 is called the **Cousha**. The Cousha is a Crystal, all right. We have the
 the Cousha. The **Cousha** is a Crystal, all right. We have the Cousha and
 We have the **Cousha** and at the same time the Cousha forms ... and
 same time the **Cousha** forms ... and these are all forming at the middle
 that's where the **Cousha** forms around. And, at the same time that the Cousha
 time that the **Cousha** forms, you also have birth of the Kasha. Now, the
 other forms the **Cousha** Crystal. They're both at the center, but 1 spins counter
 spins clockwise, the **Cousha** is clockwise, and that is the seed of the EtorA
 called, once the **Cousha** is born there are 3 actions, main actions that happen
 is called the **Ecousha**-TA Cycle in the EtorA, and at the same time,
 point in the **Ecousha**-TA Cycle ... 1st we have the Eye of Allurea

Page: 59

 we have the **Ecousha**, **Ecousha** with an "E", 1st cell forms, the Ecoushic
 end of the **Ecousha**-TA Cycle with the birth of the 8 Cell Cluster,
 is called the **Ecousha**-TA 8 Cell Cluster, the Hall of Records, all right.
 you had the **Ecousha**-TA you have the AkashaT A, which is the 8

Page: 69

 understand what a **Cousha** Crystal is and also the Akasha Crystal that is on

Page: 71

 is where the **Cousha** Crystal forms. Where, because of the quantum interactions that take
 is called a **Cousha** Crystal with the Partiki. Now the portions that form the
 that form the **Cousha** with a "C" that is the EtorA side are
 and form the **Cousha** Crystal. At the same time, Sparks 1, 2 and 3

Page: 72

- 📌 just like the **Cousha** Crystal literally becomes the Ecousha 1st Cell. And the Akashic
 - 📌 literally becomes the **Ecousha** 1st Cell. And the Akashic Record is the one that
 - 📌 we got the **Cousha**, we are there and at that same time over down
 - 📌 Trimester 2: The **EcoushaTA** Stage By the way, how bad am I doing on
-

Page: 73

- 📌 of the 151 **Cousha** forming ... now, we're just going to look at the
 - 📌 look at the **Cousha**. The same thing is happening on the Kasha side, in
 - 📌 we have the **Cousha** forms, the Cousha Crystal. Now, this Crystal has a specific
 - 📌 Cousha forms, the **Cousha** Crystal. Now, this Crystal has a specific quantum. It is
 - 📌 quantum that the **Cousha** holds is the quantum of 3 Partiki. Now, Partiki's have
 - 📌 Point Door. The **Cousha**, notice, is at the creation point, which means it's right
-

Page: 74

- 📌 Trimester-2: The **EcoushaTA** Stage 1. The Cousha and the "Heart of God".
 - 📌 Stage 1. The **Cousha** and the "Heart of God". . I Q'
 - 📌 from it. The **Cousha** has a specific quantum of 3 Partiki and it's centered,
 - 📌 form from this **Cousha** and what it does, some of them, on the creation
-

Page: 75

- 📌 quantum of the **Cousha**. Now, I'm not going to go through all the numbers
 - 📌 much quantum the **Cousha** has. What they're doing instead is simply saying, you can
 - 📌 we know a **Cousha** has that amount of quantum-power of 3 Partiki-all
 - 📌 build, so the **Cousha** is the quantum that gets replicated in what happens next,
 - 📌 and remember the **Cousha** was formed by Partiki 1 and Partiki 2 and the
 - 📌 and the entire **Cousha** actually pops in the creation point and comes back out
 - 📌 all right. So, **Cousha** replica 1 is a times 1 replication, that means the
 - 📌 that means the **Cousha** comes back out, but so does in the same-sort
 - 📌 quantum of 1 **Cousha**, which is the power of 3 Partiki or 360 Ek
 - 📌 replication of the **Cousha** ... first replication is a times 1. Now, unlike the
 - 📌 Now, unlike the **Cousha** crystal, which also comes back out at the center, this
 - 📌 replication of the **Cousha**. We have the quantum of 3 Partiki-or 3 Partiki
-

Page: 76

- 📌 So, we're on **Cousha**, Rep 1. All right, you would basically find out how
- 📌 the times 2 **Cousha** replica. Remember the Cousha is the quantum that is being
- 📌 replica. Remember the **Cousha** is the quantum that is being replicated and it has

 ... or, 1 **Cousha** ... now, it's the power of 2 Cousha. So, 2
 power of 2 **Cousha**. So, 2 Cousha or 3 Partiki is the power of
 Cousha. So, 2 **Cousha** or 3 Partiki is the power of 6 Partiki, all

Page: 78

 means times 2 **Cousha** quantum, which is 3. We have the 6 Partiki that
 to do with **Cousha** rep 3, it is called Atmic. And Atmic energy is
 they are a **Cousha** rep, which means power of 3 Partiki times 3, they've

Page: 79

 Partiki, the original **Cousha** quantum, 1/2 of it in front of creation point
 formed from the **Cousha**, and the Cousha formed from Partiki 1, and 2 and
 Cousha, and the **Cousha** formed from Partiki 1, and 2 and the Spark sets
 So, we have **Cousha** 3 quantum here ... I'm not going to read all
 here you have **Cousha** rep 4, again quantum of 3 times 4, is quantum
 So, that particular **Cousha**, rep 4, has 12 quantum and it has 2 ...
 get down here, **Cousha** rep 5, and it gets really confusing over here, I
 went through these. **Cousha** rep 5 is a times 5 rep, has Partiki power
 of what the **Cousha** is made out of, and that has only a quantum

Page: 80

 Ketheric of the **Cousha** "cause these are the Primary energies we are dealing
 ever ... but **Cousha** rep 6 ok, of Partiki power of 3 times 6
 gets really wacky. **Cousha** rep 7. It's a times 7 rep of Cousha 6
 7 rep of **Cousha** 6 quanta. What is Cousha 6? So, we end up
 quanta. What is **Cousha** 6? So, we end up with a times 7 rep

Page: 86

 point where the **Cousha** is, where the 1st Cousha is, where the Eye of
 where the 1st **Cousha** is, where the Eye of Allurea, the 1st Eye of

Page: 89

 of the 7 **Cousha** replications spheres. And now that was times 3, so you
 pearl, is the **Cousha** one, right. Remember, cause these are those currents come from

 is called the **Ecousha** First Cell. Now, remember, the same thing is taking place,

Page: 12

-  platforms something called **Ecousha** platforms that connect to the AdorA side. They are activating
 -  We began the **Ecousha** platform activation in Peru. It"s kind of nice in one
-

Page: 15

-  what the word **Cousha** crystal means. It is at that point that, way back
 -  right, that the **Cousha** network starts to form This is where we find the
 -  formation of a **Cousha** crystal. A Cousha crystal is that first triad- remember you
 -  Cousha crystal. A **Cousha** crystal is that first triad- remember you have partiki 1,
 -  and forms a **Cousha** crystal, and from that point on, this amazing spiritual body
-

Page: 19

-  and in the **Ecousha** crystals. So, as we begin the activations that bring the
-  that bring the **Ecousha** crystals into activation, it will be progressively bringing our memory

Page: 45

 God, or the **Cousha** that was born. The Cousha is the core to understanding
 was born. The **Cousha** is the core to understanding what the spirit lives, and
 even showing the **Cousha** cycle in between the point of three sparks being made

 called the first **Cousha**. That is the first memory crystal, holding the imprint and
 from that first **Cousha**, a whole set of what are known as the spiritualized

Page: 48

 behind it the **Cousha** structure that we'll try to talk about tomorrow This is

Page: 49

 left There's no **Coushas** left Because, it is what happens with this process of
 onward out These **Cousha** crystals hold the memory of everything that came before it

Page: 51

 is where the **Cousha** forms So, I'll just let you know The MCEO Freedom

Page: 52

 as far as **Cousha** goes. This is showing the triad cycle from the first

Page: 57

 connected to the **Cousha** which is connected to the first Creation Point Door and
 coding for the **Ecousha** complex that we will talk about. That's where you get
 get to the **Ecousha** again, has to do with where spirit lives behind the

Page: 59

 point that the **Cousha** crystal for the next level out is formed It is

Page: 60

 point, through the **Cousha** crystals and into the spiritual bodies that are on the

Page: 61

 go with the **Coushas**. So, this is the stuff that I still have to
 middle domain. The **Cousha** T A cycle on the inner domain. And the something

Page: 69

 that cycle, the **Cousha** crystal for the next one out is born. The MCEO

Page: 70

-  we get the **Cousha** crystal born here, in this space, it gets out to

Page: 72

 **Cousha** is a **Cousha** is just depends on what Domain you're talking about. Because

 you have the **Cousha** Point, where the first Cousha Krystal was formed This is

 where the first **Cousha** Krystal was formed This is a series of things that

 before it, the **Cousha** Cycle occurred. The Cycle through which the Cousha is born

 through which the **Cousha** is born has to do with the Prana Cycle, which

 directly connected. The **Cousha** Cycle occurs, it is the NaVAHo Cycle, the Prana Exchange

 in this Particular **Cousha** Krystal. And in a while we'll see where they fit

 we have the **Cousha** Krystal forms from the first Triad crystallizing with that 4th

 think it's considered **Cousha** # 4 by the time we get out this far
 So remember the **Cousha** Krystal is that first crystallization of the first Partikl1, Partikl
 there's this little **Cousha** Krystal at the Door. That Cousha Krystal is the Seed
 the Door. That **Cousha** Krystal is the Seed for the next Domain out So
 we have other **Cousha**'s and all the way back through all of them, we
 with the first **Cousha** Krystal. As we go through Krist Body activations, we are
 layers of the **Cousha** Krystals. There's a lot, gonna be a lot more to

 this would be **Cousha**, I believe that's 4 ... all right, Cousha 4 corresponds

 So we have **Cousha** 4 Krystal is right here. The one before it that
 ... now the **Cousha** 4 Krystal represents the Krystal that was the Seed Krystal
 is where the **Cousha** Krystal for the one before is located. So that's where
 here there's another **Cousha** Krystal ... this is the Krystal Cousha Krystal, or the
 is the Krystal **Cousha** Krystal, or the Seed Krystal for the Adashi 1 Cycle,

 which is called **Cousha** 5. That is the Cousha that allows for the ...

 is behind our **Cousha** Krystal, it's inside of it. And this has to do
 do with how **Cousha** Krystals form in the first place ... there was a
 Cause remember the **Cousha** Krystal itself stays 1/2 and 1/2 ... 1/
 of the original **Cousha** Krystal. So you see in that same configuration here, when
 then have our **Cousha** Krystal. So it appears that our Cousha is between our

 step behind their **Cousha** Seed, so there is this layer that needs to activate
 go. Because the **Cousha** is a Ketheric Structure, it is 1/2 in Manifestation
 we have our **Cousha** 4, which is the Seed for the Outer Domains. Then
 one, behind the **Cousha**. So we have our d-1 Etheric, our d-2

we have the **Cousha** Krystal for that and then we have its d-2,

 stands behind the **Cousha**, which was the original Krystal, then there's the d-2

 would have the **Ecousha** Etheric d-1 for the next level out So we're

 there will be **Cousha** layers between certain chakras, all right When those Cousha layers

 are called the **Ecousha** Platforms, that have to do with the AdorA side. And

 merge through their **Ecousha** activation, that will open Slide Zone-2. And again it's

Page: 185

 something called the **Ecousha**-1 Platform that opens into the AdorA side- we're on

Page: 187

 cycles and the **Ecousha** cycles that have to do with the Eyugha cycles when

Page: 190

 is called the **Ecousha**-TA Ascension Code, and there is a lot of detail

Page: 204

 is called the **Ecousha**, so we'll talk about those. Right now I just want

Page: 209

 is called the **Ecousha**-T A Complex. But here you would have say, 1/

 is called the **Ecousha**-T A Complex. It occurs right in that little point

 called the first **Cousha** Krystal, and each of the domains has this. When we

 are talking about **Ecousha**-TA Platforms we are talking about these Core Krystals that

Page: 211

 there is an **Ecousha** cycle and then there is the next Eyugha cycle. So

 to have an **Ecousha** cycle that has to do with creating the Cousha or

 with creating the **Cousha** or the 1st Partikl for the next domain out When

 go into an **Ecousha** cycle that creates the Seed Krystal, or the 1st Partikl

 will be the **Ecousha** cycle in which the seed, the Ecousha Seed which is

 the seed, the **Ecousha** Seed which is like the Triad of Partikl 1 and

Page: 214

 which is the **Ecousha** Krystal for that domain. And, that connects back into the

Page: 220

 are called the **Ecousha** platforms- that run in between each of these There's Ecousha-

 of these There's **Ecousha**-1, Ecousha-2, Ecousha-3 and Ecousha-4. The Ecousha

 There's Ecousha-1, **Ecousha**-2, Ecousha-3 and Ecousha-4. The Ecousha platforms open

 stuff on the **Ecousha** Krystal stuff that comes after this, that will plug into

Page: 233

 talk about the **Ecousha**-T A matrix and this is where the spirit bodies

 do with the **Ecousha** Matrix and the formation of the Spirit Body. So, we're

Page: 234

 go into the **Ecousha** information that tells us about the Ecousha Krystals and their

 us about the **Ecousha** Krystals and their connections to these and the spirit body

 what is called **Cousha** Krystal. The first original Triad of Partiki one and split
 imprint of the **Cousha**, and a Cousha happens at each domain creation cycle, all
 Cousha, and a **Cousha** happens at each domain creation cycle, all right. Where the
 and they're called **Ecousha** Krystals. The first one's called the Cousha and then each
 one's called the **Cousha** and then each domain has an Ecousha coming out from
 domain has an **Ecousha** coming out from it and the process of Krystar activations
 progressively activating the **Ecousha** Kystals in our body that correspond directly to what are
 back to the **Ecousha** structure later but I wanted to show you where it
 it's from the **Ecousha** that an imprint starts to build. The Eye of God

Page: 236

 some of the **Ecousha** stuff, "cause they broke it down even further to

Page: 241

 is where the **Ecousha** stuff will fit, where we find out where the spirit
 structure. So, triad, **Ecousha** will be in there, creates, births Tauren. Tauren starts its

Page: 242

 side and the **Coushas** that we're not going to go into now but we

Page: 248

 I get into **Cousha** here. This is where the Ecousha krystals, they get into
 is where the **Ecousha** krystals, they get into Ecousha krystals just a little bit
 they get into **Ecousha** krystals just a little bit in this, and that was
 new stuff on **Ecoushas** later. Next one. [graph] [OVD-R 1 Audio

Page: 249

 get more into **Ecousha** "cause it has to do with the Ecousha programs
 do with the **Ecousha** programs which are those krystals we didn't talk about yet

Page: 251

 that's called the **Cousha** cycle, which is where the Partiki one and the Partiki
 thing called the **Ecousha** cycle in which we actually birth the seed within our

Page: 266

 do with the **Ecoushas**, the Ecousha Krystals. Cause they did say they are the
 the Ecoushas, the **Ecousha** Krystals. Cause they did say they are the Memory Krystals.

Page: 268

 where is an **Ecousha** cycle before you get to the next Eyugha, cause there

Page: 269

 we get the **Ecoushas**. Where what becomes a Partikl1 and Partikl 2, for the
 it the "**Ecousha** cycle." And in that Ecousha cycle, you bring out 1
 And in that **Ecousha** cycle, you bring out 1 and 2 and then that
 is from the **Cousha** Level of the Partikl1 and 2, for the next Domain
 through the Krystar **Ecousha** cycle. That births the Partikl1 and Partikl 2 of the

Page: 270

 learning about the **Ecoushas** cause the Ecousha Krystals are Keys to opening those Eiron
 Ecoushas cause the **Ecousha** Krystals are Keys to opening those Eiron points between them.
 to open the **Coushas** here ... there'd be a Cousha at each one, you
 there'd be a **Cousha** at each one, you know at each division line that
 can activate the **Cousha** between these ... and these, you can get the imprint
 go through the **Cousha** Activations. And this is why they're beginning to teach us
 us about the **Cousha** Matrix and what that has to do with the, uh,

Page: 271

 do with the **Ecousha** Complex. And that has to do with Forces of things,
 and that's the **Ecoushas** ... that hold the Structure of the Spirit Body. It

Page: 276

 up with the **Ecousha**-TA stuff, after you do the first Journey, um, I
 I have the **Ecousha** Platforms, yeah ... when we talked about the Ecousha Levels,
 talked about the **Ecousha** Levels, the, these (?) 1, 2, 3 and 4 things

Page: 277

 get into the **Ecousha** Set, and that would be after you do your Journey
 the uh, the **Ecousha**-T A part, goes from 4-5, with the other
 than others. The **Ecousha** stuff is some of the hardest I've ever seen. It's

Page: 278

 new **Cousha** information that was coming through of the seed of the

Page: 280

 is called the **Cousha**, first Cousha Krystal, and the Eye of, what becomes the
 the Cousha, first **Cousha** Krystal, and the Eye of, what becomes the Eye of

 around the first **Cousha** krystal. So, we're at the point where we have the
 is called the **Cousha** krystal. Now, the Cousha krystal starts some really interesting things
 krystal. Now, the **Cousha** krystal starts some really interesting things but before we go
 happens with the **Cousha** krystal, first I'll describe two things. One is over here
 replications of the **Cousha**. But, the Eye of God forms, it forms several layers

Page: 281

 gives you the **Cousha** krystal. Now, the Cousha krystal, at its core, opens the
 krystal. Now, the **Cousha** krystal, at its core, opens the little bit of doorway,
 takes the whole **Cousha** in, so the $3 \frac{1}{3}$ goes away, and then
 we got our **Cousha** krystal. Now, the quantum, I'm not going to get heavily

Page: 282

 krystallization called an **Ecousha** krystal. These become what is called the Ecousha memory
krystals,
 is called the **Ecousha** memory krystals, because they hold the encryption of everything that
 held in the **Cousha** krystal. This is the first one. Each domain has a
 domain has a **Cousha** krystal, but only the first one is called a Cousha
 is called a **Cousha** with a C. The others are called Ecoushas with an
 others are called **Ecoushas** with an E. E-c-o-u-s-h-a.
 there's one original **Cousha** and then there are 1, 2, 3, 4, I believe 4 Ecoushas
 I believe 4 **Ecoushas** and then I don't know what they call them when
 forms from the **Cousha** and it forms also from the Ecoushas. So, each domain
 also from the **Ecoushas**. So, each domain level has an Eye of God configuration
 the original first **Cousha** Eye of God, which is the one we're starting with.
 have the first **Cousha**. Now, if this is the line, this is the line
 manifest The first **Cousha** has Y, of its quantum in manifest and Y, of its
 have the first **Cousha** krystal. Now a series of things take place once that
 once the original **Cousha** forms, there are a set of 15 different contractions and
 would be the **Cousha** becomes the quantum that gets replicated, so that is the
 replication of the **Cousha**, the first contraction and expansion, back into Source and back
 replication of the **Cousha**. So, you would have the original Cousha that's half in
 have the original **Cousha** that's half in and half out of Spirit, half in
 we'll call it **Cousha** rep. 1, replication one, is actually $\frac{1}{3}$ rd out in

Page: 283

 which is one **Cousha** times one equals the power of 3 Partiki is its

 here with the **Cousha** krystals that sit half in manifestation and half outside of
 have the first **Cousha**, we have the first rep of the original quanta, which
 which is the **Cousha** quantum. So you have Cousha rep one is a times
 So you have **Cousha** rep one is a times one rep and its 3
 different from the **Cousha** because that is half out and half in. This is

Page: 284

 2 rep. That **Cousha**, the original quantum, goes through a times 2 replication on
 quantum of one **Cousha** times 2 equals quantum of 6. Now, this one is
 of the original. **Cousha** quantum gets replicated times 3, which means the quantum of
 one, or one **Ecousha** times 3 is a quantum of 9 You have 9
 This one is **Ecousha** rep times 4. It is power of three Partiki times
 so its one **Cousha** quantum times 4 is quantum of 12. Quantum of 12
 formation of the **Cousha** from Partiki one, Partiki two, the triad krystallizing and then
 Now we have **Cousha** rep 5 is the times five rep. So, 3 Partiki,
 power of one **Cousha** times 5 equals quantum of 15. Quantum of 15 with
 just like the **Cousha** is a type of matter with no g-force, because

Page: 285

 sun 0031 03] **Cousha** rep 6. It's a time 6 rep, so you have
 which is one **Cousha** times 6, gives you quantum of 18. Quantum of 18
 be very happy. **Cousha** rep seven is a times 7 rep but it's a
 times 7 of **Cousha** rep 6. Now Cousha rep 6 was 3 Partiki in
 rep 6. Now **Cousha** rep 6 was 3 Partiki in manifestation, and 15 Partiki

Page: 287

 you have the **Cousha**, this is the original quantum, and that one would be
 here. So, the **Cousha** is this one, and this one is rep one. Then
 through the AdorA **Ecousha** platforms. Remember how the Ecousha platforms were in
between the
 Remember how the **Ecousha** platforms were in between the Aurora platforms and they
actually
 and run the **Ecousha** platforms and they take us on a guided journey down

Page: 288

 into the original **Cousha**. And these would be difficult to access by ourselves, but
 of all the **Coushas** all the way up so we can get very rapid

 activating those core **Cousha** currents that creates the rapid activation of the entire RashaLae
 on from the **Cousha** all the way up through the domains, to the outer
 of the original **Cousha**. This is where the creation point door is, and where

Page: 291

 one, the core **Cousha**, it will start to trigger the same levels in the
 levels in the **Coushas** going outward, so its progressively opening the Cousha doorways all
 progressively opening the **Cousha** doorways all the way through to open the original core

Page: 292

 one to the **Ecousha** seed that formed the outer domain, but all the way
 formed the first **Cousha** that takes you right back into the first creation point,

Page: 293

 of much of **Ecousha** and much of the other things, that is going to

Page: 298

 wrap up the **Ecousha** part enough, to bring it home into the Eyes, and

Page: 299

 from the first **Cousha** and first creation point, all the way up through the

Page: 300

 actually the first **Cousha** would be ... this is where the Yunasai is born.
 here. The first **Cousha** would be behind where the Tauren is born. If the
 would be an **Ecousha** cycle in which the first Ecousha, or the first outward
 which the first **Ecousha**, or the first outward moving Eye of God is formed
 here that's called **Ecousha** 1- that is another Eye of God structure that connects
 to the original **Cousha** that is behind the Tauren. There would be another one
 would be an **Ecousha** 2 krystal, and that would have its Eye of God.
 them have a **Cousha** krystal, and then the Eye of God structure that forms
 forms from the **Cousha** krystal. And when we're coming out here from the middles,
 birth of the **Cousha** 3, and the third Eye of God coming out this

Page: 301

 a set of **Cousha** krystals, and altogether the Cousha krystals are referred to the
 and altogether the **Cousha** krystals are referred to the Ecousha-T A matrix. So,
 referred to the **Ecousha**-T A matrix. So, we've mentioned that word before, where

 really what the **Ecousha**-T A did or what it came from. So, it
 up with its **Cousha** krystal. So, we're still analyzing all that- what Co us
 flows of the **Cousha** krystals that run in those Eyes of God for each
 what opening the **Cousha** krystal flows are about Because what they do is ...

Page: 302

 opening of the **Cousha** krystals through the activations that we're doing- the Cousha krystals
 we're doing- the **Cousha** krystals and their Eye of God configurations. The Eye of
 flows, and the **Cousha** krystal is the little core at the center of it,
 structure of the **Cousha** into a structure we're familiar with, which is the basic
 connects into the **Coushas** is interesting I'm just analyzing things, but I do believe
 that are the **Coushas**. These are the Cousha seals. These are the bands or
 These are the **Cousha** seals. These are the bands or the orbs that the
 orbs that the **Cousha** krystals would be. Where the Cousha krystals are located, when
 be. Where the **Cousha** krystals are located, when those Cousha krystals activate, that span
 located, when those **Cousha** krystals activate, that span becomes an orb, and they control
 vehicle. So, the **Cousha** krystals when activated form a Cousha orb, and that is
 activated form a **Cousha** orb, and that is part of the Krystar configuration, forming

Page: 303

 clearing through the **Cousha** activations, the distortions that are in the four through higher
 by activating the **Cousha** krystals and the Cousha fields that go around, or the
 krystals and the **Cousha** fields that go around, or the Cousha platforms around them
 around, or the **Cousha** platforms around them ... these connect into the AdorA side,

Page: 304

 firing and activation of **Cousha** five You would start to get this lovely aqua-blue
 step, that's where **Cousha** five comes in. Cousha four, which would be the Edonic
 five comes in. **Cousha** four, which would be the Edonic ... the Ecousha five
 Edonic ... the **Ecousha** five is the Krystar Cousha. That's what would carry the
 is the Krystar **Cousha**. That's what would carry the Krystar Aqualene colors. If you
 back one to **Cousha** four, Cousha four was the one that corresponds to the
 to Cousha four, **Cousha** four was the one that corresponds to the domain that
 each of the **Cousha** krystallayers, as the orbs are activated. And then you get

Page: 307

 rest of the **Ecousha**, and its connection to the RaSh a and the light

 are called the **Ecousha** platforms, that connect to the AdorA side. When we do
 through into an **Ecousha** platform, and that will allow us to go other places
 activating the corresponding **Cousha** krystal orbs. So, the Aqualene sun activation level1
opens this
 would have the **Ecousha** 1 platform. In-between here, the Ecousha 2, and in-
 between here, the **Ecousha** 2, and in-between here, the Ecousha 3. So each
 between here, the **Ecousha** 3. So each Aqualene Sun activation level in the field
 of the corresponding **Ecousha** krystal, and that opens in the fields, the ability to

 to the AdorA **Ecousha**-2 Platform, and enter what's called the Gyrodome Spin Gate,

 is in the **Ecousha**-2 Platform of the AdorA side. Just imagine our shield

 connected to the **Ecousha** -1 Platform on the AdorA side. 36) Now, we're
 from the AdorA **Ecousha**-1 Platform that connects to the other side of the

 God, and the **Coushas** and we're going to start with-if I start there,

 what's called the **Ecousha**-TA complex and what's called the SEda Cycle. The SEda
 God and the **Cousha** Crystal and what that has to do with the building

 something called the **Cousha** is born, and we enter what's called the Ecousha-T
 what's called the **Ecousha**-T A Cycle. And the Ecousha-TA Cycle is the
 Cycle. And the **Ecousha**-TA Cycle is the one we've just got a lot
 Two is the **Ecousha**-T A Cycle. Trimester Three is what's called the Reusha-
 do with the **Ecousha**-TA Cycle. So, we're going to learn about these cycles.

 are things called **Ecousha** Platforms that are actually the cross-over ones. Between Aurora
 would be an **Ecousha** Platform on the AdorA side that allows you to actually

 merging through the **Ecousha** Platforms from the AdorA side in order to create literally

 Eye of God **Ecousha** stuff that leads into the DhaLA stuff, that leads into

 something called a **Cousha** is born. And that begins trimester-2 which is called

 is called the **Ecousha**-TA Cycle. Most of these diagrams have to do with

 do with the **Ecousha**-TA Cycle, for in Ecousha-TA Cycle you'll find the

 Cycle, for in **Ecousha**-TA Cycle you'll find the Cousha gives birth to what

 you'll find the **Cousha** gives birth to what is called the First Eye of

 Root Cell, the **Ecousha** Root Cell and the 8 Cell Cluster that is called

 is called the **Ecousha**-T A And it's from that cluster that the next

Page: 382

 see what a **Cousha** is because it is through this stuff-we jumped over

Page: 385

 that forms the **Cousha**. And the Cousha is a krystal. It's formed by the

 Cousha. And the **Cousha** is a krystal. It's formed by the compression and compaction,

 it makes a **Cousha** Krystal. And the Cousha becomes very particular quantum that becomes

 Krystal. And the **Cousha** becomes very particular quantum that becomes the primary quantum for

Page: 386

 deal with the **Cousha**. So the Cousha has the power of 3 Partikl and that

 Cousha. So the **Cousha** has the power of 3 Partikl and that becomes the quantum

 have the 1st **Cousha** and it's actually half and half, and it has got

 quantum, or the **Cousha** Krystal. Now the first replication where the Cousha is actually

 replication where the **Cousha** is actually phasing inside of itself and making sparks and

 replica is a **Cousha** replica 1 times 1 replica. Which means it has, it's

- quantum of the **Cousha** times 1. Three times 1 is Partikl power of 3.
 - will be the **Cousha** Krystal that was the First Creation Point where Partikl1 and
-

- keeps moving, the **Cousha** Krystal pulls in and out It moves back and forth
 - next one is **Cousha** rep 2 is a times 2 rep. So you have
 - replications. We got **Cousha** replication number 3 is the times 3 replication. You have
 - here we got **Cousha** rep 4 times, 3 times 4 equals 12, a quantum
 - Next one is **Cousha** rep 5 times 5, Partikl power 3 times 5 equals
-

- sat5 00 4315] **Cousha** rep 6 times 6, Partikl power 3 times 6 equals
 - gets really wacky. **Cousha** rep 7, yes it is a times 7 rep ofCousha
 - times 7 rep of**Cousha** 6 quanta. So it is doing 7 times that, and
 - here is the **Cousha**, the Original, and then you've got 1 and then 2
-

- from the 1st **Cousha** which is the 1st Creation Point And at a certain
 - next to the **Cousha** there, and just drew a current out It's as if
 - here into the **Cousha** space, and we're picking up all the frequencies of the
-

- replications of the **Cousha** create the 1st Eye and Heart of God and the
 - replication of the **Cousha** creates the 3 Eyes and 3 Hearts of God. So
-

- E-LUma-Ruta-**Ecousha**. Talk about a mouthful ... the first of the first
 - call it the **Cousha** Cell, which is the First Cell, but it's an Ecousha
 - but it's an **Ecousha** Cell. And, and it's spelled with an "E" cousha,
 - an "E" **cousha**, not just a "Cousha," cause a "Cousha" was
 - just a "**Cousha**," cause a "Cousha" was that original, smaller quantum. This
 - cause a "**Cousha**" was that original, smaller quantum. This is an "Ek"-
 - an "Ek"-**cousha**, because this Field here, around ... surrounding this, is an
 - E-LUma-Ruta-**Ecousha** First Cell, the Vertical HarA-Krysta Chamber opens, allowing for
 - by which the **Ecousha**-T A 8 Eternal Life Cell Cluster births. So, this
 - word ... the **Ecousha**-TA E-LUmen-et-ah, not "ati" ... E-
-

Page: 401

 Reuta Cell, the **Ecousha** Reuta Cell, all right. And that's where the E-LUma-
 thing? The ... **Ecousha**-TA ... so we've used the word Ecousha-T A
 used the word **Ecousha**-T A before, so the Ecousha is the First of
 before, so the **Ecousha** is the First of the 1st 8 Cells and the
 Cells and the **Ecousha**-TA is actually the 8 Cell Cluster, the 1st 8

Page: 402

 birth of the **Ecousha**-TA, which was that 8 Cell Cluster. That is where
 Cluster of the **Ecousha**-TA is formed, then those cells with their little 7

Page: 404

 1 and the **Ecousha**-T A Phase of T rimester 2 and the Reusha-T

Page: 407

 happens, where the **Ecousha**-T A is born, way before you get to the
 be where the **Cousha** forms the Eye of God, and the Eye of God

 structures of the **Ecousha**. Now, the Ecousha is the first cell. The Ecousha-TA
 Ecousha. Now, the **Ecousha** is the first cell. The Ecousha-TA is the group
 first cell. The **Ecousha**-TA is the group of 8 Cells. At the Core of
 Core of the **Ecousha**T A is the Ecousha, and the Ecousha ... or Ecousha,
 A is the **Ecousha**, and the Ecousha ... or Ecousha, with an "E"
 Ecousha, and the **Ecousha** ... or Ecousha, with an "E" ... the Ecousha
 Ecousha ... or **Ecousha**, with an "E" ... the Ecousha is that first
 E" ... the **Ecousha** is that first Cell that has specific structure. Now the
 structure. Now the **Ecousha** ... this is what we were looking at as the
 at as the **Ecousha**, all right The Ecousha had what was in the stage
 all right The **Ecousha** had what was in the stage before this was formed-
 together and the **Ecousha** First Cell is born, they all condense into the Core
 you have the **Ecousha** and then the Tauren grows and then the Light Body

Page: 409

 Partiki and its **Cousha**, all the way through into the manifest forms that carry

Page: 410

 that is the **Ecousha**-T A, all right. So that when we talk about

 talk about the **Ecousha-T A** ... it has a big name for it,
 it's called the **Ecousha-TA E-LUmen et-ah Tri-Vectus Cluster**. In easy
 Cell Cluster, the **Ecousha-TA**, all right it's easy to remember. So, this is
 8 Cells, the **Ecousha-TA**. And these are interesting because trying to draw these

Page: 412

 without getting my **Ecoushas** twisted ... all right If we remember that in the
 started with a **Cousha** Krystal forming from Partiki 1, Partiki 2 and that Spark
 are called the **Ecousha-T A**. Now, the **Ecousha-T A**, they call these
 A. Now, the **Ecousha-T A**, they call these little bands that actually separate
 of 3 by the **Ecousha-TA**. There's a crystalline structure that forms around that first
 that's called the **Ecousha** crystal. It represents ... inside of that you would have
 by the first **Cousha** Crystal or the Core **Cousha** Crystal ... there would be
 or the Core **Cousha** Crystal ... there would be a little crystal at the
 is called an **Ecousha** Crystal. And the **Ecousha** Crystal for that Domain is the
 Crystal. And the **Ecousha** Crystal for that Domain is the seed, or holds the
 Outer Domain, the **Ecousha** Crystal for that Domain would hold the seed atom for
 same time, the **Ecousha** Crystal for that Domain is the **LUma** Field for the
 you have an **Ecousha** Crystal Band, you also have the **E-LUma** Field or
 would represent a **Cousha** Crystal that would hold the Seed Atom for the Domain
 would be the **Cousha** Crystal for our Domain. The **Cousha** Crystal for our Domain
 our Domain. The **Cousha** Crystal for our Domain is the same place or the
 let's say, a **Cousha** Crystal Band for that Domain, you're actually also opening the

Page: 413

 would be an **Ecousha** Crystal there that is the full expansion or the **E**
 Cell Structure-the **Ecousha-T A**-for the next domain out would exist, all
 right. So the **Ecousha-T A** is the seed for the next domain. What
 have these crystalline **Ecousha-T A** spheres that are the Seed Crystals for our
 what they call **Ecousha-T A 4** or **Ecousha 4**, that would be the
 A 4 or **Ecousha 4**, that would be the seed for the Outer Domain
 born, from our **Ecousha** Crystal out to our full Light Body expansion, out to
 have these, these **Ecousha** ... I call "em **Cousha** Platforms but they're actually
 call "em **Cousha** Platforms but they're actually **Ecousha** Platforms. And one is at
 but they're actually **Ecousha** Platforms. And one is at 0 .5, which is in

 Body, because the **Ecousha**TA is the 8 Cell Cluster that links the Spirit Body

 bodies, through our **Ecousha** Crystals. So we're, we are seeing only a portion of

 forms the E-**Cousha**-TA Crystals. We can actually begin to see our development

 which is our **Cousha** crystal that gives birth to our Outer Domain Body. And

 the AzurA. This **Cousha** crystal band would be the difference between where we are

 another one that's **Ecousha** 2 ... there's a seed for the The MCEO Freedom

 Here we have **Cousha** 5. That is the seed crystal that corresponds to the

 have all these **Ecoushas** activated in our body systems, it would create what appeared

 you have a **Cousha** crystal implies that you have an E-LUma-Un that

 that corresponds with **Cousha** 4 that is our seed for our Outer Domain ...

 We have another **Cousha** crystal that corresponds to 5, and this one I believe

 seed, where the **Ecousha** Band is, it implies it's the seed for what's out

 inside of the **Ecousha**-T A cluster, ok. This is what it's supposed to

 Point where our **Cousha** is, is in the AzurA for the Outer Domain, that

 configuration of the **Ecousha**-TA 8 cell cluster- and that's where you get, you

Page: 419

 Point, which holds **Ecousha** 4, which is our seed crystal. And that implies that

 exists there with **Cousha** 4. This is showing the configuration of chakras. Now, this

 Domain before the **Cousha** crystal is in the same place as the Seed Atom

 would have the **Ecousha**-TA of the Edon Levels. When we get into the

Page: 420

 center of the **Ecousha**-TA ... it implies the existence of an 8 cell

 these are the **Ecousha** spheres that I'd talked about This one here has to

 to do with **Ecousha** 7 and 1; it's referred to as the Outer Transduction

 with the core **Ecoushas** at 0.5, would be Ecousha 1. And then Ecousha 2

 at 3.5, and **Ecousha** 3 is at 6.5 and Ecousha 4 is at 9

 at 6.5 and **Ecousha** 4 is at 9 .5, Ecousha 5 is at 12.5

 center point. This **Ecousha** 1 connects with the frequencies of Ecousha 7 and it

 10, you have **Ecousha** 5. Ecousha 5 is the A-1 Seed Atom and

 have Ecousha 5. **Ecousha** 5 is the A-1 Seed Atom and it's also

 you have the **Ecousha** 6 ... it's the A-2 Seed Atom and it's

 Ecousha 7. And **Ecousha** 7 is the A-3 or Adashi 3 Seed Atom,

 one are a **Cousha**, would actually have this ... they would each manifest a

Page: 425

 currents between the **Cousha** centers When that is accomplished, we will be able to
 cells of the **Ecousha**-TA, we will allow the atomic structure, starting with the
 phasing of the **Ecousha**-TA, to do that would immediately make the Rasha Prana
 are phasing the **Ecousha**-T A. So because of that, there is enough frequency

 it allows the **Coushas** to open their E-LUma-Un points and the Eiron
