 the Eternal Life **Kathara Grid** Template This, in simple terms ... a lot of
 This is a **Kathara Grid**. Now, most people I think, even the new people,
 something about the **Kathara Grid** through Kathara 1 and those kind of things. I
 structure of the **Kathara Grid** in relation to encryption. When we talk about, in
 form of the **Kathara Grid**. The Kathara Grid is also known as the real
 Kathara Grid. The **Kathara Grid** is also known as the real Tree of Life.
 you see a **Kathara Grid** that is shaped different, if it is thinner, if
 any type of **Kathara Grid** structure that is not this shape, it implies that...

Page: 99

 that 12-Point **Kathara Grid**?" It's like, "what are you talking about?" Because
 start with the **Kathara Grid** like we always do and we'll go to the
 Now, from that **Kathara Grid** I wanted to point out here early on that
 that from the **Kathara Grid** we first get the exact proportions and rates of
 you're taking the **Kathara Grids** and it's called the 9/12 alignment, that actually
 spheres around the **Kathara Grids** that form the spheres within spheres within spheres. So,

Page: 110

 proportions of the **Kathara Grids** or the Krystal Spiral it shuts down the backflow

 proportions of the **Kathara Grids** and that it also, that the spheres are built

Page: 123

 have, like, two **Kathara Grids**, this way, one with a flow going this way,

Page: 133

 you take one **Kathara Grid**, this point, here, on the Kathara Grid, this line

 here, on the **Kathara Grid**, this line on the top, that is referred to

Page: 146

 is just two **Kathara Grids**, each with their 15 Geleziac Layer Structure. You start

Page: 150

 you see the **Kathara Grids**, we call them the bones. And on the spheres

Page: 154

 put the D2 **Kathara Grid** in, it would be here. So the surface level,

Page: 156

 about your Density **Kathara Grid** level. Then there is the D1, D2, and D3

Page: 157

 you five embedded **Kathara Grids**, each with 15 Geleziac Layers. And if you put

Page: 160

 Urtha in the **Kathara Grid** is/represents Star Gate number 3, alright in the

 alright in the **Kathara Grid** with the 12 points on it, right directly vertically

Page: 179

 on a spiraling **Kathara Grid** to show you the proportions of expansion between the

Page: 184

 bones of the **Kathara Grids** were trying to show us. So that's why they

Page: 215

 that show the **Kathara Grid** alignments between the gates here and the gates in

Page: 234

 that-well the **Kathara Grid** represents the Light Body structure and the proportions of

 within the natural **Kathara Grid**. And we're using the 02 Kathara Grid here, and

 using the 02 **Kathara Grid** here, and this is the 03 Kathara Grid, and

 is the 03 **Kathara Grid**, and this is the 02 Kathara Grid. It's positioned

 is the 02 **Kathara Grid**. It's positioned with its 12-Point at the 9-

 of the 02 **Kathara Grid**. And the 02 Kathara Grid corresponds to your 02

 And the 02 **Kathara Grid** corresponds to your 02 Tell uric physical body. So

 actually have your **Kathara Grid** in there. It in here, but the frequencies extend

 look at a **Kathara Grid** and you have the Eumbi Lock on the Density

 a regular shaped **Kathara Grid** with the right proportions. It would have its number

 proportions of the **Kathara Grid**, which changes all of the mathematical relationships between ARPS

 is the natural **Kathara Grid** structure. Each one of these Kathara Centers is actually

 at least about **Kathara Grids** and how they work those gates, or it would

 of all our **Kathara Grid** is tilted because of the pull that they're having

 this type of **Kathara Grid** system-completely different proportions, unnatural proportions. It is the

 bottom of a **Kathara Grid** theoretically speaking, but we've got our 11 here. We've

 at a normal **Kathara Grid** you would look at it on the vertical, unless

 in place. The **Kathara Grid** portion, a portion of our Kathara Grid is bent

 portion of our **Kathara Grid** is bent this way, where it is pulled into

 top of your **Kathara Grid**, you'll have your Density 4 Shield. Each one of

 which is the **Kathara grid**. These are all going to be fast before we

Page: 64

 this is your **Kathara grid**, your light body structure, you would have these as

 planet has it's **Kathara grid**, we know that the planet has a D-1

 D-1 level **Kathara grid**, a D-21level Kathara grid, a D-3 level

 a D-21level **Kathara grid**, a D-3 level Kathara grid, and a Density

 D-3 level **Kathara grid**, and a Density level Kathara grid, and that is

 a Density level **Kathara grid**, and that is just for Density-1. That all

Page: 81

 is the other **Kathara grid** that is part of your Pillar of Power, that

Page: 85

 our Density-1 **Kathara grid**. In the embedded Kathara grids that we have talked

 In the embedded **Kathara grids** that we have talked about, we have the D-

Page: 86

 side of its **Kathara grid** over here and it's 9-6-3 side here

 with the universal **Kathara grid**- that's falling but at least it's holding its axis.

Page: 104

 your own Ethos **Kathara grid** and fields from below your feet and your Eiros

 with your body's **Kathara grid**. And we're going to hold that for a moment

 bring down the **Kathara grids** for the Eiros and Primal Light Field that's above

Page: 150

 structure of a **Kathara grid** and you think of our Universal12 Gate The MCEO

Page: 184

 that one, the **Kathara grid** and the 12 code. I don't have to go

Page: 185

-  increments of the **Kathara grid** and it turning 45 degrees, so there's a specific
 -  took a little **Kathara grid** right at the center and that would represent the
-

Page: 186

-  proportions of the **Kathara grid**, the specific proportions of a Kathara grid and how
 -  proportions of a **Kathara grid** and how it spins and increases its size proportionally-
-

Page: 190

-  point in its **Kathara grid** on that level. So this one is this little
 -  a little vertical **Kathara grid** and the circle around that is structured like this.
-

Page: 191

-  rates of the **Kathara grids** and then Number Three, it's top point would be
-

Page: 199

-  the D-2 **Kathara grid** let's say, this will show you the Rha-Ka
-

Page: 200

-  The D-1 **Kathara grid** inside of the D-2 Kathara grid would be
 -  the D-2 **Kathara grid** would be like this. And if I had it
 -  D-3 Earth **Kathara grids** and D-1, D-2 and D-3 Urtha
 -  D-3 Urtha **Kathara grids** or radiation structure So these seals control the flow
 -  don't have the **Kathara grid** drawn in here because it makes it so complex
 -  the D-21level **Kathara grid** with its D-2 level Rha-Ka radiation layer
 -  there is another **Kathara grid** here. That is the D-2 grid in there.
-

Page: 201

-  the D-2 **Kathara grid** and the D-3 grids-the mental planes-that
-

Page: 203

-  another full proportional **Kathara grid** to get exactly where, proportionately, Urtha D-2 surface
-  our Density level **Kathara grid** and its radiation level which is in the same
-  the D-1 **Kathara grid** for Urtha. So we are literally positioned, and our
-  a D-1 **Kathara grid** for the etheric-atomic level of Urtha, then you
-  a D-2 **Kathara grid** which would be another level of expansion that would
-  to our Universal **Kathara grid**. I just wanted to show you all of those

 merkaba, the tilted **Kathara grid**. This is the un-natural structure that Earth's body

Page: 204

 in our Earth **Kathara grids** -here is the inner Van Allen radiation Belt,

Page: 237

 Earth's D-2 **Kathara grid**. Inside of this -it is not even shown

 Earth's D-1 **Kathara grid** and their 151ayer geleziac fields that go with it

Page: 243

 the D-2 **Kathara grid** and the D-1 Kathara grid pertaining to Earth,

 the D-1 **Kathara grid** pertaining to Earth, the D-1, 2 and 31levels.

Page: 247

 one of those **Kathara grids** and geleziac radiation levels, right? So, when you break

Page: 294

 D3 level of **Kathara grids** and then you have the fourth which is the

Page: 303

 mathematics of the **Kathara grid** which is the core encryption of the first Partiki

Page: 305

 mathematics of the **Kathara grid** ... all of those layers have to do with

 with a tiny **Kathara grid**, and then goes through a very precise angle of

 these are literally **Kathara grids** embedded within Kathara grids, turning 45 degrees, and expanding

 grids embedded within **Kathara grids**, turning 45 degrees, and expanding out The MCEO Freedom

Page: 306

 each of those **Kathara grids**, it gives you the geleziac layers. It also will

 built on the **Kathara grids** that are embedded, very precisely mathematically, and that gives

Page: 307

 proportions of the **Kathara grid** encryption and all built on it Anyway, we went

Page: 309

 of the little **Kathara grids** as they get bigger and bigger and they shift

Page: 314

 notice these are **Kathara grids**, both one going vertically and one going horizontally. You

 this as a **Kathara grid**, you'd know that here on a Kathara grid is

 here on a **Kathara grid** is the Rajhna and here is the E-Umbi.

Page: 315

 has a little **Kathara grid** set-up in it So, when you're looking at

Page: 325

 bones, or the **Kathara grids** ... all the little interwoven Kathara grids and the

 the little interwoven **Kathara grids** and the balls are all the Par-TE"-KEi

 itself the interwoven **Kathara grids**, where you have a Kathara grid vertically, and then

 you have a **Kathara grid** vertically, and then a Kathara grid horizontally. If we

 and then a **Kathara grid** horizontally. If we drew those all here, we would

Page: 338

 that show the **Kathara grid** and your body in relation to the geleziac things.

Page: 339

 relation to the **Kathara grid** that is the Veca grid where you have Urtha

Page: 340

 into the natural **Kathara grid** structure of our EckaNeca system and that's supposed to

 you had a **Kathara grid** here you would see that you had natural Urtha

Page: 341

 That mess. Our **Kathara grid** is tilted. It's messed up. Our merkaba fields are

 is the D2 **Kathara grid** of Earth. The geleziac states form this way. You

Page: 342

 looking at one **Kathara grid** with its one geleziac template, its Par-TE"-KEi

Page: 343

 see the embedded **Kathara grids** of the D21level and the D31level put together, so

 you get the **Kathara grids** to go up and down as far as that

Page: 351

 03 or any **Kathara grid**, it's going to show ... ifyou put a Kathara

 ifyou put a **Kathara grid**, and the geleziac radiation templates around it, the Rha-

 are built on **Kathara grids** that are holding the math as far as their

 the spiraling of **Kathara grids** and how they expanded out. So, the proportions that
 talking about the **Kathara grids**, so I'm talking about 15 dimensional geleziac templates for
 01, 02, 03 **Kathara grids** that correspond to the geleziac templates of Earth. Then
 geleziac templates and **Kathara grids** that correspond to the layers of Urtha. And what

Page: 356

 the natural universal **Kathara grid** of our EckaNeca system Earth's North is here. It's
 top of the **Kathara grid** axis of this universal system So, I just wanted
 at the natural **Kathara grid** structure of Urtha and gate 7 is over here,
 with its natural **Kathara grid** structure, we'd have gate 7 here too, but when

Page: 412

 look at a **Kathara grid** and go up from the 3 to the 6,

Page: 427

 reminder of the **Kathara grid** exact proportions. Az will be back soon to help
 build on the **Kathara grid** and the Kathara grid has precise relationships. It is
 grid and the **Kathara grid** has precise relationships. It is not the ... you
 versions of the **Kathara grid** which means the math is distorted. It is the
 proportions of the **Kathara grid**. I won't go into reading all the little print
 Where the single **Kathara grid** co-joins and two of them are formed like
 them together, 4 **Kathara grids** represents a Veca System and at the center forms

Page: 430

 there are more **Kathara grids** that if you have the Ecka map representing the

Page: 434

 you take a **Kathara grid** that represents, just imagine a single Kathara grid alright
 imagine a single **Kathara grid** alright and let's say that represents the core bones

Page: 454

 look at the **Kathara grid** the 3-6-9 line up that would be
 side of the **Kathara grid** when it's on you right, 3-6-9, it

Page: 456

 done on the **Kathara grid** shape. If you'll notice there are Kathara grids points
 notice there are **Kathara grids** points hidden in here. This, we've covered it in
 build on the **Kathara grid** proportions and how that spirals out I'm not going

 expansion of the **Kathara grid** template as it rotates and generates quantum by making

 a little tiny **Kathara grid** inside here at this angle. This is the zero
 circle around the **Kathara grid**, it gives you the size of the circle of
 showed me the **Kathara grid** then they said take the number 9 on that
 on that little **Kathara grid** that you have here, now take the number 12
 and build the **Kathara grid** from that being its 9 point and that is

 you looked at **Kathara grids** how we have showed embedded Kathara grids before in
 have showed embedded **Kathara grids** before in K2-3 manual for example where you
 you have one **Kathara grid** and then to get the proportion of another one
 look at one **Kathara grid** here with the number 2 on it Now in
 on the 2 **Kathara grid**, the 1-point, would be cantered in the E-

 where the entire **Kathara grids**, and these lines are rotating at like ... spinning

 be the tiniest **Kathara grid**. See, there"s these little Kathara grids if you look
 there"s these little **Kathara grids** if you look at just the vertical ones right
 lineup of the **Kathara grids**, the first expansion comes out where the, what would

 where the 12 **Kathara grid** would be, the Kathara center would be at the
 top of the **Kathara grid** for that level, right? Now if you take this
 is the D2 **Kathara grid** where its top is lined up with the Rajhna
 take this D2 **Kathara grid** and go the same proportion up and find your
 see the embedded **Kathara grids** with our body and we get our, our D1

 we're having the **Kathara grids** with, not only the vertical ones but, another set
 again, if this **Kathara grid**, we're looking at the Eukatharista Body but with its

 These are the **Kathara Grids** we have been working with on the outer level,

 know, a distorted **Kathara Grid**, um ... would be here. Now, if you turn

 This is the **Kathara Grid** that we talk about being here around your body

 9 of that **Kathara Grid**, right? So, here is your 02 physical body and

 grids ... uh, **Kathara Grids** with 02 and 03 and showing you also the

 body with its **Kathara Grid** on the 02 level, which is the 021level of

Page: 515

 larger Eukatharista Body **Kathara Grid**. So you have got your little Mentor space there

Page: 516

 these ... the **Kathara Grids** are ... the size of this diagram and the

Page: 518

 controlling Earth. Earth's **Kathara Grid** is tilted, its Merkaba Fields are becoming completely phase-

Page: 524

 I've taken the **Kathara Grid** shapes out They are in the right proportions like

 be the 03 **Kathara Grid** that we usually work with. The density one's go
 from the first **Kathara Grid** structure and the proper proportions of the Kathara Grid
 proportions of the **Kathara Grid** structure Once we get there, we'll be having this
 positions on the **Kathara Grid** that was the universal stargate map, the actual names

Page: 36

 of a natural **Kathara Grid**, which is the Krist code. This particular grid holds
 built on the **Kathara Grid** proportions and the code that it holds, which is
 before too That **Kathara Grid** forms in various groupings, to form ... first you
 have the one **Kathara Grid**. This represents our universal Veca system We have our
 just how the **Kathara Grids** that form the universal light body structure are. This
 remind that the **Kathara Grid** builds up to what were the Ecka Maps of

Page: 37

 rotation of the **Kathara Grid** of this universal Veca system And the shield, the

Page: 51

 that little tiny **Kathara Grid** down in there, that would be the size relative
 in terms of **Kathara Grids**, the Tauren Kathara Grid, this would be its top,
 Grids, the Tauren **Kathara Grid**, this would be its top, this would be its

Page: 78

 center on the **Kathara grid** and this would be, 3 would be here and

Page: 80

 were 4 embedded **Kathara grids** with their 151ayer structures? This is just showing 2
 the density level **Kathara grid**. We've showed these in the Kathara system where you

Page: 85

 the Density level **Kathara grid** and its 151ayer set, if we put that around

Page: 89

 pull apart the **Kathara grids** where you do the D1, the D2 the D3

Page: 96

 right on the **Kathara grid**, it runs specific through the specific gates in the
 gates in the **Kathara grid**. Now, if you take, this is actually the second

Page: 99

 to the Planetary **Kathara Grid**. And we showed you yesterday, I think, how that
 to use another **Kathara Grid** in order to, you will see the points when
 you use a **Kathara Grid** drawn, as it were, next to this one. What
 using the first **Kathara Grid** drawn and laid into this, connected into this at
 it with another **Kathara Grid** exactly sitting next to it Now, having got that
 fitted to the **Kathara Grid** in an accurate way and then it needed to

Page: 122

 Point in your **Kathara Grid** here. So you'd have a small one of these

Page: 174

 of these little **Kathara grids** on here. [Graph] [OVD-R 1 Audio
 the little faint **Kathara grids** on there, the central column of each of the
 there are 12 **Kathara grids**, they are interwoven with their 12 central lines, 12

Page: 182

 look at a **Kathara grid**, the 3 and 4 positions. Our Solar System ended

Page: 207

 remember the embedded **Kathara grids** that we've seen in some of the Kathara work,

Page: 216

 locks on the **kathara grid** system This circle, here, would be the D-3

Page: 220

 more like the **kathara grids** that are lining up, where you're not seeing the

Page: 232

 the density level **Kathara grid**, and they haven't told us what that is but

Page: 235

 you take a **Kathara grid**, right If you're going to do it times 2

 you take one **Kathara grid**, take a center line, take one Kathara grid, take
 line, take one **Kathara grid**, take the little one, put it down below, and
 of the little **Kathara grid** hitting the Rajna and E-Umbi points in the
 each of the **kathara grids**. So there's a little one at the zero point

Page: 242

 proportions of the **Kathara grid** and all of those spirals that you saw the,
 that shows the **Kathara grid**. I think that's in K2-3 manual. Yeah, so
 based on the **Kathara grid** where the one after, right, if you take the
 you take the **Kathara grid** and its 12 point is here. You go to

Page: 243

 of just the **Kathara grid** expansions. Anybody that's good with math can figure those

Page: 245

 do with the **Kathara grids**. So, it's all proportional, and I believe the 4,

Page: 246

 structure of embedded **Kathara grids** where if you look at it, if you look
 the first little **Kathara grid** shape, right, and how tall that is and if
 each of those **Kathara grids**, what you end up with are the 6 I

Page: 247

 which means the **Kathara grids** are a little bit smaller and you can tell
 of the little **Kathara grid** will land right in the E-Umbi in the

Page: 274

 right, of the **Kathara Grids** we've been using in Kathara right This would be

Page: 339

 think of our **Kathara grids** that we've been looking at and the proportions of
 of the D3 **Kathara grid**, where we know that 11 is around the pineal

Page: 347

 those separate little **Kathara grids** together that had each of those different-from the
 inherent to the **Kathara grid** and that formula creates what is called the natural

Page: 350

 a spiral of **Kathara grids**. This is a different level of expansion. The numbers

 looked at the **Kathara grids**, when we were studying Kathara and we looked at
 at the embedded **Kathara grids** where you had the 01 grid and then the top

Page: 364

 then the Density **Kathara grids** on the DNA. The D1 level would correspond to
 with the big **Kathara grid**, the Density level grid and the D-3 grid

Page: 365

 those four embedded **Kathara grids**, each with their 15 geleziac sphere sets, what it
 interfaces because these **Kathara grids** have that particular expansion alignment of the E-Umbi

Page: 367

 look like little **Kathara grids**, and every little Kathara grid implies there is a
 and every little **Kathara grid** implies there is a sphere around it. This is

Page: 377

 be the Density **Kathara grid** here. This Kathara grid here would be the D-
 grid here. This **Kathara grid** here would be the D-3 Kathara grid, of
 the D-3 **Kathara grid**, of the one that we're usually looking at, standing
 There is the **Kathara grid** structure that we've seen in the Kathara manual and

Page: 383

 if it's a **Kathara grid**, one is upside down and one is downside up.

Page: 392

 are the same **Kathara grids** if you put it all plotted on a Kathara
 plotted on a **Kathara grid** of the AdorA and the ElorA. And it's those
 eyes and the **Kathara grids**. And then when you take them off the Kathara
 them off the **Kathara grids** just to show where you see them more clearly,

Page: 441

 think of a **Kathara Grid**, the three Kathara Center and the four Kathara Center

Page: 442

 rotation of the **Kathara Grid**, but unlike Earth, it always stays in Urtha. Sol,

Page: 448

 up in the **Kathara Grid**, and if Urtha is USG 3, you go up
 from the 3 **Kathara Grid** (center), you have the 6 Kathara Center, up

where our density **Kathara Grid** is, that is where their D1 is. So then

there, the embedded **Kathara Grids**. What this is showing you- first of all, I

Page: 454

this in the **Kathara Grid** and there are 12 of those So, this is

Page: 472

little balls and **Kathara grids** on it, and you start to see how that

Page: 479

in the universal **Kathara Grid**, and that's the part that we're going to be

Page: 502

Fields of the **Kathara Grids** of the Radial Body of a natural planet- all

be in the **Kathara Grid**, and these are literally arcs of energy and attached

Page: 503

structure of a **Kathara Grid**. And as we've talked about before the Kathara Grid

about before the **Kathara Grid** is about the natural proportions of everything, it literally

bodies where our **Kathara Grids** are. What they do is they pull the arcs

Page: 506

to enlarge the **Kathara grid** diagrams to bring the spheres into size alignment enough,

Page: 507

back to basic **Kathara grid** and let's say we're in the M31 system, our

Page: 508

run on a **Kathara grid** where you have M12 at the top, which is

gates are the **Kathara grid** main gate set that goes with the Milky Way.

Page: 509

totally different shape **Kathara grid**, it's long and skinny compared to the Kathara grids

compared to the **Kathara grids** that, where our guys have always shown us, and

you've got the **Kathara grid** that's shorter ... that, shorter on top, longer here

center of the **Kathara grid**. All this stuff runs on the metatronic spiral, the

Page: 510

now notice most **Kathara grids**, natural ones, will have the 1 at the bottom

Page: 517

entire harnessing, nasty **Kathara grid** that you know .. you get my gist, right

 didn't know a **Kathara grid**, forget it. You'd never be able to figure it

Page: 9

 we see the **Kathara grid**, and this is why I'll do these diagrams so

 think of a **Kathara grid**- so that would be one chamber. I'll draw it

Page: 12

 think of a **Kathara grid** and think of like the- no, that's not going

 where, in the **Kathara grid** structure what would be our natural 12 star gates that

Page: 19

 is how a **Kathara grid** would be positioned in each system, and that's particularly

 could see the **Kathara grids** in it Because, later you will see how this

Page: 24

 at the same **Kathara grid**, showing just a little bit more detail, the Aquinos

Page: 75

 forms this tilted **Kathara Grid** here has M gates They refer to the Milky Way.

Page: 76

 is a distorted **Kathara Grid** that plugs into the distorted Kathara Grid of their

 into the distorted **Kathara Grid** of their universe over there. That universe, that particular

Page: 101

 Cosmic Light Body **Kathara grid**, right, that we had in the Ecka-Veca maps

Page: 103

 our D-2 **Kathara grid**. This would be our D-3 Kathara grid and

 our D-3 **Kathara grid** and that means we have a D-1 Kathara

 a D-1 **Kathara grid** in here. And we have the big density one

Page: 104

 level of the **Kathara grids**. If you look at where they're stationed-now, if

Page: 105

 All of the **Kathara grids** and stuff plug in this way, like the Pillar

Page: 118

 run through the **Kathara grids**, where you would have the 3-6-9 line up

 this with the **Kathara grid**, we have to use the Kathara grid upside down.

 to use the **Kathara grid** upside down. What's interesting is that through these maps

Page: 123

 you have a **Kathara grid**, and you have your Shield, that center Shield, the

Page: 124

 because the whole **Kathara grid** is tipped upside down and in the planet. So,

Page: 126

 side of the **Kathara grid**. Here is the False Rear of the planet There's

Page: 129

 but if your **Kathara Grid** is turned completely upside down like the planet's is
