Jeskua @ (pillar anchoring from Sirius B temples Marahari allowing re-opening of Akashic Hall of Records - workshop is on the beach at TioTam VA Beach)

"Another special thing happening during this anchoring. I mind as well tell you here as it's happening. A long time ago in 27AD the last resurrection that was done on this planet was done by Jeskua (she adds "Melchizedek").

Jesh'-12 that is. There's more of a story that goes with that, that we'll talk about inside when we get through the graphs. But what the end of that story is, is Jeskua went on a journey. He almost fell when the Eeka lost the recent situations up in the Eeka with the Boursha Budhara. And he was gonna come back in on a fall matrix because his twin was going to fall. There's been a series of things done through the tribes classes that they didn't know about and I didn't know about either they managed to get him out of, he got stuck in hibernation zone-3 and they got him out to slide 3. And he was able to get his twin out. And because of that he doesn't have

to choose a fall. And what he's choosing to do because of the drama we're in - he is going to come back but there's not time for baby bodies. He's coming back in 3 walk-ins simultaneously. He said one will be a Jewish person, one will be in Tibet. and I think that one's female. And the other is an andro. And that's all he said about the other. He didn't say who. And it won't be those people who say "I know I'm Jesus!" It won't be one of those, OK? The walkin will occur like a birth actually. He already has the arrangements with the people who, he is... they're part of his soul matrix. There's a specific date now, what happened today, allowing the chambers to open directly from Sala-Sira - he's coming in as an entity and a part of that entity will be in those 3 bodies but not yet. He's anchoring through here. And he is running what is called the wire. He's bringing the main line link from the Sirian Temples down through

Kaylon Seven and it's gonna go over to ShAlon Seven and then up to Alon Seven to fully activate the Seven Matrix which will spread out from there. The date that he is going to walk in is Thanksgiving Day. And there are certain ones that are of us that were let's say close friends an one time or another relatives. And in his way, not using that name. Because that name has been abused and totally - you know anything that's telling you "hi I'm Jesus talking to you..." run! Cause it's usually from the hibernation zone and it is not him. He will speak with you by names that he knew you as and call himself that to you. But there is a feeling that goes with this person. and it is a feeling of great compassion and love that's very different than most people's I've ever met here and many other places. And he wanted you to know that he is coming back because that was promised. There is also a gift that was left

that I still don't know what it is and I have a feeling they'll tell us once we're done. But because it is happening now that the energy that was the person Jeshua-12 and a whole bunch of other people really at the same time then too is coming now with this wave and is coming in, so he's saying try to feel the presence with you went you leave and to know a great thanks is being extended to you for assisting in his returning. It's a he, but it's a bigger than he. It's not just the one person. And no he was never crucified,

alright. And they will tell a bit of the story of how he got out then. It was the resurrection technology but it was very risky then. We didn't have all these chambers open to hold the prana seed open. But he made it - but he went unconscious for 3 days into what would have been perceived as a death state, That was in the Great Pyramid. That's what had to be done. It was the

only gates we had anywhere near open enough to link them in. So he just wanted me to let you know that now because it's in progress, so it is quite literally the second coming of not just the KR48T, but of Jeshua too.  
[...]

That was interest, I had no idea... I knew about the announcement that they wanted me to give about Jeshua coming and um, I knew that part was coming. And he's actually at this point, he came in with the wave. He's probably somewhere on his way over to uh, going through the underground ways through um, to ShALon. Because he's... him coming back in is going to open the Shala 13 gate fully. So, that one's referred to as the ring of Fire gate. And that's the one that, to pass it you need to have like full avatar activation level in the field. And they still haven't told me what he left behind so we'll get to that at the end [...]

Discussing the part of Earth that (at that time was planning to fall)

2:08:28

At the end of a Solar bardo cycle there is - and remember the bardo is when the prana seed closes and starts to detach from the light body and the matter body from the Dark Matter template - At the end of that there is one last inhale from the prana seed where it actually shatters and briefly the creation point again opens. And at that point - if it's a person or even a planetary system - any of the spirit left, and of the life field in it, any of the spirit and consciousness can actually ride that wave out. It's called the path of the ring of fire. And the path of the ring of fire isn't an ascension path going upward. It's not an Adashi turn-around. It is a back-step. You would go back into the Edons and have to rebirth out into cycles out here. But it is not a fall path in that sense either. It is not a space dust return. The planetary consciousness [...] has chosen that path [...] doesn't want to be used
