black hole. There would be an alignment that we're  
 black hole in **parallel**, on a CCW spin, then they were going to hit  
 in the partike **parallel** universe into and through the particum universe and into the

---

Page: 43

---

 activate fully. The **parallel** side and the particum side will get the territories they

---

Page: 45

---

 veca. There's our **parallel**, our light field and parallel light field. The Ecka is  
 light field and **parallel** light field. The Ecka is up here, and this is

---

Page: 47

---

 system, and its **parallel**. Though installing Beast technology, they hoped to reverse the spin

---

Page: 52

---

 fully activated yet. **Parallel** is in the parallel place to the 11 over here.  
 is in the **parallel** place to the 11 over here. The 11 over here  
 connects to the **parallel** 10, in Iran, interestingly. On the galactic level that connects

---

Page: 54

---

 direction in the **parallel** universe. There were technologies. It's even funny, in the UFO

---

Page: 55

---

 one over in **parallel**, and they have to move in tandem." Yeah, right! This

---

Page: 60

---

 other one in **parallel**. Now we have the 34 vortex CCW in the particum  
 initiation activated the **parallel** 3 to the Anti-Christos arc seed atom, to the

---

Page: 61

---

 axis, and the **parallel** light fields do the opposite up here and they Andorra

---

Page: 62

---

 hole in the **parallel** system and come into alignment with that. This is what

---

Page: 73

---

 there in The **parallel** universe. And through this process of The planetary grids and  
 so is your **parallel** with you. Your energy fields are being pushed together. This  
 spiral from The **parallel**, The 21 CW. And this is where you start to

---

Page: 89

---

 between here and **parallel**, that can be accessed from either side if those gates

---

Page: 93

---

 place in The **parallel** anti-particle universe. So, we wouldn't see those planets, and

---

Page: 94

---

 thing in The **parallel** side, and they are trying to literally force The universes

 matrix over in **parallel**, and then they were going to suck that matrix in

---

Page: 95

-  This is our **Parallel** PKA, or Anti-particle Veca here. Now what they hadn't
  -  We have our **Parallel** system here, our Parallel Eckasha. And that's where the Bourgha
  -  system here, our **Parallel** Eckasha. And that's where the Bourgha Black Hole system is
- 

Page: 41

---

-  Holes from the **Parallel** system, the place where Parallel Earth is, the PKA system
  -  the place where **Parallel** Earth is, the PKA system So, we'll look at that
  -  is us, our **Parallel** Veca, where the Parallel Earth is, and this is our
  -  Veca, where the **Parallel** Earth is, and this is our Parallel Eckasha, where the
  -  this is our **Parallel** Eckasha, where the fallen Bourgha Black Hole system is. This
- 

Page: 42

---

-  would be our **Parallel**. Inside our Eckasha, there would be four Vecas, and those
  -  angle is our **Parallel**. That is where on the Eckasha maps our Parallel Veca
  -  Eckasha maps our **Parallel** Veca system was. That would be Veca-2. So this
  -  is where the **Parallel** Earth is, and the Parallel system Black Holes. And this,
  -  is, and the **Parallel** system Black Holes. And this, if we look at our
  -  8, is our **Parallel** Eckasha, and that is the one that holds this completely
- 

Page: 43

---

-  here, into the **Parallel** system, and that links through into the center of our
  -  5. There's a **Parallel** Veca too There's the Parallel Eckasha, Bourgha Black Hole system
  -  too There's the **Parallel** Eckasha, Bourgha Black Hole system So, this isn't showing the
- 

Page: 44

---

-  have the Bourgha **Parallel** Eckasha Black Hole system passing through into our Eckasha, right?
  -  but into our **Parallel** Veca, and not into Veca-5, exactly, but Parallel Veca
  -  5, exactly, but **Parallel** Veca Black Hole passes into ours. So, this is where
-

 interfacing with the **Parallel** Black Hole system That's very close to the larger Bourgha

---

 also see the **Parallel** interface This is our Veca-5, with our Meta-Galaxy-  
 means they are **Parallels** to each other. So, you have, this would be the  
 problem with our **Parallel** system But there is a problem with it First of  
 would be the **Parallel** Eckasha. So, you got your-this is our Parallel Veca  
 this is our **Parallel** Veca and that's Parallel Eckasha, and that is the Bourgha  
 Veca and that's **Parallel** Eckasha, and that is the Bourgha Black Hole interface So,

---

 system, and our **Parallel** Black Hole Veca system I'm not showing you yet what  
 there is a **Parallel** M31 system, that is over in Veca-2. Each of  
 would have a **Parallel** M31 system, which means they each have a Milky Way  
 the Veca-2 **Parallel** side, because over in here somewhere we would have Parallel  
 we would have **Parallel** Urtha. Next one please. There is that little eyeball, upside  
 we have our **Parallel** Veca-2, here, and remember Veca-2 is all twisted,

---

 This is the **parallel** of that, so if this was Urtha-where are we?-  
 we would have **Parallel** Urtha here. I think it's this one. I'm slightly dyslexic.  
 is the larger **Parallel** Eckasha Bourgha Black Hole interface So, literally, the center of  
 happening with the **Parallel** system, and it's over in this system that we have-  
 far we have **Parallel** Urtha. Once we see Milky Way, we'll understand where Parallel  
 we'll understand where **Parallel** Earth is as well, because Parallel Earth is the interface  
 as well, because **Parallel** Earth is the interface point that they are using to

---

 in there at **Parallel** Urtha system Interesting. And that goes all the way through

---

 one, the original **Parallel** of the M31 system This implies that there's one of  
 over in the **Parallel** Veca, which means more numbers to align and all of  
 far as the **Parallel** interface goes. Because I do believe a lot of what

---

 in from the **Parallel** System. So that's the overlap and I just cut the

---

Page: 72

---

 It goes through **Parallel** Earth actually, and into that Veca-2 Core that is

---

Page: 101

---

 here is our **parallel** Veca. And this is where Black Hole problems are happening,  
 is in the **parallel** Eckasha level. Next one please. [0 05 1 0]  
 happening with our **Parallel** system, because this is still not showing the Milky Way  
 system, and the **Parallel** M-31 system over on this Veca. So these systems  
 would be the **parallels** of our system here. And they are parallels- you would  
 And they are **parallels**- you would find Parallel Earth over here, I believe. Yeah,  
 you would find **Parallel** Earth over here, I believe. Yeah, Parallel Earth is over  
 I believe. Yeah, **Parallel** Earth is over here. And when we see our Milky

---

Page: 104

 times we would **parallel** each other"s. That"s where you kind of find the New

---

Page: 106

---

 which is the **parallel** to ours, alright? This system isn"t split- it"s completely fallen,

---

Page: 108

---

 this is the **parallel** of our Milky Way- so there is a natural part

---

Page: 109

---

 though they are **parallel**, they are quite different than what we have over here.  
 be the natural **parallel** of the Andromeda systems over there that doesn"t have that  
 planet areas where **parallel** Earth has a whole set of complexes using/abusing their  
 they had seeded **Parallel** first, but Parallel got progressively taken out by the Thetans  
 Parallel first, but **Parallel** got progressively taken out by the Thetans and the Bourgha.

---

Page: 114

 over in the **Parallel** Milky Way is activated, it creates this nightmare through the

---

Page: 116

---

 and here is **Parallel** Earth. There would be a frequency link between Earth and  
 between Earth and **Parallel** Earth between our Sun and the Parallel Sun over there,  
 Sun and the **Parallel** Sun over there, I believe that"s Rhabezoid, and this would  
 AshaLA and its **Parallel** over in this system. And that"s why Earth had been

---

 the, with their **parallels**, both of the parallels; Earth and the Sun's parallel in  
 both of the **parallels**; Earth and the Sun's parallel in Veca-2 and this  
 and the Sun's **parallel** in Veca-2 and this would bring, and it would  
 took over their **parallels** so they have those under their control, under the Black

 These interface with **Parallel** Earth, so these are actually bringing in frequency unnaturally from
