 to represent the **androgynous** role in all of this -the ManU. You can  
 boys can't be **androgynous** any more than girls can be. We happen to have  
 can have eight **androgynous**. I don't really mind. But what I'm asking you to  
 a girl and **androg**. We've enjoyed the benefit of some boys being girls and  
 two circles, the **androg** inner, male outer, female inner, androg outer, male inner, male  
 outer, female inner, **androg** outer, male inner, male outer What we'll do is put  
 the inner circle **androg**, female, male, androg, female, male & so on down first,  
 androg, female, male, **androg**, female, male & so on down first, , and then  
 role of male, **androg**, female on the outer the, simply have to go in

 yes, you're right, **androge**. 400 upper spiral, 140 bottom spiral. And the corresponding male  
 um, male and **androge**, stand side by side facing in, in each of these  
 remembered right The **androge** will always stand on the left of a male in  
 positions. So the **androge** is always on the left-hand side when looking in  
 these places. The **androge** role will be held by the left position in relation  
 we have 8 **androge** roles whereas we only need 6 which means we have  
 2 of the **androges** out Sorry? Um, so, we need all together, 6 androge,  
 all together, 6 **androge**, 6 male and 12 female, ok. Participant I'll move from

-  I'll move from **androge** to female That leaves 7 androges. Az Well, we, um.
