 called a Reuche **Cluster** of cells. And then that goes in and comes back

Page: 119

 the Eight Cell **Cluster** of the Halls, and, from those, you have the core currents

 born in every **cluster** as far as the Lightbody structures go but they are

-  with the Rosetta **cluster** forming. The Rosetta, with the Rosetta cluster of the light
 -  with the Rosetta **cluster** of the light cells that were born from the Tauren.
 -  but the Rosetta **cluster** stays with them. The Rosetta cluster doesn't go away just
 -  them. The Rosetta **cluster** doesn't go away just because the Yunasai was born. So,
-

-  Ruezhetta is the **cluster** of all of those original light cells that formed and
-

-  HUB, Arc HUB **cluster** gate And it is the first time that its even
 -  12 Arc Hub **cluster** gates open, and they were the ones that we put

-

-  center of that **cluster** of 3 there is the one that has the 12

-  the 8 Cell **Cluster** that is called the Ecousha-T A And it's from
 -  it's from that **cluster** that the next cycle unfolds that is called the Reusha-

 ah Tri-Vectus **Cluster**. Yeah, yeah, lots of new words (laughs) ... so

 1st 8 Cell **Cluster** Itself Next one, please. [graph] [OVO Sat 6]

Page: 402

 that 8 Cell **Cluster**. That is where the transition point into trimester 3 is.

 the 8 Cell **Cluster** of the Ecousha-TA is formed, then those cells with

Page: 403

 the Reusha-TA **Cluster** gives birth to the Reisha-TA Spirit Body Eternal Cosmic

Page: 410

 cell in the **cluster** of the 1st 8 Cells. And there's actually 7 inside

 ah Tri-Vectus **Cluster**. In easy terms, the 8 Cell Cluster, the Ecousha-TA,

 the 8 Cell **Cluster**, the Ecousha-TA, all right it's easy to remember. So,

 Root Cell the **cluster** of 1st 8 Cells form, and again, at the center

 the 8 Cell **Cluster** would look like. Do I have to do anything here,

 the 8 Cell **Cluster** phasing, that that ends the Trimester 2 and goes into

 the Reusha-TA **Cluster** ... which starts with the Reuche and then the Reusha

 Reusha-T A **Cluster** and from the Reusha-TA cluster phasing the next expansion

 the Reusha-TA **cluster** phasing the next expansion occurs, and this actually would go

Page: 412

 that first cell **cluster** and that's called the Ecousha crystal. It represents ... inside

Page: 414

 the 8 Cell **Cluster** that links the Spirit Body into what becomes the material

Page: 416

 Ecousha-T A **cluster**, ok. This is what it's supposed to look like, all

Page: 418

 TA 8 cell **cluster**- and that's where you get, you have the alignment of 3

Page: 419

 would have our **cluster** of 7 cells inside one, the 8 cells, for our

Page: 420

 an 8 cell **cluster** ... it allows the 8 cell clusters, each of them,

 the 8 cell **clusters**, each of them, to bring their vectors together, where the

Page: 421

 the Ecousha-TA **cluster** exists. There's a process by which we manifest existence as
 and the Ecousha **Cluster** and our Cousha crystal at the center of the Ecousha
 of the Ecousha **cluster**, and our Eye of God for this domain. So, it's

Page: 424

 first 8 Cell **Cluster**, to phase and all pull into the first Cell When

Page: 466

 called the Andromeda **Cluster** of the Aquinos Galaxy. We've talked about the Aquinos nurseries,
 Andromeda was a **cluster** of stars within that matrix. Now when science here identifies
 Andromeda was a **cluster** of the stars that were in there and there were

Page: 469

 the eight cell **cluster**. It's called the Ecousha-T A eight cell cluster on
 A eight cell **cluster** on the ElorA side, and it's called the Akasha-T

Page: 470

 of Records, the **cluster** of the first 8 cells, in the Earth body, and

Page: 472

 first 8 cell **cluster**, finally did open after they begun opening, like I said,

Page: 481

 was a star **cluster** within it, out of which things have fallen But, it's

Page: 487

 actually portraying a **cluster** or a Primary Galaxy Cluster or a Universe. [Graph
 a Primary Galaxy **Cluster** or a Universe. [Graph 0 06 04} Now this

Page: 500

 1st 8-Cell **Cluster** and the Akashic Record is the 1st Cell Cluster. And
 the 1st Cell **Cluster**. And when you're talking about Planet levels it would mean

Page: 505

 own original M31 **cluster**. It actually is, there's I think a, let's see, 2.2

Page: 506

 lots of star **clusters** and things that are born from those 12 Primary Galaxies

Page: 507

 actually the Andromeda **Cluster**, all right, in the Aquinos Galaxy. But, science is seeing

Page: 508

 And the M31 **cluster** is a small part of that constellation, Andromeda, as far

Page: 509

 Sagittarius-A star **cluster** and that kind of stuff and they think that's the

 6-6-6 **Cluster**. So, we've got remember, we have our M-gates that

Page: 512

 interesting set of **clusters** that are holding this in ... this compacted, squeezed together,

Page: 514

 too, in the **cluster**. This whole thing, these are the "Aicyone libraries," the,

 ShAions, those crystal **clusters**. Now on a planetary level this means that after this

Page: 16

 the 8 cell **cluster** that, we won't even get into the technical names, we've

Page: 17

 the 8 cell **cluster** or the ... it's the 8 cell Hall of Records.

 the 8 cell **cluster** that is at this level of the ELum-Eiradhona of

 the 8-cell **cluster**, emerged. So, this is a crystalline structure where these are

 emerges each cell **cluster** that is the Hall of Records. So, when we talk

 REisha-T A **cluster** that is in here, somewhere in here ... I'm not

 the 8-cell **cluster** that is the Hall of Records From the Hall of

Page: 19

 the 8 cell **cluster** of the Hall of Records, and then inside that you

Page: 22

 is a smaller **cluster** that looks just like the big one. It would be

Page: 43

 REish a-TA **Cluster**. And the REisha-T A refers to unified Akasha from

Page: 45

 A 8-Cell **Cluster**, the Cosmic Halls of REish a-TA. The next thing

Page: 48

 TA 8-Cell **Cluster**. We're moving now into the center cell, we're moving now,

Page: 57

 we'll have a **cluster** of people. Now, one thing we need, we need to

Page: 65

 One of its **clusters** was Andromeda in the Universal Star Gate 9 position, but

Page: 68

 the eight cell **cluster** and the first of the first eight cells at the

Page: 76

 in this little **cluster** of mess here that is helping hold together this Procyak

Page: 136

 First Eight Cell **Cluster**. There are eight cells here. This is the First of

 Ecousha Eight Cell **Cluster**. That is the structure of the Hall of Records. They

 First Eight Cell **Cluster**, that is actually the Ecoushic Record, that are the Hall

 the Eight Cell **Cluster** that is held within the Gha-Fa" Body in the

Page: 137

 Records Eight Cell **Cluster**, and to the Record itself, be it the Ecoushic or

 the Eight Cell **Cluster**, and the Record itself is there. There is an Akashic

Page: 143

 the Eight Cell **Cluster** of the Memory Matrix, or the Halls of Records, that

Page: 146

 the eight cell **cluster** of the Record that goes with that core crystal would

 Akasha eight cell **cluster** over here. That is the Akashic Record. That holds our

Page: 162

 and represents a **cluster** of presently Earth incarnate individuals whom carry the dormant Dhani

 then there's a **cluster** of 8 Cells, the First of the First 8 Cells,

 you have the **cluster** of 8 Cells that form around that. They form within

 the Spirit Body **cluster**. And if not, you would bring energy from there in
