 a place called **Median Earth**, which is the 1/3 of the grids that

---

Page: 116

---

 bit later-because **Median Earth**, Netted Earth and Caduceus Earth, all of those three

---

Page: 118

---

 at what tilt **Median Earth** is. Where in the same place at a bit

---

Page: 120

---

 with something called **Median Earth**, which is a part of Earth that is here,

 a reality field **Median Earth** has 1/3 of the quantum. They always said

 Earth is called **Median Earth**. **Median Earth** is going to lose half of itself,

---

Page: 122

---

 in Netted Earth, **Median Earth** will anchor it. At least half of the 1

 Earth quantum that **Median Earth** has-half of that, which is 1 /6th,

---

-  us out to **Median Earth**, because Median Earth will have at least half of
  -  Median Earth, because **Median Earth** will have at least half of its grid quantum
- 

-  connect directly to **Median Earth**, to the 1/3rd grids that were not compromised
  -  thing connected with **Median Earth** and also the 1/6th of Net Earth. When
  -  over there with **Median Earth** that we don't see. We have 1/6th that
  -  interface with the **Median Earth**, the third that is still Krystic, so they're important.
- 

-  that interface to **Median Earth** are, the ones that would be the natural positions
  -  shown yet that's **Median Earth**. They can't touch Median Earth yet. What they're pulling
  -  They can't touch **Median Earth** yet. What they're pulling is that 1/3rd of
  -  in line with **Median Earth**, so they're planning to shift the mantle to bring
  -  line-up of **Median Earth** is. That would mean the Slide Zones close. So,
  -  to start pulling **Median Earth** in. Next one please. This is showing where the
  -  showing where the **Median Earth** ones would be. They'll pull them over into the
  -  between them because **Median Earth** would start here. Once they get Netted Earth up
  -  Hole, it'll pull **Median Earth**, 1/6th of Median Earth-well, a sixth quantum
  -  1/6th of **Median Earth**-well, a sixth quantum which would be half of
  -  be half of **Median Earth** quantum-into alignment and what they're splitting are the
- 

-  and Chambers of **Median Earth** to pull them back and hold them. This ought
  -  are aligned with **Median Earth**. So we have our Rod and our KaLE Chambers
  -  are aligned with **Median Earth**. So there's 1/6th of the harnessed part of
- 

-  combined with the **Median Earth** 1/3 quantum, and if we can amplify that
- 

-  equal quantum of **Median Earth** frequency, so part of that would fall in also.
- 

-  the gates to **Median Earth** completely. You know, the Fontanel. So, it's big what
-

 link between AshaLA, **Median Earth** and Net Earth now. This will do several things.

---

Page: 163

---

 6th of the **Median Earth**, 1/6th of the NET Earth. All right, that

 6th of the **Median Earth** is gonna fall in order to let a part

---

Page: 164

---

 May 27th, 2008. **Median Earth**, the 1/3rd quantum Median Earth and the 1/

 1/3rd quantum **Median Earth** and the 1/6th NET Earth being much slower

 cycle, in 2027, **Median Earth** and NET Earth were to engage their Stage 1

---

Page: 165

---

 NET Earth and **Median Earth** "to make it to 2027, when M31 Sha-

 NET Earth and **Median Earth** would be where they needed to be so they

---

Page: 166

---

 Far and NET **Median Earth**'s entry into Stage 2, we can activate the Star

---

Page: 168

---

 a team on **Median Earth** that are doing their own stuff there, because that

 NET Earth to **Median Earth** to AshaLA, to get to Sha-La, to get

---

Page: 173

---

 1/6th of **Median Earth**, all of Ash aLA and Sha-La of AquA"elle

 6th quantum of **Median Earth**, (that) NET Earth will pull into fall if

 rising part of **Median Earth** either way. So what is in the balance are

 6th of the **Median Earth** grids and the Netted Earth grids here as to

---

Page: 174

---

 Earth into the **Median Earth** grids. What I didn't know was part of this

 that is the **Median Earth** Rod, the 1/3rd that is still Kristiac and

---

Page: 193

---

 what is called **Median Earth**, which we'll get into a bit more about where

 more about where **Median Earth** is. And Median Earth connects to AshaLA, and AshaLA

 Earth is. And **Median Earth** connects to AshaLA, and AshaLA connects to Sha-La

---

Page: 194

---

 and what's called **Median Earth**. And that is the first time. That means the

---

Page: 198

---

 of Earth and **Median Earth** which is the portion, there was 1/3 of  
 and that's called **Median Earth**. And you have to pass through Median Earth to  
 to pass through **Median Earth** to get to AshaLA to get to Sha-La  
 of consciousness from **Median Earth**. They're called the Salvage Team and they're, I think  
 to slide to **Median Earth**. And that would be the first place we would  
 to slide to **Median Earth**, the next place would be to AshaLA and the

---

Page: 200

---

 Aquaferion Shield but **Median Earth** and AshaLA and Sha-La, so there's a progression  
 we are and **Median Earth**, which was the portion of Earth that stayed with  
 NET Earth and **Median Earth**. So, this is a big one. And there's going

---

Page: 201

---

 and have the **Median Earth** level at least open in order to, when the  
 NET Earth to **Median Earth** level. And then after that we will open to

---

Page: 202

---

 Then there's the **Median Earth** rod and they're at different angles to each other  
 still aligned with **Median Earth**, it creates what are called sink holes and it's

---

Page: 204

---

 that is on **Median Earth**, and that is the beginning. And I'm going to

---

Page: 208

---

 another place called **Median Earth** that is right here in the same place, but  
 of particle spin. **Median Earth** is the 1 /3rd of the Amenti quantum

---

Page: 209

---

 between here and **Median Earth**, because Median Earth is where we all need to  
 Median Earth, because **Median Earth** is where we all need to Slide to first  
 live journey to **Median Earth** to do that And I have not been there

---

Page: 237

---

 that is called **Median Earth**, into what is called Phantom Earth. This goes into  
 it is called **Median Earth**, and it is still in the control of the  
 it was just **Median Earth** and then the NET Earth, our Netted Earth. But  
 1f3rd went to **Median Earth** and 1J3rd went to Blended Earth. And it is

---

Page: 238

---

 want to roll **Median Earth** in. So, they are trying to use that And

---

Page: 239

---

 Earth and Krystic **MEDIAN EARTH** to open for partial NET Earth HOST. So, part

---

Page: 240

---

 that leads to **Median Earth**, the Krystic part of Earth. They could not open

 Chamber open to **Median Earth**, we will then just transmit to the others who

---

Page: 247

---

 that connection into **Median Earth**, which is the one that has stayed Krystic, the

---

Page: 250

---

 here and only **Median Earth** would be able to go. And nothing from here

---

Page: 251

---

 we're going to **Median Earth**. How is it we get there?" I gotta get

 the part of **Median Earth** that is at an angle that is closer to

---

Page: 253

---

 the chambers from **Median Earth** to where we are in NET Earth, then from

 Earth, then from **Median Earth** up to AshaLA, the host star in the Milky

 into 1/3 **Median Earth** that's still holding the Krystic spin and alignment of

 still aligned with **Median Earth**. So if those gates are open, if the Bardoah

 we connect with **Median Earth** to start the chain of slide. This is just

---

Page: 254

---

 the rest of **Median Earth**, and if they get Median Earth they might be

 if they get **Median Earth** they might be able to get AshaLA. And if

 between Earth and **Median Earth**, and if they don't, nothing will get out of

---

Page: 257

---

 natural alignment that **Median Earth** has. It is still the Krystic alignment It's like

 that go with **Median Earth**, the Krystic one-Median Earth is actually holding us

 the Krystic one-**Median Earth** is actually holding us together right now so we

 together-one from **Median Earth**, one from NET Earth-if you split the NET

---

Page: 258

---

 That's aligned with **Median Earth** in the Krystic alignment And you have the Caduceus  
 will open the **Median Earth** gates, and that's what we're going to do tonight  
 structure of the **Median Earth** one that connects with, and will hold this one

 journey to, called **Median Earth**, because it's close. It's not like 2.2 million light  
 we open the **Median Earth** Bhardoah Chamber because that's the last phase of what we

 push open the **Median Earth** to NET Earth Bhardoah Chamber. Then, this is where  
 just opened to **Median Earth**, and we're going to go backward which ... We  
 point .. if **Median Earth** way in the past before the splitting of the

 Ascension Earth or **Median Earth**. It's a third of the original Amenti quantum that

---

Page: 10

---

 was held in **Median Earth** under protection where it couldn't roll. And then we  
 been aiming for **Median Earth** first and then we will do AshaiA and then  
 step in-between **Median Earth** and where we are and that's referred to as  
 larger quantum of **Median Earth**. So we're going to be learning a little bit  
 we've gone to **Median Earth** and AshaiA and now we're coming down to the

---

Page: 11

---

 be connected to **Median Earth**, which will be connected to AshaiA, which will be  
 from here to **Median Earth**. So we're going to learn a bit about that.

---

Page: 14

---

 Earth and then **Median Earth**. So, literally, where most people's, their Encryption Lattices are

---

Page: 16

---

 connected on the **Median Earth** level and I have a feeling on the Higher  
 Siesta Key of **Median Earth** when we go to the Blue Krystal Journey. The

---

Page: 54

---

 about, and of **Median Earth**. So it actually creates another set of geomagnetic fields  
 be like having **Median Earth** be what the Planetary Field that is organizing your

---

Page: 66

---

 Higher Earth and **Median Earth**, and get them de-calibrated from the geomagnetic fields

---

Page: 72

---

 higher spaces like **Median Earth** that we've talked about, and those kind of things.

---

Page: 77

---

 different than the **Median Earth**. They're between where we are in Lower Net Earth  
 Net Earth and **Median Earth**. So there's this set of planes, 3-dimensional planes

---

Page: 81

---

 we are and **Median Earth**. And then Median Earth's a step in between here  
 Earth. And then **Median Earth**'s a step in between here and AshaLA. And you

---

Page: 84

---

 are connected into **Median Earth** directly, because Median Earth is actually in the same  
 Earth directly, because **Median Earth** is actually in the same axis as we are.

---

Page: 85

---

 Earth and into **Median Earth**. There's also another set that we'll look at in

---

Page: 90

---

 connect into like **Median Earth** and Urtha and those kind of things. So, you

---

Page: 91

---

 Ire and like **Median Earth** time. And that has larger, more expansive Time Cycles.

---

Page: 97

---

 and also from **Median Earth** beyond that So it's actually frequency that runs this

---

Page: 98

---

 place than where **Median Earth** is. Median Earth is actually running the same tilt

 Median Earth is. **Median Earth** is actually running the same tilt as this Earth,

 Body structure So **Median Earth** ... this is actually ... the Higher Earth is

 in between the **Median Earth** and this Earth. And it's actually keeping Median Earth

 it's actually keeping **Median Earth** safe from being dragged into the NET, actually. So

---

Page: 141

---

 Earth, and also **Median Earth** and going up to Urtha. Sol This is going

---

Page: 150

---

 separating us from **Median Earth** and the things that are higher than that. This

---

Page: 160

---

 Higher Earth and **Median Earth** and AshaLA and the rest. So what we're looking

---

Page: 161

---

"where is **Median Earth**; where are the alignments for Higher Earth?" So we

 Chambers of the **Median Earth** and Higher Earth fall into it So we'll know

---

Page: 165

---

 some pictures of **Median Earth** and things like that, but maybe we can get

---

Page: 173

---

 show us where **Median Earth** interfaces, where Urtha interfaces those kinds of things, then

---

Page: 176

---

 to go to **Median Earth** and also the Higher Earth planes, so that's what

---

Page: 181

---

 first and then **Median Earth**; they'll probably blend it. They haven't said which but

---

Page: 183

---

 would be the **Median Earth** and that kind of stuff So it will also,

---

Page: 188

---

 Higher Earth and **Median Earth** I wouldn't doubt as far as the coding goes.
