 it into full **black** hole fall, because Earth was a very, very special place,

 BeaST; they create **black** hole fall. So, finally these are coming into Guardian alignment.

 of the BeaST **black** hole machine. But, the people that we were trying to

---

Page: 29

---

 or BeaST machine, **black** hole machine, that is plugged into these planetary grids from

---

Page: 31

---

 activate the BeaST **black** hole machine. And that was about pulling this system, this

 other already fallen **black** hole systems. Because a black hole system, it's still in

 systems. Because a **black** hole system, it's still in the Body of God, but,

 happens with a **black** hole system is that it no longer its open link

 it's at. So **black** hole systems ... it's like having a cell in your

 it. When a **black** hole system falls ... black hole systems don't just fall

 system falls ... **black** hole systems don't just fall and disappear. There are certain  
 into a full **black** hole status. So, there are other systems in the Cosmic  
 about creepies from **black** hole systems that have been invading this place, the fallen  
 their systems, their **black** hole systems that can no longer naturally generate their own  
 consciousness to form **black** hole technologies that suck energy off living matrices in order  
 because they went **black** hole status because they were abusing the power, their natural

 these 2 fallen **black** hole systems are in something called the WesaiA Matrix. The

---

Page: 33

---

 trying to activate **black** hole technology on this planet, it would have been simple.

---

Page: 38

---

 and wormholes and **black** holes are a bit different. They all kind of work  
 can. Wormholes and **black** hole technologies tend to run together. So, before we were

---

Page: 40

---

 with spaghetti and **black** holes and things. Physicists, some physicist refer to it as

---

Page: 42

---

 least, decently structured **black** and white diagrams. They are eventually all going to be

---

Page: 45

---

 the BeaST and **Black** Hole technologies from Atlantis and all of that, where you'll  
 far as the **black** hole technologies and all that. But what I'd like to

---

Page: 49

---

 to do with **black** holes and those kind of things down here, appears very,

---

Page: 50

---

 stuck in a **black** hole system and it falls, usually what will happen is

---

Page: 55

 where it went **black** hole fall, and then they used those technologies to tap  
 stuck in the **black** hole quarantine. Because when a system falls, it actually creates  
 would be a **black** hole quarantine. There are worse fates. When a system falls

 BeaST network, the **black** hole systems and all of that. And then there are  
 in a full **black** hole yet, it's being eaten by one. And even science  
 know there's a **black** hole at the center of the Milky Way Galaxy somewhere  
 is making the **black** hole, but it is part of it. And that is  
 down in that **black** hole that is actually anchoring that black hole is another

 actually anchoring that **black** hole is another piece of what used to be a

Page: 360

---

 say, the "**black** sheep" of society, where everybody thought you were nuts, and

---

Page: 366

---

 to carry the **Black** Death and all that kind of stuff .. well, we

---

Page: 372

---

 fall completely into **black** hole assimilation otherwise. It is going black hole, but it

 It is going **black** hole, but it can go in a hosted fall that

just forget the **black** hole fall, right? It's happening, but that scares the heck

 Earth is entering **Black** Hole Fall. But we can simply say to them, it

---

Page: 373

---

 without talking about **black** holes. And I think that's probably where the programs will

---

Page: 392

---

 activations and the **black** hole technologies and all that stuff, most of us are

---

Page: 396

---

 up going into **Black** hole Fall and space dust return I'm simplifying a lot

---

Page: 398

 them and their **Black** hole Fall System. So you'll see who we're dealing with,

 they fell into **Black** hole status, which means they are not longer able, a

---

Page: 403

---

 going into full **Black** hole Fall. It is the Aquafereion Shield and the people

 and go into **Black** hole status, but to get the life field out and

 would go into **Black** hole Fall. It would go into now at this point

 be trapped in **Black** hole Fall cycle and that was it There would be

 if it fell **Black** hole Status, that 3 billion years left of potential evolution

 them in a **Blackhole**, like it was very close to what was experienced during

 we were almost **Black** Hole mentality at that point, even though we weren't Black

 though we weren't **Black** Hole status on this Planet So it is very good

 in between the **black** lines, and they would be numbered with like 1-2-

---

Page: 357

---

 why the little **black** things are there, and that kind of stuff There's a

---

Page: 373

---

 complete fall. A **Black** Hole Fall System is literally a system ... it is

---

Page: 406

---

 Earth instead of **Black** Hole fall and space dust return. That Path is available

 their matrix fell **black** hole status, and they tapped in using a time rip

 Eckashas can't fall **black** hole status, but the Veca systems within them can, and

 Wesadraks that used **black** hole technologies over here. But the WEsala ended up being

---

Page: 442

 ones from the **black** hole systems and the Bourgha systems trying to get control

 when something goes **black** hole- it will eventually fall It will eventually implode and

 you feed the **black** hole with bringing more matter and energy into it, it

---

Page: 444

 left will fall **black** hole status So, it's like whatever wants out, and doesn't

 go back to **black** hole space dust return, has 223 years before this New

 frequencies from the **black** hole systems This is the same thing that is keeping

---

Page: 474

---

 of them going **black** hole. It's all connected into this too It gets really,

---

Page: 479

---

 what is a **black** hole, in the center of the Milky Way Galaxy. Well,

 core of the **black** hole, and that is Abaddon. Abaddon is actually Procyon A,

 the Milky Way **black** hole, which is Procyon A ... you have Procyon A

---

Page: 480

---

 up as the **black** hole bit Abaddon, and a third of it ended up

---

Page: 498

---

 and the whole **black** hole mechanism- all of that kind of mess. There is

---

Page: 499

---

 way into full **Black** hole Fall. Now at this point, there is still portions

 know it's a **black** hole that is where there is a burned-out star

 level of the **Black** Fallen Sun. We had in the person of Khemalohatea, "

---

Page: 500

---

 which is the **black** hole in the Adjacent Eckasha Systems -it's not even

---

Page: 503

 was designed by **Black** hole Fall people who decided that it was -instead

 in a full **Black** hole Fall, even though it takes many, many billion of

---

Page: 504

---

 system, where a **black** hole link was made through, into here, into ... that

 "fallen YHWH **black** hole system," Y-H-W-H, all right. So this,

---

Page: 505

---

 is the core **black** hole which is, is a burned out Star, a black

 out Star, a **black** hole that is Abaddon. And Abaddon was spliced into the  
 through a, a **black** hole fall, a long, drawn out black hole fall here  
 long, drawn out **black** hole fall here with the Sol system So, other parts

 where the Bourgha **Black** Hole system is located. We had over here the-in  
 had the Wese **Black** Hole systems over here. And over here, we had the

---

Page: 39

---

 where we have **Black** Hole system interfaces We also have Black Hole system interfaces  
 We also have **Black** Hole system interfaces between these and these over here, which  
 is the Bourgha **Black** Hole system That entire set, that entire EckaNeca system is  
 as alignment with **Black** Hole. When you align with Black Hole systems, it simply  
 you align with **Black** Hole systems, it simply means at some point your gates

---

Page: 40

---

 are running the **Black** Hole systems at the center of the Milky-they are  
 called the Procyak **Black** Hole systems, because Procydes was the center star of this  
 called the Procyak **Black** Hole. Where the Krystic mission was attempting to slowly over  
 ones running the **Black** Hole systems have been planning to crash them into each  
 fully into the **Black** Hole alignments. So, this is basics of looking at it

---

Page: 41

---

 plan of these **Black** Hole systems is, is to get this system at a  
 aligning with the **Black** Holes from the Parallel system, the place where Parallel Earth  
 the fallen Bourgha **Black** Hole system is. This is showing the alignment between, what

---

Page: 42

---

 knew where the **Black** Hole systems were in the Ecka maps, we can tell  
 the Parallel system **Black** Holes. And this, if we look at our Eckasha level,  
 completely fallen Bourgha **Black** Hole system Now, Eckashas can't fall, but the EckaNeca

systems

---

Page: 43

---

 Parallel Eckasha, Bourgha **Black** Hole system So, this isn't showing the other crossovers into

---

Page: 44

---

 Bourgha Parallel Eckasha **Black** Hole system passing through into our Eckasha, right? Not into

 but Parallel Veca **Black** Hole passes into ours. So, this is where our Veca

---

Page: 45

---

 with the Parallel **Black** Hole system That's very close to the larger Bourgha Black

 the larger Bourgha **Black** Hole system That's why this system fell, because it's interfaced

---

Page: 46

---

 can open to **Black** Holes that would have some version of orbiting. And it's

---

Page: 50

---

 in between the **black** lines when you do it in one color. So, this

---

Page: 51

---

 look at the **Black** Holes in relation to that You can understand that the

---

Page: 52

---

 got-yeah, its **Black** Hole fall It's got its Meta-Galactic- 12 where its

 is the Bourgha **Black** Hole interface So, you got one big Black Hole mess

 got one big **Black** Hole mess happening, with an even bigger one on top

---

Page: 53

---

 and our Parallel **Black** Hole Veca system I'm not showing you yet what is

 do with the **Black** Holes and things. So, that's something else we'll get into

 here with the **Black** Hole systems folks that have been trying progressively to invade.

 and into the **Black** Hole alignments. The MCEO Freedom Teachings® Series Presented by

---

Page: 54

---

 this is a **Black** Hole alignment as well. So, this is the Core of Veca-

 Parallel Eckasha Bourgha **Black** Hole interface So, literally, the center of Veca-2 is

 is in that **Black** Hole system So, this actually feeds the mess that is

---

Page: 55

---

 with the Bourgha **Black** Hole system Our Milky Way is actually running this line

---

Page: 56

---

 of course, the **Black** Holes and stuff And now, if we can actually plot

---

Page: 57

---

 Meta-Galactic Procyak **Black** Hole system. That corresponds directly to right here, Ok? The

---

Page: 58

---

 where these big **Black** Hole issues are actually occurring, or at least in what

---

Page: 59

---

 be the Procyak **Black** Hole that's at the center of the Milky Way system.

 interfacing with these **Black** Holes and the gates opened all the way through into

---

Page: 61

---

 we have these **Black** Hole fallen system issues over here, and we have these

---

Page: 64

---

 directly with the **Black** Hole System and the Veca-2 Black Hole that is

 the Veca-2 **Black** Hole that is within the Bourgha Black Hole Alignment, which

 within the Bourgha **Black** Hole Alignment, which is this little arc here. So, we're

---

Page: 65

---

 we have the **Black** Hole Interface coming in from the Parallel System. So that's

 in from the **Black** Hole Systems. Directly from the Black Hole Systems. Now, this

 Directly from the **Black** Hole Systems. Now, this is ... we would get these

---

Page: 66

---

 though you have **Black** Holes happening over there, somewhere else in the Universe. They

 it brings that **Black** Hole interface in-right here-literally, through our head. Yeah

 through here, the **Black** Holes are actually transmitting to us from the ... this

---

Page: 67

---

 is in the **Black** Hole at the moment as far as the frequencies go.

 through the Procyak **Black** Hole-are the frequencies that are coming from Veca-2

 Veca-2 Core **Black** Hole System, that's connected with the Bourgha Black Hole System.

 with the Bourgha **Black** Hole System. So it is a whole chain of links

---

Page: 68

---

 had with these **Black** Holes when we were in those other Galactic Probabilities-or

 Galactic-58 Procyak **Black** Hole connection, in the D-3 Rajhna and Pineal. So  
 have got a **Black** Hole in the middle of your Pineal that comes out  
 a sissy with **Black** Holes. (having a laugh) The MCEO Freedom Teachings®

---

Page: 72

---

 in from the **Black** Hole Systems-bend and project out at a different angle  
 directly from the **Black** Hole-come out, project out the left eye, and ...

---

Page: 74

---

 correspondence to those **Black** Hole issues happening. But again if you had these frequencies

---

Page: 75

---

 is the Procyak **Black** Hole System. Right there in our Pineal, controlling our Pineal.  
 up all those **Black** Hole frequencies. So we've got that And we'll see what  
 the Milky Way **Black** Hole. The Procyak Black Hole at the center of the  
 Hole. The Procyak **Black** Hole at the center of the Milky Way. They can

---

Page: 79

---

 all interfacing with **Black** Holes here alright? So you're going to get some nice  
 in from the **Black** Hole sides. So if you have ... wake up from

---

Page: 101

---

 this is where **Black** Hole problems are happening, because they interface with a massive  
 with a massive **Black** Hole system that is in the parallel Eckasha level. Next  
 system into these **Black** Holes to feed their Black Hole system, because this system  
 to feed their **Black** Hole system, because this system is entirely fallen now and

---

Page: 102

---

 can go into **Black** Hole fall, where they're no longer in the natural arrangements  
 looking at the **Black** Hole interfaces over here from Veca-2, and these are

---

Page: 103

---

 is actually the **Black** Hole around which our Solar System has formed And what  
 that's where our **Black** Hole at the center of our Galaxy is. But this  
 down into this **Black** Hole system Now, the original Krystal River Mission, which the  
 down by the **Black** Hole systems over here. That project is not going to  
 to go into **Black** Hole Fall, the Andromeda system isn't And these are all

---

Page: 104

---

 came through that **Black** Hole at the center see the Black Hole is progressively  
 center see the **Black** Hole is progressively becoming active now, which science hadn't figured  
 goes with the **Black** Hole systems And they all have certain similarities to the

---

Page: 105

---

 eaten by the **Black**-Hole mess- because that's what they were trying to do

---

Page: 106

---

 that actually these **Black** Hole systems have been raiding into this system And we  
 quantum that the **Black** Holes had greater quantum than the system They can't eat  
 on top of **Black** Holes. This is why the drama has progressively been manifesting  
 that much larger **Black** Hole that cuts through its system. And if you notice,

---

Page: 107

---

 in the Bourgha **Black** Hole alignment Now there are still pathways through some of  
 and energy and **Black** Hole systems are no longer capable of generating their own  
 to go into **Black** Hole fall But not everyone who gets themselves in black  
 gets themselves in **black** hole situations wants to go into ascension. There's all sorts

---

Page: 108

---

 nobody's talking about **Black** Holes. So this complex has five primary pillars, and they  
 have a massive **Black** Hole connection. This is directly connected into the massive Eckasha

---

Page: 109

---

 guys control the **Black** Hole set that's at the center of our Veca, which  
 which controls the **Black** Hole sets that is at the center of our Galaxy.  
 alignment with the **Black** Holes when we opened the gates in 2000, but not

---

Page: 110

---

 You could fill **Black** Holes with White Out -I like that I That's  
 ones from the **Black** Hole systems attempted to force things to a certain way,

---

Page: 111

---

 even a tiny **Black** Hole- but that's alright- but that's alright" You know, what  
 Anyway, back to **Black** Holes. When we see the final graph that took me

---

Page: 112

---

 Metatron is using **Black** Hole science. And they would show up and do something,

---

Page: 113

---

 is in the **Black** Hole at the center of the Milky Way. And it

 don't worry about **Black** Holes and things, because they don't talk about them. But

 dragged into the **Black** Hole Alignment So, I guess it has been worth it

---

Page: 114

---

 pulled into the **Black** Hole Alignment means. And once you're in you can't get

---

Page: 115

---

 aligned with the **Black** Hole Systems, and then there is the part in the

---

Page: 116

---

 system, in the **Black** Hole System through the big one that is the Core

---

Page: 117

---

 Galactic Core the **Black** Hole, so it brings Earth into alignment. This is the

 alignment with the **Black** Hole at the center of the Milky Way, and that

 alignment with the **Black** Hole at the center of the Milky Way, but what

 the Vega-2 **Black** Hole System that's in the Bourgha Matrix. And that's like

---

Page: 118

---

 control, under the **Black** Hole controls. They could use the whole system, to literally,

 that's how the **Black** Hole System Beings operate. They have very advanced technologies of

 lock with the **Black** Hole Systems. But at that point the Gates will close.

 lock with the **Black** Hole System. So by that point we're going to be

---

Page: 121

---

 Even though the **Black** Hole is pulling on it, it will still hold it

---

Page: 122

---

 it is a **Black** Hole System. It's a last chance system for places that

---

Page: 123

---

 where others from **Black** Holes that are in a fallen Black Hole and can't

 in a fallen **Black** Hole and can't get out, they can come into those

---

Page: 127

---

 it into the **Black** Hole Alignments. Next one, please. [59:12] OK and,

---

Page: 128

---

 dragged into the **Black** Hole Fall ones. So this is the beginning of understanding

 bypass the Procyak **Black** Hole at the center of the Meta-Galactic Core. So
