 Yes, they were **consciousness**. You know, the Appolyon is a consciousness, the Abaddon is

 Appolyon is a **consciousness**, the Abaddon is a consciousness. But there're also physical things.

 Path of Human **Consciousness**, Light and Shadow ... all these are just showing you

 to God Source **Consciousness** Field, the non-manifest part of God Source, at what's
 of energy and **consciousness** to form black hole technologies that suck energy off living

 and ingest your **consciousness** and use it as fuel. So, we had to tell

Page: 37

 say that the **consciousness** on this planet made certain choices that created a collective

Page: 42

 with on a **conscious** level. Forget the blind faith thing, we are not asking

Page: 44

 we focus our **consciousness** on something, we are moving energy and creating something. Now,

 there in the **consciousness** field of Source, but it's like a dormant intention to

 1st placed its **consciousness**, the consciousness beam, where it focused in on, in its

 its consciousness, the **consciousness** beam, where it focused in on, in its own consciousness

 in its own **consciousness** field, just as if you close your eyes and in

 mind and a **consciousness**. And Source doesn't have a brain with gooey gray stuff

 a mind and **consciousness**. And it is literally through the process of focusing a

Page: 58

 1st focus of **consciousness** was. That's where Partiki 1 was created, that was where

Page: 59

 portions of your **consciousness** experience being in space/time/matter systems. So, this is

Page: 60

 units of the **consciousness** of God-Source, Partiki. Once it becomes a densified thing,

 Partiki in the **consciousness** field of Source, into a structure that is growing within

 sparks of the **consciousness** of God Source. In the image of God Source you

Page: 68

 was created in **consciousness** field of Source and it carries the encryption, the eternal

Page: 74

 bands. Because, our **consciousness**, what we call our consciousness, the part of us that

 we call our **consciousness**, the part of us that is actually looking out on

 we're actually, the **consciousness** and the mental body, in the d-3 realm and

 part of our **consciousness** is bent back on itself, part of it's being moved

Page: 90

 feel aliveness of **consciousness** and intelligence in each one of them. And like, pink

Page: 91

 looked at God's **consciousness** field and it had one Partiki that kind of formed

 point where Source **consciousness** field is around here and when this, when the Eye

 between the open **consciousness** field of Source or the Un-manifest consciousness field of

 the Un-manifest **consciousness** field of Source, and the manifest body structure or Spirit

Page: 92

 portion of your **consciousness** that is manifesting on the AdorA side and coming out

Page: 93

 between the Source **consciousness** field and the Eye structure that is forming at the

Page: 96

 massive field of **consciousness**. The Cosmos is created of it and as it, but

Page: 99

 energy and, as **consciousness**, out into manifestation and it did it in a way

Page: 104

 the God Source **Consciousness** Field here, the full, unified field, around it. And, this

 or God Source **Consciousness** Field. So, what used to be a closed cell; now,

 of God Source **Consciousness** and send them out, where the clockwise ones bring energy

Page: 105

 expands into the **consciousness** field of Source, and it is met with a backflow

Page: 106

 exists within the **Consciousness** Field of God Source. So, all of the things that

Page: 107

 individuation, within the **consciousness** field of Source. So, these are our Hall of Records.

Page: 108

 part of our **consciousness** that goes out on the other vector. And, so far,

Page: 114

 creation in the **consciousness**, in the conscious mind of God where Source focused its

 consciousness, in the **conscious** mind of God where Source focused its consciousness in a

 Source focused its **consciousness** in a part of its own consciousness field. And that,

 of its own **consciousness** field. And that, because Source consciousness, as an energy, carries

 that, because Source **consciousness**, as an energy, carries the eternal encryption of the Kryst

 focused into the **consciousness** field, embedded that encryption. And then there was a process

 that focus of **consciousness** actually warming the geleziac radiation of which the Source consciousness

 which the Source **consciousness** field is made, and in that gelling, where the attention

Page: 115

 the beam of **consciousness** is moved away from it and placed elsewhere in Source's
 place within the **consciousness** field of Source itself, begins to literally create spherical
identity
 of the Source **consciousness** field, a distinction emerges with the creation of the 1st
 placed in the **consciousness** field of Source. That is where the Partiki 1, pre-

Page: 116

 the non-manifest **consciousness** field of Source, and then Source sends an equal quantum
 substance is the **consciousness** of Source. And it is referred to as the e-
 describe as the **consciousness** field of Source. And the 1st quantifiable amount of that
 of spirit, of **consciousness**, but it is also the growth of specific energy in

Page: 117

 All energy is **consciousness**, and all consciousness is a form of energy. So, what
 consciousness, and all **consciousness** is a form of energy. So, what we're having here
 a collective of **consciousness**. That is us, that is our self, our self as
 turning on that **consciousness** in the physical body by bringing those frequencies in. It

Page: 118

 natural evolution of **consciousness**. And, sometimes, energy ends up going back as space
dust
 a collective Rishi **consciousness**, our Rishi self, our gestalt, Rishi self. And, it is

Page: 121

 it is a **consciousness** field to which we all belong, and of which we
 part of it **consciously**, or we can ignore that fact. But, it doesn't change
 of our natural **consciousness** and identity. And, what we are doing is getting the

Page: 126

 portion of your **consciousness** is focused. When you get back to the understanding of
 understanding of the **consciousness** of the center, you realize that linear time passage is

Page: 128

 of its own **consciousness** small enough to fit into a manifest-station framework, right,
 its own large **consciousness** field. So, we have all of these parts of ourselves that
 portion of the **consciousness** that will move through, say, a death experience. None of

Page: 129

 certain portions of **consciousness** trapped. So, there ... We have been lied to a

Page: 136

Page: 138

 that is the **consciousness** of the Elements that are here, because even Elements are

 the "presently-**unconscious** soul agreements" through which they chose their current incarnation, AND

 through which our **consciousness**, bio-fields, and atomic biology can gain access to those

Page: 49

 they are still **conscious** but they have been asleep. If you see them sometimes

 glowing ball of **consciousness** still in their minds in the pineal gland. And there

Page: 50

 that It is **conscious**. It chose, when we went into Starfire or actually when

 itself, the Earth **consciousness** as a planet would prefer the 3 billion or so

Page: 51

 that allows the **consciousness** to pull together and then go nicely out the crown

 suck out the **consciousness** of D- 1, 2, 3 and the lower part of

 off So the **consciousness** from upper D-4, D-5, D-6, D-7

 consuming the higher **consciousness** that they have been trapped in its own fields This

Page: 56

 get the elemental **consciousness** fields These are not just energy, they are also consciousness

 they are also **consciousness** collectives. They are internal primal consciousness collectives that take on

 are internal primal **consciousness** collectives that take on this form and these forms always

Page: 58

 are fields of **consciousness** such as hydrogen atoms Let's say your Elemental Command, I

Page: 59

 point where your **consciousness** field and the consciousness field of an such as the

 field and the **consciousness** field of an such as the entity of hydrogen everywhere

Page: 60

-  say, body of **consciousness** that you are working with at the time. So eventually
 -  thought in the **consciousness** of God Source, to literally the birth of matter systems
-

Page: 62

-  body, your own **consciousness** about finding a connection to your body that most of
 -  cocreating with the **consciousness** that literally your atoms are made out of, that your
-

Page: 64

-  the matter of **consciousness** Elemental Command. When you see what forces are what aspects
-

Page: 68

-  will do it **consciously** as far as when we work with these techniques. You
 -  use that more **consciously** and how to use projection more consciously we do need
 -  use projection more **consciously** we do need to understand the basic layers of the
-

Page: 70

-  seeing, if our **consciousness** is stationed in D-3 we are seeing the D-
 -  Where is your **consciousness** when it is dreaming? There are certain things that you
-

Page: 71

-  3 state of **consciousness**, is one dimension below ourselves that we perceive as solid,
-

Page: 75

-  to war now, **consciously** with aliens because of what is taking place- they are
-

Page: 76

-  portion of our **consciousness** that is stationed in those spaces is living those dramas,
 -  but I didn't **consciously** know what I was going after, but I was going
-

Page: 78

-  to move your **consciousness** through that will bring the imprint back, so eventually your
-

Page: 83

-  dim as the **consciousness** is pulling into the pineal, and then immediately I felt
-

Page: 85

-  to project more **consciously** in what we are aiming for So we've got the
-

Page: 88

 to pull their **consciousness** and those frozen body forms through. What they are going
 particle wave of **consciousness**, and they are going to take it from wherever they
 of their combined **consciousness** to open something that will allow- I have to find
 taken, nor their **consciousness**. But they got stuck in the reality field that they
 have their spirit **consciousness**. I know they made a soul agreement with each other,
 as balls of **consciousness** in their head. But they could move thought forms and
 at least the **consciousness** would get out Now imagine a few people doing this,
 doing this, and **consciously** understanding their position enough to say, we're going to set
 wave with their **consciousness**, it will actually create a field for them to ride

Page: 106

 certain stations of **consciousness**, to begin making contact with the Aquari Force that is

Page: 113

 we get our **consciousness** in this state, we will probably be able to see

Page: 114

 Avatar level of **consciousness**, but I didn't know where she was. OK we got
 crystal caverns. Their **consciousness** is still alive but their bodies are long gone but
 I saw, the **consciousness** was this band here where these little egg-shaped things
 and balls of **consciousness** still very awake and aware, inside of their crystallized heads.

Page: 115

 our station of **consciousness**, or the frequency at which our perceptual being oscillated, up
 the station of **consciousness** is stationed. So this is where we are aiming and

Page: 116

 things exist where **consciousness** manifests itself into form So, we have 1 Aurora field,

Page: 118

 exactly is the **consciousness** moving So there will be more ... each Tribe will
 difference where your **consciousness** is focused, but there is a couple of times where

Page: 122

 aLAe move your **consciousness** in this room all the way to Urtha core. And

Page: 123

 that, push your **consciousness** contained within your RaSh aLAe vehicle all the way down

Page: 126

 of radiation in **consciousness** within it has a vibration, an encryption, a signature, which

Page: 131

 a wave of **consciousness**, through the crystal gate Once we move with the wave,

Page: 144

 this key, being **conscious** and aware of what you're doing together, will spin in

Page: 148

 to move our **consciousness** in our RashaLAe body, out of the focus of the

Page: 149

 first getting your **consciousness** there and then you progressively build up the ability in

Page: 150

 literally get our **consciousness** to a specific destination. It helps to know where those

 Earth because our **consciousness** is 3 dimensional consciousness stationed in D-3 perceives D-

 is 3 dimensional **consciousness** stationed in D-3 perceives D-2 as solid. So,

 to get our **consciousness** to the station of D-3, but in the Urtha

Page: 151

 it may start **consciously**. You may start having time leaps and jumps where you

Page: 153

 like you're going **unconscious**, you'll feel like you're narcoleptic, where if I don't lay

Page: 154

 briefly, is your **consciousness** here is forced to open more to the higher layers

 not allowing your **consciousness** to shift out of the body to those higher layers

Page: 158

 the separation, the **consciousness** in the body is happening, there is a body snatch

Page: 162

 the victim/victimizer **consciousness** that went terribly wrong, terribly quickly. We talked about that

Page: 163

 first in RaShaLAe **consciousness**, through the sa" dhi state-we can access contact with

Page: 168

 how extreme polarity **consciousness** could get so extreme that it created complete competition for

Page: 169

 studying extreme polarity **consciousness** and the experiment got away from the ones who created

 of their particular **consciousness**. Now, the Aquareion Parallel Adjacent Eckasha, which I'll show you

Page: 171

 exploring extreme polarity **consciousness** through an experiment that was intended well to try to

Page: 176

 separation of the **consciousness** from the body, but as the consciousness tries to pull

 but as the **consciousness** tries to pull up and out of the body where

 they keep the **consciousness** trapped in the higher chakras for food They feed off

 used to "**Conscious** Bardoah " If they were going to drop a body,

 tiny ball of **consciousness** at the pineal area and they ended up in what

 released where their **consciousness** is still held. And when you see them, it's funny,

Page: 177

 vision of their **consciousness** moving like and forming of wave of beautiful mist, moving

 currents Because that **consciousness** that they have held all these years, is energy-it's

 little bit of **consciousness** left in them to actually access on reverse, the codes

Page: 183

 and get your **consciousness** through. So, anyway we're going to go through a series

Page: 185

 and the full **consciousness** field of Source because the first Creation Point doorway that

 of energy, or **consciousness**, back and forth. So it will be in this area

Page: 194

 literally fields of **consciousness** in the form of crystallized geleziac radiation. They are both

 ," they are **conscious**. They are beings; they are states of identity that are

 learning to work **consciously** with these particular fields Say for instance one aspect of

 to co-create **consciously** with it and it would be not just local hydrogen,

 be able to **consciously** understand what hydrogen understands and co-creatively in a Kristiac

Page: 195

 specific field of **consciousness** and identity that express in the form of radiation corresponding

Page: 197

 and they are **conscious** and they know they are conscious and some people can
 know they are **conscious** and some people can actually invoke them and call them

Page: 217

 a wave of **consciousness** and they could start immediately but they are actually waiting

Page: 219

 aLAE move your **consciousness** in this room all the way to Urtha core. And

Page: 220

 that, push your **consciousness** contained within your RaShalAE vehicle all the way down to

Page: 223

 of radiation in **consciousness** within it has a vibration, an encryption, a signature, which

Page: 229

 **consciousness**, through the crystal gate Once we move with the wave,

Page: 234

 elevator for your **consciousness** and Rash aLAE to go up and down between the

Page: 235

 to move your **consciousness** and eventually it will be how to move your bodies

Page: 239

 carried within the **consciousness**. Not to mention that there is so many people on

Page: 240

 to shift the **consciousness** directly where you can very easily and instantly forget that

Page: 241

 this lifetime, memorize **consciously** all over but there is a part of you in

Page: 242

 even our self **consciously** here, what do you do with it then? Great, you

Page: 244

 Partiki in the **consciousness** of God Source. How did creation emerge from that? Well,
 into the Source **consciousness** field and then the Source consciousness field throws a
backftow
 then the Source **consciousness** field throws a backftow return spark out And that is
 created within the **consciousness** field of God, then smaller aspects come through in waves,
 any wave of **consciousness** comes from Source into individuation out into the systems, it
 energy in the **consciousness** field of Source and then Source is gone and everything

Page: 309

 to keep the **consciousness** fields that are associated with the elemental commands, that are

 the currents are **consciousness**. The first Partiki was a unit of the consciousness of
 unit of the **consciousness** of God Source. So, all of these expansions are consciousness
 these expansions are **consciousness** fields They are not just things. They are not just

 the fields of **consciousness** in the larger Par-TE"-KEi body, where these show

 -  of matter and **consciousness** associated with the core cycle is called the Yuna-SEda
 -  of matter and **consciousness** is called the Yumah. The middle domain state of consciousness
 -  domain state of **consciousness** is called the Sa"dhi, and this is where we get

 -  part of the **consciousness** that is replicated goes back into the circulation cycle, and
-

Page: 332

-  jump but their **consciousness** can. But there's gonna be some people that stay on

Page: 333

-  floating around like **conscious** air and that kind of thing. So, those three groups

 And they are **conscious**. All of these levels are levels of identity as well

 Eternally Living radiation **consciousness** and template. So I hope in a nutshell that helps

Page: 469

 these layers of **conscious** radiation, of Eternal Conscious Radiation to assist you and this
 radiation, of Eternal **Conscious** Radiation to assist you and this Planet in RashaLae Body
 layers of these **Consciousness** Fields within your own Bodies and RashaLae Bodies right. So
 together to a **conscious** Elemental Identity that wants to, in the name of the

Page: 471

 you start it **conscious** and you're awake when it starts, you will keep going

Page: 480

 being as self **conscious** as you can be? Anyway, I checked that out with

Page: 487

 unified field of **conscious** radiation and that whole thing pulls into the center and

Page: 492

 of existence and **consciousness** that are the manifest spaces and places and faces of

Page: 494

 of matter and **consciousness** and words to describe those states that go with each

 of matter and **consciousness**. You have the Yuna SEda state of the seed cycle
 of matter and **consciousness** in the inner domains. Now the inner domains, the RaSha

 by a living, **conscious** Source ... that if you want to, you can call
 that it is **conscious**, it is intelligent, and it is loving. Because, It created
 that is the **consciousness** field of Source in which this body exists, and we
 home to the **consciousness** field of God-Source one way or the other. Now,
 is the eternal **consciousness** field of the Krist. Then the next phase would be,

Page: 497

 stay in the **consciousness** field of Source, or you can actually bide your time
 there eternally. Most **consciousness** get bored and they want to move someplace else and
 it was set **consciously** by Source. So, you have free will within, ya know
 scenario" is your **conscious** awareness of being a manifest self, because you will go

Page: 502

 aLAe Field of **conscious** radiation. When the Rasha-Lons together reach the RashaLAe Eiron
 unified field of **conscious** radiation light temporarily de-manifesting from the Outer Domain
Eukatharistic

Page: 505

 the transition from **conscious** awareness that you are still in your body and you

Page: 506

 manipulating your own **conscious** management, right here, right now I Because you know the
 you moving your **consciousness** from one place to another. Right now, you are being
 to move your **consciousness**, your self awareness and ultimately your "physical participation"
on
 your center of **consciousness** to another location at will, whether you take your body
 relationship with your **consciousness** and what it is prone to do and what it
 of what your **consciousness** does when you are not watching I Because we all

Page: 507

 at shifting your **consciousness** where YOU decide it is going. And when I am
 commanding my own **conscious**, presence, awareness and self management to the level that
I

Page: 510

 just pure electrical **conscious** energy flow from Source and Ec will come out. ..

 a Stream of **Consciousness** will come out and fuel the bodies and it comes

 or Stream of **Consciousness** flow of Ec coming out and I believe once it

 those levels of **consciousness** where you can look around and remember what it is

 is a huge **consciousness** manifestation It experiences itself as a collective, but a collective

 Adashi Cycle. Your **consciousness** as "I" .. "I AM the Krystar" and

 can HOLD that **consciousness** or even a piece of it, everything is beautiful I

 begin to cycle **consciously** or use your RashaLAe Body consciously. If you need to

 your RashaLAe Body **consciously**. If you need to generate power for something for healing,

Page: 526

 never even know **consciously**, but their fields will know. And at some point, they

Page: 532

 is holding the **consciousness** that you are so your Span Orb is gives you

Page: 534

 part of your **consciousness** and a part of your focus that while you are

Page: 535

 come online as **conscious** memories as if you were simultaneously living two life experiences

Page: 536

 is actually a **consciousness** space that will allow itself to be mutable to what

Page: 538

 you put your **consciousness** into these kind of productive activities, the more you will

 well as your **consciousness** in RashaLAe projection There"s a word that they use, or

 pure stream of **consciousness**, first consciousness from Source. And that will begin the process,

 of consciousness, first **consciousness** from Source. And that will begin the process, the spark

-  12 Tribes classes **consciously**. They will also activate with us. We are activating a
-

Page: 9

-  transfer of the **consciousness**. Some people in bodies, and some life forms would be
-

Page: 15

-  between the Source **consciousness** field and the outer domains. We studied the Starborn cycle
 -  eternally in the **consciousness** field of Source, and rides with us .. every atom
-

Page: 17

-  part of our **consciousness** is stuck in. We're going to be reclaiming those parts.
-

Page: 18

-  purposely, so people's **consciousness** get stuck in the matter forms The natural way of
 -  system is the **consciousness** can pull out and just leaves a little bit of
-

Page: 20

-  you on a **conscious** level, but they are literally the activation tones for each
-

Page: 21

-  Source opens. A **consciousness** that is in a Bardohing body can take that point
-

Page: 22

-  is still the **conscious** energy that is still stuck in its grids, before its

 where the Earth **consciousness**, the solar consciousness, and the consciousness of this whole solar

 consciousness, the solar **consciousness**, and the consciousness of this whole solar system could actually

 consciousness, and the **consciousness** of this whole solar system could actually get its next

 a group, fully **conscious** with our bodies, even if it were just over to

 first Getting the **consciousness** out It means we'll all have the ability to, if

Page: 23

 since our little **conscious** memories can even remember it or our history books can

 our levels of **consciousness** separate. But she knows she's me and I know that

Page: 29

 this key, being **conscious** and aware of what you're doing together, will spin in

Page: 36

 the stream of **consciousness** coming from Source, all the way up through the domains,

Page: 43

 formed in the **consciousness** field of God/Source. So, it started there. That's a

 formed in the **consciousness** field of God/Source. But from that point of the

 from which the **consciousness** field of God/Source individuated a portion of itself in

 exist within the **consciousness** field of God/Source anyway. You can't escape God/Source,

 outside of that **consciousness** field That consciousness field is what forms space, time and

 consciousness field That **consciousness** field is what forms space, time and matter, and consciousness.

 and matter, and **consciousness**. So, it's like a mind twist that when beings get

 to call that **consciousness** field God if you don't want to But it is

 But it is **conscious**. It purposely and intentionally created the entire cosmic structure in

 out into that **consciousness** field they are. How much quotient between what would be

 out of the **consciousness** field of Source in order to continue to grow. That

Page: 44

 there's also the **consciousness** field of Source, but there is a spot right behind,

 that is our **consciousness** force of spirit They made a distinction between soul and

Page: 45

 stuff in the **conscious** field of God/Source, the first Partiki was created, then

Page: 47

- directly with the **consciousness** of which these templates in the Universe and also within
- these levels of **consciousness**. They follow the Krist, period. But they will be glad
- create with these **consciousness** levels. Because these are conscious energy constructs They are not
- Because these are **conscious** energy constructs They are not just energy or light They
- light They are **conscious** living light We have parts of ourselves stationed within these

Page: 49

- life stream of **consciousness** can still flow between eternal Source field and the manifest
- stage between the **consciousness** field undifferentiated of Source, and the manifest body of Source.
- disintegrate, but your **consciousness** will hang around until that system itself either does a
- the form of **conscious** energy is being held within the bodies, because it takes

Page: 50

- out from its **consciousness** field into a manifest form within its consciousness field You've
- form within its **consciousness** field You've got ManA, EirA, and ManU, and then the

Page: 51

- that stream of **consciousness** and stream of life force energy coming from Source alive.

Page: 56

- in, that the **consciousness** field can prepare itself to do that The other choice

Page: 58

- expansion cycles as **consciousness** expands through the layers of the light body or the
- manifests itself and **consciousness** experiences itself manifest within light body structure That happens in

Page: 59

- sparks that gives **consciousness** in it the experience of moving forward through time, so
- and contraction of **consciousness**, the consciousness of Source through time. And time is actually
- of consciousness, the **consciousness** of Source through time. And time is actually manufactured by
- real in the **consciousness** field of Source. Time is a construct, just like space
- a lot of **consciousnesses** that get themselves lost and twisted. They will still go

Page: 61

- door, within the **consciousness** field of Source, but it is literally the living spirit
-

Page: 62

 using and understanding, **consciously** working with the consciousness fields of the Rasha body templates,

 working with the **consciousness** fields of the Rasha body templates, in order to assist

Page: 64

 far as the **consciousness** field that is embedded within the atomic structure The Elemental

Page: 68

 these bodies and **consciousness** that still gives us individuation in spirit. So, once you

 where you lose **conscious** identity. You have the conscious identity of all you've ever

 You have the **conscious** identity of all you've ever been. If you come back

 are in the **consciousness** fields of God/Source, but still hold the imprint of

Page: 69

 for an individual **consciousness** coming out here on a planet at a certain time,

 all in the **consciousness** field of Source- and you had a creation point, and

Page: 70

 of matter and **consciousness**, that have names, and there's a lot of information that

Page: 71

 a sphere, a **conscious** living sphere that many, many other consciousnesses cycle in and

 many, many other **consciousnesses** cycle in and out of It's a fascinating process. I

Page: 74

 the laws of **consciousness**. And this is what they've progressively been doing. They've been

Page: 75

 parts of our **consciousness** that are actually still trapped there right now, all of

 the natural person **consciousness** came back awake. Because when they do those snatches they

 they envelope the **consciousness** where it's like drugged and it doesn't know it's there

Page: 76

 the state of **consciousness** to be having to consciously run the Gyrodome on, right?

 be having to **consciously** run the Gyrodome on, right? (laughs) We're thinking "

Page: 78

 out in the **consciousness** of the solar system that wants to get out on

Page: 79

-  natural state of **consciousness** in the Adashi cycles ... once you realize that, it's
 -  any, on a **consciousness** level, with any of the other life fields in any
 -  spirit, the elemental **consciousness**, all the fairies and all those wonderful other things that
-

Page: 84

-  body, take your **consciousness** with it and go to other locations. Your physical body
 -  with the molecular **consciousness** or the atomic consciousness of our bodies and our etheric
 -  or the atomic **consciousness** of our bodies and our etheric bodies, alright So this
-

Page: 90

-  not remember it **consciously** until later if you go looking for it, you'll find
-

Page: 110

-  Don't be self **conscious**. Let yourself feel what we've created, because it's much quicker,
-

Page: 111

-  still within the **Consciousness** Field of Source, but it is still individuated like you
 -  Experience of that **Consciousness** Flow when it went into Light Body Manifestation. This is
-

Page: 113

-  down and shift **consciousness** out of body. So we have been living for awhile,
 -  everything that your **Consciousness** has ever moved through as an individual, and also as
-

Page: 114

-  your Eternal Kristiac **Consciousness** lives. Now, I will be able to give you a
-

Page: 115

-  the image and **consciousness** ... part of the consciousness field, of what is manifest
 -  part of the **consciousness** field, of what is manifest on the outside. So it
 -  entirety of the **consciousness** Field of Source, so individuality is still there. So you
-

Page: 117

-  part of your **Consciousness** experienced certain events in the future .. if, if what
-

Page: 118

-  a level of **consciousness** and understanding. Right now we've all been operating on almost
 -  Essence or the **Consciousness**, pulls back in to the Spirit Body, all right. That's
-

Page: 119

 State of God **Consciousness** that is known as "Kryst Consciousness," TRUE "Kryst
 as "Kryst **Consciousness**," TRUE "Kryst Consciousness" ... and that is K R
 TRUE "Kryst **Consciousness**" ... and that is K R Y S T ...

Page: 120

 the Level of **Consciousness** that you have in your RaSh a Body and that

Page: 121

 use those flows **consciously**, but first we have to open them ... and what
 you know yourself **consciously** in both places at once. You know yourself as "
 of the entire **Consciousness** Spectrum of Knowing, once you know this structure of from

Page: 122

 is your RashaLae **Consciousness** (chuckles). That's just another one showing the same thing

Page: 123

 of our own **consciousness** that is stuck there. Actually we go to the control

Page: 127

 formed in the **Consciousness** Field of Source and then Partikl 2, same thing as

Page: 128

 Source focused its **Consciousness** into a part of its own Consciousness Field and thought
 of its own **Consciousness** Field and thought uh, went from "thought gelling" into
 place within the **Consciousness** Field of Source, but it's creating force and counter-force

Page: 129

 finite and the **consciousness** would be trapped. But because those houses were created with
 Motion between Source **Consciousness** Field and the Outer Reaches of any Manifestation So
what
 you have the **Consciousness** Field, the Huge Consciousness Field of Source. But you're going
 Field, the Huge **Consciousness** Field of Source. But you're going to see where Individuation

Page: 130

 separation between Spirit, **Consciousness**, God and Physics. So we have the Cousha Krystal
forms

Page: 133

 of the Eternal **Consciousness** Field of Source that is retaining an individualized imprint in
 individualized imprint in **Conscious** Energy of whatever is manifesting on the outside of the

Page: 134

 ... Cell of **Consciousness**. Then, the other one that came out and polarized, creating

Page: 135

 which is the **Consciousness** Field that they refer to as the "Blood of

Page: 136

 quantum and our **Consciousness** is, that we need to join with the Consciousness that

 join with the **Consciousness** that is out in Manifestation, is our Spirit Body. And

 Body and our **Consciousness**. So we have Spirit This is the all-knowing part

 bringing back these **Consciousness** Flows, the flows of energy from these flows back in

 in to our **Consciousness** and in our bodies. And that will progressively move us

Page: 137

 have half of **Consciousness** in manifestation, half of it in Spirit and they create

 huge un-quantifiable **Consciousness** Field of God Source to the quantified Krist Body, and

Page: 138

 directly to the **Consciousness** Field of Source. So at that point, whatever the structure

 be in full **conscious** At-ONE-ment with that energy. In this lifetime, in

 merge with the **Consciousness** Field of Source. However, if you like being in an

 we found the **Consciousness** that's stored in (CD 13, Track 2) the Light

Page: 143

 part of your **Consciousness** stored in each of these places. So your full RaSh

Page: 146

 we're bringing them **consciously** into manifestation by opening the flows directly, so it moves

Page: 151

 inhabited by certain **Consciousness** of the Krist, certain of the Aquafereion race lines are

 under so your **conscious** mind still has a recall, and that will assist in

 you remember it **consciously**, that can take awhile if you've fallen asleep during it

Page: 157

 of geleziac radiation **Consciousness**, a particular state of manifest consciousness of the Manifest Body

 state of manifest **consciousness** of the Manifest Body of God Source that happens to

Page: 158

 God Source in **Consciousness**, enveloping you and welcoming you home. (Many pause points

Page: 159

 part of our **consciousness** trapped in Etheric d-1, in Physical d-2 and

Page: 160

 part of your **consciousness**, part of your family of Self You are calling them

Page: 161

 the parts of **Consciousness** that are in them to evolve. And you will eventually

Page: 165

 you. On a **conscious** level you might have had one set of reasons why-

Page: 168

 are in our **consciousness** here and how sometimes what appears to be a small

Page: 177

 are composed of **consciousness** that never loses, it never takes free will, it agrees

Page: 178

 Earth made, Earth **consciousness** itself, because I know I've been going through a period

Page: 179

 whole Collective of **Consciousness** that became Solar System in our Ecka-Veca System." It

Page: 180

 Source. If a **consciousness** wave, say the Spirit of a planet that is embedded

 will allow the **consciousness** to ride a Bardoah Wave without its body, it is

 -actually the **consciousness** re-connects to its Edon level Self and then from

 and take the **consciousness** field of this Solar System, the Amenti Consciousness Field that

 System, the Amenti **Consciousness** Field that can't make it in ascension back through where

 itself as a **Consciousness** and Spirit gets trapped here and has to go to

 and Solar System **Consciousness** back out through the Step-Back cycle, it would be

Page: 181

 this point the **Consciousness** Field here, even though they will be part of the

Page: 184

 are taking the **consciousness**, the mental body field up to where we begin to

Page: 199

 this Key, being **conscious** and aware of what you're doing together, will spin in

Page: 203

 happens in the **Consciousness** Field of Source and how thought gels etc, etc I

Page: 204

 back into the **Consciousness** Field of Source. And with Finite Light Systems and Life

Page: 206

 also Fields of **Consciousness** It's not just energy radiation, it's Consciousness of Source expressing

 energy radiation, it's **Consciousness** of Source expressing in individuation as a form of energy

 we bring that **Consciousness** that is our Selves back together. So this is just

Page: 209

 started out as **consciousness**, and it begins the process of within the Consciousness Field

 of within the **Consciousness** Field of Source going into manifestation and becoming a densified

 still within the **Consciousness** Field of Source alright. So you had the structures of

 II within the **Consciousness** Field of Source, yet individuated. It's like a template behind

 3 of the **consciousness** in Spirit form You would come out and get

 2 of the **consciousness** in Manifest form, the other 1/2 in Spirit form

 3 of the **consciousness** in Manifest form and none in Spirit form, but connected

 domains because the **consciousness** is just open and cognates its relationship to Source at

 and energy and **consciousness**, that at each stage of Light Body formation forms in

 still within the **Consciousness** Field of Source, as opposed to within the Manifest Body

Page: 210

 actually take the **consciousness** that is in the Matter Body and take it back

Page: 211

 any time your **consciousness** can choose to interact with any other cycles. So it's

Page: 212

 gone. You're still **consciousness** units, Partikl units floating about out here, and you'll be

 calm and your **consciousness** stable, you'll be able to go through the shatter, be

Page: 213

 sort between the **consciousness** that composes the planets in this system, as well as

Page: 216

 one, as our **consciousness** is stationed in D-3 you perceive what's directly a

 our mental body **consciousness** that we are experiencing the five sensual perception from, let

Page: 229

 family tree of **consciousness** that we are connected to. Some of us in this

Page: 230

 **Consciousness** of families come in on waves- waves that come through

 another wave of **consciousness** sent out into the manifesting domains and, so there are

 go waves of **consciousness**. There are waves of manifesting that come on the end

 us a full **consciousness** of all who we are in the simultaneously manifesting space-

 the process of **consciousness** passing through these sets of standing waves that create the

 illusion you can **consciously**, at that point, enter into and out of So, there

 a level of **consciousness** of realizing that whatever the confines of this self were

 connection. So, the **consciousness** doesn't go to sleep. It doesn't lose its connection to

Page: 231

 would still be **conscious**. I would be aware of it, and I would understand

Page: 233

 made of the **consciousness** of God Source, but certain parts of it qualify as

 we're taking our **consciousness** here, and we're moving it with our RaSh a bodies

Page: 236

 a stage of **consciousness** becoming light, let's say, but not quite light as its

Page: 240

 by which Source **consciousness** turns itself into manifest expression. All right, anyway, next one.

Page: 241

 floating in a **consciousness** field of Source. So, the individuated identity is still alive

Page: 251

 in a way **consciously** that you can actually manifest things or events or whatever.

Page: 262

 15 States and Types of **Consciousness**. And these are just at the RaSh a Level. These

Page: 265

 these are all **Consciousness** Cells, not just Radiation. They're Conscious Radiation. So as they're

 just Radiation. They're **Conscious** Radiation. So as they're phasing ... these come in this

Page: 269

 of our own **Consciousness** stationed in each of these Domains all the time. We're

 turn ON the **Consciousness** within ourselves so it Expands our knowledge of who we

 and meld your **Consciousness** with Source and you can't tell the difference between yourself

Page: 271

 Body and the **Consciousness** Field of Source. And that's where we're going to learn

 right, and the **Consciousness** transfers into the Spirit Body. So we're going to be

Page: 272

 of Matter and **Consciousness**, and this is where you will see some of the

 are States of **Consciousness** and States of Matter affil ... or like, the Core

 Eternal Sphere of **Consciousness** that has the ability to, and at will, enter any

Page: 273

 experience, but the **Consciousness** and the, the ... the Consciousness here would not be

 the ... the **Consciousness** here would not be cut off from its Spirit. The

 here with the **Consciousness** stuck out here, they will actually come in, they'll do

 to ride their **Consciousness** out and back into the Domain before, and that's the

 do is your **Consciousness** goes back into it and attaches to it and that's

Page: 274

 RaSh a Level **Consciousness** from the beginning, before without trying to explain that word

Page: 275

 know, have a **conscious** agreement with a new Soul coming in. And then they

Page: 278

 you have the **consciousness** field of Source that is everywhere, and then there is

Page: 279

 non-manifest eternal **consciousness** field of Source, and then from that and within that

 door into the **consciousness** field of Source. This is actually before the Spirit body

 goes into the **consciousness** field of Source, and then Source brings back the original

Page: 280

 back into the **consciousness** field of Source, forming a Spiritual body on the Spiritual

Page: 281

 the undifferentiated Source **consciousness** field, and that becomes what is known as the UM

 and the undifferentiated **consciousness** field of Source is all around but the Spirit body

 that the Source **consciousness** field may be spherical but then again it may not

 what the undifferentiated **consciousness** field of Source looks like, or is shaped like, but

 it is the **consciousness** energy field out of which the rest of these things

 is radiation of **consciousness**, which gives us our first energy. So, we got our

Page: 287

 undifferentiated **consciousness** field, but it is differentiated within the undifferentiated field, and

 give you the **consciousness** field, the base of the consciousness of Source as far

 base of the **consciousness** of Source as far as the primary Source energies or

Page: 289

 polarity in the **consciousness** field of Source. Though polarity and all things exist within

 except for Source **consciousness** field So, anyway, back to this structure This is, I

Page: 300

 with the undifferentiated **consciousness** field of Source. Then you have where the spirit body

 the undifferentiated Source **consciousness** field is. That is where an Eck stream runs through

 stream of living **consciousness**, of the living circulation, all the way back to Source,

Page: 305

 own levels of **consciousness** and your own levels of consciousness to connect with there

 own levels of **consciousness** to connect with there for the understanding that you would

Page: 306

 your own Krist **consciousness** levels, so they are not going to fry you, or

Page: 311

 know on a **conscious** level. These sites, these are the sites of the main

Page: 318

 Try to remain **conscious** of the group shield that your RaSh a body is

Page: 322

 them in a **conscious** meditation. You may end up coming through with a meditation

Page: 330

 to project the **consciousness** in the Rash aL Ae Body to other places, particularly into

Page: 331

 have God-Source **Consciousness** Field, you have Spirit Body, Rasha Body, Light Body and

Page: 333

 to project your **consciousness** while leaving your body here, which is what we're learning

Page: 334

 it out in **consciousness**. We'll be learning more about that too when we learn

 for your Spirit **Consciousness** to come into the baby body and to allow that

Page: 338

 substance of the **consciousness** of the GodSource Consciousness Field, substance before substance, it would

 of the GodSource **Consciousness** Field, substance before substance, it would be referred to as

 start from the **Consciousness** Field of Source and go through different changes in their

 like layers where **Consciousness** begins to gel and take form. And it is from

Page: 339

 Cosmic Structures. Your **consciousness** enters these structures of the Core, the Inner, the Middle

Page: 340

 begin to do **conscious** activation of the Rash a Bodies, because Rasha Bodies activate

Page: 343

 all in the **Consciousness** Field of Source anyway, but Partikl 2 splits Partikl 1

Page: 344

 Eternal Family of **Consciousness**. And we start to understand the real meaning of the

Page: 350

 cooperation with those **consciousness** fields that are the Core Kristiac Elementals and they come

Page: 353

 portion of its **Consciousness** from the Spirit Body, through the Prana Seed out into

Page: 361

 a State of **Consciousness** so it's not just a dead matter field. This is

 we're dealing with **consciousness** fields as well. When we're doing Elemental Command and working

 allow it. The **Consciousness** Fields themselves won't allow it. They just won't talk to

 Hydrogen is a **consciousness** field Imagine that there is an entity called Hydrogen and

 And these are **conscious**. The elements we have right now in our periodic table,

Page: 362

 in very lack-**consciousness** on this planet It's like programmed into our beings. You

 of your own **consciousness** that you left in these areas in order to get

 families of Cosmic **Consciousness** that you have a signature in. There's a part of

 also States of **Consciousness** and States of Family. The MCEO Freedom Teachings® Series

Page: 365

 not just the **consciousness**. So anyway, next one .. [Graph] [OVD-R

 field, and our **consciousness** that we look out on the world in is stationed

 focus of mental **conscious** attention. So we see the D-2 Telluric field as

 and 6, your **consciousness** focus looking down would be at D-6. You would

Page: 366

 part of your **consciousness** there. And eventually you'll be able to actually do that

Page: 370

 Telluric, when our **consciousness** is in Atomic looking at Telluric and tries to look

Page: 373

 And eventually the **consciousness** itself, the Spirit imprint itself- if the Spirit didn't get

 of matter and **consciousness**. They have certain specific types of quantum and characteristics of

 with them and **consciousness** and each domain has one. You have in the Core

Page: 375

 the level of **consciousness** you would carry as you go through it. But because

 those states of **consciousness** where you don't have to you know, wait for till1

Page: 380

 forms in the **Consciousness** Field of God-Source- and the way it was described

 that in the **Consciousness** or in the Mind of God-Source, God-Source chose
 within its own **Consciousness** Field. It's almost like close your eyes and kind of
 of feel your **Consciousness** Field and pick a spot to focus on, right. And
 substance of the **Consciousness** of GodSource. The focus of God-Source's attention was like

Page: 381

 there in the **Consciousness** Field of God-Source And it's through this process in

Page: 383

 God-Source Eternal **Consciousness** Field. That is the Eternal Singularity. The first distinction equals

 spark of quantified **conscious** radiation, the Eternal First Quantum is considered an Ek, an
