 things in the **DNA** that allow other things that are not God, that are  
 back into your **DNA**. You have the keys to your freedom right in your  
 right in your **DNA** in what's called the junk DNA. The junk DNA are  
 called the junk **DNA**. The junk DNA are those little pieces of DNA and  
 DNA. The junk **DNA** are those little pieces of DNA and genes that are  
 little pieces of **DNA** and genes that are still floating around someplace in the  
 someplace in the **DNA** but don't appear to be-they're not coding for protein  
 on in the **DNA**. That's not junk. That junk was part of the result  
 parts of the **DNA** and create unnatural sequences of genes and there were problems

---

Page: 9

 that caused the **DNA** mutation in the first place. But they were also used  
 that keep the **DNA** block locked in. What most people have no concept about  
 by which your **DNA** imprisons you. What's needed here is healing, and that's what

---

Page: 11

---

 to reawaken the **DNA** to do this is called "gliding." When we do  
 turning on the **DNA** parts that will allow you to first take a portion

 correspond to the **DNA** strand activation to that level, in order to see this

 activated in our **DNA**, we would be able to make the leaps. We would

 just like in **DNA** activations, where you first have an initiation, where the frequencies

 tonallines in the **DNA** or in the body. And then when they fully run

 not only the **DNA** template and your Rash aLAe bodies, but also in relation

 right into your **DNA** template and it's as if you did it physically. And

---

Page: 153

 and with the **DNA** activations that are going with the RaSh aLAe body activation

 are happening with **DNA** activations and DNA template activations and the Epigenetic-Overlay activations

 DNA activations and **DNA** template activations and the Epigenetic-Overlay activations that control the

 that control the **DNA** template. So, you have to take each with a grain

 is called the **DNA** template. When we talk about the DNA template there is

 talk about the **DNA** template there is an inner etheric-atomic sheath of etheric-

 D-21level chemical **DNA** manifests and then there is an outer sheath that is

 we talk about **DNA** template overlays, we are talking about the epigenetic overlays or

 is controlling the **DNA** chemical structure So we have a Derma-NET that is

 controlling the chemical **DNA** and there is the Ego-NET or the Epigenetic Overlay

 controlling the chemical **DNA**. And the outer one is running in the outer Van

 process through the **DNA** template, the DNA-which is the chemical DNA-and the  
 DNA template, the **DNA**-which is the chemical DNA-and the Epigenetic Overlay of  
 is the chemical **DNA**-and the Epigenetic Overlay of the DNA, which is where  
 Overlay of the **DNA**, which is where they usually hit first And that's the  
 for the chemical **DNA**. Science here has recently been getting into Epigenetics which is  
 is on the **DNA** that appears now, science is finding, to regulate how the  
 genes in the **DNA** actually behave-what ones shut off, what ones shut on  
 do with our **DNA** templates and these activations and what we're living on, on  
 is controlling the **DNA** template. We have another NET called the Intra-NET that  
 is controlling the **DNA** itself, the chemical DNA. And then we have something that's  
 itself, the chemical **DNA**. And then we have something that's called the Epigenetic Overlay  
 layer of the **DNA** chemicals and this is how we are bio-bound. We  
 levels of the **DNA**-the template, the chemical DNA, and the Epigenetic Overlay. But  
 template, the chemical **DNA**, and the Epigenetic Overlay. But we tend to use template  
 shift the chemical **DNA**. So, when start getting physical symptoms of weirdness, just like

---

Page: 295

---

 to activate enough **DNA** to actually go through. So, those maps are the local

---

Page: 300

---

 mutation in the **DNA** where it literally took of line our cellular memory so  
 wipe via the **DNA** because the DNA, particularly the Epigenetic Overlay, is very, very  
 DNA because the **DNA**, particularly the Epigenetic Overlay, is very, very sensitive to  
environmental

---

Page: 343

---

 on the chemical **DNA**-the set of frequencies that are running in those bands

 **DNA**. Now, if we look ... again, we have our mantle,

 aspect of the **DNA**. We have a DNA template. We have the DNA chemical

 We have a **DNA** template. We have the DNA chemical itself, and we have

 We have the **DNA** chemical itself, and we have the outer sheath, or the

 NET controls the **DNA** template, the Intra-NET, which is this one out here,

 controls the chemical **DNA** directly, and the other one that we'll see in a

 are on the **DNA**, that talk to the DNA chemicals and tell them when

 talk to the **DNA** chemicals and tell them when to turn on and when

 you can't harvest **DNA** from it, they were harvested for DNA, and they were

 were harvested for **DNA**, and they were used to create a hybrid between those

---

Page: 348

 that controls the **DNA** template, which is referred to as the inner sheath, and

 that the chemical **DNA** itself manifests upon. When you're coming out further, the next

 to the chemical **DNA**. So, that is the mind control NET. The one in

---

Page: 350

---

 that does the **DNA** template. It's the Derma-NET. It goes from the upper

---

Page: 356

---

 things in your **DNA** template, in your DNA chemical, and in your DNA epigenetic

 template, in your **DNA** chemical, and in your DNA epigenetic sheath, and in your

 and in your **DNA** epigenetic sheath, and in your RaSha bodies-the whole spectrum

---

Page: 360

 and in your **DNA** template, or you wouldn't have felt the resonance to come.

---

Page: 400

 things in the **DNA** that will allow the body to first of all transmute

---

Page: 406

---

 next that your **DNA** will send out to them that your RashaLAe Body will  
 that you, your **DNA** and your RashaLAe Body will send out and if you  
 configuration in their **DNA** templates, they were born with it because of where they

---

Page: 409

---

 in your own **DNA** if you got the call to come here you already

---

Page: 410

 you have the **DNA**, it does it when the planetary group does it so

Page: 413

 These are the **DNA NET**'s and things that we have been talking about for  
 controls the chemical **DNA** where this one controls the etheric DNA, the etheric template  
 controls the etheric **DNA**, the etheric template of the DNA, this controls the chemical  
 template of the **DNA**, this controls the chemical DNA. And then here at the  
 controls the chemical **DNA**. And then here at the D-31level -and these  
 for Epigenetic-Overlay **DNA NET** because it controls the epigenetic overlays. [Someone arriving  
 etheric function, the **DNA** template, as we have, we have referred to things as  
 to things as **DNA**, **DNA** template and DNA overlays. We have a DNA template  
 DNA template and **DNA** overlays. We have a DNA template that equals the D-  
 We have a **DNA** template that equals the D-1 etheric-atomic level of  
 level of the **DNA** that science doesn't see right. You have the DNA at  
 You have the **DNA** at D-21level which is the chemical DNA that science  
 is the chemical **DNA** that science does see and then you have at D-  
 been calling the **DNA** overlay. So there are 3 levels, like 3 sheaths of  
 3 sheaths of **DNA** with the one in the middle as the one science  
 identifies as the **DNA**. This one, the DNA overlay layer, science is actually beginning  
 This one, the **DNA** overlay layer, science is actually beginning to identify and realizing  
 controls the chemical **DNA**. Science here calls it the epigenetics right. The chemical coding  
 is on the **DNA** strands that actually seems to be talking to the genes  
 were calling the **DNA** template, the DNA and the DNA overlay and these 3  
 DNA template, the **DNA** and the DNA overlay and these 3 NET's harness each  
 DNA and the **DNA** overlay and these 3 NET's harness each one of The

 as far as **DNA** Templates, they don't just have the Codes that would go

 carried in the **DNA** Template. Those Codes allow them to activate DNA that will

 and blocks our **DNA** Template. The D2 NET is called the Intra-NET. It

 controls the Chemical **DNA**. And the D3 NET is the Epi-NET or the  
 to the chemical **DNA**. So it not only controls our DNA the DNA of  
 only controls our **DNA** the DNA of everything on the planet, they also run

 Nets and the **DNA** templates. We have talked about before, DNA template, chemical DNA  
 talked about before, **DNA** template, chemical DNA and DNA overlays as being things that  
 DNA template, chemical **DNA** and DNA overlays as being things that are different from  
 chemical DNA and **DNA** overlays as being things that are different from each other,  
 to as the **DNA** template. The chemical DNA is the part that is composed  
 template. The chemical **DNA** is the part that is composed of telluric-atomic matter,  
 form and the **DNA** overlay is composed of D-3 atmic. Those things are  
 control for the **DNA** in there. Now, the D-31level of the DNA, which  
 31level of the **DNA**, which is the DNA overlay. We've talked about different types  
 which is the **DNA** overlay. We've talked about different types of overlays especially the  
 actually on the **DNA** itself, on the chemical DNA that they're, science here is  
 on the chemical **DNA** that they're, science here is finding may be more important  
 important than the **DNA** itself, because this chemical coating seems to tell what gene  
 all along is **DNA** overlays, science is now coming out with articles in the

 been blocking our **DNA** so we aren't able to make that. And somewhere in

---

Page: 264

---

 just remember the **DNA** Template D-1, D-2 would be the chemical DNA.  
 be the chemical **DNA**. D-3 would be the DNA overlay, or the epigenetic  
 would be the **DNA** overlay, or the epigenetic overlay, and then there's the Density  
 something around the **DNA** that I can't wait to find out about because I

---

Page: 289

---

 we had our **DNA** shredded, and we had the Babylon forever massacre where everybody  
 languages, because everybody's **DNA** codes were off with each others. And that's where all

---

Page: 308

---

 that controls our **DNA** template. We have the D2 Intra-Net, and that's the  
 controls our chemical **DNA**. We have the D3 Ego, or Epi-Net The Ego-

---

Page: 309

---

 is controlling the **DNA** overlay, which is that chemical sheath of the epigenetic that  
 do in the **DNA**. So, these are the Net fields that have literally our

 we call the **DNA** template. The D2 level would correspond to what's called the  
 called the Chemical **DNA** and the D3 level would correspond to what's called the Epigenetic
