 Here we have **Andromeda** 9. Technically, when scientists look in the sky anymore, it's  
 system was falling. **Andromeda** was once part of our universal system, or more likely  
 a part of **Andromeda**. And we had fallen from there. But there is still  
 a part of **Andromeda**, and that's the part that we see as the Andromeda  
 see as the **Andromeda** Galaxy. There's something called the Aquinos, I believe, nurseries, where

---

 stored in the **Andromeda** Galaxy. When we look at the Andromeda Galaxy now, the  
 look at the **Andromeda** Galaxy now, the part that is separate from us, or  
 down through the **Andromeda** 9 and then through Sirius B which can still hold  
 it. Sirius B, **Andromeda** and Earth have what's called the Gyrodome technologies that were

-  M-31. The **Andromeda** galaxy is Milky Way, was a part of that. And
- 

Page: 22

---

-  back to the **Andromeda** galaxy and from there, we'll be able to find where
  -  directly from the **Andromeda** galaxy. We'll find some really interesting things including some really
  -  is in the **Andromeda** galaxy. Now, those of you who have gone through some
  -  that be, if **Andromeda** galaxy is 2.2 million light years away and we're over
  -  the M-31 **Andromeda** galaxy. The Andromeda galaxy M-31 is actually not called
  -  Andromeda galaxy. The **Andromeda** galaxy M-31 is actually not called Andromeda in the
  -  actually not called **Andromeda** in the Kristiac worlds. It is the Aquinas matrix and
  -  Aquinas matrix and **Andromeda** was a star cluster within in the Aquinas matrix, part
  -  out through the **Andromeda** galaxy, you have to ... came out into manifestation through
  -  manifestation through the **Andromeda** galaxy-in order to finish an Adashi turnaround, you have
  -  go home through **Andromeda**. So there's a whole bunch of things. This is a
- 

Page: 23

---

-  galaxy within the **Andromeda** constellation. And what our relationship in the Milky Way galaxy
- 

Page: 27

---

 home matrix in **Andromeda**. So, we didn't get into that heavily there, as far

 talking about the **Andromeda** system or anything, that's only recent. But, we were preparing

---

Page: 67

---

 the M-31 **Andromeda** Galaxy, what that means and why we need to know

 is it that **Andromeda** Galaxy is actually home when we're down here in the

---

Page: 161

---

 between here and **Andromeda**. Urtha is in Andromeda. Earth is here, and they a//

 Urtha is in **Andromeda**. Earth is here, and they a// interface at the same

---

Page: 163

---

 also happening in **Andromeda** ... they didn't think they were going to happen yet.

---

Page: 165

---

 to Urtha and **Andromeda** System M31. So ... because of that they've given us

---

Page: 202

---

 things which is **Andromeda**. (0:39:25) But anyway ... this is very

---

Page: 208

---

 opening in the **Andromeda** Shield and the AquA"elle Matrix Shield and in the Aquafereion

---

Page: 214

---

 which is the **Andromeda** Galaxy that our original, this galaxy's original home. And it

---

Page: 215

---

 s core and **Andromeda** through the AquA"elle Matrix. (1 :23:37) There

 far as the **Andromeda** Matrix and all of that because it's going early, we can

 are opening in **Andromeda**, it is time to catch that and anchor that opening

---

Page: 216

---

 host link into **Andromeda** through AquA"elle. So, it's really big news and I was

---

Page: 217

---

 also in the **Andromeda** M-31 Galaxy, and they're called the AquafarE. And the

 the other-the **Andromeda** Matrix. Well , the ones who went to Andromeda-they

 who went to **Andromeda**-they created and became the AquafarE race. This is the

---

Page: 219

---

 to understand the **Andromeda** connection, and that is the next pack of graphs. This

---

Page: 236

---

 which is the **Andromeda** Galaxy which is the home galaxy from which the Milky

---

Page: 238

---

 are in the **Andromeda** Galaxy, because that is where the Milky Way fell from

---

Page: 239

---

 ... into the **Andromeda** Matrix and Urtha. And, we will go from there through

 the AquaFarE in **Andromeda** M31. So this is what this journey is about. We

---

Page: 241

---

 also in the **Andromeda** natural matrix from this system. So, they are actually the

---

Page: 246

---

 in the M31 **Andromeda** Matrix, the Aquinas Matrix. And, in a second they are

---

Page: 252

---

 fit with the **Andromeda** story. Because that is key to understanding, actually, the secrets

---

Page: 253

---

 in the M31 **Andromeda** Galaxy which is 2.2 million light years away? We'll show

---

Page: 254

---

 which is the **Andromeda** Galaxy. And this means, that for anything to go home

 itself back to **Andromeda**. Because if it doesn't, it will not have the natural

---

Page: 257

---

 Way and the **Andromeda** Galaxy, our original galaxy. And it is a system that

---

Page: 259

---

 of the natural **Andromeda** Galaxy System, that was the Ecka-Veca from which our

 once in the **Andromeda** Galaxy and no longer is. Further down in that black

 star in the **Andromeda** Galaxy that was called Procyus. Procyus was what were ...

 that is the **Andromeda** Galaxy, was called the Procyus. And Procyus had a period

 Way and the **Andromeda**/M31 occurred because of the fall, or partial fall of

Aquinos  
 Aquinos nurseries, Aquinos **Andromeda**, it's actually the other way around. The name of that  
 Aquinos Matrix and **Andromeda** was a cluster of stars within that matrix. Now when  
 M31 as the **Andromeda** Galaxy, what they're actually seeing is the Aquinos Galaxy and  
 Aquinos Galaxy and **Andromeda** was a cluster of the stars that were in there  
 in to the **Andromeda** Galaxy. It will evolve back into the Andromeda Galaxy, but  
 back into the **Andromeda** Galaxy, but the Milky Way is going into fall. And  
 dust into the **Andromeda** Galaxy because that's where it's home encryption exists. But in  
 came out of **Andromeda**. And it's one thing to say, "Oh cool, OK,  
 what science calls **Andromeda** Galaxy, and the Aurora Field is somewhere around the Milky

 Way and the **Andromeda** Galaxy. And the reason they wanted us to start understanding  
 us are, where **Andromeda** is, where the Aqua"elle Matrix is and where the Milky

---

 the systems of **Andromeda**. Urtha is actually in Andromeda, but it's still directly aligned  
 is actually in **Andromeda**, but it's still directly aligned with us. Oh, that was  
 minute I If **Andromeda**'s up there and we're down here and Urtha's supposed to  
 carries also the **Andromeda** encryption So, it will be the first time The MCEO

---

 to run the **Andromeda** encryption -its own natural connection to the Andromeda encryption,  
 connection to the **Andromeda** encryption, which is Urtha. So, if Urtha is actually in  
 is actually in **Andromeda**, and Ascension Earth is in the AquA"elle field, we're actually

---

 back to the **Andromeda** Galaxy up there. There's also a whole long story that  
 stuff on the **Andromeda** Galaxy, and about the fact that that is our galaxy,  
 this information that **Andromeda** was going to eventually eat the Milky Way. I remember  
 a collision between **Andromeda** and the Milky Way. There's also another little piece of

---

 and where the **Andromeda** gates are. So it means we'll be able to ...

---

 B, and Mirac **Andromeda** ... Now, Mirac Andromeda is outside of M31. It is  
 ... Now, Mirac **Andromeda** is outside of M31. It is part of the Andromeda  
 part of the **Andromeda** constellation, but it is not part of the Andromeda Galaxy.  
 part of the **Andromeda** Galaxy. So, all of these had Gyrodome encryption reset in  
 matrix of the **Andromeda** Galaxy, M31. Anyway ... #4) "Portions of fall

---

 of the Aquinos **Andromeda** system, in the Andromeda Galaxy. Pro-cyus 350 billion years  
 system, in the **Andromeda** Galaxy. Pro-cyus 350 billion years ago was raided by  
 Sun in the **Andromeda** Galaxy in M31 that would sit in the natural ..

 record, the Aquinos **Andromeda** record" -that's our natural Akashic record on a universal  
 is the Aquinos **Andromeda** record, and that gets turned on by activating the codes  
 the codes from **Andromeda** as well, then she was brought back, and then she

---

 to the natural **Andromeda** encryption, and it's because of that child being born, that

 universal Veca Aquinos **Andromeda** galaxy." The only reason they're saying Aquinos Andromeda ... it's

 they're saying Aquinos **Andromeda** ... it's actually the Aquinos galaxy. Andromeda was a star

 the Aquinos galaxy. **Andromeda** was a star cluster within it, out of which things

 talking about the **Andromeda** Galaxy, where science identifies as M31. "The codes of

 then up into **Andromeda**. "The codes of AquA"elle hold the original Akashic Record,"

 encryption of organic **Andromeda** Galaxy Veca PCM," so our Veca PCM that we've talked

 be in the **Andromeda** M31 Galaxy, and these codes that that child brought back

 of both the **Andromeda** Galaxy set, and the corresponding ones into the Milky Way

 which means Aquinos **Andromeda** galaxy original encryption, right? So, that will reset enough of

---

Page: 482

---

 Code AquA"elle Aquinos **Andromeda** encryption that allows the Aquinos Akashic Record and Halls of

 connects us into **Andromeda**. Ascension Earth connects into these and Ascension Earth is in

 are in the **Andromeda** matrix, the Sirius B and Urtha and the other part

 through to the **Andromeda** Galaxy to occur. So, I'll do my best to have

 is also in **Andromeda** and so is Urtha and we will look at how

---

Page: 483

 made back to **Andromeda**, so the Andromeda- natural Andromeda Galaxy encryption can run back

 Andromeda, so the **Andromeda**- natural Andromeda Galaxy encryption can run back through, so a

 the Andromeda- natural **Andromeda** Galaxy encryption can run back through, so a portion can

 now we know **Andromeda** Galaxy, not just Mirach Andromeda Gate. These Crystal Temples, the

 not just Mirach **Andromeda** Gate. These Crystal Temples, the surface ones, were Nibiruian seeded

 is in the **Andromeda** Galaxy M-31, how is it that it's in our

---

Page: 499

 down through the **Andromeda** chain down in through here. But because we are here  
 Sun from the **Andromeda** Galaxy, our PCM Veca System- when that underwent attack and

---

Page: 502

---

 look at the **Andromeda** Galaxy, for instance, that is actually the Aquinos Universe-all  
 Universe-all right **Andromeda** is a Galaxy System within the Aquinos Universe. But that

---

Page: 505

---

 Now, in the **Andromeda**, what we look at as the M31 Andromeda system, which  
 as the M31 **Andromeda** system, which is the Aquinos matrix, and that is our  
 that fell from **Andromeda**. So, that was the beginning, and you have, you have

---

Page: 507

---

 calls the "**Andromeda** Galaxy," all right. The Andromeda Galaxy would be actually up  
 all right. The **Andromeda** Galaxy would be actually up in this area, around the  
 "M" for **Andromeda**, referring to that Andromeda M31 Galaxy that is the Aquinos  
 referring to that **Andromeda** M31 Galaxy that is the Aquinos Matrix. But, 9, is  
 is actually the **Andromeda** Cluster, all right, in the Aquinos Galaxy. But, science is  
 pictures of the **Andromeda** Galaxy of M31- that is what they are actually seeing  
 Matrix with the **Andromeda** M31, and it interfaces directly also with the Milky Way.  
 the M31 galaxy, **Andromeda**, Aquinos. Ok, in a minute you're going to see a

---

Page: 508

---

 gate system from **Andromeda** or Aquinos, or the gate system from AquA"elle. What we  
 9, which is **Andromeda**, Mirach Andromeda. Now Mirach Andromeda is not in the Andromeda  
 is Andromeda, Mirach **Andromeda**. Now Mirach Andromeda is not in the Andromeda galaxy.  
It  
 Andromeda. Now Mirach **Andromeda** is not in the Andromeda galaxy. It connects in as  
 not in the **Andromeda** galaxy. It connects in as all of them do, but  
 is in the **Andromeda** constellation, which is the larger configuration of stars. And the  
 of that constellation, **Andromeda**, as far as how science here defines it. So, Mirach

---

Page: 509

 was from the **Andromeda** M31 galaxy, all right Now, in the center of that,

  -  Not just the **Andromeda** constellation but the M-31 Andromeda Galaxy, and what that
  -  the M-31 **Andromeda** Galaxy, and what that has to do with our Earth
  -  31 Galaxy-the **Andromeda** Galaxy-which is actually called the Aquinos Galaxy. That is
- 

Page: 6

-  M-31 Galaxy, **Andromeda** Galaxy, to change the gates enough here to allow the

Page: 8

-  the ones on **Andromeda** so you can get at least an idea of what
- 

Page: 12

---

-  to see the **Andromeda** diagram, or the one from the Amsterdam workshop. There's one
- 

Page: 23

---

-  M-31, the **Andromeda** system is, it's not the Andromeda galaxy, it's the Aquinos
  -  it's not the **Andromeda** galaxy, it's the Aquinos Galaxy M-31. And, the Andromeda
  -  31. And, the **Andromeda** system is one of 12 galaxies within that Universe; it's
- 

Page: 24

---

-  calls M-31, **Andromeda** galaxy all right, which is different than the Andromeda Constellation
  -  different than the **Andromeda** Constellation ok? So, I notice in Astronomy books they say
  -  books they say **Andromeda** Constellation is this thing here. And Mirach, for example, is
  -  is in the **Andromeda** Constellation, but it is not in M-31. They place
  -  believe, in the **Andromeda** Constellation. So, we are ... there are 2 separate things.
  -  just refers to **Andromeda**, what they call the Andromeda galaxy all right So "
  -  they call the **Andromeda** galaxy all right So "An" and its number, refers
  -  science calls the **Andromeda** galaxy. They each have their own names and then we'll

- we have the **Andromeda** 3, and we have AquA"elle 3. We also have, in
- 

Page: 29

- M-31 or **Andromeda** 7 is ETUR-a. So ETUR-a, then, has its
  - ones from the **Andromeda** M-31 set, or the Aquinos M-31 set, and
- 

Page: 36

- what they call **Andromeda** Galaxy here, and where we are ... we saw the

- Gates" refer to **Andromeda** M-31, which is really the Aquinos Matrix, which is
- 

Page: 65

---

- which is the **Andromeda** galaxy that it originally came from, it fell from, because
  - is not called **Andromeda**. One of its clusters was Andromeda in the Universal Star
  - its clusters was **Andromeda** in the Universal Star Gate 9 position, but it is
- 

Page: 75

---

- here calls the **Andromeda** Galaxy. And that is actually the Aquinos Galaxy that the
  - science here calls **Andromeda**. And AquA"elle, which has to do with ... I'm not
- 

Page: 76

- M31, in the **Andromeda** Galaxy which is the Aquinos Galaxy. This host was all

 the M-31 **Andromeda** Galaxy, so we are going to, in this next block  
 of natural, organic **Andromeda** Codes that belong in our system They're called the Aquious  
 matrix; it's not **Andromeda**. And this allows us to I'll read it so you

---

Page: 12

---

 of like the **Andromeda** Call, we get our Andromeda Codes back and this is  
 we get our **Andromeda** Codes back and this is a really big event, because

---

Page: 14

---

 the limit, or **Andromeda**'s the limit I don't know. Anyway, as far as what

---

Page: 38

---

 galaxies-not only **Andromeda** Galaxy, but there's lots of other galaxies that science has

---

Page: 40

---

 call the M31 **Andromeda** Galaxy. It's not a Galaxy. It is a universe, as  
 aren't we in **Andromeda**, M31? Because of this, right? This-1"11 show you  
 goes with the **Andromeda** natural M31 Andromeda Galaxy, or Aquinos universe. Here, this tilted  
 Andromeda natural M31 **Andromeda** Galaxy, or Aquinos universe. Here, this tilted thing over here,  
 part of the **Andromeda** Galaxy. I find it very interesting too, because science speculates  
 -that the **Andromeda** Galaxy and the Milky Way Galaxy are going to collide.  
 get swallowed by **Andromeda** again I haven't asked the Beloveds is this a good

---

Page: 41

---

 they call the **Andromeda** Galaxy. This is the tilt. The Core should be aligned

---

Page: 43

---

 M31 Aquinos, our **Andromeda** universe, and the Milky Way split off from that So

---

Page: 44

---

 our PCM universe, **Andromeda**, became endangered by the falls that were created around it.

---

Page: 45

---

 Galactic Shield of **Andromeda**. That's where they know that Andromeda's up there and like  
 they know that **Andromeda**'s up there and like located over to the right, or

---

Page: 46

---

 align with the **Andromeda** system, the original set, because the Andromeda is still there.  
 set, because the **Andromeda** is still there. A part of its quantum fell to

---

Page: 47

---

 the Aquinos/M31 **Andromeda** Universe. Notice it didn't say "and Milky Way" yet

---

Page: 49

---

 one of the **Andromeda** metagalaxies would look like. Now, we have to see where

---

Page: 51

---

 of Aquinos, M31 **Andromeda** Universe 5. So, it's Vega-5 is what we're talking

---

Page: 52

---

 corresponding to the **Andromeda** matrix in the Andromeda Galaxy and down in the Meta-  
 matrix in the **Andromeda** Galaxy and down in the Meta-Galaxy-6, they are

---

Page: 54

---

 to interface with **Andromeda**. It's got this other set of-let me think, how

---

Page: 55

---

 corresponding to the **Andromeda** system We can do that through the Host because we

---

Page: 56

---

 center of the **Andromeda** system This one here is our Milky Way system, that's  
 no in the **Andromeda** Galaxy, but is actually split and separated. And this is  
 such as the **Andromeda** Galaxy-now science knows the Andromeda Galaxy is a different  
 science knows the **Andromeda** Galaxy is a different Galaxy than the Milky Way Galaxy.

---

Page: 58

---

 all have names. **Andromeda** is over here. So, that's giving you kind of a  
 Way Galaxy and **Andromeda** Galaxy. What that is showing you is the dimensional relationship  
 Milky Way and **Andromeda** and that kind of thing. But this is just showing

---

Page: 66

---

 link into the **Andromeda** System-the M31 System we will be able to have much

---

Page: 68

---

 goes with the **Andromeda** thing, and V-58 is the one that goes into

---

Page: 69

---

 that goes with **Andromeda**. 6B is the center of the Milky Way one. So

 Core of the **Andromeda** one, so the Andromeda one is hanging up here. But

 one, so the **Andromeda** one is hanging up here. But right centered dead on

---

Page: 75

---

 beam it through **Andromeda**-because this is in Andromeda. The 9 is in Andromeda-

 this is in **Andromeda**. The 9 is in Andromeda-through there, and then bend

 9 is in **Andromeda**-through there, and then bend it back again to the

---

Page: 78

---

 frequency from the **Andromeda** Universe, the Adjugate-9 connection. It is like a little

 self from the **Andromeda** System before the Milky Way fell. Because anything in the

---

Page: 79

---

 Phoenix, AZ through **Andromeda** first, and it's an Orb that carries-almost like an

 original encryption from **Andromeda**. So it will set back into your Codes whatever the

 came in to **Andromeda** as a Krysted being. And it will carry with it

---

Page: 80

---

 in to the **Andromeda** System before the Milky Way fall which is billions of

---

Page: 101

---

 they call the **Andromeda** Galaxy, the M-31, and over here is our parallel

 is now the **Andromeda** Galaxy, and this is our Milky Way Galaxy at a

---

Page: 102

---

 M-31, the **Andromeda** system- the Aquinos Universal Veca, on Meta-Galactic-6- is

 actually in the **Andromeda** system, and we call that MG-6A, and then the

---

Page: 103

---

 Core from the **Andromeda** system, and that is actually the Black Hole around which

 Core of the **Andromeda** system Our Meta-Galactic Core is down here now, and

 back into the **Andromeda** system in a natural orderly fashion, so we didn't have  
 down. But the **Andromeda** system isn't There's a whole layer of these on each  
 Hole Fall, the **Andromeda** system isn't And these are all different Probabilities of the

---

Page: 104

---

 is in the **Andromeda** system, and it's ... we're on 3 over here ...  
 3 in the **Andromeda** system. And if you traced it down and pretended the  
 Urtha, in the **Andromeda** system And both of these triangulated through our Meta-Galactic

---

Page: 105

---

 interface with the **Andromeda** system on the Meta-Galactic-6 line. So that's where

---

Page: 106

---

 you took the **Andromeda** thing and completely made the whole thing fall This is

---

Page: 108

---

 an equivalent of **Andromeda** over there. But it's quite a bit different because this

---

Page: 109

---

 parallel of the **Andromeda** systems over there that doesn't have that problem, and that

---

Page: 112

---

 Let's say the **Andromeda**- once they're basically where they are, and we just move  
 will see an **Andromeda** Galaxy up there. So we've moved from the 1st Meta-  
 was for the **Andromeda** of the MG-1, and that means over here for

---

Page: 113

---

 Galactic Core of **Andromeda** that split into part Andromeda and part the Sagittarius-A  
 split into part **Andromeda** and part the Sagittarius-A star stuff, mess, that is

---

Page: 114

---

 into the natural **Andromeda** angular rotation of particle spin alignments with our bodies, with  
 center of the **Andromeda** one. And even though that's in the Andromeda System it  
 that's in the **Andromeda** System it interfaces energetically, directly with Ash aLA and our  
 the frequencies from **Andromeda**, at this point as well, where you'll have your Ah-

---

Page: 117

---

 Code Frequencies from **Andromeda** it will also ... we'll also bring them in from

---

Page: 121

---

 corresponds with the **Andromeda** Matrix. It will come through Andromeda but it will also  
 will come through **Andromeda** but it will also split, and this was designed to  
 Urtha System in **Andromeda**. So it's literally linking, frequency wise, Andromeda. Here is our  
 linking, frequency wise, **Andromeda**. Here is our triangle that we started with. It's now  
 this is the **Andromeda** one, the M-31 over on the Meta-Galactic-12,

---

Page: 122

---

 down from the **Andromeda** Galaxy, 2.5 million light years away, but these are like  
 Again, this is **Andromeda**, but it's the Meta-Galactic-12 A, Meta-Galactic Core,  
 this system, the **Andromeda** System is going to enter, begin entering the Ma-Sha-

---

Page: 123

---

 and seeing the **Andromeda** Galaxy. Well we know at least what general direction, if

---

Page: 131

---

 in from the **Andromeda** System which are the M-31 Urtha frequencies here, and  
 not only the **Andromeda** set, but all the way up from the Source of

---

Page: 133

---

 Galaxy representing the **Andromeda** Galaxy. One would be about a foot in front of  
 us you'd have **Andromeda**, and 1 foot in front of us we'd have the  
 that flashes from **Andromeda** through Milky Way centers and like right to you. If

---

Page: 135

 through from the **Andromeda** Galaxy Meta-Galactic Core into our Meta-Galactic Core but
