 was called the **Astura** Passage. That's that shape, right? I get totally dyslexic sometimes  
 arm) that's the **Astura**. That's actually a shape of passageways. We'll see a bit  
 looked at one **Astura** shape, and imagined that on one, what are called fire  
 lines. Imagine one **Astura** on each of those lines, being a passage that runs  
 were originally 12 **Astura** passages. When the Astura passages activate, if they activate what  
 passages. When the **Astura** passages activate, if they activate what are called the Spanner  
 directly with the **Asturas**, what they do is they actually twist the Asturas and  
 actually twist the **Asturas** and try to take power off them. They create what  
 energy off the **Astura** passages and creating artificial electricity. They're still doing it That's  
 run on the **Astura**, like a vertical axis through the Astura, and they actually  
 axis through the **Astura**, and they actually empower the Astura, and the reason the  
 actually empower the **Astura**, and the reason the Krystal Heart Passages from Seeding 2,  
 3 passages, the **Asturas**, and nobody would have gotten out, and we would have  
 ?line. The **Astura** passage that was on the 7 line, and therefore the

 than the simple **Astura** passage, which is the A-shaped one that I showed  
 passages of the **Astura**. So, we are activating this passage. At the center here,

 chamber of the **Astura**, when we were in Peru, because we headed them off

 run on the **Asturas**, that have taken over the Asturas and tried to run  
 taken over the **Asturas** and tried to run the Asturas on reverse frequency. So,  
 to run the **Asturas** on reverse frequency. So, we've been given a heads up

---

Page: 73

---

 we have the **Astura** passages running from Seeding 3. And then from Seeding 2

---

Page: 78

---

 there are the **Astura** Passage sets from Seeding 3 and most especially the Krystal

 come through the **Astura** Passages that actually create the potential of the Gyrodome field,

Page: 88

 it through the **Astura** passages that go down through the center and then come

 talked about the **Astura** passage. I guess I could put this right over this.

 would be the **Astura** 7 Passage. Let me get these lined up right. There"s

 the Seeding 3 **Astura** Passage, that would be Astura 7 passage, pardon me. This

 that would be **Astura** 7 passage, pardon me. This is ShAion 7. This is

 connects into the **Astura** passage this way. It goes from ShAion 7 to Phoenix.

 part of the **Astura** Passage. Then we went from Cuzco ... oh, and then

 of, on the **Astura** line ... it"s not perfect but it gives you ...

 guy was the **Astura** passage from the Seeding 3 races, right, and it goes

 Each of the **Astura** Passages has a Spanner loop where that, remember it just

---

Page: 95

---

 they"re hijacking the **Astura** passages, like before they had their Spanners activated, they were

---

Page: 96

 are on the **Astura** passages and then the Krystal Heart Passages. Now, if we

 all, what the **Astura** ones look like. If you put the 12 of them

 take just the **Astura** passage, right, before it has its loop ... that was

 that was the **Astura** A that we"ve been having as the Azurite A, part

 right. So, the **Astura** passage becomes a Spanner passage that has the ability to

---

Page: 97

---

 to hijack the **Astura** passages, they will have to activate the Krystal Hearts on

---

Page: 98

---

 of the new **Astura** and the Krystal Heart of Aquareion passages in the planetary

---

Page: 99

 activations that the **Astura**, in its modified form reflecting the opening of the spanner  
 closing of the **Astura** tip here, alright, we didn't know that that was going  
 is effectively an **Astura** Shield or a network of passageways which corresponds to the  
 to update the **Astura** and I looked at it as it was when the  
 idea of the **Astura** Shield was born and the need for it was so  
 together with the **Astura**. Now what we're seeing the beginning of the critical passageways  
 have both the **Astura** passages and the Krystal Heart Now, when these are brought

 links through the **Astura** ... in this case the Astura and the Sacred Heart  
 this case the **Astura** and the Sacred Heart passageways through the planetary shield and  
 lines represent the **Astura** and the sacred heart passageways. They are brought down through

---

Page: 124

 you have your **Astura** Passages ... they were the Seeding 3 Passages. These were

Page: 125

 part of the **Astura** Chamber. Now, if the others, the fallen angelics from the

 just from the **Astura** Passages. And it will literally create a "Rolling Blanket"

 are called the **Astura** Passages. The Astura Passages are the passages on the Planet  
 Astura Passages. The **Astura** Passages are the passages on the Planet through which the

 You have the **Astura** Passage. These layers correspond to that more technical looking Vertical

 the Seeding-3 **Astura** Passages. The Caduceuses were made to actually take over these,  
 over these, the **Astura** Passages. Astura Passages were actually, they were used for Seeding-  
 the Astura Passages. **Astura** Passages were actually, they were used for Seeding-3 but  
 trying to activate **Astura**, the Spanner-? Astura Passage and loop. They are activating this  
 Astura, the Spanner-? **Astura** Passage and loop. They are activating this monster and they

 has a basic **Astura** Shield, because it came in on the Amenti Mission. So  
 would have the **Astura** Passages, at minimum, and that is only if you came  
 not But the **Astura** ones, everyone would have. And everyone would also have the

 the Seeding-2 **Astura** Passages. This is how they are formed You have one  
 have one Spanner **Astura** Passage. When the spanner is opened on it, its loop  
 gives you the **Astura** set, and the Astura seL then this one is showing  
 set, and the **Astura** seL then this one is showing you by itself the  
 Seeding-2- the **Astur**as were from Seeding-3- from Seeding-2 were the larger  
 You put the **Astura** Passage and the Krystal Heart Passage together, you end up

 are called the **Astura** Passages. So there"s a whole bunch of big level things

 them are the **Astura** Flows and others of them are called the Krystal Heart

 to as the **Astura** passages. These were the Seeding 3 passages that were used  
 that is an **Astura** passage. That"s one Astura passage. This would be two Asturas  
 passage. That"s one **Astura** passage. This would be two Asturas linked together. They form  
 would be two **Astur**as linked together. They form a loop. This loop forms here,

 this one. The **Astur**as and these go together. Let me see if I have  
 they form. The **Astura** passages are what form the lotus petals of the LUma

 8 flows An **Astura** is half of one of these petals. Then, the opposite  
 Then, the opposite **Astura** is the AdorA side, so the Astura that we came  
 side, so the **Astura** that we came to know as the AzurA "A"  
 side of the **Astura** passages that form the petals. Then the AdorA side comes  
 VA-ho and **Astura** core flows open, activating the organic Kristiac ElumEiradhona, which is
