 taken us into **Spirit Body** structure. So we have an idea of where parts

Page: 11

 what is called **Spirit Body** anatomy in general in cosmic-in a cosmic creation

 specific structures of **Spirit Body**, Light Body, and Manifest body anatomy that all connect

 spin where the **Spirit Body** integrates and there are three cycles of completely expanding

Page: 15

 structures of the **Spirit Body** in relation to the Light Body and the Matter

Page: 18

 is through-and **Spirit Body** structure-it is through those structures that our physical

Page: 36

 Light Body and **Spirit Body** spheres. Where you have spheres within spheres, some of

Page: 37

 Krystic Light and **Spirit Body** structure. So, for a real quick on AdorA's and

 the Elum-Eiradhona **Spirit Body**. That holds some of those keys. So, again, we're

Page: 42

 of your natural **Spirit Body** structure. So, what we do with the graphs is

Page: 46

 structures and the **Spirit Body** structures that the programs, the Ascension programs, are built

Page: 47

 your spiritual, your **Spirit Body**, your Light Body structures. All of those parts that
 can use the **Spirit Body** itself to re-claim the part of ourselves

Page: 57

 is where the **Spirit Body** is born. There is a difference between the Spirit
 difference between the **Spirit Body** structure and the Light Body structure, and most other
 and into the **Spirit Body**. So, we have the SEda Cycle, which we will

Page: 59

 you experience. The **Spirit Body** is actually like a form that inside of it
 form of the **Spirit Body**. So, here we've got the Hall of Records that
 first manifest. The **Spirit Body** gets to a certain point then it does something

Page: 60

 for the Cosmic **Spirit Body** ... it is the Cosmic Spirit Body Seed Atom
 is the Cosmic **Spirit Body** Seed Atom ... it is the First Seed Atom,
 where this Cycle, **Spirit Body's** born, 1st Light Seed, 1st Light Seed's Cycle starts,

Page: 62

 There's actually a **Spirit Body** and then a Light Body structure that is built
 to activate your **Spirit Body**, your Light Body, turn it all into matter ...

Page: 63

 portions of the **Spirit Body** rubbing through certain portions of the Tauren, and the
 manifests from a **Spirit Body**, from 1 Partiki in the consciousness field of Source,
 expanding out in **Spirit Body**, until it reaches a point where it de-manifests

 structure and the **Spirit Body** structure, they cannot fall. Falls just don't happen there.
 dealing with, with **Spirit Body** and Light Body, you can imagine that a little
 have an eternal **Spirit Body** with you always. Whatever you've been taught and whatever

Page: 72

 is where the **Spirit Body** is being born ... next one, please. [02

Page: 73

 forming of the **Spirit Body** and also in the forming of Time Vectors and

Page: 80

 evolve in the **Spirit Body** from this, we end up with the Core domain,

Page: 82

 frequencies are the **Spirit Body** of your Ad jugate Twin, the other part of

 manifest through the **Spirit Body**, back into a spiritual state. So, this is all

 versions of the **Spirit Body**. These are the currents that actually are supposed to

Page: 83

 structure of the **Spirit Body** from which the structure of what become Time Vectors

 level, when you're **Spirit Body** is forming ... which is a bit after egg

 structure of the **Spirit Body** in the cosmic level, you have the Eye of

 we're still at **Spirit Body**. On those 1st 4 spheres of geleziac radiation, they

Page: 87

 structure, of the **Spirit Body** structure, starts to grow and become larger ... next

Page: 88

 is first the **Spirit Body**, and then the Rasha Body, and then the Light

Page: 89

 the manifest Kryst **Spirit Body**. This is the core part of it. All sorts

 Flows of the **Spirit Body**. So, we've got 3 sets of 7 Core Flows,

 side of creation. **Spirit Body** are ... yeah, I can't read it from that

 side of creation, **Spirit Body** pearl-escnt flows, the Allurea 1st Kryst Blood, pearl,

Page: 90

 flows of the **Spirit Body**, the LaVas, and their glitter counterpart coming in from

Page: 91

 body structure or **Spirit Body** structure. So, they open a tube of energy here

Page: 92

 domain of its **Spirit Body** structure. So, we are right at what is called

- happening with your **Spirit Body** is the same things that's happening out here. If
- structure of the **Spirit Body**, and the Core of the Spirit Body open the
- Core of the **Spirit Body** open the Core currents and it allows all of

Page: 93

- structures of the **Spirit Body** that we are seeing and it comes down to
- structures of first **Spirit Body** and then Light Body that manifests through the Spirit
- manifests through the **Spirit Body** to form the matter bodies. So, time and space

Page: 94

- field of the **Spirit Body**. And in the center, where the Eye of All

Page: 96

- which is the **Spirit Body** of the AdorA side, and then bring in the
- which is the **Spirit Body** of the AdorA, and the Eiradonis of the AdorA,
- which is the **Spirit Body** of the EtorA; and bringing them all together in
- part of the **Spirit Body** structure that grows, that we'll see in a bit,
- part of the **Spirit Body** structure that is called the Elum-Eiradhona that grows
- when we talk **Spirit Body**, we're not just talking about little ghost here. We're

Page: 98

- Cells of the **Spirit Body** that connect in to the Manifest Body: the Light

Page: 100

- these are all **Spirit Body** structures, [02 C1 0 2:20:36] The
- these are all **Spirit Body** structures ... (To Az.) Just any one of
- structure of your **Spirit Body**. All those other things that you've seen are part
- within it. The **Spirit Body** structure is all around you, the Cosmic Spirit Body
- you, the Cosmic **Spirit Body** structure is all around it. It forms the form-
- flows in the **Spirit Body**, before any of those flows turn into the Light

Page: 101

- these structures of **Spirit Body** and all that. If you don't understand those structures
- Partiki, that the **Spirit Body** births, and, then, the Rasha Body, and then the

Page: 103

- in the Cosmic **Spirit Body**, and even one in the local Spirit Body. We
- in the local **Spirit Body**. We are where we are, where our hologram is,

Page: 104

 into the full **Spirit Body**, or the Elum-Eiradhona. We have covered some of
 structure of the **Spirit Body** grows. So, this represents the First of the First
 Cells of the **Spirit Body**. And, we talked about this a little bit, a

Page: 107

 in the entire **Spirit Body** structure, as well as the Light Body structure. And,
 center of the **Spirit Body**, that is the first thing to develop in the

Page: 108

 this, as the **Spirit Body** continues to grow. So, just so you know, when
 has a larger **Spirit Body** structure than a person on it. The persons on
 within the planet **Spirit Body**. So, if we're looking at the first eight-cell
 of your own **Spirit Body**, there are parts of it that are outside of
 center of your **Spirit Body**. We actually have portions of our self in each

Page: 111

 first, with the **Spirit Body**. And, let's see. So, if we remember that each

Page: 112

 structure of the **Spirit Body**. There are more structures that evolve from that. They
 occur with the **Spirit Body**. And there's basically four sets of phasings that happen.

Page: 113

 structure of the **Spirit Body**, which grows outward, around the structure of the eight

Page: 114

 and the whole **Spirit Body** forms in through this part, 1st Light Seed. Then

Page: 117

 fulfillment of the **Spirit Body**. That fulfillment is already there. It is just a

Page: 118

 domains within your **Spirit Body** will progressively activate those crystalline structures. And, they even

Page: 119

 the full-on **Spirit Body**, which is called the Elum-Eiradhona. And the Elum-

Page: 120

 flows of the whole **Spirit Body**, the Elum-Eiradhona, which is that. [03 C1

 we were taught **Spirit Body** Cycle, possibly because the drawings weren't as hard. If

Page: 121

 talk about the **Spirit Body**, you have a Spirit Body. It is an Elum-

 you have a **Spirit Body**. It is an Elum-Eiradhona. It connects you to

 you to the **Spirit Body** of the planet; and, that's connected to the Spirit

 connected to the **Spirit Body** of the Sun; and that's connected to the Spirit

 connected to the **Spirit Body** of the entire solar system, which is connected to

Page: 123

 will have its **Spirit Body** part. And, you will have, going around the other

Page: 125

 This is still **Spirit Body** structure. This is Copyright A"shavana & A"hzavana Deane, 2007.

Page: 130

 We've got our **Spirit Body**. The Cosmic Spirit Body has been born now. And

 Body. The Cosmic **Spirit Body** has been born now. And now, at the same,

 point, the big **Spirit Body** is birthed. This births the center of it. Copyright

Page: 131

 look at the **Spirit Body**, the Elum-Eiradhona, as the first core seed atom,

 of the large **Spirit Body**, where it contracts and, when it contracts, its three

Page: 134

 we had the **Spirit Body** being born, and then that gave birth to the

 which was the **Spirit Body** in the Core Cycle. You have the seed atom

Page: 135

 large Elum-Eiradhona **Spirit Body** that actually defined the boundaries of the size this

 defined by the **Spirit Body** that was-that grew before it. So, the Rash

 structure of the **Spirit Body**. And, what it has; it's like a reflection of

 reflection of the **Spirit Body**, but it is still the Dark Matter Templates. It

 would be the **Spirit Body** level, the next level deeper, the Spirit Body layer.

 level deeper, the **Spirit Body** layer. And the Fire Chambers of the Rasha Body

 Chambers of the **Spirit Body** and begin the translation of those into what becomes

Page: 136

 back into the **Spirit Body**; so, it's making the connection between the Spirit Body
 connection between the **Spirit Body** and the Dark Matter Template, and, at certain points,

Page: 137

 and into the **Spirit Body** structure, where you have, at its center, the Akashic
 we've birthed the **Spirit Body**; we've birthed the Rasha Body. So, understanding the fifteen
 and the full **Spirit Body**, ELum-Eiradhona: that is when the Tauren is going

Page: 138

 pull into the **Spirit Body**. When it pulls into the Spirit Body, it takes
 pulls into the **Spirit Body**, it takes the Light Body Structure and the Matter

Page: 139

 you have the **Spirit Body**, you get the Rash a Body, that stands ...
 interface between the **Spirit Body** and the Light Body in Matter Structure. Next one
 connection to the **Spirit Body** can no longer ... where the Core Flows are,
 energy from the **Spirit Body** anymore. The Rash a Body won't go into a

Page: 140

 rest of the **Spirit Body** Structure, which is connected to all of the ELum-

Page: 141

 to with the **Spirit Body** and remember the word "Adjugate Twin," you "

Page: 143

 back through the **Spirit Body** and into First Creation, and then back out again
 in from the **Spirit Body** through the Rash a Body, to start bringing them

Page: 148

 ... we have **Spirit Body** and now we have our Dark Matter Template Rasha
 we get a **Spirit Body**, an Inner and Outer Light Body, and it's through
 connected to its **Spirit Body** counterpart through the Rasha Body and through, into the
 through, into the **Spirit Body** through the Allurean Chambers, the Hall of Records 8

 center of the **Spirit Body**. So all of these structures we actually are ...

Page: 154

 goes through the **Spirit Body**, that goes directly into Source, gives Backflowto Source, and

Page: 165

 a Body and **Spirit Body** activation levels and clear certain things that we'll see

 here from the **Spirit Body** to the Rasha Bodies to the physical bodies ...

 these structures of **Spirit Body** directly connected to us, our matter form actually manifests

 we say the **Spirit Body** that birthed at the vertical axis at the end

 birth with the **Spirit Body** ... so the Spirit Body had been born there

 ... so the **Spirit Body** had been born there ... (2:44:51)

 grows in the **Spirit Body**. At this point there is something called the Cosmic

Page: 183

 structure with its **Spirit Body** structure in each one of those smaller Domains. So

 Body and the **Spirit Body** are filling themselves out at this point. Alright. ..

 the ELum-Eiradhona **Spirit Body** REisha-T A Cluster which was that cluster we

Page: 197

 that are the **Spirit Body** frequencies of the AdorA side. So it is the

Page: 200

 birth of the **Spirit Body** and the Light Body, to create the space-time

Page: 203

 through ... The **Spirit Body** still grows, but the physical body cannot connect to

Page: 205

 progressively bringing the **Spirit Body** frequencies back into the Light Body frequencies,
progressively transmuting

Page: 207

 the ELum-Eiradhona **Spirit Body** REisha-TA Cluster. Yes, we're back there again! Ok,

Page: 219

 is where the **Spirit Body** would be born. It starts actually down here, and
 Cycle-and the **Spirit Body**-the ElumEiradhona would birth there. Then you'd have the

Page: 220

 with-once the **Spirit Body** is birthed, it's still in Spirit, it's still safe,
 overshadow", where the **Spirit Body** is there, and the Spirit Body will be fine
 there, and the **Spirit Body** will be fine if it doesn't, if that particular

 get where the **Spirit Body** fully attaches and begins to open itself in through

Page: 221

 connection to the **Spirit Body**. Now, the Light Body still builds. It will still

 still have the **Spirit Body** and the AdorA side, but it also gets the

 is when the **Spirit Body** births. So, the ELUmEir-adhona actually births at the

Page: 225

 bodies and the **Spirit Body** and the growing baby body, it creates a tube

Page: 226

 bringing in the **Spirit Body** frequencies that correspond to Density 1, at between 33

Page: 229

 (or the **Spirit Body**) integrated into the physical form. And that's why we

Page: 233

 If this is your **Spirit Body** or your AdorA body, and your Spirit Body going

 body, and your **Spirit Body** going out on the AdorA vector that way, and

 that is the **Spirit Body** of the AdorA side. The AdorA would have the same

 (the AdorA **Spirit Body**) are going that way, and our Spirit Body is

 go into the **spirit body**. This would go into the level that is called
 is called the **spirit body** that we'll talk about tomorrow The outer domain body

Page: 111

 called the "**Spirit Body**," which is different than ... it's, it's connected to,
 weren't for the **Spirit Body**. And we are being ... they said the reason

Page: 114

 anatomy, but your **Spirit Body** anatomy. And that is where your Eternal Kristiac
Consciousness

Page: 115

 is where the **Spirit Body** comes in. It holds an equilibrium balance from the
 Flows up the **Spirit Body**, can fully open and re-spiritualize or bring more of

Page: 118

 actually in the **Spirit Body**. And the Spirit Body has never died, never fallen
 Body. And the **Spirit Body** has never died, never fallen can in fact, when
 in to the **Spirit Body**, all right. That's the natural Bardoah process for something

Page: 121

 called the "**spirit body**" since the Core of this Planet and this Sun

Page: 128

 that creates the **Spirit Body**, while the Force going Out, the Thrust going Out

Page: 131

 where the whole **Spirit Body** evolves, as well as what becomes the Light Body

Page: 133

 And notice, the **Spirit Body's** growing all right there is more quantum going over

Page: 135

 you have this **Spirit Body** evolving and that has been evolving through those replications,

Page: 136

 Manifestation, is our **Spirit Body**. And that is the part that is ... we're

 Door, the originally **Spirit Body**, so the Spirit Body and the Matter Body can

 Body, so the **Spirit Body** and the Matter Body can join as one in

Page: 141

 part of our **Spirit Body** anatomy behind the door. So there's a whole recording

Page: 142

 connected to the **Spirit Body**, or to the Eye of God, the Kryst Body

 the big, big **Spirit Body** template and more so behind this, the door, where

 process as the **Spirit Body's** building. And I think all that happens and then

 you get the **Spirit Body** and the Light Body seed and the RaSha seed

Page: 143

 where our Full **Spirit Body** connection point is. That would allow for activation of

 connection to our **Spirit Body**, which was our RashaLae. And now we're going into,

Page: 146

 to which our **Spirit Body** that has always been alive and kicking is right

Page: 165

 call the "**Spirit Body**." We've talked about Lightbody structure, we've talked about the

 now as the **Spirit Body**. And during this class probably tomorrow because they are

Page: 169

 connected to its **Spirit Body** that we'll find out about more in tomorrow when

Page: 209

 and the least **Spirit Body** quotient. They are still part of the Manifest Body

 more about the **Spirit Body**, there is something special about this magical structure and

 seed for the **Spirit Body**. So there is a whole other part of our

Page: 210

 back into the **Spirit Body** state and then have evolutionary choice from there. But

 will allow the **Spirit Body** to actually take the consciousness that is in the

Page: 233

 we have the **spirit body** and I wonder what it's called. They haven't called

 anything but the **Spirit Body** yet but I'm sure there is a type of

 formation of the **Spirit Body**. So, we're going to find out where light and

 connection with the **Spirit Body** that we have. And somewhere in that Spirit Body

 somewhere in that **Spirit Body** is our Eternal Living Memory Matrix where there's something

 started with the **spirit body** stuff that has to do with if you have

Page: 234

 these and the **spirit body** and the differences between them. The push of manifestation

Page: 235

 God and the **spirit body** stuff come in that you'll see later tonight that's

Page: 255

 back into the **spirit body** that we didn't talk about yet, and into Source

Page: 270

 Seed of the **Spirit Body** before the Tauren Light Seed is fully born, that

 but on the **Spirit Body** side. Is that all right? [asks Beloveds quickly]

Page: 271

 Back that the **Spirit Body** is giving on it, and whether you have 2/

 transfers into the **Spirit Body**. So we're going to be learning more about "

 where is this **Spirit Body?**," because this is the part of ourselves we've been

 Structure of the **Spirit Body**. It may mirror the Structure of the Light Body,

Page: 272

 back fully into **Spirit Body** and then comes back out as an Eternal Sphere

 energy in that **Spirit Body** Form all right Where the one before it had

 Because the direct **Spirit Body** is not there influencing the Matter that stuff is

Page: 278

 back into the **Spirit body**, and the place they move back and forth through
 seed for the **Spirit body**, that's the seed for the RaSha body and that's
 manifest into the **Spirit body**. And if you can understand the Spirit body, if
 can understand the **Spirit body**, if you have the consciousness field of Source that
 would be the **Spirit body**. The MCEO Freedom Teachings® Series Presented by Adashi

Page: 279

 part of the **Spirit body** actually steps through the door, and part is behind
 right. So, the **Spirit body** is the eternal identity imprint of anyone or anything
 actually before the **Spirit body** is born, and it goes into the consciousness field

Page: 280

 seed for the **Spirit body** that is the Krystar, and the forms at the

Page: 281

 around but the **Spirit body** forms in this side, more close, where the first

Page: 286

 and for the **Spirit body**. Now, they're just giving me how do you define
 Krystar is the **Spirit body** seed. They haven't shown me exactly what this looks
 seed of the **Spirit body** that would be behind the door where the seed

Page: 290

 go into the **Spirit body**. And these are our first teachings on the difference
 light body and **Spirit body**. Spirit is not the soul. The soul is a

Page: 292

 flows to the **Spirit body**, so we can begin very rapid RaSh a body,

Page: 294

 and zero in **Spirit body**, to a full Starfire Adashi one would be going

Page: 300

 have where the **spirit body** starts, here. There is actually a connection between where
 between where the **spirit body** stops, and the undifferentiated Source consciousness field is.
That

Page: 303

 into a full **spirit body** energy. So, it allows for a clearing of the

Page: 329

 doing anatomy and **Spirit Body** for the last 48 hours but-it's kinda funny.

Page: 331

 to as the **Spirit Body** anatomy We have for ages been studying Light Body
 Field, you have **Spirit Body**, Rasha Body, Light Body and Atomic Body kind olin
 from understanding the **Spirit Body**, but we're going into now the anatomy associated with
 associated with the **Spirit Body**, because the level of activations that are required in
 manifestation from the **Spirit Body**. So what we'll do is-because I don't know
 doorways and the **Spirit Body** anatomy and something called the Eye of God, and

Page: 332

 out where the **Spirit Body** is actually born before the Light Body and before
 building of the **Spirit Body** and it's from the Spirit Body that the Light
 it's from the **Spirit Body** that the Light Body, or the Tauren, is born.

Page: 333

 do with the **Spirit Body** directly, and it is the part that actually enters
 flow between the **Spirit Body**, the Dark Matter Template, Rashes, the Light Body and

Page: 334

 ascension, between the **Spirit Body**, the Dark Matter Template, the Light Body and the

Page: 338

 forms from the **Spirit Body**, that we didn't know about at the time we
 up with the **Spirit Body** structure having the same framework of 15 gelezic layers
 Template. Between the **Spirit Body** and the Light Body you have the Dark Matter
 in is the **Spirit Body** stuff And that's why they kind of left the

Page: 339

 between GodSource, the **Spirit Body** and the Light Body and Atomic structure alive. So

Page: 344

 it in the **Spirit Body**. So it's picking up quantum amplification during those cycles.

Page: 345

 still in the **Spirit Body**, so it is the Spirit Body that actually is
 it is the **Spirit Body** that actually is our Memory Matrix. And regardless of
 lost here, the **Spirit Body** always holds whatever the Original Imprint was and any

 Imprint in the **Spirit Body**. Did somebody .. Participant I just have a little
 structures in the **Spirit Body** behind it that are in between these spaces that

Page: 347

 to do with **Spirit Body** anatomy and it's ... there's lots of stages to

Page: 348

 do with the **Spirit Body** that actually forms before the Light Body forms Before
 born the entire **Spirit Body** is born and right at the end, the full
 part of the **Spirit Body** is when the little Tauren Light Body births at

Page: 349

 coming from the **Spirit Body**-will ride through. So it kind of like we've
 body, now into **Spirit Body**, because you had to get the rider wave to
 to open the **Spirit Body** Currents it would probably blow you up, because literally
 place where the **Spirit Body** currents are. So it's a progression of opening the
 Currents of the **Spirit Body**, as well as Light Body Currents. Next one please.
 do with the **Spirit Body** as well. I think there's a relationship between the
 relationship between the **Spirit Body** and the Seed Atom that occurs, that allows for

Page: 350

 get through the **Spirit Body** anatomy and then they'll show us how they plug

Page: 352

 coming from the **Spirit Body** Core. So all of this has to do with

Page: 353

 coming from the **Spirit Body**, but they didn't tell us that when they were
 we didn't know **Spirit Body** yet Prana Seed becomes important because it is ...
 part of the **Spirit Body**. The Spirit Body actually sends in a portion of
 Spirit Body. The **Spirit Body** actually sends in a portion of its Consciousness from
 Consciousness from the **Spirit Body**, through the Prana Seed out into the Light Body

Page: 354

 back into the **Spirit Body**, as if its pulling away from the dying Light

Page: 355

 back to the **Spirit Body** and back to Source. And if the Light Body
 connection to the **Spirit Body** that has to do with the E-LUma-Un,

Page: 356

 Currents from the **Spirit Body** to just move naturally through. Usually you have to
 before, into the **Spirit Body**, and then it would amplify, it would get a

Page: 358

 out through the **Spirit Body**, through the Light Body, through the Rasha Body, into

Page: 367

 getting into the **Spirit Body** structure We've only got a few more left in

Page: 371

 that does the **Spirit Body** and all that jazz first, right This would be
 structure of the **Spirit Body** and the Cosmic Light Body that manifest on The

Page: 372

 set by the **Spirit Body**. The boundaries of how big that spherical domain and
 set by the **Spirit Body** Template that actually happens first before that First Partikl

Page: 374

 do with the **Spirit Body**, the full on Spirit Body. These are part Spirit
 the full on **Spirit Body**. These are part Spirit Body and part Light Body.
 These are part **Spirit Body** and part Light Body. These are mostly Light Body
 all have their **Spirit Body** connections through the Rashes. Oh what else do we

Page: 375

 is where the **Spirit Body** grows and energy moves that way, and in front
 is where the **Spirit Body** manifests And it is actually the balance between the

Page: 376

 Flows of the **Spirit Body**. The one that runs horizontally I believe is called-

Page: 377

 Eterna of the **Spirit Body**. We'll see where the structures that are used in
 connection to the **Spirit Body**, and the Spirit Body holds the Original Perfect Template
 Body, and the **Spirit Body** holds the Original Perfect Template you know, of your

Page: 379

 is where the **Spirit Body** begins to be born and when we see the
 height of the **Spirit Body** that is called the LUma Eterna. When we talk

 leads into the **Spirit Body** stuff They had me clean all of these up

Page: 380

 tailbone into the **Spirit Body** directly. And all of this, they wanted all of
 anatomy of the **Spirit Body**- the beginning of it. What I want to show

Page: 381

 part of the **Spirit Body** is born [laughing and interaction with audience on

Page: 385

 cells of the **Spirit Body**. Next one please .. [Graph] [OVD-R

Page: 386

 beginning of the **Spirit Body**, the Body of Spirit And the Body of Spirit
 front and the **Spirit Body** has to do with energies that come simultaneously behind
 currents of the **Spirit Body** going this way. But there is a lot more

Page: 387

 bond in the **Spirit Body**-the portion of the quantum of the ManA energy
 set in the **Spirit Body** and in the relationship between the Spirit Body and
 relationship between the **Spirit Body** and what is in front of or behind the

Page: 388

 structure of the **Spirit Body** that is called the Eye of God and from
 structure of the **Spirit Body**. Then it turns around and comes back and whatever

Page: 389

 side and the **Spirit Body** is not born yet on the Spirit side, but

Page: 390

 stored in the **Spirit Body** is key to making, generating enough quantum to make

Page: 391

 through which the **Spirit Body** progressively births from here. But here is where we
 to grow the **Spirit Body**. But here is where the KaRaYa Sa Ta Ha

Page: 392

 the Living Manifest **Spirit Body** of the Eternal Kryst, the KaRaYa Sa Ta Ha

Page: 393

Flows of the **Spirit Body**. So we had the first 7 Krist Core Flows

 those, as the **Spirit Body** and Light Body structure build, we end up with
 the process of **Spirit Body** and Light Body building when it's Rasha Body creation

Page: 395

 you have a **Spirit Body** expanding out this way, as you have your bodies

Page: 398

 Living Spirit The **Spirit Body** grows from here, but this is the thing that

Page: 399

 energy between the **Spirit Body** and the Manifest And it's also what allows the
 back into your **Spirit Body**, has been cut off genetically. And that's not very
 expanding into the **Spirit Body** Structure visits as well, which will bring back the

Page: 400

 Cells of the **Spirit Body**, all right, and these connect directly, they're supposed to
 back into the **Spirit Body**. And when, even if you're keeping your body and
 into the larger **Spirit Body** to pull yourself into RashaLAe. So anyway, this is,

Page: 401

 Cluster of the **Spirit Body**. Yeah, it's, its big word ... E-Lumen ...
 Atom or the **Spirit Body** Seed Atom, and the 1st of the 1st 8

Page: 402

 cells of the **Spirit Body**. This is before the Light Body is born and

Page: 403

 the Reisha-TA **Spirit Body** Eternal Cosmic Family. This has some interesting things that
 is the Big **Spirit Body**. And there's one more thing it does that creates

Page: 404

 our Massive gestalt **Spirit Body**, and we can ... when, when we have the
 way into the **Spirit Body**. This is with us ... we are inside of
 of the Divine **Spirit Body** of the Kryst And that is what we're aiming

Page: 405

 through to the **Spirit Body**. And the Spirit Body is where the Eternal Imprint
 Body. And the **Spirit Body** is where the Eternal Imprint is. It is where

Page: 408

 access to the **Spirit Body**. And our bodies, physical, are born with that mutation
 is a Manifest **Spirit Body** that stands between the Spirit Body and the Material
 stands between the **Spirit Body** and the Material Body, and it is called the
 to the Cosmic **Spirit Body**. And when that occurs, this field here would open

Page: 409

 outside of the **Spirit Body** from the Spirit Body and the LUma-Eterna. And
 Body from the **Spirit Body** and the LUma-Eterna. And it makes whatever Light
 part of the **Spirit Body** that would be on the backside or the rear

Page: 410

 that is the **Spirit Body** Seed Krystal. From that point, I mean when you
 outgrowth of the **Spirit Body**. The next one, please, honey. [Graph] [Sun1

 the Elum-Eiradhona **spirit body**, be it your own personal one or the cosmic

 is the Cosmic **Spirit body** structure And, within that forms the Cosmic Light body
 of a natural **Spirit body**, a Krystic Spirit body. You can look at it
 body, a Krystic **Spirit body**. You can look at it as a portrait of

Page: 17

 part of the **Spirit body** structure from which the rest of you manifests from,

 of a smaller **Spirit body**. So, just understanding when we talk about things like
 structure of the **Spirit body**. Inside of the Akashic Record or the Ecoushic Record
 structure of the **Spirit body**. But, there are then the Water, the Wa-Ta-

Page: 19

 -  would have the **Spirit body** of the AdorA, which is our Eiradonis. And, with
 -  would have the **Spirit body** of our ElorA side and that would be their
-

Page: 20

-  Reisha body, its **Spirit body**, right, that would also be where the KaLE-Hara
 -  here is the **Spirit body** of the ElorA side, and that is in the
-

Page: 23

-  and the Cosmic **Spirit body**, ELum-Eiradhona. And, in the Cosmic Eukatharaista body, here's
 -  the Aqua"elle Matrix **Spirit Body**. Now, the Aqua"elle is the Adjugate, let's start there.
 -  would have its **Spirit Body** there on the AdorA side. And there's other sets
 -  in the Eternal **Spirit body** ... the Spirit body doesn't fall, only the Light
 -  body ... the **Spirit body** doesn't fall, only the Light body structure on the
 -  it does. The **Spirit body** goes back into center when, if it loses something
-

Page: 24

-  would have our **Spirit body**, which is their Eiradonis. And, when they would do
-

Page: 40

-  talked about the **Spirit Body**, the ELum-Eiradhona right, I'm just going to go
-

Page: 41

-  that ELum-Eiradhona **Spirit Body**, which would be around it with its Allurean Chamber
 -  correspond to the **Spirit Body** of our Ad jugate Twin in the AdorA side.
-

Page: 42

-  would be the **Spirit Body** of that and that is on the other side,
 -  So the ElorA **Spirit Body** is on the AdorA side. The same thing would
 -  be the ElorA's **Spirit Body** with it, which implies that the AdorA's Spirit Body-
 -  that the AdorA's **Spirit Body**- the Ad jugate to the Aquinos Matrix over here,
 -  Matrix--the Aqua"elle **Spirit Body** would be over here with us. And that is
-

Page: 44

-  is the AdorA **Spirit Body** right, from over here. So this one is the
-  there is its **Spirit Body** over there- and you would have the ElorA Spirit
-  have the ElorA **Spirit Body** over here. These form what are the Ethos- this

 which is the **Spirit Body**, the AdorA Adjugate Spirit Body. This is the Eiros,
 the AdorA Adjugate **Spirit Body**. This is the Eiros, here. There is a certain

 which is our **Spirit Body** of this system, and the AdorA side system is

-  it's not your **Spirit Body**. Your whole Spirit Body is way over on the

 relationships to the **Spirit Body** structure and those kind of things, so you know

 the ElumEir-Adhona **Spirit Body**. So, when we talk about the ElumEir-Adhona Spirit

 the ElumEir-Adhona **Spirit Body**, the Cosmic one looks like this. It has its

 related to the **Spirit Body**, whereas the EtorA System has a matter base more

 So, your own **Spirit Body** structure is, you have that first, and the Spirit

 first, and the **Spirit Body** grows first. When egg and sperm come together and

 grows is the **Spirit Body**, that's in what was called the SEda Cycle. And

 And once the **Spirit Body** grows, then that gives birth to the Tauren Light

 the ElumEir-Adhona **Spirit Body** structure, be it the Cosmic one or your own

 you have the **Spirit Body**. That has to do with other flows that create

 create literally, the **Spirit Body** on the opposite side. And the ManA Body or

 Body and the **Spirit Body** come together through the central structure And it works

Page: 243

 like the Core **Spirit Body** Chambers that form the energy that gets transferred out

 fits into the **Spirit Body** structure, alright And, if you notice here, you have

 top of the **Spirit Body**. There's an offset of 15 degrees, alright And it

 the ElumEir-Adhona **Spirit Body** that we've learned more about the detail of the

 the ElumEir-Adhona **Spirit Body** is what was called the Eye of God structure

 part of the **Spirit Body** structure that is composed of Ethos frequency. And where

 anatomy of the **Spirit Body**, the Gha-fa is. Next one, please. I'm going
 of your personal **Spirit Body** structure And these are the vortice sets of the
 that is your **Spirit Body**. And inside that is the amazing form of your
 center of the **Spirit Body**. And there"s also a larger one of these things
 out from the **Spirit Body**, you would have your Edonic Body of the Middle
 center of the **Spirit Body**. And, we start to see where overlapping things are,

Page: 245

 showing you the **Spirit Body**. The Spirit Body"s actually projecting out in the opposite
 Spirit Body. The **Spirit Body"s** actually projecting out in the opposite vector So, if
 this way, your **Spirit Body** is like across the Halls of Reish a-TA
 that way, the **Spirit Body**. Now, this is the beginning of trying to show
 the ElumEir-Adhona **Spirit Body** structure, in relation to what we will learn as
 ElumEir-Adhona Body, **Spirit Body**, and where the Bhardoah Chamber opens, which is the
 Chamber. And your **Spirit Body** would come in from one angle and you would
 larger ElumEir-Adhona **Spirit Body**. So, this is beginning to see where the spheres

Page: 246

 to have the **Spirit Body** connection. And part of what happened here with the

Page: 247

 akin to the **Spirit Body** substance. And, they appear as ... they actually face
 not like the **Spirit Body** that"s actually turned around and going on its own

 know, inside the **Spirit Body** cluster. And if not, you would bring energy from
 of your own **Spirit Body** structure in. Then, there"s another set that go with-

 we learned about **Spirit Body**, the structure of the Spirit Body. We learned before

 our EtorA, its **Spirit Body**, would be over here. That would be our Spirit

 combining with its **Spirit Body**. That's done through combining with its Adjugate, who is
