 So, it first **births** that. Then: As we go through the Starborn Cycle, corresponding

 Prana Seed ... **births**; Prana is a very specific type of energy that

 Spirit Body; we've **birthed** the Rasha Body. So, understanding the fifteen geleziac layers becomes

 Body starts to **birth**, and the Outer Light Body as well, at the point

 stars, when the **birth** into matter process is occurring. So, that's why they call

 as the Diad **births**, so does the Eukatharista Outer Light Body, and the Base

 it just gave **birth** ... through the Big Bang ... because that is the

 understanding first the **birth** of the Spiritual Body and the birth of the structure,

 is born here, **births** at this point, and then we go through the Gestation

 light Body Structures **birthing** at this point but simultaneously, the outer light Body Structures

 Big Bangs, are **birthing** as well. The Big Bang point is actually in one

 actually at the **birth** of the Diad. So ... there is a whole series,

 Diad, then Miad **births**, the Monad births, and each one of these are a

 births, the Monad **births**, and each one of these are a Takeyon Cycle, a

 Light Body were **birthing** at the same time, and that was not too challenging

 right before the **birth** of the Elum-Eiradhona alright, so it was like that

 that are our **birthright**, and they have been denied us for a very long

 here at the **birth** of the Diad, there would be the natural StarBorn Cycle

 where we have **birth** of the Diad, then the Miad, then the Monad. Then

 that these are **birthing**, the outer Light Body Structures are also birthing. So while

 Structures are also **birthing**. So while you have this occurring here-the Diad, you

 the Eukatharista Body **birthing** here at this point which are two of the Eckasha-Aah

 you would have **birth** of the Miad, and the Miad, and the Eckasha-A would

 Eckasha-A would **birth**. So you'd have the four Eckasha-A inside of the

 Eckasha-Aahs would **birth**. And then you would have their Key Phase Cycle where

 have here, the **birth** of the Monad and the Eckashas. And there's actually 24  
 and the Eckashas **birthing**, and then they have their Phase Cycles. Then you have

 quantum building and **birth** of the Ad on unit, and if you notice for  
 the Aden that **births** here. And at this time the parts of the outer  
 Light Body that **birth**, are parts that we hadn't heard about yet. And one  
 is where they **birth** in. They are part of the Light Body Structure that  
 Body Structure that **births** in where you get every ... let's ... say ...

 get into the **birthing** process and the conception and how that occurs and what

---

Page: 48

 were seeded or **birthed** on Urtha, because the first group of them, they were

---

Page: 55

---

 culminate in the **birth** or re-birth of a light body system. And, that

 birth or re-**birth** of a light body system. And, that all plugs into

---

Page: 56

---

 up to the **birth** of the Seed atom or this one in particular is

 culminating in the **birth** of the Reuzhetta in the Yunasai and the Reuzhetta is

 replenishes itself and **births** itself into manifestation and that. So we are all connected

 It is the **birth** of the Tauren and phasing creates the key generation cycles.

---

Page: 60

---

 to literally the **birth** of matter systems [graph] This gives a little bit

---

Page: 82

---

 or something from **birth**, which is possible. But they gave her ... well, we

---

Page: 86

---

 be able to **birth** in through our templates there are cycles of these generation

---

Page: 104

---

 those or were **birthed** with any of those attachments of the unnamed ones in

---

Page: 111

---

 and then re-**birth** and that kind of thing. The same thing is supposed

---

Page: 158

---

 a Starfire re-**birth** cycle, we go to Urtha. So, this is the beginning

---

Page: 164

---

 go through Starfire **rebirth**. They will stay in the same place and enter their

---

Page: 165

---

 cycle and re-**birth**. Because they will still be able to cycle and re-  
 cycle and re-**birth**. Eventually, that will get smaller and smaller-the rebirthing potential  
 and smaller-the **rebirthing** potential and there will be problems with genetics where  
eventually  
 through the re-**birth** cycle through Urtha. So it is a much better scenario

---

Page: 166

---

 of Starfire re-**birth**. And that, the first stage of that, is getting through

---

Page: 174

---

 the fetus and **birth** their first line of children there on Urtha. That was

---

Page: 185

---

 characteristic of the **birth** of the Tauren Living Light seed. That is the pattern

---

Page: 187

---

 Axis-7 and **birth** of the Edon and we're aiming for going to what  
 we're moving toward **birth** of the Yunasai. We just birthed the Ed on in  
 Yunasai. We just **birthed** the Ed on in FOL, I believe that was, the  
 Light Seed gives **birth** to the Par-TE"-KEi dark matter template and it

---

Page: 189

---

 then for re-**birth**, back out again That is the capacity the Earth itself  
 comes back, re-**birthed**. And at that point there'll be a separation in the  
 Big Bang re-**birth** cycles where the entire template is replicated and its particles

---

Page: 190

---

 and then re-**birth** back out again Now, it will re-birth back out  
 it will re-**birth** back out as itself, the original. It will also have  
 replica that re-**births** out as the next layer of expansion. And in terms  
 replicated. When this **births** out, as the "times 2" replica, this comes back

---

Page: 191

---

 at the "**birth**" of Two There's no Orta Clouds yet Now, when Two hits  
 Now, when Three **births** out in fact, I think that might be where the  
 time one is **birthed**, the birthed one is the "times 2" replica of  
 is birthed, the **birthed** one is the "times 2" replica of the one  
 Point and re-**births** out So every birthing point means you've got Orta Clouds  
 out So every **birthing** point means you've got Orta Clouds forming from the, anything

 yeah when it **births** out on Axis-7, when we get to the Edon,  
 1728 Partiki units **birth** out At that point there is a 15-layer Orta  
 does its Flash **PoinLbirths** back out as the Diad on Axis-2. This is  
 during FOL, it **rebirths** the Ed on level, that"s the "times 12" ...  
 we get to **birth** of the Edon, this goes into what"s called the Reuche

---

Page: 192

---

 8, that was **birth** of the Edon-1728. Axis-8 is here. It"s the  
 then finally the **birth** of the Yunasai Seed Atom with its flames from the

---

Page: 241

---

 process and re-**births**. But it will still have free will here there will

---

Page: 252

---

 back in for **rebirth** where it is not there hosting and holding its field  
 do its re-**birth** cycle which will allow Earth to pull- it will be

---

Page: 253

---

 and they"ll re-**birth** back. A"sha There"s a piece of Andromeda I believe that  
 necessary to re-**birth** and purge yeah ... so that"s why like even though  
 on that re-**birth**, doesn"t it apply with a full system that would remain

---

Page: 254

---

 to be re-**birthed** back out on the next Eckashi Expansion Cycle. So, I  
 a natural re-**birth** out but it will carry part of the memory matrix

---

Page: 265

---

 Starfire and Re-**Birth**, or it wouldn"t And if it didn"t, it would fall

---

Page: 266

---

 Source, and then **ReBirth** out Now, this Planet and this Solar System are not

---

Page: 268

---

 up to the **birth** of the Yunasai, and the Core Flame. There are several

---

Page: 271

---

 it can"t Re-**Birth**, but instead of being in a Black Hole System where  
 to Starfire or **toReBirth**, which means they can"t regenerate their own quantum, and whatever

---

Page: 274

---

 back on the Re-**Birthed** Urtha in the Radon Domains, and then go to the

---

Page: 275

---

 generation, they can **birth** their "bus"s " And that's about what they are-

---

Page: 309

---

 and here gives **birth** to the Tauren. So, between axis one and two, you

---

Page: 314

---

 Partiki to the **birth** of the Tauren. We already did that since Tenerife Then

 which leads to **birth** of the seed atom with the Rosetta. So, that's the

 which is the **birth** of the Tauren. Then you have the Starborn cycle, where

---

Page: 315

---

 up to the **birth** of the seed atom, the Lifeborn cycle which encompasses six

---

Page: 316

---

 up with the **birth** of the Tauren. That takes place between axis zero and

 and forms the **birth** of the Yunasai. This would be the inner Yunasai seed

 charts. This gives **birth** to next the outer YanA"sa seed atom, which would be

 again and then **rebirthing** out again through the whole process. It's the natural ebb

 you have something **birthing**. It births there and then it cycles in its corresponding

 something birthing. It **births** there and then it cycles in its corresponding domain. You

 end up giving **birth** to the Yunasai The MCEO Freedom Teachings® Series Presented

---

Page: 317

---

 end up giving **birth** to the middle RaSh aLE body. These are the middle

 end up giving **birth** to the RaShaLAe body, and these are the outer RaShaLAe

 and they will **rebirth** out through the next Eckashi cycle. And all of what

---

Page: 327

---

 leads to the **birth** of the Yunasai and the inner RaShala body. This area

 is where they **birth** out the next seed atom up. So, this is we

---

Page: 329

---

 itself it gives **birth** to the Yunasai and then you enter the Yunasai cycle.

 there is the **rebirth** cycle, and part of the bodies, and I don't know

---

Page: 337

---

 come out and **birth** out One replica births back into the circulation cycle, and  
 out One replica **births** back into the circulation cycle, and you have the choice

---

Page: 369

---

 planet's going to **birth** itself into a new evolutionary cycle. It is a fall

---

Page: 393

---

 It continually re-**births**. You'll see a bit of what that cycle is because

---

Page: 427

---

 2 and the **birth** of the Tauren and that starts what is called the

---

Page: 428

---

 the Triad giving **birth** to the Tauren and it all eventually gives birth to

 all eventually gives **birth** to the structure, the Stairway to Heaven structure I wanted

---

Page: 441

---

 faces that give **birth** to full on Bourgha souls. They are called the U-

 they eventually can **birth** fully full on without any Human trace other than the

---

Page: 453

---

 with them and **birth** babies here that have those souls in them, that kind

---

Page: 458

---

 and then it **rebirths** the original rebirth and then a times two version of

 rebirths the original **rebirth** and then a times two version of itself rebirths, and

 version of itself **rebirths**, and this is where we start the StarBorn The MCEO

---

Page: 459

---

 form with the **birth** of the Par-TE"-KEi Body. So when we are

---

Page: 461

---

 it-continually re-**births** back out with the next one, with its replica. So

---

Page: 463

---

 up to the **birth** of the Seed atom and the Rosetta. This is the

---

Page: 465

---

 out in the **birth** of the Eukatharista Bodies from the RaSha Bodies. So when

---

Page: 469

---

 You are giving **birth** together to a conscious Elemental Identity that wants to, in

---

Page: 486

---

 .. from the **birth** of the first Partiki to the LightBorn cycle where the

---

Page: 490

---

 cycle and the **birth** of the RaSha Am orA or the, in our terms

---

Page: 492

---

 into Source and **rebirthing** back out So there"s a flow between the seed atom

---

Page: 493

---

 you have the **birth** of the Yunasai, from the birth of the Yunasai you

 Yunasai, from the **birth** of the Yunasai you have that whole expansion out through

---

Page: 495

---

 it goes to **birth** to the Ecousha Crystal or the Krystar Crystal. Now, the

---

Page: 497

 that imprint and **rebirth** back out And in the rebirth back out, you end

 And in the **rebirth** back out, you end up with one coming back into

 cycle. Actually it **birthed** our Tauren cycle, and that whole Starborn cycle, up to

 That whole structure **births** out in one, kind of like pulsed bang. It holds

 This one would **birth** the seed for the next one out So, there would  
 one would give **birth** to this one. Again, here you would have the Um-  
 atom would give **birth** to the Par-TE"-KEi templates, would give birth to  
 templates, would give **birth** to the Big Bang outer layers which would do their  
 which would give **birth** to the seed for out here. This is where we  
 Eyugha. That would **birth** out the seed for here. Where this gets interesting is  
 level, that would **birth** out, it would go through its Par-TE"-KEi template  
 stage, that would **birth** out, do a Big Bang and birth out the outer  
 Big Bang and **birth** out the outer layers of the body, which are the  
 cycle we would **birth** the Cousha crystal or memory crystal for the next cycle,

 memory, and get **rebirthed** back out, where we can simultaneously enter a cycle here,

---

Page: 79

 that point of **birthing** out as a Krystar or a Krysted One and a

that

 inner part that **births** out the outer set or the outer hologram and it

 And they are **birthing** in, they are in the process of birthing in as

 the process of **birthing** in as we activate the levels of the RaSha aLae

 that process the **birth** of the Tauren was created. Through the Triad sparking, first,

 and the Tauren **births** out, right. Well there's a whole bunch of stuff that

 before the Tauren **births** out because I do believe they happen simultaneously. What's going on,

 in, before the **birth** of the Tauren. The same process happens once for each

 frequency to literally **birth** a Radial Body Structure, an Outer Radial Body Structure that

Page: 119

 that, that gives **birth** to the Outer Layer Light Body Structure that we started

 process of Re-**birthing** a Hosting Planet that's going to help billions of different

 back in to **birth** out the Tauren. But hold it right there ... went

 stuff before it **births** out the Tauren. Now I will try to describe this

before the Partikl **births** out, but after the first 3 Sparks were made at

---

Page: 128

---

-  is preparing to **Birth**, through the birth of the Light Seed, there are these
  -  Birth, through the **birth** of the Light Seed, there are these other things birthing.
  -  these other things **birthing**. I don't know exactly at which point Tauren pops out,
- 

Page: 130

---

-  Core Domain starts, **births** the Seed Atom through the Outer Light Body process, Seed
  -  that is the **Birthing** Cycle of the Krystal that will be the Seed for
- 

Page: 131

---

-  yet the Tauren **births** out, but this stuff happens before the Tauren births out,
  -  before the Tauren **births** out, all right. Those 3 Partikl, uh 2 Partikl and
- 

Page: 135

---

-  we're having the **birth** of the Tauren getting ready to happen, right? I don't
- 

Page: 136

---

-  Body of Krist **births** and opens the Flow of Love-LaVa all right It
- 

Page: 137

---

-  is where the **birth** of what the unit is called the "electron" is
  -  is not the **birth** of the metatronic electron that we're running around with half

-  as the Tauren **births** out after it goes through the 7 Suns replications to
  -  and the Tauren **birth** simultaneously, where you get the Spirit Body and the Light
  -  the RaSha seed **birthing** out simultaneously. So there's some huge diagram that would have
- 

Page: 143

---

-  this cycle, we're **birthed** out here, we birth out through what is called the
  -  out here, we **birth** out through what is called the ... I forget the

Page: 146

-  We ended up **birthing** out through the Cousha here, because we finished filling in
  -  that is the **birthing** cycle of the Krystar Krystal, the Adashi 1 Krystal where

 come in and **birth** in with the birth of the Krystar Krystal, with the

 in with the **birth** of the Krystar Krystal, with the Cousha 5 Krystal. And

Page: 150

 have begun the **birthing** process of the New Ascension Earth in the bands that

 of the simultaneous **birthing** of the LaVa within all of the other atomic structure

---

Page: 161

 that is the **birthing** New Earth, Ascension Earth Domain. And we are going to

 This is the **birthing** vapors of what will soon be a star, called Aquarius,

 motion in its **birthing**. There's already things taking place there. There are what we

 in the new **birthing** shield of the New Ascension Earth. And there are those

---

Page: 180

---

 will have to **birth** out again to pick-up the pieces of its atomic

---

Page: 204

---

 its Phase cycle, **birthed** the Tauren. The Tauren goes through a whole set of

---

Page: 205

---

 up to the **birth** of the Yunasai, then they gave us this whole new

 you get the **birth** of the Par-TE"-KEi Template. The Par-TE"-Kei

 you get the **birth** of the Eukatharista Body and the Outer Domains form and

 and then the **birth** of the- what is called the 7 Suns HUB and

 off with the **birth** of- from the Tauren births the Seed Atom, the Yunasai

 from the Tauren **births** the Seed Atom, the Yunasai Seed Atom and the Rosetta,

 leads to the **birth** of what is called its 7 Suns HUB and its

---

Page: 208

 would have the **birth** of the UmShaddEi Middle Domain Seedatom. And then you have

 they would give **birth** to the Yon-A-Sa Seed Atom that would give

 that would give **birth** to the Ka-LA Eyugha Cycle and the Outer Domains

---

Page: 213

---

 way that things **birth** out into the next layer. When you get all the

 next place to **rebirth** out to when you get through full RashaLAe Body activation,

 activation, is to **rebirth** out into the Adashi-1 cycles. And, yes you can  
 still have to **rebirth** out, but it's better than spacedust Earth will not allow

---

Page: 230

---

 With the Krystar **birth** there is an outflow again. There will be another wave

---

Page: 231

---

 starts with the **birth** of the Tauren through the triad. Through Partiki one and  
 the Tauren, the **birth** of the Tauren most fully, and whatever was right after  
 bang. It's the **birth** of the Par-TE"KEi template. The Par-TE"-KEi body,

---

Page: 232

---

 of all they **birth** out into manifestation the light body structure, and the full  
 we get the **birthing** outward of the full light body structure and it's within

---

Page: 234

---

 here before this **births**, this is the Tauren, that after it tries to make

---

Page: 235

---

 which the Tauren **births**. So, it's in that little imprint of the Cousha, and  
 comes out and **births** the Tauren, there's something that births behind that first and  
 there's something that **births** behind that first and that is where the Eye of  
 back to the **birth** of the light seed. So, we have the spirit seed  
 spirit seed that **birthed** first that they didn't even talk about "cause it's  
 probably, so, that **births** out and then all of that process brings out the

---

Page: 239

---

 itself when it **rebirths** out and that's what a takeyon flash point is. So

---

Page: 241

---

 forms before this **births** out but it's on the other side of that, still  
 in there, creates, **births** Tauren. Tauren starts its pulse phasing where it generates sparks  
 go in and **birth** back out they do a times 2 replica so you  
 quantum, then it **births** back out as the next larger set of like body

---

Page: 242

---

 first seed atom **births** out The Yunasai is the seed atom for the inner

---

Page: 243

---

Page: 244

---

 in and replicates, **births** back out and it creates this structure- the 30 cells

 shape and the **birth** of the Yunasai that looks like this. This is where

---

Page: 246

---

 up to the **birth** of the Tauren. You had the Starborn cycle that took

 up to the **birth** of the Yunasai and the Rosetta and now there"s all

---

Page: 250

---

 there"s something that **births** out at the same time of the RaSha body and

---

Page: 251

---

 which we actually **birth** the seed within our bodies, in our RashaLAe body and

---

Page: 256

---

 round 4 and **births** out these. These are called what? They are called the

 create the, they **birth** the Par-TE"-KEi body 5 core elemental commands the

---

Page: 261

---

 create the "**Birthing** Out" of the 5 Elemental Planes that we just saw

---

Page: 262

---

 had the "**birth** out" of the Full RaSha Body thingee. Where was that

 Core that was **birthed** out from that full Round of 12 prana exchange breaths.

---

Page: 263

---

 Cell fully Phases, **births** out the RaSh a Body with Its 5, you know,

---

Page: 264

---

 Anyway, that gives **birth** to this. That was considered the 4th Sheath Body of

---

Page: 265

---

 and they give **birth** to the next level. This would be the Core of

 the Tauren and **births** all the way up through the Control, which is the

---

Page: 267

---

 out, and gives **birth** to the Eukatharaista Body, with its four, with its um

---

Page: 269

---

 into center and **births** out and replicates. And here, it's through these the birth  
 through these the **birth** out and replicate process, somewhere in there, is where we  
 Ecousha cycle. That **births** the Partikl1 and Partikl 2 of the Krystar Seed, which  
 into the New **Birth** and The MCEO Freedom Teachings® Series Presented by Adashi

---

Page: 270

---

 Activation, which means **rebirthing** the um, the, the Partikl 1 and Partikl 2 of

---

Page: 273

---

 a thought-form **birthed** out again into the Outer Cycles and Domains, and hopefully

---

Page: 275

---

 and women can **birth** the energy eggs, but they have to come together in  
 the Planet at **birth**. Yeah, I mean, it's, it's awesome. Anyway, it'll be awhile

---

Page: 294

---

 conception and the **birth** of the Ka-LE," or the beginning part of the

---

Page: 300

---

 you'd have the **birth** of the UmShaddEi. There would be an Ecousha 2 krystal,  
 would have the **birth** of the Yon -A-sa outer seed atom Right  
 would have the **birth** of the Cousha 3, and the third Eye of God

---

Page: 303

---

 were, where we **birthed** out of to get out into the outer domains. So,

---

Page: 332

---

 is our natural **birthright** as Kristiac beings, which is this E-LUma-Un spark,

---

Page: 334

---

 a Path of **Rebirth** where you go ... it's called Ring of Fire Passage  
 would have to **birth** out into another Outer Domain Cycle again before you had

---

Page: 337

---

 Triad and the **birth** of the Tauren before the whole Light Body Starborn Cycle

---

Page: 338

---

 that actually gives **birth** to the Inner Domains Rasha Body structure and then the  
 next Domain out **births**, and that births through the Rasha Body phasing and generating  
 births, and that **births** through the Rasha Body phasing and generating frequency. And so,

---

Page: 342

---

 enough quantum to **birth** the first Partikl that starts the Creation Cycle for the  
 process now of **birthing** the Seed for our literally our next-it"s called the

---

Page: 343

---

 then created, gave **birth** to the Tauren with it"s first Photo-generator Cell and

---

Page: 344

---

 get to the **birth** of the Living Light Seed, the Tauren Light Seed and  
 is where the **birth** of the Edon would happen here and that"s the 1728

---

Page: 347

---

 you would have **birth** of the Yunasai and that"s the First Inner Seed Atom.

---

Page: 348

---

 end, the full **birth** of the big part of the Spirit Body is when  
 Tauren Light Body **births** at its center and that"s when the Light Body structure

---

Page: 349

---

 which would be **birth** of the Seed Atom with the Rosetta-the Yunasai Seed  
 a Body, the **birth** of the Inner Rash a Body Dark Matter Templates and

---

Page: 350

---

 Body that gives **birth** to what is called the NaVA-Ho Cell, which is  
 a Body is **birthed** from the Seed Atom, the Yunasai doing its pulse cycle,

---

Page: 351

---

 Body will give **birth** to the Eukatharaista Outer Light Body and that"s a ways  
 this will give **birth**, these will phase, these phase cells will pull in and  
 Template, now gives **birth** to the Rasha Body. The Rasha Body has, this is

---

Page: 352

---

 this Rasha Body **births**, first we had the Par-TE"-KEi Rash a Body  
 Rash a Body **births**, that"s the one that has the Spheres and the Crystal

---

Page: 353

---

 out with the **birth** of the Partikl1 for the next Domain, whatever that is.  
 means we would **birth** our first Partikl for the first Kristiac Domain. The first

---

Page: 356

---

 back out is **birth** these first 4 ... actually there's 5, there's one at

---

Page: 364

---

 next thing it **births** out is a times 4, is a 1-2-3-

---

Page: 367

---

 once that gave **birth** to vacuum energy and the Dark Matter Template, or whatever

 and it gave **birth** to the "cosmic soup" as we know it, and

---

Page: 371

---

 Light Seed was **birthed** here- this is without even getting into the SEda Cycle

 Ho Cycle that **births** the Partikl out for the next domain out And then

 the domain out **births** its- goes from its Tauren to its Seed Atom and

---

Page: 372

---

 and before the **birth** of the Tauren. And it gets really neat, because at

---

Page: 380

---

 get to the **birth** of the Tauren there's other things that happen. If we

---

Page: 381

---

 to first the **birth** of Partikl1 and that is considered the Virgin Birth- OK

 considered the Virgin **Birth**- OK nothing has pierced it, it's pure, it's just as

 born, the Virgin **Birth**. And then in the NaVA-Na Cycle- this is the

 by Partikl 2, **birthing** into the same spot There are 4 trimesters of things,

 place before the **Birth** of the Tauren on axis-1 and that starts the

 the Cousha gives **birth** to what is called the First Eye of God which

 God which gives **birth** to what is called the Heart of God, and then

 that all gives **birth** to the Three Eyes of God and the Three Hearts

 that all gives **birth** to the Three Hara Bodies and the DhaLA"s. And that

 And that gives **birth** to the-what are they called? The Root Cell, the

---

Page: 382

---

 Cycle to the **Birth** of the Tauren, so that we'd at least get the

---

Page: 383

---

 the pre-Partikl **Birth** stuff So they each have an encryption of their own

 the pre-Partikl **Birth** NuVA-Na Cycles. I'm trying to learn all these new

 that pre-Partikl **Birthing** Process of the End Cycles. The Nu ... whatever it

 here to the **birth** of the 1st Partikl and then the birth of the  
 and then the **birth** of the 2nd, there's like pages, and pages of diagrams

---

Page: 391

---

 Spirit Body progressively **births** from here. But here is where we get the Krist

---

Page: 394

---

 later, much later, **birth** out as the PartikE in the Tauren Light Seed. The

---

Page: 396

---

 Hara NaVA-Ho **Birth** Chamber. This is the beginning, you see the Chamber opens

 Hara NaVA-Ho **Birth** Chamber between 1st Creation Point and God-Source Field, so

 Hara NaVA-Ho **Birthing** Chamber within the Kryst Body. So now you have the

---

Page: 397

---

 back out the **Birthing** Chamber, back out to Source. And this forms- OK back

---

Page: 400

---

 you. With the **birth** of the E-LUma-Ruta-Ecousha First Cell, the Vertical

 Life Cell Cluster **births**. So, this Root Cell creates the 8 Cell Cluster from,

---

Page: 402

---

 stage ... the **birth** of the Ecousha-TA, which was that 8 Cell Cluster.

---

Page: 403

---

 TA Cluster gives **birth** to the Reisha-TA Spirit Body Eternal Cosmic Family. This

---

Page: 404

---

 the Kryst Entity **births**. And it, it's also the point where right in the

 so the Tauren **births** as this births. And the Tauren is like a tiny

 births as this **births**. And the Tauren is like a tiny little spark of

---

Page: 407

---

 get to the **birth** of the Tauren and then the Light Body Structure. I

---

Page: 410

---

 3, which is **birth** of the Reusha-TA Cluster ... which starts with the

---

Page: 411

---

 the little Tauren **births** at the center, then there's little cycles of the same

 that is what **births** out when you go from the zero point axis finally

 that that is **birthed** on. So the Spirit Body and the little Tauren Light

 Tauren Light Seed **birth** out at the same time. And that is just to

---

Page: 413

---

 ours, that gives **birth** to the domain outside of that, right, 9.5 Then there's

---

Page: 414

---

 crystal that gives **birth** to our Outer Domain Body. And that's the one that

---

Page: 415

---

 the one that **births** the 4th Domain or the Outer Domain, this ... they
