 fact that the **megabeast** has been activated and that is why the end game

 showed how the **Beast** machine black hole technologies were being used to compromise the

 that came the **Beast** technologies and the Threshold technologies. What they found was there

 with the metatronic **Beast** machine people. So, everybody was fighting with everybody at this

 they combined the **Beast** technologies with the Bourgha time rip technologies we were about

 for short, the **BeaST** Machine, that were used to create-well, to create the

 and stop the **BeaST** machine or Blank Slate Technology from being activated here, which

Page: 27

 would have stopped **BeaST** activation, which would have stopped the NETs, and eventually, we

 to activate the **BeaST** machines on Earth. By the time we hit January 2000,

 history of the **BeaST** black hole machine. But, the people that we were trying

 to set the **BeaST** apparatus in motion, at that point, it was important that

Page: 29

 Slate Technology or **BeaST** machine, black hole machine, that is plugged into these planetary

 to activate the **BeaST**. So they united and formed the United Intruder Resistance1, and

 to activate the **BeaST** anyway." So, it became one of those. And the Kryst

Page: 30

 couldn't activate the **BeaST** here. Then, this is the education programs part that went

Page: 31

 to activate the **BeaST** black hole machine. And that was about pulling this system,

Page: 32

 These are all **BeaST** metatronic technology activations. When you see names like Archangel Michael

 relation to the **BeaST**. So, they started activating what were called, an Interface Gate

 activation of the **BeaST** Machine. This is where we had to release the Secrets

Page: 37

 of activating the **BeaST** machine here on this planet, in this solar system, and

Page: 39

 activation of the **BeaST** machine on the planet. So, that was not fun stuff

Page: 45

 something called the **BeaST** and Black Hole technologies from Atlantis and all of that,

 use of the **BeaST** Machine. But for now just understanding that from our core

 progression of the **BeaST** technologies, the black hole technologies that have been used here
 through using the **BeaST** machine apparatus and the time-rips working with help, the

 took over the **BeaST**, through Threshold, by linking the Time-Rip Triangulation through. So,

Page: 298

 progression of the **BeaST** machine. Where the **BeaST** machine started was first of all

 progression of the **BeaST** machine and how it evolved. Where it started, what it

 hadn't activated the **BeaST** machine and all of that But, we came from here

Page: 300

 fight over the **BeaST** was starting here on this planet where the Bourgha were
