 know where the **Aurora** Fire Crystals and the Orta Clouds begin to form. I  
 where we had **Aurora** Fire Crystals for One, formed at the "birth" of Two  
 be where the **Aurora** Fire Crystals come from .yeah, there"s a ... we"re  
 already has its **Aurora** Fire Crystals for Number One so it doesn"t need another  
 a set of **Aurora** Fire Crystals for each of the layers. So they wanted

 you have the **Aurora** field These are bands of frequency that plug in directly  
 is because the **Aurora** field will hold the difference and will hold the original

 in-between-our **Aurora** fields-which means these are bands that there are still  
 look at the **Aurora** layers, they create- first of all we have the Aurora-  
 we have the **Aurora-1** layer creates I think it's a D-2 Subterranean

 also with the **Aurora**-Aquari races. They have their own version, but they look

 Field. And the **Aurora** Field is all connected in with the Aquari races of  
 of Urtha, the **Aurora** Aquari races who came through from the HUBs from over

 on. And the **Aurora** Field itself was actually set when the Amenti Rescue Mission  
 We have the **Aurora** Field that runs through Earth's body fields, and connects them

 actually need the **Aurora** Field, because for any of the gates to line up,

 it is the **Aurora** Field that holds the various layers of the 4 Aurora

 are activated, the **Aurora** Fields will actually spin and allow for in those zones

 it is the **Aurora** Fields that will eventually merge. One and two will merge

 more about the **Aurora** zones and all of those kinds of things, but I

 Earth, um, the **Aurora** zone that will be New Earth and Urtha. The MCEO

 is called the **Aurora** field It runs in our atmosphere. If we have Earth

 you activate the **Aurora** field, it creates a gyrating dome that moves back and

 up with the **Aurora** Field here being the only thing that's holding Earth at

 relation to the **Aurora** Zone and all of that So this is how the

 and they're called **Aurora** platforms. And with the activation of the Gyrodome, the Aurora

 the Gyrodome, the **Aurora** platforms will merge together to form 3 dimensional reality structures

 These are the **Aurora** safe zone platforms that have to do with interfaces of

 A 1, the **Aurora** 1 zone? Now if this was our crust here we're  
 function. But the **Aurora** platforms, because Earth is inside of this larger star who

 there is an **Aurora** platform. It's called Aurora 4 platform and that is connected,  
 platform. It's called **Aurora** 4 platform and that is connected, that is running in  
 it is the **Aurora** 4 platform that .. we hop the platforms. We literally

---

Page: 86

 connect with the **Aurora** platforms up into Adashi so you don't get snared into

 to there. The **Aurora** zone will actually form in between here and here and  
 out following the **Aurora** paths. That's what the projection will be about The MCEO

 do with the **Aurora** platforms as well. But, we get an idea of the  
 up having the **Aurora** fields where they will activate, where the new Earth is

Page: 90

 how when the **Aurora** platforms come together. There's a huge amount of information but  
 can follow the **Aurora** paths up and come out in the Adashi temples. So,

 up on the **Aurora** platforms and ride the Aurora platforms up so you can  
 and ride the **Aurora** platforms up so you can get out from under the

 You have the **Aurora** 1 platform. Now if our, let me find our surface

 Platform Now the **Aurora** 2 Platform, if you look where it is, here's surface  
 you're seeing the **Aurora** band. But these clouds would have a pinky tint All  
 You are the **Aurora** 2 Platform Cloud Cities. We go up from there and  
 we have the **Aurora** 3 Safe Zone which is in the Van Allen Gap,  
 all right. That **Aurora** 3 Platform are the Ocean Cities because they're connected into  
 it's called the **Aurora** 4 Platform. These are called the Winterlands. The name of

 Aurora bands. These **Aurora** bands, each one of them have the capacity to expand

 What is the **Aurora** field? All these things. Oh boy I Sometimes when you  
 that is the **Aurora** Field and it is an interface field that actually surrounds

 just can't The **Aurora** Platforms we've talked about are essential, and they run through

 through into the **Aurora** Platform structure That makes an interface into the Ecousha network  
 You have the **Aurora** Platforms on the ElorA side. Then you have on the  
 that interfaces the **Aurora** Platforms for us. And that one is fine, that one  
 weren't for the **Aurora** Platforms they would not be able to But because of  
 because of the **Aurora** Platforms that are characteristic of the first two gates that  
 game. So the **Aurora** Platforms were made to interface that, where you could slide

 Atlantic, and to **Aurora** Platforms, then to AshaLA-3, Milky Way number 3. So

 whole path. What **Aurora** Platform connects to here, then it goes here, then you  
 go through the **Aurora** platforms, through the AdorA side and then back over into  
 to do the **Aurora** platforms to get to Ash aLA. This one you have,  
 interface through the **Aurora** platforms just to avoid Earth's Ring of Fire completely, there
