 World gates, the **Light Body** structure, the large Light Body structure. So, from here,

 structure, the large **Light Body** structure. So, from here, the birth of the Diad,

Page: 61

 together of the **Light Body** structure. And this is where you have the Diad,

 of the Inner **Light Body** structure is birthing you have the Eckasha-A's birthing.

 of the Inner **Light Body** structures we have each of the Ecka-Vecas that

Page: 62

 in the larger **Light Body** structure, we have what each of the E-Luman-

 larger in the **Light Body** structure and the Spirit Body structure, they cannot fall.

 Spirit Body and **Light Body**, you can imagine that a little Ecka-Veca is

 and then the **Light Body** structure that forms from that. So, we're on Cousha,

Page: 81

 structure of the **Light Body** to feed cellular regeneration. Part of what we do

Page: 88

 and then the **Light Body** and the Matter body evolve from. And finally, what

Page: 89

 other structures of **Light Body** and all those things later are built from. It's

Page: 90

 that form the **Light Body** structure that we learn about in Kathara and all

Page: 93

 Body and then **Light Body** that manifests through the Spirit Body to form the

 level of the **Light Body**. So, anyway, the KaLE Hara, the HaRA, HaRA-Krysta

Page: 100

 And, literally, the **Light Body** forms within it. The Spirit Body structure is all

 the Eukatharista Outer **Light Body** is for a set of four of these. So,

 we have the **Light Body** Base Shield being born form the Rasha Body Template

 Inner and Outer **Light Body**, and it's through the currents that form through the

 middle of that **Light Body** Structure, and it is directly connected to its Spirit

Page: 149

 is the Outer **Light Body** structure. When you pull it apart, first it starts

Page: 150

 it creates the **Light Body** structure, and what that means in terms of the

Page: 151

 Just like the **Light Body**, the Rasha Body structure, when we look at this

Page: 160

 Body and the **Light Body** that is built on it. So when you do

Page: 162

 of the inner **Light Body** that formed as one of the days, and we

Page: 164

 simultaneously, the outer **light Body** Structures or the Big Bangs, are birthing as well.

 parts of the **Light Body**, the outer Light Body were birthing at the same

 Body, the outer **Light Body** were birthing at the same time, and that was

Page: 166

 of the inner **Light Body** Structure. At the same time that these are birthing,
 birthing, the outer **Light Body** Structures are also birthing. So while you have this
 inside of the **Light Body** Structure of the Eckasha-Aahs would birth. And then

Page: 167

 of the outer **Light Body** that birth, are parts that we hadn't heard about
 part of the **Light Body** Structure that births in where you get every ...

Page: 168

 from which the **Light Body** Cells emerge. I mean the Light Body Radial Body
 I mean the **Light Body** Radial Body Cells that we've talked about in the
 as the outer **Light Body** structure, so we have an idea of what they

Page: 172

 Shields in the **Light Body**. So that whole structure came from the structure of

Page: 173

 layers within the **Light Body** Base Shield structures, so when you're activating one, you

Page: 175

 to feed the **Light Body** Structure. So these things are all connected to other

Page: 178

 of the inner **Light Body** Structure that they have let us know ... that

Page: 181

 learned that the **Light Body** structures, the outer Light Body structures have been growing
 structures, the outer **Light Body** structures have been growing along with this, where we
 So the outer **Light Body** is filling itself out-its Cells are forming and
 as the inner **Light Body** structures are growing. Then it gets interesting; it gets
 the Edon inner **Light Body** births out, this is where we get four plus

 Domains. So the **Light Body** and the Spirit Body are filling themselves out at
 areas on the **Light Body** structure of the Eukatharaista Body in the Ecka Maps

 that your own **Light Body** structure is a microcosmic version of the same structure

 about before the **Light Body** Structure being the "House of Many Mansions," all

 to Form the **Light Body** Structures. But now we're learning about the other force

 part out into **Light Body** Structure. This is before you get to Light Body

 you get to **Light Body** Structure. Starts out with what the first Partikl and

 along with the **Light Body** Structure, outward through the Domains. This we're talking about

Page: 130

 through the Outer **Light Body** process, Seed Atom goes through its Eyugha Cycle, which

 is the Outer **Light Body** Cycles, ok. At the end of the Eyugha Cycle

 Cycle, the Outer **Light Body** and the RaSha Template interact with the Spiritual Body

Page: 131

 what becomes the **Light Body** in front of it. Now when that crystallization occurs

Page: 136

 out through the **Light Body** Structure, and then you can work your way down

 part of our **Light Body**. Our Light Body is a Structure that manifests within

 Light Body. Our **Light Body** is a Structure that manifests within and it manifests

 part to the **Light Body** and our Consciousness. So we have Spirit This is

 in to the **Light Body** Structure and back in to our Consciousness and in

 not just the **Light Body** but the Spiritual Body as well. It is because

 Body that the **Light Body** itself is not finite. There's a ... a finite

Page: 137

 in the Outer **Light Body**, what do you call that here? Well, I know

 all of the **Light Body** structures to begin coming into activation and union within

Page: 138

 on the Outer **Light Body** structures, you know, we have the Prana Seed and

Page: 140

 Body structures, the **Light Body** structures and these Core structures. We don't always have

 opened and the **Light Body** opened as well. We're healing these conduits so we

 relation to the **Light Body** structure Now we can, now we get to reclaim

Page: 141

 out As the **Light Body** structure is building itself, then it hits the end

 end of one **Light Body** Cycle on the outside, and it goes through another

 Body and your **Light Body** structure enough, and spiritualize your matter enough where you

Page: 142

 behind, and the **Light Body** structure would be the 3/3 out and nothing

 Body and the **Light Body** seed and the RaSha seed birthing out simultaneously. So

Page: 143

 in the Outer **Light Body** structure, but all of that implies that if you're

 Body into the **Light Body**, etc we are progressively spiritualizing the matter body. We

 been spiritualizing the **Light Body** for quite a long time. Then we started turning

Page: 144

 between the Outer **Light Body** template and the Spiritual Body that grows from the

Page: 146

 healing the localized **Light Body** areas as well as the big ones we've been

Page: 150

 also of the **Light Body** structure It is the beginning of the spiritualization of

 of our own **Light Body** structure that has been stuck there. With the power

Page: 151

 part of our **Light Body**, into our own bodies, because that will make it

 cycle or the **Light Body** formation That is, and it all started with that

Page: 205

 form of the **Light Body** structure itself These are the The MCEO Freedom Teachings

 forming the Outer **Light Body** templates of the Eukatharaista. So we're going to look

 the Outer Eukatharaista **Light Body** structure So when the RaSh a Body The MCEO

 forms from the **Light Body**. But understanding this will be enough to begin the

 the Outer Domains **Light Body** set. It is when you get to here that

Page: 209

 template behind our **Light Body**. We'll learn more about that one tomorrow too, it

 seed for the **Light Body** and Source, and this is- they'd be considered the

 each stage of **Light Body** formation forms in a different type of matter that

corresponding layer of **light body** structure, and those corresponding layers of light body structure

 corresponding layers of **light body** structure are what create the matter density planes of

Page: 217

 body, and the **light body** structure that manifests the planes from this, there have

 progressively assaulting the **light body** layers, and at this point we have part of

 of the natural **light body** and RaSha body structure, have created the Hibernation Zones

 the D-1 **light body** field, and that gives above and below the D-

 into manifestation the **light body** structure, and the full light body structure They, these

 and the full **light body** structure They, these are what lead up to the

 of the full **light body** structure and it's within the light body structure that

 it's within the **light body** structure that currents that were generated from here, actually

Page: 233

 just playing with **light body**, we're playing with the template behind the light body,

 template behind the **light body**, and the bodies behind the light bodies, and these

 it qualify as **light body** structure and from light body structure you get frozen

 structure and from **light body** structure you get frozen light, which is matter, all

 not only the **light body** structure that our matter is formed on and what

 that's the outer **light body** structure, and here is where is where we go

Page: 235

 beginning of the **light body** structure, all right. The Tauren is what is called

Page: 237

 manifest outward into **light body**, full light body structure in the outer domains from

 light body, full **light body** structure in the outer domains from the RaSha's into

 then into the **light body** templates. Just wanted to show you those. What they've

Page: 239

 by which the **light body** expands from the Tauren. By which the Tauren starts,

Page: 240

-
-  only form the **light body** structures you'll see that then form the RaSh a
 -  fields around these **light body** structures and within them and also currents, all right?
 -  It's all about **light body** accretion and bringing in and turning on, because it's
-

Page: 241

-  manifesting through this **light body** structure. So, triad, Ecousha will be in there, creates,
 -  cell. These are **light body**, these are like light cells growing outward from that
-

Page: 242

-  spheres so they're **light body** cells, all right And this is the beginning of
 -  to have a **light body** before you would even have a matter body "
 -  forms within the **light body** structure and of it's substance, all right So the
 -  exist So the **light body** structure forms, each one of those things forms one
-

Page: 243

-  currents of the **light body** currents, because it will, the light body, starting with
 -  it will, the **light body**, starting with the Tauren, it does keep going through
 -  to build the **light body** cells. Those light body cells, you know, specifically will
 -  body cells. Those **light body** cells, you know, specifically will begin to create what
-

Page: 244

-  frequencies of the **light body** structure to bend back down. I don't have all
 -  they are the **light body** cycles of space time, so we have, this is
 -  far as structure, **light body** structure, by the end of just this much of
-

Page: 246

-  the beginning of **light body** formation that everything else is built on. Ah, hopefully
-

Page: 248

-  to form the **light body** that goes out beyond this, to connect with the
-

Page: 249

-  built on the **light body** structure outside of it, and connects them directly back
 -  get to full **light body** structure, how do we get those little matter body
 -  expansion and more **light body** projection as we'll see in a little bit. So,
-

Page: 250

-  in the outer **light body** field to actually build and store quantum as joules
- 

in the outer **light body** structure, and at a certain point you'll be able

Page: 258

 on the outer **light body** they actually come together following that hidden pattern that
 in the outer **light body** structure. And when you bring these two together, when
 into the outer **light body** circulations. I just wanted to point out that since

 that energizes the **Light Body** Structure, which is the Structure that our Matter here

 creation of the **Light Body** Structure. I don't think they ... I think the
 I think the **Light Body** comes in here ... yeah. Let me see that
 upon which the **Light Body**, the Outer Manifest Light Body Structure forms And the
 the Outer Manifest **Light Body** Structure forms And the first thing that it forms

Page: 265

-  uh, the Reisha **Light Body** Hub forms from that. And this is where you
 -  Templates, or the **Light Body** Structure, in which the Matter Itself Manifests. Cause we
 -  inside of our **Light Body**. Our Light Body, part of it, are the Auric
 -  Light Body. Our **Light Body**, part of it, are the Auric Fields around us
-

Page: 266

-  Auras" of the **Light Body**. All right, this is where what was the RaSha
 -  A- of the **Light Body**, right First the Aura Body forms and the Aura
 -  in the Outer **Light Body** also. don"t know if they gave them a different
-

Page: 267

-  now in the **Light Body** Structure, but it"s gotten bigger and bigger and bigger
 -  these, through the **Light Body** Structure. They are parts of the Outer Light Body.
 -  of the Outer **Light Body**. So all of those Structures have all of this
-

Page: 270

-  Level of your **Light Body**, and all of the other little parts that are
 -  rest of the **Light Body** Structurewill charge them all with quantum.
-

Page: 271

-  somewhere between the **Light Body** and the Consciousness Field of Source. And that"s where
 -  Structure of the **Light Body**, but on the other side ... so I have
-

Page: 273

-  Body from its **Light Body** Template, right So then the RaSha Body closes, the
-

Page: 274

-  Body and your **Light Body** have this relationship, which is interesting [chuckles]. Now,
 -  Atom and our **Light Body** steps back and shifts Mentor and it takes us
-

Page: 278

-  seed for the **light body**, right. We know the Tauren is the light body,
 -  Tauren is the **light body**, so I"m still in the space of this, so
 -  that become the **light body** are formed, that would be the Spirit body. The
-

Page: 279

that becomes the **light body** structure that becomes the matter body structure So, hopefully

Page: 280

 that the Tauren **light body** is also born, or the Tauren of the light

 Tauren of the **light body** is also born. The MCEO Freedom Teachings® Series

Page: 283

 the constructs of **light body** and RaSha body that you know. So, we have

Page: 285

 associated with the **light body** structures. So, this is before that. So, on the

Page: 286

 born, before the **light body** structure is born and before matter is born as

 seed of the **light body** ends up in front of the door between the

Page: 288

 Bud levels, the **light body** structure and the Buddha's and all of that So,

Page: 289

 come out into **light body** more, you'll get it more imagery, but a higher

Page: 290

 the difference between **light body** and Spirit body. Spirit is not the soul. The

 structure within the **light body** construct If you remember easy Kathara 1 and 2

 on the outer **light body**, you have the Soul level on density 2. That's

 a construct, a **light body** construct on density 2. Density 3 you have the

 chain in the **light body** structure That's not even getting into the middle domains,

Page: 292

 body and the **light body**, so there will be a certain point where you

Page: 294

 Eyugha and the **light body** structures that have to do with the Ka-LA

 body or the **light body** of the Ka-LA Eyugha cycle, from its 3/

Page: 299

 formed because the **light body** actually holds this same imprint, and it manifests itself

Page: 300

 out into the **light body**, or the RaSha body, and then the light body,

 and then the **light body**, and out into manifestation, and manifesting into the matter
 structured within the **light body** structure Next one, please [graph] [DVD-R
 things of the **light body**- the Tauren ... I'm still stumbling with this stuff
 from which the **light body** and the RaSha body, that takes us into the

Page: 301

 body and the **light body** structure of the outer domain. It's through that process
 again in the **light body**, but of the Dha-LA KA-LAah, where you

Page: 302

 it's on the **light body** layers, they are the fields and the shields of
 shields of the **light body** that go into the RaSha body, where there are

Page: 307

 a and the **light body** structure and anatomy, and now we're back to the

Page: 329

 as well as **Light Body** anatomy And it came down to there were, there

Page: 330

 several different, between **Light Body** and Rash a Body activations that are needed to

Page: 331

 ages been studying **Light Body** anatomy That's kind of like dealing with what's closest
 we got our **Light Body** training and then we went into the Rasha Body
 where you have **Light Body** that has to do with the manufacture of matter,
 and govern the **Light Body** structure and the Light Body structure controls and governs
 structure and the **Light Body** structure controls and governs the Atomic Structure. We're going
 Body, Rasha Body, **Light Body** and Atomic Body kind olin that. And it's not

Page: 332

 born before the **Light Body** and before the First Light. So we'll learn about
 Body that the **Light Body**, or the Tauren, is born. And from there the
 from there the **Light Body** structure is born, and from there the Dark Matter

Page: 333

 other part, the **Light Body** part that's expressing as matter, that is the part
 Template, Rashes, the **Light Body** and the Atomic Body. What it means in simple

Page: 334

 Matter Template, the **Light Body** and the Matter Body. So all of this has
 Templates and the **Light Body**. And then progressively there are a series of waves
 to the corresponding **Light Body**. And when that process is finished, there's an end

Page: 336

 bit of like, **Light Body** stuff, right? Yeah? Yeah. Anybody hasn't? OK. Good. Because

Page: 337

 from which the **Light Body** grows, and we had gone from talking about Partikl1,
 before the whole **Light Body** Starborn Cycle occurred. So I wanted to start you

Page: 338

 that eventually the **Light Body** structure builds. But also, before that, we end up
 Body and the **Light Body** you have the Dark Matter Template Rasha Body and
 building of the **Light Body**. Now when we learned about Rasha Body first,
 things about the **Light Body** structure and then about the Rasha Body structure And,
 building of the **Light Body** structure up to the point where you've got the
 it builds the **Light Body** structure for the Inner Domain. Then the whole thing
 before into the **Light Body** structure and the Rasha Body structure that you

Page: 339

 Body and the **Light Body** and Atomic structure alive. So they are different than
 proportion for our **Light Body**. The Rasha Body is a little bit smaller and

Page: 340

 here, of our **Light Body** and Atomic Body structure But, in general, looking at
 layer of the **Light Body**. So the Rasha bodies are actually the bodies
 function of the **Light Body** structure and the Light Body structure is what controls
 structure and the **Light Body** structure is what controls the formation and function of

Page: 342

 Tauren and a **Light Body**. We are in the process now of birthing the

Page: 343

 by which the **Light Body** progressively grows and it starts here though, with what's

Page: 344

 an amazing Cosmic **Light Body**, but this amazing Spiritual Body that is our Eternal

- 📄 Cell. So the **Light Body** is expanding here and what it's doing is, there
- 📄 because before the **Light Body** structure evolved, there was that first SEda Cycle in
- 📄 And when the **Light Body** expands all the way to 6 and then goes

Page: 345

- 📄 is happening in **Light Body**, this is also where Partikl 1 of the next

- 📄 forms before the **Light Body** forms Before the Tauren is born the entire Spirit
- 📄 the little Tauren **Light Body** births at its center and that's when the Light
- 📄 that's when the **Light Body** structure starts to evolve from there. So this would

 that Rasha and **Light Body**- this domain, the Inner Domains, would correspond, they are

 These are mostly **Light Body** but they all have their Spirit Body connections through
 passage through the **Light Body** structure It also has its own Rash a Cycle

Page: 375

 is where the **Light Body** grows. Now if you looked at a line you'll

Page: 376

 Kathara anatomy and **Light Body** anatomy and they are there spinning, you know the
 of configurations of **Light Body**, field activation, and I think next one shows the

Page: 377

 mutations from the **Light Body** passed into the Rasha Body, but it still holds

Page: 382

 the concept of **Light Body** formation and the growth of the Light Body to
 growth of the **Light Body** to the StarBorn structure Because then at least maybe

 learned so much **Light Body** anatomy, all the reason we've learned so much of

Page: 389

 yet on the **Light Body** side and the Spirit Body is not born yet

Page: 390

 anatomy in the **Light Body** you're in, in order to progressively re-spiritualize the

Page: 393

 Spirit Body and **Light Body** structure build, we end up with those as the

 Spirit Body and **Light Body** building when it's Rasha Body creation time--they create,

 with the Eukatharista **Light Body** Flows that we are working with the Heliotalic currents

Page: 397

 forms and the **Light Body**. Before the Tauren is born, the Spirit Seed Atom

Page: 402

 from which our **Light Body**, like wherever we are in the Light Body Domains,

 are in the **Light Body** Domains, that is what they're connected to It's really

 is before the **Light Body** is born and we're not done yet. The MCEO

Page: 403

 how big the **Light Body** can get. And this is why normal Universes that

Page: 404

 the Kryslor the **Light Body** oL it's like the Light before the Light Body

 Light before the **Light Body** of the Kryst, or if we want to come

Page: 405

 shields of the **Light Body** that manifests larger. From that you would have layers

 structure and the **Light Body** structure it creates, applies to the planet, what the

 of- from Tauren **Light Body** through the Rasha Body and what that does, which

 the Middle and **Light Body** in the Outer, and Spirit here, we will be

Page: 407

 body and the **Light Body** starts to grow matter. It doesn't have a Spirit

 and then the **Light Body** Structure. I want to go back to this particular

Page: 408

 literally cuts the **Light Body** off from its access to the Spirit Body. And

 And when the **Light Body** finally grows, after you have the Ecousha and then
 and then the **Light Body** grows from that, and then the Big Bang happens
 and the Outer **Light Body** grows from that In that process there would be

Page: 409

 it makes whatever **Light Body** structures built on that, whatever structures emerge from that,
 in to the **Light Body** and matter body structure. And that is the part
 cellular code, the **Light Body** Structure and then the physical body structure that would
 built on that **Light Body**. There is something that needs to be done before

Page: 411

 will be a **Light Body** and from that will be a Rasha Body, and
 be the Outer **Light Body**, and from that you will get the Matter Bodies,
 Spirit Body and **Light Body** and Manifest Body that exist within that larger structure,
 in the Outer **Light Body** Structures that form from the Rasha Body Structures. So

Page: 412

 within which the **Light Body** Structure and the Rasha Body structure grow, all right
 would grow the **Light Body** and it would go out to this extent What
 we reached full **Light Body** expansion, and the full expansion after the Big Bang,
 expansion of the **Light Body** for say, the Core Domain, that is where we

Page: 413

 you grow the **Light Body** out and the Rash a Body out and that
 to our full **Light Body** expansion, out to here, and that is where our

Page: 414

 body, after the **Light Body** manifests the material body. So, I just wanted you

Page: 418

 to creating the **Light Body** etc, but that process is mutated. All right, they're

 parts of everything-**Light Body**, Spirit Body, this body, that body-in the multidimensional

Page: 21

 Structure and our **Light Body** structures So what we are going to do now

Page: 29

 part of the **Light Body**, actually, and it is connected to all those things,

 doesn't go into **Light Body** here, but it tells you a little bit about

Page: 34

 talked about the **Light Body** structure, the Spirit Body structures; all the processes that

Page: 66

 because with our **Light Body** fields we have many layers to them, we have

Page: 70

 are part of **Light Body** structure, and the Merkaba fields go with the Light

 go with the **Light Body** structure in a Radial Body structure Now, we have

 part of this **Light Body** structure It is like a skin, like a full

 structure in our **Light Body** structure, that is where we have one of these

Page: 71

 in relation to **Light Body** structure When we talk about Light Body structure, because

 we talk about **Light Body** structure, because we learned that our atoms are actually

 different angle because **Light Body** structure should be at one angle. Fifteen degrees away

 lock with the **Light Body** structure, and that is inorganic That is being held

Page: 72

 you have the **Light Body** structure That's supposed to be ... its Angular Rotation

 aligned with our **Light Body**. Our atoms should be over here, and they're not,

 part of the **Light Body** structure You had the D-2 physical body that's

Page: 73

 Plane and the **Light Body**, but it's over here. This is the physical control.

Page: 76

 can take the **Light Body** and the Atomic Body through the Aurora Continuum and

Page: 79

 Vehicles with the **Light Body** to the point where at some point we are

Page: 89

 Level of the **Light Body** fields and stuff So there's a lot more secrets

 learning with the **Light Body** structure and the Atomic Body structure and the Ah-

Page: 98

 are controlling our **Light Body** and Atomic Body structures We'll also be learning a

 locked into its **Light Body** structure So Median Earth ... this is actually ...

Page: 99

 this is the **Light Body** axis. Our atoms should be over here and our

 here and our **Light Body** should be there, and the whole thing shouldn't be

Page: 100

 were studying the **Light Body** and that kind of thing. So we're moving back

Page: 101

 parts of the **Light Body** and things, sparking to generate their own quantum. So

 Partiki phasing and **Light Body** phasing, where it is self-regenerative. And it always

Page: 102

 energy with the **Light Body** energy, where the Light Body's coming out on a

 energy, where the **Light Body**'s coming out on a clockwise ... the other will

 about back in **Light Body** days, when we were talking about the Flame Activations

Page: 176

 stuck to the **Light Body**. They are going to help us out. They are

 pick up the **Light Body** quantum. So we are going to get our Orb,

Page: 177

 here into the **Light Body** structure, and then go in with the Light Body

 in with the **Light Body** structure and full into Ascension. But they are actually

Page: 180

 is where the **Light Body** structures would be, and this is where the 15degrees
 atoms of the **Light Body** field which is not supposed to occur. Next one,
 of its corresponding **Light Body** level and that is how you go into Orb.

Page: 181

 pulls in the **Light Body** and then pops off completely into Spirit and then
 blend with the **Light Body** structures, it is then called the Jha-DA" Body.
 into with the **Light Body** so then we could finish the Ascension. What they

Page: 182

 bond of the **Light Body**. And it's the beginning, well the next stage in

Page: 186

 right, with our **Light Body** axis over there, right. Now, we're pulled up more
 "Mercedes of **Light Body** structure", whatever; that's an old car but I'm an
 pick up the **Light Body**, and that's when as an Orb you'd shift over
 alignment with the **Light Body**; you'd shift 15degrees. Because this is your body here,
 alignment with the **Light Body** axis, once this shifts over into that axis, then

Page: 187

 forms from the **Light Body** and the Aah-JhA" Body coming together and forming

Page: 188

 start pulling the **Light Body** up too, and up even higher. And there's specific
 level of the **Light Body** because the-it actually is your Atomic Body. If
 have in our **Light Body** structure Next one, please. [0:57 :42]
