 of them going **black hole**. It's all connected into this too It gets really,

Page: 479

 what is a **black hole**, in the center of the Milky Way Galaxy. Well,

 core of the **black hole**, and that is Abaddon. Abaddon is actually Procyon A,

 the Milky Way **black hole**, which is Procyon A ... you have Procyon A

Page: 480

 up as the **black hole** bit Abaddon, and a third of it ended up

Page: 498

 and the whole **black hole** mechanism- all of that kind of mess. There is

Page: 499

 way into full **Black hole** Fall. Now at this point, there is still portions

 know it's a **black hole** that is where there is a burned-out star

Page: 500

 which is the **black hole** in the Adjacent Eckasha Systems -it's not even

Page: 503

 was designed by **Black hole** Fall people who decided that it was -instead

 "fallen YHWH **black hole** system," Y-H-W-H, all right. So this,

Page: 505

 is the core **black hole** which is, is a burned out Star, a black

 where we have **Black Hole** system interfaces We also have Black Hole system interfaces
 We also have **Black Hole** system interfaces between these and these over here, which
 is the Bourgha **Black Hole** system That entire set, that entire EckaNeca system is
 as alignment with **Black Hole**. When you align with Black Hole systems, it simply
 you align with **Black Hole** systems, it simply means at some point your gates

Page: 40

 are running the **Black Hole** systems at the center of the Milky-they are
 called the Procyak **Black Hole** systems, because Procydes was the center star of this
 called the Procyak **Black Hole**. Where the Krystic mission was attempting to slowly over
 ones running the **Black Hole** systems have been planning to crash them into each
 fully into the **Black Hole** alignments. So, this is basics of looking at it

Page: 41

 plan of these **Black Hole** systems is, is to get this system at a
 aligning with the **Black Holes** from the Parallel system, the place where Parallel Earth
 the fallen Bourgha **Black Hole** system is. This is showing the alignment between, whaL

Page: 42

 knew where the **Black Hole** systems were in the Ecka maps, we can tell
 the Parallel system **Black Holes**. And this, if we look at our Eckasha level,
 completely fallen Bourgha **Black Hole** system Now, Eckashas can't fall, but the EckaNeca

systems

Page: 43

 Parallel Eckasha, Bourgha **Black Hole** system So, this isn't showing the other crossovers into

Page: 44

 Bourgha Parallel Eckasha **Black Hole** system passing through into our Eckasha, right? Not into

 but Parallel Veca **Black Hole** passes into ours. So, this is where our Veca

Page: 45

 with the Parallel **Black Hole** system That's very close to the larger Bourgha Black

 the larger Bourgha **Black Hole** system That's why this system fell, because it's interfaced

Page: 46

 can open to **Black Holes** that would have some version of orbng. And it's

Page: 51

 look at the **Black Holes** in relation to that You can understand that the

Page: 52

 got-yeah, its **Black Hole** fall It's got its Meta-Galactic- 12 where its

 is the Bourgha **Black Hole** interface So, you got one big Black Hole mess

 got one big **Black Hole** mess happening, with an even bigger one on top

Page: 53

 and our Parallel **Black Hole** Veca system I'm not showing you yet what is

 do with the **Black Holes** and things. So, that's something else we'll get into

 here with the **Black Hole** systems folks that have been trying progressively to invade.

 and into the **Black Hole** alignments. The MCEO Freedom Teachings® Series Presented by

Page: 54

 this is a **Black Hole** alignment as well. So, this is the Core ofVeca-

 Parallel Eckasha Bourgha **Black Hole** interface So, literally, the center of Veca-2 is

 is in that **Black Hole** system So, this actually feeds the mess that is

Page: 55

 with the Bourgha **Black Hole** system Our Milky Way is actually running this line

Page: 56

of course, the **Black Holes** and stuff And now, if we can actually plot

Page: 57

 Meta-Galactic Procyak **Black Hole** system. That corresponds directly to right here, Ok? The

Page: 58

 where these big **Black Hole** issues are actually occurring, or at least in what

Page: 59

 be the Procyak **Black Hole** that's at the center of the Milky Way system.

 interfacing with these **Black Holes** and the gates opened all the way through into

Page: 61

 we have these **Black Hole** fallen system issues over here, and we have these

Page: 64

 directly with the **Black Hole** System and the Veca-2 Black Hole that is

 the Veca-2 **Black Hole** that is within the Bourgha Black Hole Alignment, which

 within the Bourgha **Black Hole** Alignment, which is this little arc here. So, we're

Page: 65

 we have the **Black Hole** Interface coming in from the Parallel System. So that's

 in from the **Black Hole** Systems. Directly from the Black Hole Systems. Now, this

 Directly from the **Black Hole** Systems. Now, this is ... we would get these

Page: 66

 though you have **Black Holes** happening over there, somewhere else in the Universe. They

 it brings that **Black Hole** interface in-right here-literally, through our head. Yeah

 through here, the **Black Holes** are actually transmitting to us from the ... this

 through the Procyak **Black Hole**-are the frequencies that are coming from Veca-2

 with the Bourgha **Black Hole** System. So it is a whole chain of links

Page: 68

 had with these **Black Holes** when we were in those other Galactic Probabilities-or

have got a **Black Hole** in the middle of your Pineal that comes out

Page: 75

 is the Procyak **Black Hole** System. Right there in our Pineal, controlling our Pineal.

 up all those **Black Hole** frequencies. So we've got that And we'll see what

 the Milky Way **Black Hole**. The Procyak Black Hole at the center of the

Page: 79

 all interfacing with **Black Holes** here alright? So you're going to get some nice

 to feed their **Black Hole** system, because this system is entirely fallen now and

Page: 102

 can go into **Black Hole** fall, where they're no longer in the natural arrangements

 looking at the **Black Hole** interfaces over here from Vega-2, and these are

Page: 103

 is actually the **Black Hole** around which our Solar System has formed And what

 that's where our **Black Hole** at the center of our Galaxy is. But this

 down into this **Black Hole** system Now, the original Krystal River Mission, which the

 goes with the **Black Hole** systems And they all have certain similarities to the

Page: 105

 eaten by the **Black-Hole** mess- because that's what they were trying to do

Page: 106

 that actually these **Black Hole** systems have been raiding into this system And we
 quantum that the **Black Holes** had greater quantum than the system They can't eat
 on top of **Black Holes**. This is why the drama has progressively been manifesting
 that much larger **Black Hole** that cuts through its system. And if you notice,

Page: 107

 in the Bourgha **Black Hole** alignment Now there are still pathways through some of
 and energy and **Black Hole** systems are no longer capable of generating their own
 to go into **Black Hole** fall But not everyone who gets themselves in black
 gets themselves in **black hole** situations wants to go into ascension. There's all sorts

Page: 108

 nobody's talking about **Black Holes**. So this complex has five primary pillars, and they
 have a massive **Black Hole** connection. This is directly connected into the massive Eckasha

 Anyway, back to **Black Holes**. When we see the final graph that took me

Page: 112

 Metatron is using **Black Hole** science. And they would show up and do something,

 is in the **Black Hole** at the center of the Milky Way. And it

 don't worry about **Black Holes** and things, because they don't talk about them. But

 dragged into the **Black Hole** Alignment So, I guess it has been worth it

Page: 114

 pulled into the **Black Hole** Alignment means. And once you're in you can't get

Page: 115

 aligned with the **Black Hole** Systems, and then there is the part in the

Page: 116

 system, in the **Black Hole** System through the big one that is the Core

Page: 117

 Galactic Core the **Black Hole**, so it brings Earth into alignment. This is the

 alignment with the **Black Hole** at the center of the Milky Way, and that

 alignment with the **Black Hole** at the center of the Milky Way, but what

 that's how the **Black Hole** System Beings operate. They have very advanced technologies of

 lock with the **Black Hole** System. So by that point we're going to be

Page: 121

 Even though the **Black Hole** is pulling on it, it will still hold it

Page: 122

 it is a **Black Hole** System. It's a last chance system for places that

Page: 123

 where others from **Black Holes** that are in a fallen Black Hole and can't

 in a fallen **Black Hole** and can't get out, they can come into those

Page: 127
