 to talk about **time-rips** for a minute. We mentioned at FOL workshop that

Page: 44

 a triangulation of **time-rips**. **Time-rips** are different than portals. They are different
 with precise mathematics. **Time-rips** are blasted through and they are very volatile, but
 that this particular **time-rip** that is now of issue in terms of Threshold-
 plugged into the **time-rip** system to run the Triangulation of the 3 matrices-
 closed so the **time-rip** couldn't be re-opened over into our side of

Page: 49

 on the Gilbert **time-rip** and that was meant to get control of the

Page: 50

 attack using the **time-rip** that they have activated and anchored in Mecca and

Page: 51

 the Gilbert anchored **time-rip** so they could get control of the Tempe Cluster
 that from their **time-rip** to actually suck out the consciousness of D- 1,

Page: 53

 sitting under a **time-rip** to finish our end of it We were successful

Page: 54

 live under a **time-rip**. It is a very pretty house but is has

Page: 58

 and through the **time-rips**. So when we are dealing with Elemental Commands there

Page: 62

 sucked down a **time-rip**. We are getting the Knights of Aquareion upgrade for

Page: 66

 trashed by the **time-rips** and the things that are coming in Threshold. So,

Page: 70

 said, activated the **time-rip** under the black cube in Mecca and I would

 is where a **time-rip** is anchoring. We live under one over there in

 exactly where the **time-rip** is right now, where the central one is, we'd

Page: 72

 use the Gilbert **time-rip** directly interfacing with the Urta time-rip, which is

 with the Urta **time-rip**, which is the one I believe down off where

Page: 81

 and opened the **time-rips** again Now, it doesn't mean we are going to

Page: 82

 right under a **time-rip** where ... that's why we ended up guided to

Page: 85

 systems or the **time-rips**, they'll pick-up either because they are reversed matrix

Page: 90

 down there. The **Time Rip** is down south. This area somewhere in through here,

Page: 92

 Hinckley?] where our **time-rip** house is-Gil-pit, right over in here is

 of the smaller **time-rips** that are here, and they were using that to

 this and the **time-rips** that they have ... the Gil-pit one going

Page: 93

 actually had a **time rip** going into our Ecka level. If they had tried

 AdorA side, the **time-rip** in their black hole. So they have been guardians

 guardians of that **time-rip**, trying to fight the Bourgha to stop them from

Page: 107

 created by the **time-rips** and the technologies involved with the Threshold and the

Page: 150

 the E-Umbic **Time Rip**. This is connected, it was revealed in 12 Tribes

Page: 151

 there is a **time rip** there that has to do with the matrix that

 that briefly. This **time rip** has been activated and plugged into the Threshold System-

Page: 156

 the E-Umbic **Time Rip** connection. It's horrible, horrible energy in the grids there.

Page: 157

 the E-Umbic **Time Rip** races and raided these three gates They raided Ruta

 into using the **Time Rip** technologies. They still can't amplify Threshold enough to take

 the E-Umbic **Time Rips** again and they caused an aneurysm in her heart

Page: 158

 connecting into the E-Umbic **Time Rips**-not only how strong these frequencies are, but what

Page: 161

 from creating a **time rip** into the AdorA side of our matrix and in

 the E-Umbic **time rip**, that would go through the AdorA side into the

Page: 165

 it into their **time rip** technology and take the entire thing down with us

Page: 166

 black hole set **uptime rip** actually-not even a black hole, a time rip

 black hole, a **time rip** set up the Bourgha had made from a parallel

 to stop that **time rip** from spreading, to stop the Bourgha from invading this

Page: 169

 they developed a **time rip** technology. They destroyed the other part of themselves-the

 to develop the **time rip** technology and it created black hole fall of the

 and used the **time rip** technology to just literally wipe out the whole Ecka-

 they developed the **time rip** technology enough where they created an unstable, unnatural time

 an unstable, unnatural **time rip** between the fallen Ecka of parallel Eckasha (so,

 ripped-they used **time rip** technology. Time rips are different than worm holes. They

 time rip technology. **Time rips** are different than worm holes. They are much more

 constructs comparatively, so **time rips** are very, very volatile and those who use them

 involved with the **time rips**. So they made a time rip. This is when
 they made a **time rip**. This is when they moved out of their own
 from using their **time rip** technology to fulfill their anti-Kristiac objective of assimilating

Page: 170

 the unnatural Bourgha **time rip** continued to connect the Parallel Eckasha fallen Ecka-Veca
 seal our Ecka **Time-Rip** "from within" or would at least have sufficient
 could fix the **time rip** and stop the fall of this matrix. Because the

Page: 176

 the E-Umbi **time rip** zones have this way of whacking the astral and
 the E-Umbic **Time Rip** from the AdorA side of our Ecka-Veca system

Page: 177

 playing with the **Time Rip** guys they have genetic connections to the E-Umbic

Page: 178

 links of the **Time Rip** Links. Now remember that when we moved there we
 "That"s a **time rip**." "Oh ... time rip is that like
 "Oh ... **time rip** is that like a wormhole?" "It"s different"
 first clue about **Time Rips** and that kind of thing. So the one down
 the E-Umbic **Time Rip** and the Urta and Ruta smaller time rips ...
 and Ruta smaller **time rips** ... is Mecca. It"s where the black cube is
 the E-Umbic **Time Rip** anchors. So they can just push them out of

Page: 179

 talk about the **Time Rip** right now in relation to its anchoring point or
 there ... the **Time Rip** there was connected to interface into this area. That

Page: 180

 the E-Umbic **Time Rips** and that connecting into the Wesedrak and Bourgha matrices.
 that this whole **time rip** thing ... this has to do-these guys were
 energy of these **time rips**. So, this was the natural Arc Hub-7 cluster
 to run the **Time Rip** from there and drag it in, literally, into the
 connected into the **Time Rip** and literally drag it all in so they can
 matrix through the **Time Rips** at this point, still running through these sets, but

Page: 181

 was the other **time rip** that was meant to go after that spot that

 13 site-that **time rip** was meant to control it, in fact I wouldn't

Page: 241

 of guarding the **time-rip** that the Bourgha made and stopping the Bourgha as

Page: 242

 know about the **time-rips** at the time. We didn't know about any of

 ... about the **time-rips** and the Bourgha. Tell them the rest so maybe

Page: 245

 apparatus and the **time-rips** working with help, the frequency push from the Bourgha

 from the Bourgha **time-rips**. This created fragmentation through the fields, they literally are

Page: 254

 the E-Umbi **time-rip**, I do believe they have messed up that potential

Page: 262

 it used its **Time-Rip** Technologies to do any more damage or to let

Page: 263

 called the Bourgha **Time-Rip** Technologies. And because of that connection, if there weren't

Page: 264

 they created a **Time-Rip** Technology that allowed them to break the quarantine. Because

Page: 265

 had already used **Time-Rip** Technology to rip into our Ecka. Our Ecka wasn't

Page: 273

 called the Bourgha **Time-Rip** Triangulation. They've been throwing certain types of frequency beams,

Page: 274

 enough to make **time-rips**, you'd think they'd realize that this isn't going to

Page: 275

 who brought the **Time-Rip** Technology into the E-Umbic level on our Universal

Page: 278

 They developed a **Time-Rip** Technology that allowed them to tap into our Ecka

link between their **time rip**, once they broke quarantine, and our core. This is

📄 fell using their **time rip** technologies, they spliced into our Ecka system 1st and

📄 the "Bourgha **Time-Rip** Triangulation." This is why they can generate so much

📄 by linking the **Time-Rip** Triangulation through. So, there"s nothing in a single system-

Page: 296

📄 and developed a **Time-Rip** Technology by which they were able to break the

 complex was a **Time-Rip** technology, you have Threshold technology on Parallel Earth that
 called the Bourgha **Time-Rip** Triangulation which they had a triangulation of running through
 a Tri-Matrix **Time-Rip** cord actually in order to assimilate the 3 Matrices
 Parallel Earth this **Time-Rip** Triangulation to allow for full development of the Threshold
 Bourgha running the **Time-Rip** technology through their Micca complex, came over and broke
 the E-Umbic **Time-Rip** locks- and certain races called the E-Uby Races
 the E-Umbic **Time-Rip**- using their systems, were able to break through into

Page: 439

 the E-Umbic **Time-Rip** from our Sun. It goes from the E-Umbi
 the E-Umbi **Time-Rip** over to our Sun and down into the Mecca

Page: 446

 up the Mecca **Time-Rip** complex over here that was supposed to link into
 the E-Umbic **Time-Rip** and give a perfect access to the .. for

Page: 447

 to anchor the **Time-Rip**, the E-Umbic Time-Rip through Parallel Earth and
 the E-Umbic **Time-Rip** through Parallel Earth and that was not stopped or

 They created a **time rip** into our Ecka, and it was because of that,
