 natural matrix of **M31**, which is the Andromeda galaxy that it originally came from,
 was in the **M31** galaxy. The M31 galaxy is not called Andromeda. One of
 M31 galaxy. The **M31** galaxy is not called Andromeda. One of its clusters was

Page: 68

 back into the **M31** like it was supposed to be. So, we did score

Page: 69

 and anchored the **M31** Tractor Beam, which is like from the center of the
 center of the **M31** system runs right down to Earth directly, and from there
 was set for **M31**. That was one of the questions I had, when I
 links directly into **M31**, Urtha, and they all interface in the atmosphere. So, it
 was Urtha in **M31** -cause Urtha is in M31. So, we had the
 Urtha is in **M31**. So, we had the original gate wasn't Earth, this Earth,

Page: 75

 is actually the **M31**, what science here calls the Andromeda Galaxy. And that is
 the natural matrix **M31** is called Procyus. Part of it fell, and it became
 that degree. That's **M31**. That would just everything would not just be killed and
 gate alignments of **M31** Aquinos Matrix, our PCM universe. This tilt here comes down,
 larger one in **M31**-the same concept. This is showing you the A gates

Page: 76

 is here in **M31**, in the Andromeda Galaxy which is the Aquinos Galaxy. This
 gate, is in **M31**, but it interfaces our atmosphere directly, because there is the

Page: 77

 back over to **M31**, where you get past that gate It's all about getting

Page: 78

 interfaces directly with **M31** 's gate 2, so it's protected, and the others
 AzurA Sun of **M31**. And that Tractor beam was activated fully on FOL. So,

Page: 80

 which is in **M31** ... so M31 Andromeda Galaxy Aquinos is going these are
 M31 ... so **M31** Andromeda Galaxy Aquinos is going these are the time frames

Page: 81

 Urtha and the **M31** system, the Sha-La 3 system-the AquaA"elle System with
 would be the **M31** and the Sha-La system, will just continue their natural.
 that's where the **M31** system pulls into the Ma Sha Yah Fold, where it
 Body of the **M31** and AquaA"elle system merged. So, then there's this next stage

Page: 97

 meant to say **M31**) but this one goes through the Cosmic REisha T A

Page: 101

 would be the **M31** system There's another graph when I went through the series

Page: 102

 that is in **M31**, which means M31, the Aquious Matrix-and its Eiradonis, Sha-
 M31, which means **M31**, the Aquious Matrix-and its Eiradonis, Sha-La, will follow
 things correspond to **M31** Galaxy where Urtha is, and to the Sha-La-3
 by Urtha, or **M31**, the M31 system in Sha-La. But there's a slowing
 or M31, the **M31** system in Sha-La. But there's a slowing bit where
 the Host, with **M31**, to bring our planet literally all back into natural thing
 natural alignment with **M31** -by the time we get to here, because that is

Page: 103

 and when the **M31** system with Urtha and Shala and the AquaA"elle System reach

Page: 116

 would begin for **M31** and Sha-La that are hosting, which was to begin
 behind. So when **M31** and Sha-La, the Host systems, reached their halfway point

Page: 123

 Cycle, when the **M31** and Sha-La Hosters, those ones are hosting us, open
 in May when **M31** enters its Stage Two, Earth has to, too And the

Page: 129

 in with the **M31** host until its Bhardoah Passage opens in its halfway stage

Page: 146

 Azara and yeah, **M31** Azara, we're not from here. I like it here, but

Page: 147

 just entering, with **M31**, will be just entering the Stage 2. What we're doing

Page: 156

 Host of the **M31** Galaxy, our home galaxy, was going to do this. So,

Page: 164

 again "A) **M31** Urtha and Sha-La and the general Indigo Aquaferion Shield

 cycle behind the **M31** Urtha and Sha-La and Aquaferion Shield. When M31 and

 Aquaferion Shield. When **M31** and Sha-La engage their Stage 2, Bhardoah point, their

 parties with the **M31**, Sha-La, Aquaferion Shield BPR, and AshaLA, to allow the

 1 Bharda with **M31** " So, instead of going a half cycle behind M31

 half cycle behind **M31** it will be going at the same time. That is

 and those of **M31** Sha-La and AshaLA, the Dhani Ring of the Aquaferion

Page: 167

 Sha-La and **M31**. This means that the 2 Parts of the Dhani Awakening

Page: 168

to get to **M31** Urtha, right. And yeah, it's a bit of a hike

Page: 193

 Urtha out in **M31** Andromeda Galaxy. So it's the beginning of opening the large

Page: 224

 scientifically identified" "**M31**-Andromeda galaxy" (the actually named "Aquinas Universe"), the

Page: 236

 before, to the **M31** Andromeda Galaxy. But, in ... excuse me, I am getting

Page: 237

 connection up to **M31**. Then we have the Blended Earth that, first it was

Page: 250

 back into the **M31** Galaxy of Andromeda, which is what Milky Way actually fell

Page: 251

 science calls the **M31** Andromeda Galaxy. This system is at this axis relationship. Its

 relationship of the **M31** system Now here's why we can have something that like

 natural angle of **M31**. It would be right in between those. So AshaLA is

 system of the **M31** galaxy. That big one is Urtha. And that is the

Page: 252

 natural system of **M31**, and these passages are what the 12 Tribes classes have

 piece of the **M31** system up here that fell and started the pulling of

 natural one for **M31** that we should be part of, and we're still stuck

Page: 253

 were going after **M31** if they could, but they're not going to get there.

Page: 254

 get Urtha and **M31**. And that's what they've been trying to do all along.

 grid and into **M31**. But there are portions of them that are twisted. They

 Milky Way and **M31** and the rest of it. So, we'll go through those

Page: 48

 like Urtha and **M31** does. So, anyway, we're going to find out a little

 is actually the **M31** System, which science here calls the Andromeda Galaxy. Now, the

 light years between **M31**, and the Milky Way Galaxy. And all of that gets

Page: 49

 the Andromeda Galaxy **M31**. Now, we are here. Here would be our Ecka System

 the gates, from **M31** to the, what would be the Adjugate Spirit of M31,

 Adjugate Spirit of **M31**, which is the one on the same side. Now, if

Page: 50

 Veca is actually **M31** Galaxy, this is ... we'll get into this a bit

 This is the **M31** System, and number 3, knowing this would be number 3

 3 in the **M31** System that is our PCM original Universal Star Gate 3.

 interfaces directly with **M31** that is called the AquA"elle Matrix. Now, M31 is the

 AquA"elle Matrix. Now, **M31** is the Aquinos Matrix in the EtorA side. Its Adjugate

Page: 51

 Sun in the **M31** system, and that was Pro-cyus. So, this became the

 natural alignment with **M31**, so it could evolve back into M31. So, this is

 evolve back into **M31**. So, this is the location of those. What"s interesting here

Page: 55

 Veca, in the **M31**, Andromeda Galaxy, which is actually the, Aquinas Galaxy. So, all

Page: 56

 directly interfaces with **M31**, through a set of other things that create that interface.

 end up in **M31**, once things are all open and functioning the way they

 back to the **M31** System, we have to first, get our bodies and our
 going back through **M31** in the Andromeda Galaxy. But, there are stages that we
 Way came from **M31**. There have been many things that came from other Black

Page: 57

 3 in the **M31** System, in the Andromeda Galaxy. So, all of this is

Page: 58

 they started with **M31**. We have been doing projections to what are called the
 are in the **M31** Galaxy. So, as we were projecting into certain layers of
 directly in the **M31** System, but it's accessed directly through our Magnetosphere. There are

Page: 59

 one of the **M31**. So, it's the Middle World, the world between. And, all
 System, and in **M31**, that will close anything that is not running the Krystic

Page: 61

 is in the **M31** System. So, this is just the map. I'm not going

Page: 63

 is where the **M31** Interface is. So, these are coming through the AquA"elle Matrix,

Page: 65

 alignment back to **M31**. So this is just showing the Spanner Gate, and literally
 to Sirius Bin **M31** System alright? So there's a stack of these going up

Page: 73

 fall from the **M31** System with the fall , the harnessing and fall of

Page: 77

 PCM System is **M31**. And it was only a portion of some of the stars

Page: 79

 PCM Veca, the **M31** System before-this is what it still looks like. Portions
 science calls the **M31** Andromeda Galaxy alright? So that is this. These are the

Page: 80

 to Andromeda or **M31**. They are the ones that are in the Aquinos Matrix,
 Adjugate Spirit to **M31**. Next one, please. And they have their names too, and
 32:31] Aquinos **M31** Galaxy, AquA"elle Ethos Host & Phantom Milky Way Now to

 alignment of the **M31** System, our PCM Veca, and we showed how that would

Page: 81

 3 in the **M31** System right. The same place in the Ethos or the
 something in the **M31System** interface directly with our atmosphere, the Gates. There is one
 structure of the **M31** Andromeda Galaxy System. That's not going to happen at this
 Aquious which is **M31** right. It creates a big Tractor Beam down here and
 Urtha and to **M31**. And this is why Earth has been always under attack.

Page: 82

 Rajhna star in **M31** called Procyus, and a piece of that was fallen and
 systems out of **M31** and progressively they stepped it down and ended up in

Page: 84

 up into the **M31** System and back Home. So, it's a big problem, a

Page: 89

 Aquinos Matrix or **M31** and it links down right into Earth and it serves

Page: 90

 back into the **M31** but they need to make the shift as far as

Page: 92

 48] The Aquinas **M31** Galaxy, Aquae lie Ethos Host & Phantom Milky Way &

Page: 96

 Set in the **M31** System. That's the Sala-Sira Chamber. Oh, we've activated this.
 other is in **M31**. So we opened this in T ribes-9 which was
 up in the **M31**. It is called the Solar Bridge. It runs from Altair

Page: 98

 Aquinos Matrix, equals **M31**, right. Now also here would be the Spirit of AquA"elle
 right, Spirit of **M31**. The process of Ascension has to do with these, first

Page: 102

 Yah Body of **M31** coming in. And this is the point where, at the

Page: 105

 Urtha Starfires, or **M31** Starfires, enters Ma-Sha-Yah Fold, this is the return
 to happen in **M31**, and there is 2.21ight million years distance between us.

Page: 106

 of the natural **M31** System. Then we have the Fold number 3 at 3230

Page: 119

 Beam right into **M31** Center right actually-it allows the Tractor Beam to anchor

 to anchor from **M31** Center. We're going to do it. The process by which
