 Not Earth, but **Urtha**. So, Indigos - if Urtha begins its Prana Exchange cycle,
 Indigos - if **Urtha** begins its Prana Exchange cycle, which it is beginning, the

 that corresponds with **Urtha's** D2 Adama level. Remember, we have the first one is
 we would find **Urtha** D2 Ta field, which is the lower mantle on the

 D1 level of **Urtha**, but for us, it's in our clouds, because our surface
 are the D1 **Urtha** doorways that end up in our mental body cloud cities
 in the D2 **Urtha** level of the middle mantle, the Ma 8, which is

- 📄 atomic level of **Urtha**. We have the lower elemental kingdoms that correspond with the
 - 📄 solid from D2 **Urtha**, biomes that are fully solid from D2 Earth, including subterraneans.
-

- 📄 Nada level of **Urtha**. So, some of the crystal temples below our crust are
 - 📄 core crystal of **Urtha**. This field here, this is the Adama layer of D2
 - 📄 layer of D2 **Urtha**. It's our light field. Our surface crust is right here.
 - 📄 layer in the **Urtha** core. Their core is huge compared to the size of

- 📄 and that was **Urtha** and Earth, and Sirius B, and Andromeda. That's all they
 - 📄 Beloveds are on **Urtha**. That's the closest they are, which isn't too far away.
 - 📄 D1 level of **Urtha**. That's when we start to understand how far up the
 - 📄 layers of the **Urtha** planes are. What happens when you go up to D2
 - 📄 D2 or D3 **Urtha**, then density Urtha? Urtha's density grid connects to something too.
 - 📄 Urtha, then density **Urtha? Urtha's** density grid connects to something too. Just like our
 - 📄 hosting planet into **Urtha**, connects to the D1 level of Urtha. Urtha isn't hosting,
 - 📄 D1 level of **Urtha**. **Urtha** isn't hosting, but the natural way these stargates work
 - 📄 stargates work is **Urtha's** density grid connects into ... and I was going, "
 - 📄 star known as **Urtha**. Which means something fascinating. When we find that the D1
 - 📄 core crystal of **Urtha** is actually running the crystal beds that run through I
-

- 📄 full throttle, the **Urtha** gate, Urta 14, which is down some place off the
-

- 📄 between Earth and **Urtha**, we explained, but I didn't show this graph before ...
- 📄 if this is **Urtha's** body - and these are not proportional, this is just
- 📄 this would be **Urtha's** body, and Urtha's Rashalae body as well, where you have
- 📄 Urtha's body, and **Urtha's** Rashalae body as well, where you have the geleziac layers
- 📄 inside another, meaning **Urtha's** sphere and Earth's sphere. In between the two of them
- 📄 was north on **Urtha**, which means that would align with the universal kathara grid
- 📄 natural north for **Urtha**. Earth was aligned in that way also when it was
- 📄 revolved around with **Urtha** and Sala - they both revolved around ... the Sun
- 📄 Earth literally, with **Urtha**, rotates around, because when you see a kathara grid and
- 📄 both Sala and **Urtha** are star, or central Suns, Page90of 151

 there physically to **Urtha**, it will be the center Sun. Which means around it,
 though Earth and **Urtha** are in the same place technically, where Earth is literally
 the body of **Urtha**, once you get up here on the surface, you'd have
 and you'd find **Urtha** is indeed at the center of its solar plane. So,
 in relation to **Urtha**. Now what that would mean, if the Aurora fields weren't
 could connect into **Urtha** ... they'd be all misaligned because of the misalignment of
 gates that match **Urtha**'s, and it will rotate, and as it is rotating it
 The relationship between **Urtha** and Earth is not straightforward as it was when the
 gate sets of **Urtha**, through the Aurora field, and the Page 91 of 151

 would be the **Urtha** alignment, and also the natural alignment for Sala, or for
 inside the larger **Urtha**. Next one please. Now if we look a little more
 if this is **Urtha**, this would represent Earth's relationship to it right now, except
 look at north. **Urtha**'s north. What's up here at the 23.5 degree tilt? We're
 Australia faces north **Urtha**. Right? The South Pole area, minus 23.5 degree. What this

 our relationship to **Urtha**. Now, if it weren't for the Aurora field, once it's
 bringing in the **Urtha** codes and more of those, our bodies are kind of

 in relation to **Urtha**, and Urtha would still be the one at the top
 to Urtha, and **Urtha** would still be the one at the top ... that

 are united with **Urtha**, which means we're inside of U's body. It's as if this
 if this were **Urtha** and we're here. So, there are all these layers/fields
 certain parts of **Urtha** exist, where the D2 physical Earth is in relation to
 Earth, and in **Urtha**, but because they are coming through on the D2 level,
 up into the **Urtha** realms. These seals are actually on Aquifers. Between Earth's Aquifers
 and the Aquifers **ofUrtha**, there are channel that link, that are literally different steps
 the Beloveds of **Urtha**, by the Aquafarian races, and by the Bhendi Aurora races,
 happened, to prevent **Urtha** from being raided by the creeps that created the hibernation

 was equivalent to **Urtha** D1. So, then you can do the next one **Urtha** D2,
 do the next **oneUrtha** D2, **Urtha** D3, **Urtha** Density equals Sirius B D1, Sirius
 next one **Urtha** D2, **Urtha** D3, **Urtha** Density equals Sirius B D1, Sirius B D2

 couldn't do because **Urtha** is going to Starfire. Which means Urtha is going to

 to go to **Urtha** and do that. We will be able to enter Adashi

 us will visit **Urtha** once it comes back, because there will be teams left
 this point. When **Urtha** blows off and goes through its natural Adashi cycles, it's

 can reach from **Urtha** to send frequency down through the magnetotail, so we would
 further into the **Urtha** Rashalae body. So, it makes it easier for certain transmissions

 the Beloveds from **Urtha** had to open the gates to make them leave, because
 to take out **Urtha** through the Mecca/Micca Complex, and then go after Sala,
 to take out **Urtha**. What it did was not kill anybody. But it would

 which is also **Urtha** DI... then we put them altogether and you can get

 The core crystal of **Urtha** is actually physical crystal, the D2level is in our upper

 Earth Core or **Urtha** Core to check that out, but just go quickly down

 between Earth and **Urtha**. And in 12 Tribes 1, we learned a little bit

 between Earth and **Urtha**. 12 Tribes Class 1 went through a particular kind of

Page: 147

 the Earth and **Urtha** grids through the aquifers. What that means is the stand

 shields and the **Urtha** shields-went through the activation cycle. So they had initiation

Page: 148

 body structure of **Urtha**. What that looks like with the embedded and interwoven fields-

 the core of **Urtha** are in the same place, they are linked. Earth is

 or body of **Urtha**. This means these fields pass through each other. So, if

 part of the **Urtha** body. There are gate systems that run not only upward,

 the body of **Urtha**. So they kind of refer to them as the vertical

 and so does **Urtha**. When we see these we start to find, and once

Page: 149

 your body to **Urtha** is first getting your consciousness there and then you progressively

 gate sets to **Urtha** are structured and we're going to do our first journey

 and then of **Urtha** and how they interface with each other. At the end

Page: 150

 of Earth and **Urtha**. And then we'll break for dinner so you can have

 between Earth and **Urtha**. And showing different layers, where we could see there are certain

 physical planes of **Urtha**. Because when we go up into our atmosphere, we run

 the surface of **Urtha**. And you can start to see what layers are what

 place in the **Urtha** level. This is the information they just gave me the

 higher into the **Urtha** levels. So if you think of it, when you go

 we actually have **Urtha**. We don't see it specifically because the matter is composed

 mantle, of physical **Urtha**, which is the D-2 level of Urtha. This is

 2 level of **Urtha**. This is the D-2 level that we see as

 want to perceive **Urtha** as solid, we need to get our consciousness to the

 but in the **Urtha** frequencies so we can see solid, D-2 Urtha. And

 solid, D-2 **Urtha**. And we are going to begin that process. This is

Page: 151

 the races of **Urtha** who are overseeing this whole, the Aquareion Passages with the

 Guardian races of **Urtha**, the Aquari race lines there. They will, in their way,

 contact with these **Urtha** races. So there will be a contact point tomorrow between
 journey with the **Urtha** races at that point where it may start in dream

 way down to **Urtha** Core. Leave your lungs empty down there for a minute.

Page: 157

 the Aquari from **Urtha** were able to shut them down. The three Core Gates
 of Earth to **Urtha** core, which is control for all of the other gate
 between Earth and **Urtha**. So, the fact that we were able, in this lifetime,

Page: 158

 ascension passages to **Urtha** will still be open, because most of you probably know
 we go to **Urtha**. So, this is the beginning of the process of learning
 literally getting the **Urtha** gates open from Earth to Urtha, so those who can,
 from Earth to **Urtha**, so those who can, can ride out and ride Starfire

Page: 160

 Earth template from **Urtha**. And bringing in the next level of the Krystal River

Page: 161

 so will the **Urtha** groups. So you'll be a part of the three-way
 biological passage to **Urtha** for Starfire If Spanner-? is not able to stay open-
 out, still, to **Urtha**, but without the body. But still, we have the potential
 between Earth and **Urtha** physically. And those who get to do that when the

Page: 162

 the Aquareion, from **Urtha**, races assisting in a bio-regenesis of the Angelic Human
 Earth-Earth or **Urthaboth** of them would have a D-1 15 layer, with
 Density 1 for **Urtha**, which would be the D-1, the D-2, the
 Density level for **Urtha**. Now Urtha's Density level, where you have its D-1,
 for Urtha. Now **Urtha**'s Density level, where you have its D-1, D-2,
 and D-3, **Urtha**'s Density level would correspond to the D-1, or atomic

Page: 163

 up into the **Urtha** levels as well, has its liquid core area of three-
 1 level of **Urtha**. So you begin to see where the Aquifers, or these
 up through into **Urtha**. And there are sets of seals that run between them
 between here and **Urtha** surface So like between Earth and Urtha surface And we
 between Earth and **Urtha** surface And we will see where kingdoms, like higher elemental
 and then the **Urtha** body. So, by tomorrow we will have a better idea
 Aquareion races from **Urtha** so we can begin to get direct instruction and assistance.

Page: 164

 pull through into **Urtha** for Starfire, will be prevented from being taken down. The
 Earth hosted into **Urtha**, and Sol hosted into Sal a of the Universal Star
 of ascension through **Urtha**, when Urtha is capable of Starfire Urtha and Sala will

 capable of Starfire **Urtha** and Sala will Starfire together. And when that occurs, Earth
 get out to **Urtha**, that can do Starfire, when they will get out between

Page: 165

 birth cycle through **Urtha**. So it is a much better scenario than it had
 have taken out **Urtha** as well It would have taken out Urtha and at
 have taken out **Urtha** and at least part of Sala and there has to
 into host through **Urtha** and Sala-they would create that so the Lone Star

Page: 166

 we can access **Urtha**. And we are being invited back by the Aquari races
 Aquari races of **Urtha** to do that And we will learn more of our
 line between the **Urtha** Aquari line races and the Angelic, first Angelic Human Cloister
 part Aquari, from **Urtha** and part of one of the Cloisters from Seeding 3
 through the Earth/**Urtha** gates up into Urtha and to re-settle on Urtha
 gates up into **Urtha** and to re-settle on Urtha and to inter-marry
 re-settle on **Urtha** and to inter-marry through what were called 3-way
 were raised on **Urtha**. And then their line was used to come ... they

 between Earth and **Urtha**. So, they are putting out the Aquareion Call at this
 codes to the **Urtha** gates to progressively open, so the people who still carried
 counterparts that, on **Urtha** hold the Urtha side. So if you look at the
 Urtha hold the **Urtha** side. So if you look at the gate sets as

 is open from **Urtha**, the ones here could get together and even if they
 couldn't open the **Urtha** sides without the ones who live on Urtha opening their
 who live on **Urtha** opening their side. So as we work here to open
 to open the **Urtha** side which means we're invited. We're not intruding. We're not
 and 15 from **Urtha** into Earth's core. And two of the Earth sides of

Page: 170

 seeded into the **Urtha** Domains and this is where, they were the groups that
 not only to **Urtha**, but we also have potentials of some Hub Gate access

Page: 171

 Sala-4 and **Urtha**-3 being set in to form a small hosting solar
 Aquari line from **Urtha**, a bio-regenesis attempt made for the Seeding-2 races

Page: 173

 Aquari lines from **Urtha** realized this was going nowhere fast At that point, the

 the codes to **Urtha** because they had pieces of the gate codes to the
 to take out **Urtha** for a long time, and Sala as well. And we
 the gates to **Urtha** and take it from there-take the raiding from there.
 Aquaferion races of **Urtha**, which were the ones that assisted our lines in Seeding-
 be invited to **Urtha** and then do the energetic exchange of creating the three-
 children there on **Urtha**. That was started 11,000 BC, so the first line, they
 the Aquari of **Urtha** intervened and they create the Urtha race of the Angelic-
 they create the **Urtha** race of the Angelic-Human Cloister plus Aquari hybrid and
 were raised on **Urtha**. Then the next one is 10,500 BC, the 5 Elemental
 they were the **Urtha** Elemental Command lines that were seeded on Urtha and that
 were seeded on **Urtha** and that was 11,000 BC, then 10,500 BC the 5
 ,000 BC on **Urtha**-the hybrid Aquari race-was then brought to Earth in

Page: 175

 connect Earth and **Urtha**. And they were successful in reversing if you look
 other corresponds to **Urtha** in the same place-they managed to put on reverse
 out Ruta and **Urtha**, one of the race lines of the original Elemental Command
 Elemental Command from **Urtha** races, came in through the gates to stop them. They
 away team from **Urtha** coming in to Earth to stop this from occurring and

 hole in the **Urtha** side as well. They stopped them from doing that, but
 race lines from **Urtha** so they would have the Urtha gate codes. These races
 would have the **Urtha** gate codes. These races were the beginning of the Beli-
 code of the **Urtha** group of Angelic-Human-Cioister-hybrid-Aquari from Urtha that
 hybrid-Aquari from **Urtha** that had come in to stop these raids. The MCEO

Page: 176

 coming in from **Urtha**. Then they were combined with the E-Umbic races that
 come in from **Urtha** to stop this back in 9,562 BC, they know how

Page: 177

 BC, from the **Urtha** race line, the Ring-1 of their groups were able
 and out into **Urtha** and there was this really neat scenario where you could
 the connections to **Urtha** and then the groups up in Urtha reaching down and
 groups up in **Urtha** reaching down and actually catching them. And the mist kind
 were originally from **Urtha** that came in to rescue us in the first place.
 go back to **Urtha** and they are making it so we are getting back
 get back to **Urtha** as well. So when we do the activation later tonight,
 they came from **Urtha** and there are certain ones that would have loved to
 would open the **Urtha** gates And now that is not happening because we're still
 way up to **Urtha** Surface where-where is what? Because we're stuck in there

Page: 178

 Core Gates to **Urtha** that were taken over in 9562 BC. The place that

Page: 180

 triangulation of Core **Urtha** Gates that would be the Ruta-15, the Urta-14,
 core gates to **Urtha**. As long as we can keep this running at 2/
 biological movement to **Urtha** is still a potential as long as that set's connected.

Page: 181

 bands-up into **Urtha** and that's where we'll be able to make contact. We
 host star of **Urtha** around it, but the only viable one left is Spanner-?.
 Spanner-? connects into **Urtha's** natural Planetary Star Gate 7, which is one that runs
 that runs the **Urtha** rod and that gives a stability point. So that is

Page: 182

 of Earth and **Urtha's** body and how they connect with each other and of

 7 for the **Urtha** set and it's actually 15 Seals but some of them
 its atmosphere and **Urtha**, from Urtha's core to its mantle, to its atmosphere. So
 and Urtha, from **Urtha's** core to its mantle, to its atmosphere. So as we

Page: 183

 some place on **Urtha**. And I have a distant memory of that period and
 they pertain to **Urtha** and then how they interface. And it is from there
 you get to **Urtha**. These have to do with just Earth's D-1, 2,
 of the larger **Urtha** light body structure that our planet is stationed within. And
 in relation to **Urtha**. And that's when we begin to have the vertical projection

Page: 184

 itself and the **Urtha** D-1, 2, and 3 and how those spheres interface

Page: 185

 we get to **Urtha** ... would be helpful. All right, this is just showing

Page: 186

 has one and **Urtha** has one too and they are in the same place.
 Earth's core and **Urtha** core are embedded in the same place because Earth is
 the fields of **Urtha**. So, these, when these translate into the larger structures of
 the same for **Urtha**. So when you put the two together, you have quite
 have Earth's and **Urtha's** to deal with. And it forms a unique type of

Page: 187

 is activating with **Urtha** on its first set of six Takeyon Cycles, which is
 matter template with **Urtha** in preparation for the Starfire Cycle of 2047-2051. So,

Page: 188

 a situation where **Urtha** is ... has entered, has begun since the Tenerife workshop,
 directly, but to **Urtha's** Shield because of the Aquareion imprint, we are able to
 structure along with **Urtha's**-the Indigos are-and that is why there is still
 cannot activate, but **Urtha's** can. And because Urtha's core and Earth's core are linked
 can. And because **Urtha's** core and Earth's core are linked together, we can, because
 Aquareions of the **Urtha** Field ... we can, as Indigos, activate our Light Body

Page: 189

 And so our **Urtha** and Earth can't go through that anymore but we still

 connection to the **Urtha** grids that are going through this. So, if you can
 fall process, but **Urtha** still has and that's why there will be a time
 is as if **Urtha** actually "blinks off" as it goes into Starfire And

Page: 192

 this point. The **Urtha** is going through this at this point as well. At
 outer structures for **Urtha**, as well as they are for us personally. Now this

Page: 193

 of Earth and **Urtha** on each of the dimensional levels but these seals block

 side, to prevent **Urtha** being raided by the Raider Races that have progressively taken

 exactly where, proportionately, **Urtha** D-2 surface is. But here is our Earth D-
 Kathara grid for **Urtha**. So we are literally positioned, and our fields are literally
 inner fields of **Urtha**. If we continue to go up vertically, we went from
 same layer of **Urtha's** D-2 crust So you've got a D-1 Kathara
 atomic level of **Urtha**, then you have a D-2 Kathara grid which would
 you the surface **Urtha** layer. So you would also have, just like there are
 these states, the **Urtha** D-21 level on its Ma-8 band would have subterranean
 middle mantle of **Urtha** D-2 which would put you at physical Urtha in
 you at physical **Urtha** in the subterranean temple cities there. That is the first
 let's say, is **Urtha** and this is Earth being hosted inside Urtha. If Urtha's
 being hosted inside **Urtha**. If Urtha's North is up here, we know we have
 inside Urtha. If **Urtha's** North is up here, we know we have a 23.5°
 South etc So **Urtha's** North is down off our South Pole basically. That is
 showing Earth and **Urtha** and around that between them you have the Aurora field
 directly into the **Urtha** body and that run the Urtha frequencies that serve as
 that run the **Urtha** frequencies that serve as an intermediary set of frequencies between
 between Earth and **Urtha**. It is because the Aurora field will hold the difference
 run frequency from **Urtha** through the Aurora fields, pick-up what is missing at
 Krystal River that **Urtha** can anchor, we can run it through the Aurora field

Page: 204

-  Veca Quadrant And **Urtha** is still holding that And North is coming off our
 -  the frequencies from **Urtha** around us through a body template that is holding this
 -  in relation to **Urtha** and the natural grid structure, they are upside down because
 -  SG-7 of **Urtha** and this is what Spanner-? connects into through 13 which
 -  the 7 of **Urtha** and that is why Arc-7 has been the one
-

Page: 205

-  from what is **Urtha's** rod- remember we have the staff currents and the rod
 -  rod currents on **Urtha** so we are literally ... everything is being run through
 -  codings that the **Urtha** gate-7 has and that is why we are focusing
 -  planet star called **Urtha**. And our Sun is in a similar position, but the
 -  between Earth and **Urtha** can take place at least for people who can hold
 -  host-out through **Urtha**. So there is a lot of people that are still,
 -  between here and **Urtha** directly. We are going to widen that beam now and
-

Page: 206

-  into the natural **Urtha** gate structure so we don't get entangled in the false
 -  layers, on the **Urtha** layers. So the Ocean Cities are up, not down. Then

 Track 5] If **Urtha** Starfires normally, without intervention, Earth would be brought back to

 now, imagine if **Urtha** contracts and goes into its Starfire right? Earth Can't However,

 Bhendi Races of **Urtha**, hybridized with the Cloister or Angelic Human Race of Density-

 to here, to **Urtha** and then down to here. But we have that in

Page: 269

 between here and **Urtha**, first of all. So, it is a big and technical

Page: 270

 frequency so when **Urtha** Starfires and pulls in ... I mean, if Urtha Starfired

 I mean, if **Urtha** Starfired and pulled in and that line wasn't there, Earth's

 pull in with **Urtha**, or it's going to get dragged down by Threshold into

Page: 271

 to go to **Urtha** to be able to try to Starfire So, we're not

Page: 273

 or implode when **Urtha** Starfires So it was something that was going to be

Page: 274

 to go to **Urtha** on the Radon Level-the New Urtha, after Starfire So
 Level-the New **Urtha**, after Starfire So that is actually how we would get
 from Earth to **Urtha**. Now if you were doing it before Starfire, it's a
 on the Re-Birthed **Urtha** in the Radon Domains, and then go to the Edon
 Edon Domains of **Urtha**. So it's how to get to Edon, basically, for the

Page: 279

 Sirius Band then **Urtha** and Sala, alright [C02, Track 4] So when we

Page: 283

 closely associated with **Urtha**, alright? Those things are very personal- you won't have a

Page: 284

 down, down through **Urtha** Core and imagine that the Arc comes all the way
 12 down through **Urtha** core and blow it out, and then inhale and pick

Page: 285

 em pies of **Urtha** which is step 2. There is a third step which

Page: 289

 between Earth and **Urtha**. And also between ... we have our counter-part Teams
 way up into **Urtha**'s core and mantle and surface So it shows you ...
 in relation to **Urtha**. So this is where it gets fun, when we start
 and template of **Urtha**, so this implies that "x" miles up you'll have
 some part of **Urtha**. So Urtha is much closer than we may think, and
 of Urtha. So **Urtha** is much closer than we may think, and in this
 directly through to **Urtha** will be the seven set- the Arc 7 set, Hub
 directly into an **Urtha** Gate, the other Hub Sets, the other locations on the

Page: 294

 to understand where **Urtha** is in relation to Earth and where those bodies intersect
 physical body of **Urtha**, alright?" So, to understand how those interplay of fields come
 between Earth and **Urtha**, we need to understand a bit about, first the Par-
 of Earth and **Urtha** and how they interface with each other. Same thing if

 Earth's core and **Urtha** core are in the same place. Earth's core is embedded
 is embedded in **Urtha's** core. These are two different size stellar bodies-Earth, a
 star that is **Urtha**. Now, stars are living planets, basically. When you see a

Page: 295

 they are of **Urtha** and they are in the mantle level of Urtha before
 mantle level of **Urtha** before you get to the crust. And from the Adashi
 you to surface **Urtha**. So, they literally, by going up in your atmosphere you
 different ARPS than **Urtha** and we'll see that mess too, what that looks like.
 going to see **Urtha**. And you're not gonna see Sala either. Sala-4 and
 Sala-4 and **Urtha**-3 are the natural gates for this Universal Veca system-
 is hosted into **Urtha** and Sol-which was our sun-was hosted into Sala
 remnant-us and **Urtha** and Sala, Sirius Band a part of Andromeda-that are

Page: 297

 an 4, between **Urtha** and Sala. And they came through on the AdorA side
 Gates link to **Urtha** and the Core Urtha Gates, two of them were compromised
 and the Core **Urtha** Gates, two of them were compromised then they made the

Page: 298

 is hosted into **Urtha** Natural USG-3. So, this is where, way down in
 up hosting into **Urtha** and Sol into Sal a. Then we get 250MYA-25MYA

Page: 300

 on Earth and **Urtha**. So, those two things started now we get up
 was Earth to **Urtha** planetary gate, Core Gate 15. And that one was in

Page: 301

 Bhendi races of **Urtha** got involved directly. And they approached certain groups of Cloister
 and live on **Urtha** and to participate in a 3-way pregnancy. Now that
 Aquari lines from **Urtha**. The first-born Aquafereions were raised on Urtha and remain
 were raised on **Urtha** and remain there. And their race lines remain there. Some
 the 5 Cloister **Urtha** Aquafereion lines, they were the Elemental Master Command races of
 Command races of **Urtha**, alright? So, they were the ones who had RaSha body
 commands-of the **Urtha** body-and they were appointed with that level of Guardianship
 of Guardianship on **Urtha**. Then, 10,500 BC there were the Elemental Command lines, or
 the Aquafereion of **Urtha** line and then their children were brought in at 10,500,

 Aquaferion races of **Urtha** came in directly. That means the ones that .. the
 as well as **Urtha** codes. They came in to stop the Bourgha and their
 Earth's core and **Urtha**'s core. What the Bourgha wanted to do, and were motivating
 Gates to access **Urtha** because then they could raid and take down Urtha. And
 and take down **Urtha**. And if they could do that, they could get into
 The Aquaferions of **Urtha** closed the Urtha level of Ruta-15 and Urta-14
 Urtha closed the **Urtha** level of Ruta-15 and Urta-14 and also Shala-
 from Earth to **Urtha** via the Spanner? set And that Spanner-? connects in and
 of Shala-13 **Urtha** Core Gate that has not been compromised. So, this period

 from taking the **Urtha** gates once they had compromised the Earth side of those
 between Earth and **Urtha**, they are progressively, with each ring, we are releasing a

 the Aquaferion and **Urtha**, we're dealing with where the Urth one becomes the ...
 the Aquaferion of **Urtha**, and the parts of our shields that actually hold those
 layers of the **Urtha** body as well. Angelic Humans fit in here somewhere too

 this is what **Urtha** and Sala are going through in order to not fall

 its relationship to **Urtha**'s planetary body. So, when you go to the Adashi Temples,

 doesn't fall when **Urtha** and Salado go through this cycle. Then there's the passage

 Gate 7 of **Urtha**. And I wouldn't doubt there's a 7 connection between Urtha
 7 connection between **Urtha** and Sal a as well. So, if we were having
 and go to **Urtha**, and ride through Starfire process ... some people will leave
 Bhendi lines from **Urtha**. They have the ability, if they choose to stay on

 right now on **Urtha**, they will assign you to yourself. Yeah. [CD 8,
 Aurora races of **Urtha**. They are the Spanner trainers. They are the ones that

Page: 334

 in relation to **Urtha**. And that will become very valuable, first of all, when

Page: 335

 Earth and on **Urtha** and all the way through the light body structure of

Page: 336

 incarnations up on **Urtha** now will try to mobilize them to move together to

Page: 337

 point is when **Urtha** and Sala and whenever our Rasha bodies are functioning normally,

Page: 338

 the star planet **Urtha**. There's one more thing that I wanted to point out

Page: 339

 We'll understand where **Urtha** is in relation to Earth. When we started talking about

 Star Gates were **Urtha**-3 and Sala-4 and from there, there was an

 solar system So, **Urtha** and Sala were the two anchoring points of that solar

 where you have **Urtha** and Sala? So, they do fit together. But, Earth has

 if this represented **Urtha** here, and this was say North, this would represent Earth

 the body of **Urtha**. We have in our Earth our physical levels, our D2,

 D3 levels, but **Urtha** is also a density one planet Urtha has a D1,

 density one planet **Urtha** has a D1, 2 and 3 level as well. So,

 their core. So, **Urtha** and Sala both have this extra hosted body in their

 larger body of **Urtha** that is USG 3- Universal Star Gate 3 is Urtha

 Gate 3 is **Urtha** ... in between these two, there is something called the

 Aquari races of **Urtha**, the Aurora Aquari races who came through from the HUBs

 connects them into **Urtha**'s body fields Earth's core and Urtha's core are in precisely

 Earth's core and **Urtha**'s core are in precisely the same place, but Urtha's core

 same place, but **Urtha**'s core would be bigger. So you would have Earth core

Page: 340

 connected in to **Urtha**'s solid crystal core. When we see the geleziac templates, know

 Earth into the **Urtha** gates Otherwise, you wouldn't be able to with this much

 the ones of **Urtha**. So, the Aurora Field has numerous purposes, and one of

 to connect on **Urtha**, it will rotate it to the right angular rotation of

 natural alignment to **Urtha**'s gates So, the Aurora Field modulates. Even though the gates

 and to the **Urtha** body directly. The Spanner Gates ... right now the only
 you had natural **Urtha** Star Gate 7 over here, running the Rod. Spanner-? will
 star body. But **Urtha**'s body is still intact It's still a breathing planet It

Page: 341

 link Earth and **Urtha** in this case. This has to do with little core
 any longer, but **Urtha**'s is. And it's through Urtha's link, and its ability to
 And it's through **Urtha**'s link, and its ability to run Prana, that we will
 core gates of **Urtha**. And I think there's a connection there with Shala-13.

Page: 342

 have Earth's and **Urtha**'s. Shala-13 is the Eiron point When we talked about
 core gates in **Urtha**. So, you had Earth core connect to Urtha core. And
 core connect to **Urtha** core. And they were always main passage gates They were
 were working, or **Urtha**, if you have a gate shield, or the spheres, you'd
 functional, into the **Urtha**-71ine. So, we're doing a Spanner Gate connection. The Spanner

Page: 343

 find out where **Urtha** interfaces with all of this. So, we have the 02

Page: 344

 this point, when **Urtha** goes Starfire, if Earth was going to go Starfire with
 as soon as **Urtha** pulled into the Edons. That's not going to happen. They're
 the cores so **Urtha** can go and Earth can stay, which means it can

Page: 345

 and Earth, once **Urtha** and Sal a go in for their Starfire. [CD

Page: 350

 you see where **Urtha** is. This is just showing you again the D2 level,

Page: 351

 stationed inside of **Urtha**'s. When we get into the 01, 02, 03 levels, so

 the layers of **Urtha**. And what we find when we put all of those

 the cores of **Urtha**. When we take these maps and The MCEO Freedom Teachings

 as 02 solid **Urtha**. The 02 would be the physical level of Urtha that

 on the 02 **Urtha** level, they're not small at all. They would be huge

 be smaller. In **Urtha**, which is a bigger space altogether, you would have bigger

 see where the **Urtha** inner mantle, the D2 level-because remember The MCEO Freedom

Page: 356

 had to do **Urtha** D1, and then Urtha D2 to find the physical Urtha,

 find the physical **Urtha**, cause that's where we are aiming so we can one
 we do here. **Urtha**, D2, inner mantle. Urtha outer mantle, and the middle mantle

 that is surface **Urtha**, then it would be two down. It would be in
 if this is surface **Urtha**, you'd have the crust there at 9.5. You'd have the
 at the D2 **Urtha** Rha-Ka layer, you have the surface But down here
 on getting to **Urtha**. What this is also showing you is the tilt, where
 of our magnetic **Urtha's** North is here. This is the North that would plug
 inside of the **Urtha** body. The Aurora field allows activation of certain parts of
 certain parts of **Urtha's** core RaShala and RaShaA, the core body. In activating the
 that connect into **Urtha** core gate 13 that connects into Earth core gate 13,
 grid structure of **Urtha** and gate 7 is over here, if we had our

 Journey to the **Urtha** Aquafereion Adashi Temples Opening the Ring-1 Pink Sapphire Shala-

 the Earth and **Urtha** bodies in our own fields, opening and activating of the
 certain levels in **Urtha**. We will find on some of the Aurora platforms that

Page: 361

 our teachers from **Urtha** will explain to us what these groups are. What they
 between here and **Urtha**, as well as other places. Some of us will be

Page: 362

 getting out to **Urtha**. Nobody would be able to become Starfire-able, and the

Page: 366

 from places like **Urtha** and beyond. So, just keep ... open file 13 before

Page: 367

 are watching from **Urtha** and also all the way from over at the Aquious

Page: 372

 come back to **Urtha** after it's Starfired, right? Well, we don't have to tell

Page: 375

 from Earth and **Urtha** core going all the way up into the atmospheres through

 in Earth and **Urtha's** core and through that, as we're cycling, as we're building,

 Journey to the **Urtha** Aquafereion Adashi Temples Opening the Ring-2 Shala-13 Adashi

 down to Earth/**Urtha's** core in various ways, this time we're going to take

 physicality, so is **Urtha**. It is just invisible to us here because of the
 a certain ARPS. **Urtha**, we are actually inside of the Star Urtha, so we
 of the Star **Urtha**, so we are actually as if we were coming up,
 the larger Star, **Urtha**. **Urtha** has a surface, it is much bigger, Urtha Star
 is much bigger, **Urtha** Star is much bigger than this small planet that we
 a Star like **Urtha**. So in RashaLAe Body activation we are progressively allowing our

 in relation to **Urtha's** RashaLae Body. So we all have a small version of

-  much easier from **Urtha** down to Earth at night, when it is the night
-  is inside of **Urtha** it means it makes a very long tube, the magneto-
-  fully out to **Urtha"s**, you know spheres within spheres, it makes like a cone
-  connect directly into **Urtha"s** body. Remember this would also be Urtha"s Core and Earth"s
-  would also be **Urtha"s** Core and Earth"s Core are the same place. If Earth"s
-  stops here right, **Urtha"s** surface is there. So where our magnetosphere is that is
-  surface crust of **Urtha** would be. Which means Urtha"s atmosphere extends way up beyond
-  be. Which means **Urtha"s** atmosphere extends way up beyond that as far as the
-  means that literally **Urtha** is running through every level of Earth"s body and if
-  D-21ayers of **Urtha**, we will be able to physically go to Urtha through
-  physically go to **Urtha** through the Gates from Earth into Urtha. So part of
-  from Earth into **Urtha**. So part of the journeying that we are doing, it

-  the surface of **Urtha** like we walk on the surface of Earth. That would
-  is done and **Urtha** resumes its position in the Outer Domains we would be
-  completely to surface **Urtha** and live ... It is literally a different plane of
-  because Earth and **Urtha** are in the same place just at a different ARPS.
-  a different ARPS. **Urtha** is still Kristiac, it is still capable of Starfire It

-  a level of **Urtha"s** Rash aLAe Body called the Ma-81level. You"ll see where
-  8 layer of **Urtha**, so that is the D-2 Ma-81layer of Urtha,
-  Ma-81ayer of **Urtha**, there are physica-i-Urtha physicalSubterranean Crystal Temples and that is
-  there are physica-i-**Urtha** physicalSubterranean Crystal Temples and that is where the Adashi Band

-  connect into from **Urtha** level, just like we have down here these crystals- here
-  the Core of **Urtha** right. On the same proportional scale these crystals are part
-  2 level of **Urtha** and if Urtha is USG-3 and you look at
-  Urtha and if **Urtha** is USG-3 and you look at a Kathara grid
-  are located on **Urtha** which is in the same place just further out in

 want to control **Urtha** because they would like to use Urtha to control other
 like to use **Urtha** to control other things. They are part of the Bourgha
 between Earth and **Urtha**, because our bodies can't yet handle the radiation levels that
 would be on **Urtha**. So it is literally a Host Field that has elements
 has elements of **Urtha** and elements of Earth put together and it is a

 lead directly to **Urtha** and that is also the one that ShAion-7 and

 the Aquaferion of **Urtha**. They lived there and they stayed there and they had

 were started on **Urtha** as Aquaferion Races. You had actually been here first and

 stayed back on **Urtha** alright. So there would be the first generation, the firstborns

 plus AquaFarE of **Urtha** that lived on Urtha. You would still have them there

 that lived on **Urtha**. You would still have them there and when we are

 the fact that **Urtha** exists, for example, and its relationship to Earth and the

 then there is **Urtha** around that It's the middle area-the Aurora Zone-and

Page: 435

 the frequencies from **Urtha** and it is a version of this civilization. So you

Page: 437

 levels of **Urtha** where you could go fully into the Urtha level Adashi

 fully into the **Urtha** level Adashi Temples. So it is exciting They are literally

 to take down **Urtha** basically and they came in and broke into Earth 75

 was when the **Urtha** groups decided they had to open the Core Gates and

 to take over **Urtha** and take out the whole Mission where it wasn't just

 between Earth and **Urtha** which are in the same place in the Earth Core

 is also in **Urtha** Core and they opened them and allowed a partial Aqualene

Page: 438

 bases to raid **Urtha** and Sala which were Host Systems-Host Stars-and use

Page: 439

 reasons of assimilating **Urtha** and Sala. Now there were wars that have been fought

 years ago, the **Urtha** Aquaferion Races of Seeding 1 were given permission by the

 and we want **Urtha** and they want to go after Urtha and they are

 to go after **Urtha** and they are not going to be able to do

Page: 440

 to go to **Urtha** but they will, some of them, depending on how much

Page: 443

 would like-from **Urtha** particularly, the Aquaferion-would like to welcome all of you

Page: 445

 the Earth and **Urtha** Core Gates. We had all that history that- [aside

Page: 446

 done where the **Urtha** Races opened the Gates in order to clear the reversals.

 to take out **Urtha**. And they were not going let them to allow to
 it and the **Urtha** Races capped it temporarily. So it was always one of

Page: 447

 Aquari Races of **Urtha** and that stopped it The Thetans and the Bourgha went

Page: 448

 done by the **Urtha** people in order to even seed life here again. And
 and then the **Urtha** side. The Urtha sides of the Gate are still holding
 Urtha side. The **Urtha** sides of the Gate are still holding their integrity on

Page: 451

 the **Urtha** Kristiacs the Core Gates. So the Host of the Aquari
 Earth because the **Urtha** people are on Urtha, they are not down here on
 people are on **Urtha**, they are not down here on Earth. We are the
 Kristiacs and the **Urtha** Races. So it's a huge commission and the first thing
 opening of the **Urtha** side Gates which, at a certain point, will create enough
 a conquest for **Urtha** not just Earth. It was these guys, both of them,
 after Earth and **Urtha**, the whole story In this period, I don't have this

Page: 452

 conceptions and the **Urtha** strain of Aquafereions were created which were the Hybrid Human
 that lived on **Urtha**. And then their generations, I believe it was 10,500 BC
 to go to **Urtha** and be a part of creating a new Kristiac genesis
 the ones from **Urtha**, the Aquari from Urtha, came and visited and asked. The
 the Aquari from **Urtha**, came and visited and asked. The Angelic Humans and Cloisters

 order to take **Urtha** and the whole thing themselves. So that is where the
 Earth right to **Urtha**, cause you're not jumping off you're just expanding outward. So

Page: 454

 making history in **Urtha** history books at this point except they already know us

 can go through **Urtha** and then connect into Sirius-Band then from there to

Page: 466

 accelerated here on **Urtha** because it's also a fail safe where certain things are

 Point. And what **Urtha** can do and will naturally and what Earth needs to

 them also on **Urtha** and they are natural, the living dance of Joy that

Page: 470

Page: 472

 is opens the **UrthaSala** 13 gate for Urtha Elemental Krystal River flow Each position,

Page: 486

 you live on **Urtha** this stuff is easy when you have lots more codes

Page: 495

 and that's where **Urtha** will Starfire and Earth will host so it doesn't go

Page: 508

 the Beloveds from **Urtha** plus the ones who live in these domains in the

 literally, Aquifers of **Urtha** and we will have the same process there. And then

D-2 Physical **Urtha**. So, it is an exciting process. It is a big

Page: 509

 on Earth to **Urtha** and then we will be able to journey in an

Page: 510

 to Earth and **Urtha** and the planes that exist between them. First of all,

Page: 518

 relationship between Earth, **Urtha** and the RashaLAe Body structure Because, Earth and Urtha also

 Because, Earth and **Urtha** also have RashaLAe Body structures And it is those structures

 this sphere represents **Urtha**, alright. .. Urtha"s body ... lets say just we are

 Urtha, alright. .. **Urtha"s** body ... lets say just we are dealing with the

 If that is **Urtha"s** body, this little sphere in here would be Earth"s body.

 now, we have **Urtha** with its North up here. Let"s say that this is

 that this is **Urtha** North. Earth should also have its North pointing up. It

 and expansion to **Urtha**. Now, another thing that what this looks like more closely

 at Earth ... **Urtha** and lets say that is Urtha"s O2 surface that is

 say that is **Urtha"s** O2 surface that is Surface Urtha. If this is Earth

 that is Surface **Urtha**. If this is Earth down here and this in North

 in North of **Urtha**, rightL we are not only tilted 23.5° .. that is

Page: 519

 that correspond to **Urtha** ... the left-right thing is happening because, if you

 coming in from **Urtha**, the more it is causing a problem with things like

 how Earth and **Urtha** sit. They were originally, when the Amenti Rescue Mission was

 geleziac templates of **Urtha**. We are going to look a little bit closer at

 RashaLAe templates of **Urtha**. We are going to see the relationship between Earth geleziac

 between Earth and **Urtha**, alright? So, this is the basic configuration. I"ll show you

Page: 520

 that is like **Urtha** (chuckle) instead of Earth. So there is a lot

Page: 521

 seals that the **Urtha** races had to put in to the Aquifers from their

 and density of **Urtha**. So, you have a huge field at this point and

 is just Earth"s. **Urtha"s** is huge just expanding out from there. So, this is

 place as the **Urtha** D-1 grid. So when we find our density grid

Page: 522

 smallest grid of **Urtha**. The 01 is the etheric-atomic level. The next one
 be the 02 **Urtha** that is the Telluric Realm. That is the Physical Urtha,
 is the Physical **Urtha**, alright? So, this is how we expand ... we look
 small one, of **Urtha**. And then you have 01, 02, 03 and density level
 density level of **Urtha**. And all of those interactions give you a stack of
 in there from **Urtha**'s perspective, you have little old us sitting down here in
 of Earth. Remember **Urtha** is out there someplace. And actually Urtha is all through
 someplace. And actually **Urtha** is all through here as well, right? Our planet, our
 the Aquifers of **Urtha**. And ... we will get into that at a different
 with places where **Urtha**'s Bands interface with ours and that is where we end
 they are 02 **Urtha** Physical Cities and we are going to be going to

Page: 523

 here you have **Urtha** 02 Outer Core. It is Level16, Level5 and Level4. So,
 the Physical on **Urtha**, the Telluric on Urtha, Aquifers ... the Inner Liquid Core
 the Telluric on **Urtha**, Aquifers ... the Inner Liquid Core and that is falling
 of Earth and **Urtha**. Here we have Urtha 02 Ta-7 Lower Mantle, Urtha
 Here we have **Urtha** 02 Ta-7 Lower Mantle, Urtha 02 Ma-8 Middle
 7 Lower Mantle, **Urtha** 02 Ma-8 Middle Mantle, Urtha 02 Ka-9 Upper
 8 Middle Mantle, **Urtha** 02 Ka-9 Upper Mantle and Urtha 02 Rha-10
 Upper Mantle and **Urtha** 02 Rha-10 Crust. That is Physical Surface Urtha. (
 is Physical Surface **Urtha**. (2 07 35) Where are the Adashi Temples? The
 Mantle level of **Urtha**. That means they are right out here beyond the outer
 the surface of **Urtha**. That is where our Magnetosphere is interfacing, so that gives
 to where is **Urtha**? Now from here ... this would be the same place
 is the Physical **Urtha**. So, you would have the Mental Plane and going up
 and out so **Urtha** is much bigger than that. But this shows you when
 there ... (**Urtha** Adashi Temple) . And there are sets of doors. There
 the Aquifers of **Urtha**, right? So they are in our atmosphere. So all this

Page: 524

 of Earth and **Urtha**. This one ... I don't really like this diagram. There
 did not split **Urtha**. **Urtha** is not in this condition, but Earth IS in

- 📄 condition existing within **Urtha**'s fields So at this point, you have to be very,
 - 📄 very careful opening **Urtha**'s Gates or you will just blow Earth away because it
 - 📄 D1 level of **Urtha**, then you have the D2 level of Urtha. When you
 - 📄 D2 level of **Urtha**. When you get done with all of that it places
-

Page: 525

- 📄 the Beings of **Urtha** and the ones of Earth where we can both ...
 - 📄 go to Surface **Urtha** and take it from there. So, this is the beginning
-

Page: 526

- 📄 explodes inside of **Urtha**, what might that do to Urtha? There is the Aurora
 - 📄 that do to **Urtha**? There is the Aurora Field and they could activate it
 - 📄 it wouldn't damage **Urtha**. So, it is a very sophisticated thing that we are
-

Page: 527

- 📄 up to where **Urtha**'s surface is, right. And then you take that line and
 - 📄 D1 level of **Urtha**, which was the D2 level of Urtha ... it starts
 - 📄 D2 level of **Urtha** ... it starts to show you what are considered the
 - 📄 Body which IS **Urtha** D1 AtomicEthereic Body, alright? Then, you can analyze these and

 is on the **Urtha** level, and we're going to open some kind of passage

Page: 293

 spanner sets from **Urtha** to Sirius B, and we are going to go up

 up to the **Urtha** level and cross over to Sala 4, so they are

Page: 294

 the way to **Urtha** physical slide, but into the new earth fields, the Aurora

Page: 295

 down from the **Urtha** levels. So, it's really exciting We wouldn't be able to

 gate, over to **Urtha** 3, gate down to the earth set of the spanner

 the Earth to **Urtha** level, they are activating, but will allow them to have

Page: 296

 think up to **Urtha** surface but then there is this one in the corner

 up on the **Urtha** level, so this house is getting very interesting, it's alii

Page: 306

 the Earth to **Urtha** level, and then later they would actually expand out in

Page: 308

 from Earth to **Urtha**, and there would be another set on top. See this

 able to access **Urtha**'s thermosphere, and from Urtha's thermosphere we'll cross over into the

 thermosphere, and from **Urtha**'s thermosphere we'll cross over into the Sala 4 Sun field

Page: 314

 back down into **Urtha** core 13 gate, and then bring them up. There's a

Page: 317

 the Earth to **Urtha** Span-12 Elevator, and we're going to go very quickly

 up to the **Urtha** to Sirius-B Span-12 corresponding Krystar Krystal point, and

 the Thermosphere of **Urtha**. From there, we're going to cross over to Sala-4.

Page: 319

 in the Earth-**Urtha** Core, and then from there, we're going to pop through

 where Earth and **Urtha** meet, and there is going to be a sensation of

 the Earth to **Urtha** Spanner Gate, into the Span-12 of the Urtha to

12 of the **Urtha** to Sirius-B Gate. So, we are going to go

 that go from **Urtha** to Sirius-B. The MCEO Freedom Teachings® Series Presented

 the Thermosphere of **Urtha**. So, we have made an assisted or hosted glide all
 way up past **Urtha's** Crust, and we've taken the Center Chamber of Span-12
 can access from **Urtha's** Thermosphere, we can access on the horizontal plane the Core
 the crossover from **Urtha** into Sala-4. 19) We're going to do this again
 Spanner-12 on **Urtha**, and there is a tube that runs horizontally, like front
 moving toward, from **Urtha's** Thermosphere, toward Urtha's Sun. Imagine that you can begin
to
 Urtha's Thermosphere, toward **Urtha's** Sun. Imagine that you can begin to feel the heat
 traveled horizontally from **Urtha's** Thermosphere into the Core now. We're approaching the
Core of

Page: 321

 Aquafereion Races from **Urtha**, but never by any of the races on Earth. So

Page: 322

 tunnel back into **Urtha's** Span-12. 29) So now we are going to take
 the Span-12 **Urtha** Gate. So, we are back in the Span-12 elevator
 up in the **Urtha** to Sirius-B set 30) Now we're going to take
 Sirius-B to **Urtha** Span-12 Gate, to the Earth to Urtha Span-12
 the Earth to **Urtha** Span-12 Gate. Then we are going to ride the
 the Earth to **Urtha** Span-12 tube all the way down to the Earth/
 to the Earth/**Urtha** Core Shala-13 Core Gate. So, we've made a very
 down into Earth/**Urtha's** Core and the Shala-13 Gate. At the Shala-13

Page: 323

 the Core of **Urtha** Core Shala- 13 Gate aligned with Span-7, we're now

Page: 325

 connects with Earth/**Urtha** Core. That will begin the process of the Ka-LE

Page: 330

 Adashi Temples of **Urtha** And we've been doing that. We've barreled on through that,

Page: 335

 maps and where's **Urtha** and Sala and what they have to do with the

 a place called **Urtha**. **Urtha** is Universal Stargate 3. It is our host star

Page: 365

 between here and **Urtha**, which is the Star that we are hosting in. And

 and size as **Urtha's** D-1 grid. So you see this huge span of

Page: 366

 chart up where **Urtha's** crust would be, or where Urtha's subterranean Ma-8 level

 be, or where **Urtha's** subterranean Ma-8 level temples would be that are called

 I believe, as **Urtha's** crust, yeah. It's just a different ARPS. And if you

Page: 369

 beyond. There are **Urtha's** Aquafereion Cities on Aurora-3 Platform up above that even

Page: 399

 of the- probably **Urtha** I would say, to start with, cause like some of

 go up from **Urtha**- the Adashi Temples, and then literally down through the Passages

Page: 425

 linked with the **Urtha** Shield, and they are phasing the Ecousha-T A. So

Page: 428

 Gate up to **Urtha** to be able to do Starfire between 2047 and 2052,

 between Earth and **Urtha**. So, anyway ... this is the beginning of that And

Page: 430

 levels down into **Urtha**, and from Urtha and Sala, which is the Sun of

 Urtha, and from **Urtha** and Sala, which is the Sun of Urtha, down into

 the Sun of **Urtha**, down into Earth. So we'll be using you don't have

Page: 439

 She is my **Urtha** self And when that part of myself pulls up and

Page: 441

 And Sala-4. **Urtha** was Universal Stargate 3. If you think of a Kathara

 this Veca, and **Urtha**, U-R-T-H-A, was number 3, and Sala

Page: 442

 of the larger **Urtha** star, at Universal Stargate 3. That's why we always said

 its relationship to **Urtha**. Our Sun- what we call our Sun in the center

 rotates from the **Urtha**/Earth connection. So Sala and our Sun pass through each
 always stays in **Urtha**. Sol, our Sun here, passes through Sala and then out
 star body called **Urtha**. Now normally ... this would be Urtha's north axis, right?
 this would be **Urtha**'s north axis, right? And that would be its south. And
 to that of **Urtha**. **Urtha** is still an ascension star It has the ability
 buffer field between **Urtha** and Earth. The Aurora field has the ability to activate
 and part of **Urtha**. So it creates what is called the ascension Earth, that

Page: 443

 particle spin to **Urtha**, so we don't run into Urtha. But, if you realign
 don't run into **Urtha**. But, if you realign with the natural alignment of Urtha,
 natural alignment of **Urtha**, you will actually ... this will start to come into
 Earth's core and **Urtha**'s core, the layers of the Rashas that go up for
 go up for **Urtha**, they interface with each other. And this is what will
 mantle levels of **Urtha**. Eventually we will hit Urtha's surface, and it would have

 -  the Earth to **Urtha**, or Earth to Sirius B, because at some point once
 -  some point once **Urtha** Starfires, Sirius B's still going to be available. You go
 -  from Earth to **Urtha** to Sirius B to Andromeda, and then out to whatever

 way up into **Urtha's** surface up here. This actually links in through the moon,

 Adashi temples of **Urtha** as well, and eventually we will be ... we've already
 way up to **Urtha**. I'm really hoping that we'll at least get to visit
 hi" up on **Urtha**. So, it's really exciting what we're in the middle of

Page: 457

 between Earth and **Urtha** and as well where our home is which is supposed

 found out how **Urtha** ... we've talked about Urtha for a long time now
 we've talked about **Urtha** for a long time now and how Urtha is right
 now and how **Urtha** is right in, literally, at a different angular rotation of
 the same time **Urtha** is in the M-31 galaxy. How can it be
 here, how indeed, **Urtha** is around us and how Earth itself has been a

Page: 5

 is me on **Urtha**. Azara has a body on Earth to anchor the host,

Page: 6

 Earth and for **Urtha**, because Earth itself cannot Starfire But a portion of it,
 Ascension Earth to **Urtha**. And we are going to be able to do that
 2 ends with **Urtha's** Starfire which is 2047-2052. After that there's the third

Page: 8

 connected directly to **Urtha's** atmosphere and Urtha is in M-31 and that's 2.2
 Urtha's atmosphere and **Urtha** is in M-31 and that's 2.2 million light years

Page: 14

 we have the **Urtha** Starfire point, first Starfire point, where 2047-2052 where Urtha
 2047-2052 where **Urtha** does its Starfire And that's where we were ... the

Page: 15

 it is that **Urtha** is in our atmosphere and also in M-31, 2.2

Page: 18

 Ascension Earth to **Urtha** unless you were a full Adashi Master. And we're quite
 the Core of **Urtha**. And, you'll see why those particular cores are aligned, even
 aligned, even though **Urtha** is over there, The MCEO Freedom Teachings® Series Presented

Page: 19

 and that's when **Urtha** is gonna Starfire, when the M-31 is gonna Star

Page: 25

 would be# 3, **Urtha**. This is where Urtha would be and there would be

 This is where **Urtha** would be and there would be 12 solar systems that

 connected directly to **Urtha**. This is how we get, in Earth's atmosphere, at different

 Aquinos M-31 **Urtha** 3, through the Ring of Fire at the core of

 1 Cycle Ascended **Urtha** and Aquinos Matrix" which is the time frame of 3333AD

Page: 36

 So, literally from **Urtha** down through the AquA"elle where they're already both Starfired, right.

 1 Cycle of **Urtha**. It will be the Urtha one we are opening, "

 will be the **Urtha** one we are opening, "as host for the Milky

 just Earth and **Urtha**, (applause) yeah, this was a long one coming, because

 for Earth and **Urtha**.It is literally the Milky Way Salvage host and that's

Page: 37

 Transfiguration Cycle with **Urtha** and M-31 which means we got on the Ascension

 Ascension wave with **Urtha** and the M-31 Galaxy. And that was a long

 AD, the Aquinos **Urtha** will Starfire--it'd do the Starfire-1, what's called the

Page: 40

 bio-passage, to **Urtha** Aquinos. So this is huge. [Participants applauding]. So they

Page: 45

 and that's where **Urtha** and the Aquinos Matrix actually go up, and that is

Page: 46

 -SA- LON **Urtha** Sala-MA"-eah AL-CA"us En-Tara Sala-Sira ETUR-

Page: 50

 just Earth and **Urtha** and AquA"elle, but literally all the way through up into

Page: 53

 recently focused on **Urtha** and the Adashi Temples and all of the related things

 been focused on **Urtha** is because in the last few weeks we've become familiar

 La 3 and **Urtha** 3 via the Aurora and Ecousha platforms. And more of

Page: 69

 directly into M31, **Urtha**, and they all interface in the atmosphere. So, it implies

 gate 3. Now, **Urtha** is gate 3, the original in our PCM matrix. A

 3, which was **Urtha** in M31 -cause Urtha is in M31. So, we

 M31 -cause **Urtha** is in M31. So, we had the original gate wasn't

Page: 70

 Aquafereion races of **Urtha** to keep this place, where it is still ascension-able,

Page: 76

 is over here. **Urtha** is here in M31, in the Andromeda Galaxy which is

 we're seeing But **Urtha**, the natural Urtha gate, is in M31, but it interfaces

 Urtha, the natural **Urtha** gate, is in M31, but it interfaces our atmosphere directly,

 So, you have **Urtha** 3, and then it comes into Sha-La 3, and

Page: 77

 natural angle for **Urtha**. You would have Sha-La in the AquA"elle Eiradonis Matrix

 same angle as **Urtha**. You have over here, I believe this was the original

Page: 80

 the cycle that **Urtha**, which is in M31 ... so M31 Andromeda Galaxy Aquinos

Page: 81

 done this together. **Urtha** and the M31 system, the Sha-La 3 system-the

 a long time **Urtha** Starfires This is actually the first stage of Starfire This

Page: 96

 Sha-La and **Urtha**. So that is the one that in the old days,
 to link into **Urtha** at 3 in the M-31 System which means you

Page: 97

 way up to **Urtha** and M13, (possibly she meant to say M31) but
 go through to **Urtha**. But ones that have full calibration to a 1 0-

Page: 101

 natural gates where **Urtha** was part of, and then you had that tilted set
 the one where **Urtha** is still connected and Sha-La is still connected. So
 still connected. So **Urtha** is #3 on The MCEO Freedom Teachings® Series

Page: 102

 is that as **Urtha**-that is in M31, which means M31, the Aquious Matrix-
 M31 Galaxy where **Urtha** is, and to the Sha-La-3 where-that is
 June of 2027 by **Urtha**, or M31, the M31 system in Sha-La. But there's

Page: 103

 there, so when **Urtha** and when the M31 system with Urtha and Shala and
 M31 system with **Urtha** and Shala and the Aqua"elle System reach this point, so

Page: 125

 Sha-La and **Urtha** to get out for the Hosts, so they are directly

Page: 149

 Aquaferion Councils of **Urtha** have, at this poinL we did another hand up as

Page: 164

 "A) M31 **Urtha** and Sha-La and the general Indigo Aquaferion Shield entered
 behind the M31 **Urtha** and Sha-La and Aquaferion Shield. When M31 and Sha-

Page: 168

 get to M31 **Urtha**, right. And yeah, it's a bit of a hike (
 Laughs), especially since **Urtha** is 2.2 million light years away ... oh my God

Page: 169

 going up to **Urtha** now, because we're not getting them out" You know what

Page: 176

 because that's where **Urtha** is and we interface through the Platforms that are right

Page: 193

 La connects to **Urtha** out in M31 Andromeda Galaxy. So it's the beginning of

Page: 198

 to get to **Urtha** 3 in Andromeda. So this is the beginning. But it

Page: 251

 something that like **Urtha**, that is 2.2 million light years away from Earth, be

 big one is **Urtha**. And that is the Urtha that we've been talking about,

 that is the **Urtha** that we've been talking about, that we projected to, to

 Adjugate Twin system of **Urtha**, which is the AquA"elle System, pull together and give enough

Page: 253

 but so is **Urtha**. That Urtha alignment is why we haven't been eaten alive

 is Urtha. That **Urtha** alignment is why we haven't been eaten alive yet But

 can get to **Urtha**. So, it's a bit of a process. And the process

Page: 254

 able to get **Urtha** and M31. And that's what they've been trying to do

 That is where **Urtha** is, alright, Urtha Universal Star Gate 3 in the M31

 Urtha is, alright, **Urtha** Universal Star Gate 3 in the M31 System that is

Page: 55

 Star, which is **Urtha** Universal Star Gate 3 in our PCM Veca, in the

Page: 56

 and we have **Urtha**, here. Earth should be lined up with its north axis,

 same direction as **Urtha"s**. And, originally it was partially started that way. This is

 Starfire Cycle. So, **Urtha"s** here. Earth, through many years-since 550 million years ago

 can go to **Urtha**, before we can ascend all the way to Urtha, which

 the way to **Urtha**, which would be going back to the M31 System, we

Page: 57

 could go to **Urtha**, which is the Universal Star Gate 3 in the M31

 north axis of **Urtha**, no, Earth, Earth is 180 degrees upside down and then

Page: 58

 have to do **Urtha** D2, at least, if you want to see where Surface
 see where Surface **Urtha** is in relation to the planes of our Atmosphere, alright?
 as this, for **Urtha**; the Crystals underneath that are closer to the surface, the

 the-they're the **Urtha**'s D2 Aquifers, that are in the Van Allen Gaps, and

Page: 65

 from Earth to **Urtha**. Another set that goes from Urtha to Sirius Bin M31
 that goes from **Urtha** to Sirius Bin M31 System alright? So there's a stack

Page: 81

 here is where **Urtha** is. First of all Urtha is the natural Universal Star
 First of all **Urtha** is the natural Universal Star Gate 3 in the M31
 part of the **Urtha** System. They allowed it to fall in order to do
 that plugs into **Urtha** and to M31. And this is why Earth has been

 then we have **Urtha**. They are literally the 4 layers that interface directly in
