 you have one **vector** running this way, horizontally, one vector running this way, horizontally,

 would be one **vector**. And, again, you have a KaLE Hara Body; you have
 center, for each **vector**. So, you have one running ... one horizontal vector. There's
 ... one horizontal **vector**. There's another one running ... remember, you have the EtorA

 as your Prime **Vector**, the 1-7 will end up as the vertical one

 Vector Slide. A **Vector** Slide means, if we are on Event Horizon, or Chamber,
 or 10/4 **Vector**. So, without the Halls opened, that allow for the Slide

Page: 77

 how on a **Vector** line the two, when the Halls of Records at the

Page: 79

 that's our Adjugate **Vector**, **Vector** 10, alright? We're here, and our Eiradonis Body, which

Page: 80

 Body, on our **Vector** 4/10 line, which is where we are located, where
 go into other **vectors**, if they want to So, it's like the first key

Page: 81

 would be the **Vector**-10, over here, side integrating it's Eiros Eiradonis, right And

Page: 82

 on the same **Vector** but what's called your- what is that word? It's not

 with your Resolute **Vector**, which is the one that runs at a goo angle.

 the 4-10 **Vector**. And then that goes from, let's see -this cycle,

Page: 87

 but across our **Vector**, on the other side of our Vector- we're on 4,

 side of our **Vector**- we're on 4, there is a 10 Vector right Well

 is a 10 **Vector** right Well there is an ElorA Manifest System there, so

Page: 95

 in the same **Vector** which is Vector -4 that we are, but they

 Vector which is **Vector** -4 that we are, but they are on the

 AdorA side in **Vector**-4. Now every- it helps to understand, and this is

Page: 97

 without-actually on **Vector** 4. Now, a Vector-4 Starfire Cycle doesn't involve as

 4. Now, a **Vector**-4 Starfire Cycle doesn't involve as much energy as a

 energy as a **Vector**-1 0 Cycle would, because each of the vectors has

 each of the **vectors** has a bit more energy quantum behind it. So everyone

Page: 98

 on the same **vector** That would allow the beginning of activating the next set

Page: 101

 each of these **vectors**, you would have basically 4 cells. We're in Vector 4

 cells. We're in **Vector** 4 and our Adjugate is Vector 10. And I don't

 our Adjugate is **Vector** 10. And I don't even have them numbered on here,

 10 is our **vector** set. So when we're talking about that line, that's what

Page: 102

 which is the **Vector** Body, and has to do with the probabilities. There's a

Page: 105

 that showed one **Vector** Line, whatever it is. You could point at 4-10

 it's one full **Vector** Line. This is one Chamber or one Event Horizon. This

Page: 106

 this is our **vector** here, this would be our ElorA system That would be

Page: 121

 a shared Time **Vector**, where we are in the 4 position, and directly across

 one to two **Vector** to three Vector all the way up, so something on

 Vector to three **Vector** all the way up, so something on a 10 Event

 Horizon on that **Vector** is much larger, much stronger, much more evolved than something

Page: 128

 what's called the **Vector** Pillar or the Gha-Fa" Line from the A 10

 talk about a **Vector** Line, we're talking about-if this was a clock and

 to as a **Vector** Line. One Vector Line has two Event Horizons. That 1

 Vector Line. One **Vector** Line has two Event Horizons. That 1 0-41ine would

 to the other **vector**, we would have actually our Spirit Body, our Mahara Reisha

Page: 136

 in the same **vector** -not just our Adjugate, that's cross-vector-In the

 Adjugate, that's cross-**vector**-In the same vector, where we're in the E4 vector,

 In the same **vector**, where we're in the E4 vector, that implies there is

 in the E4 **vector**, that implies there is an A4 manifestation as well on

Page: 137

 on the other **vector** But it is part of the Spirit Body. It is

 out the other **vector** to form the Spirit Body. And they keep a balanced

Page: 139

 we're thinking about **vector** lines, that would be one-third out on the front

 on the front **vector**, and behind that Creation Point would be the other two

 on the other **vector** line ... on the same vector line but way over

 on the same **vector** line but way over in the other Horizon. There's a

 smaller Horizon, or **vector** relationship that we have, with the back half of our

Page: 141

 end of our **vector** line, over in the 10 camp. So, we have our

Page: 142

 side of the **vector** into the 10 Horizon, where our Spirit Bodies and the

Page: 144

 opens the entire **vector** line. It would open the entire vector line between like

 open the entire **vector** line between like the 4 and the 10, through the

Page: 146

 the A 10 **vector** being here. You know it's getting tough in the drama

 and open the **vector** line. So, they're literally ... we either ... this is

Page: 149

 side of the **Vector** Line. So, as these are going, once you open this

 open this whole **Vector** Line, the whole bunch of them start. What we're going

 the A 10 **Vector** or the A 10 Horizon of the 4/10 Vector

 the 4/10 **Vector** that we're on. They're called the ... just like we

Page: 150

 the A 10 **Vector**. So, they represent a simultaneous manifestation, but in their time

 on the 10 **Vector** as opposed to a 4. And it's, all of this

 looking at one **Vector** Line with two Event Horizons-one projecting energy out that

 This is 1 **Vector**. (Aside talking with the audience.) We'll see how this
 you see a **Vector** Line, and a Vector Line is the one that runs
 Line, and a **Vector** Line is the one that runs completely across, and it
 do with time **Vectors**, and what time Vectors we are in, and, there's going
 and what time **Vectors** we are in, and, there's going to be-alright, they're
 you see a **Vector** Line, this setup is implied. Alright? So when you see

 on that other **Vector** on the AdorA system. So it's giving you an idea

Page: 19

 Body and one **Vector** Line, alright? First it creates this structure. Takes that, which

 would be one **Vector** Line, right? From here, coming straight across to here. That's
 here. That's one **Vector** Line. It would have two Event Horizons. One going out
 say on 1 **Vector**, right? 1 Vector Line. Where it's KaLE-Hara and its
 Vector, right? 1 **Vector** Line. Where it's KaLE-Hara and its Spirit Body come

 yourself on that **Vector** come together in the center, and then you expand back
 to simple one **Vector**: two Event Horizons and the 3 parts of the body.
 the 4:10 **Vector**. Now if you look at the 12 Vector Lines right?
 at the 12 **Vector** Lines right? Put that one back for one more minute
 which means 6 **Vector** Lines, but 12 Event Horizons. And these 12 Event Horizons-
 Talk about the **Vectors** now? OK. Alright. I was going to save that for
 we have our **Vectors**, which are completely on the straight line across from each

 we are on **Vector**, what is called 4:10. This has to do with

 not really a **Vector**. It's an Event Horizonso we call it Horizon 4, and

 on the same **Vector** but opposite Event Horizon. In the center, down here, we'd

 two, the next **Vectors**. And, this goes back to the Elum-Eiradhona shape where

 on the one **Vector** Line from both of the Event Horizons. Then, there would

 to your Horizontal **Vector**, right? So, there's this whole relationship of bringing them into

Page: 41

 from other Time **Vectors** connected to Black Hole Systems. And that's where we get

Page: 46

 and all the **Vector** Lines right, with their numbers. This is the key to

 was our EtorA **Vector**, this where we manifest, it would imply, first of all,
