 least through the **2047**- 2051 period of Urtha's Starfire, but it will take us

Page: 32

 between now and **2047**. There's going to be all sorts of strange things that

 activate it until **2047**, when this particular Aqualene Sun host of Rashalae body was

 it, 2047? Yeah, **2047** to 2051, Urtha, which is our host star, that is
 around, in, between **2047** and 2051. And, there are things that Earth needs to

Page: 281

 back ... after **2047**, **2047**-2051 is when Urtha does a natural Starfire. That

Page: 293

 do Starfire between **2047** and 2051. Most of us won't. Most of us will
 go during the **2047**-2051 period, because that in Earth time is when the

 going to be **2047** to 2051. Now during that period various things are going

Page: 63

 between now and **2047**, but also if you want to participate in rounds and

Page: 158

 begins its cycle **2047** and Earth can't Starfire, but to be able to participate

 ride Starfire from **2047** through 2051 Starfire period. So, it's a really, really big

Page: 164

 get out between **2047** and 2051, that starts. When they go through into Starfire,

Page: 187

 Starfire Cycle of **2047-2051**. So, we start here with remembering the nine geleziac

Page: 189

 that process begins **2047-2051**. And what that's going to look like, I have

Page: 252

 stay when, in **2047** when Urtha begins its Starfire process. That's like the star

 the ability between **2047** and 2051 when our Urtha Starfire cycle occurs ... there

Page: 266

 need to activate **until2047** to assist Earth in literally holding a surrogate RaSh aLAe

 Oh boy-through **2047** to 2051. I was like, "oh no. [chuckles]

 have done between **2047** and 2051. Because it is that Host Field that will

Page: 273

 wasn't planned originally **until2047** when we would have begun this all together-the 2

Page: 280

 on idle until **2047**, when it would then bring into activation certain other levels

Page: 283

 between now and **2047** I'm for it too [laughs] No, really, I mean

Page: 324

 to be done **until2047**, when Starfire began. They are going to have to be

Page: 329

 will be between **2047** and 2051. Now, Earth isn't going We've talked about Earth

Page: 333

 2014 or even **2047**. Well some of you can, if you want to It's

Page: 361

 early between **2047** and 2051 there's not going to be a lot of

Page: 372

 know it it's **2047** or if there is something .. s1nce everything seems to

Page: 398

 to before in **2047**, between 2047 and 2051 when Urtha is going to do

 in 2047, between **2047** and 2051 when Urtha is going to do a natural

Page: 399

 now that's between **2047** and 2051, that is still there as far as Urtha

 to do until **2047** -fully activate the Gyrodome or the 4 Aurora-4

Page: 403

 get out by **2047** either alright Now Urtha will come back after it Starfires

 between now and **2047** is the only time because Earth is going to Starfire

Page: 404

 to activate in **2047** or preparing for 2047 the Aqualene Transmission, we were going

 or preparing for **2047** the Aqualene Transmission, we were going to begin its initial

 instead of waiting **till2047** if we do that now it will allow a transmutation

Page: 446

 of waiting till **2047** when it was needed just to host the Planet through

 little bit before **2047**, Starfire period. But we are going through it now because
 to do in **2047** we are doing now basically, the Aqualene Sun activation, the

 point which is **2047-2017** and that"s where Urtha will Starfire and Earth will

 recent, I mean **2047-**2052, that"s not too long from now. That"s an awful

Page: 79

 get to the **2047-**2052 cycle. It will be going into its natural Edon

Page: 217

 to be good **until2047**, because in 2047 Urtha is going Starfire, a natural Adashi

 until2047, because in **2047** Urtha is going Starfire, a natural Adashi Starfire, where it

Page: 428

 do Starfire between **2047** and 2052, that would require the 33-year-old body.

Page: 442

 go back. Between **2047** and 2052, our host star is going Starfire Earth, because

Page: 443

 before that, between **2047** and 2052, this one is going away. It"s going into

Page: 453

 to Starfire in **2047-**2052 and go home with Urtha, which means to pull

Page: 454

 going out in **2047-**2052. At least we get to visit and say "

 Starfire which is **2047**-2052. After that there's the third stage Then there's two

Page: 14

 39 years to **2047**, and then we have the Urtha Starfire point, first Starfire

 Starfire point, where **2047**-2052 where Urtha does its Starfire And that's where we

Page: 21

 for Starfire between **2047** and 2052. And, it is preparing for Starfire because it

Page: 29

 will Starfire in **2047**-2051. That's okay. Because it will leave theA system still

Page: 37

 Starfire-1--between **2047** and 2052, and the Universal, what is called the Ma-

Page: 45

 of the Host, **2047** to 2052, is where this Fold occurs and that's where

Page: 81

 it starts, through **2047**, and at that point is when we said for a

 is in, between **2047**-2052. And it lasts all the way up, it stays

 2008. We have **until2047** here. And then 2047-2052, this occurs. Then we have

 here. And then **2047**-2052, this occurs. Then we have all the way, this
