- ... the 15 **Geleziac** Layer set of the Rasha Body goes 1, 2, 3,

 ... remember, the **Geleziac** Layers have specific proportions in relation to each other that

Page: 147

 Sheaths of 15 **Geleziac** Layers of the Rash a Body, and in between them

Page: 151

 had the 15 **Geleziac** Layers. This is just showing one layer. Let's say it's

 We've got our **Geleziac** Layer 1, 2, 3, which would be the Solid Core.

Page: 157

 far as the **Geleziac** Radiation Layers extend, and you just put a dot on

 any of those **Geleziac** layers, there is a set of Crystal Temples. We have

Page: 158

 set of 15 **Geleziac** Layers went, then we did that each for the Slayers:

Page: 160

 - ☒ we understand those **geleziac** structures of---1geleziac radiation forms-when we understand those, we
-

- ↳ that show the **geleziac** layers of Earth D-1, 2, and 3 in relation
 - ↳ teachings on the **geleziac** radiation layers, it started with simply understanding ... let me
 - ↳ was where the **geleziac** states came from to remind you where this information had
 - ↳ Key Formation, which-**geleziac** key formation ... The geleziac layers that we're gonna talk
 - ↳ formation ... The **geleziac** layers that we're gonna talk about have to do first
-

- ↳ the nine inner **geleziac** layers of the Partiki form and outside of those you
 - ↳ are called photo-**geleziac** layers form and they form from the first interactions that
 - ↳ and six outer **geleziac** layers are characteristic of the birth of the Tauren Living
 - ↳ the nine inner **geleziac** and six outer geleziac layers of the PartikE structure So
 - ↳ and six outer **geleziac** layers of the PartikE structure So I wanted to start
 - ↳ of where those **geleziac** layers came from in the first place. [graph] When
 - ↳ through the natural **geleziac** layers that are inside of the PartikE. So, that was
 - ↳ PartikE and its **geleziac** layers so you see its structure again. All right, but
 - ↳ PartikE and its **geleziac** layers in relation to the Tauren, that it is at
 - ↳ the nine inner **geleziac** layers of the PartikE. And you have 10, 11, and
-

- ↳ have with the **geleziac** layers. So that is the core structure that also becomes
 - ↳ the 15 crystalline **geleziac** radiation states of the Tauren light seed. We have the
 - ↳ Da. Now, these **geleziac** states of matter become important because in the macrocosmic expansion
 - ↳ called a Carbo-**geleziac** field of compressed, cold frozen dense solid E-Ta-OR
 - ↳ description of the **geleziac** radiation state and its qualities that are in the PartikE,
 - ↳ interface of these **geleziac** radiation layers. So, when we break them down they refer
-

- ↳ layers of the **geleziac** states So, this translates from the microcosmic template into the
 - ↳ ... of the **geleziac** states, they correspond to the PartikE inside of the Tauren
 - ↳ remembering the nine **geleziac** layers. Each of these has a different characteristic when we
-

- ↳ of those nine **geleziac** layers of the dark matter templates ... they're also structured

-
- ☒ of all the **geleziac** layers to allow for a Flash Point. And a full

- ☒ that was the **geleziac** layers of the PartikE inside the Tauren ... imagine there
 - ☒ the nine inner **geleziac** layers that will form in the Par-TE"-KEi template.

Page: 193

- ☒ layers of the **Geleziac** Fields. I'm sure there are fancy names for each of
 - ☒ these in a **geleziac** radiation levels, actually governs the movement and the structure upon
 - ☒ back to the **geleziac** layers. If we go back to the Tauren and the
 - ☒ and six outer **geleziac** layers of the PartikE inside of the Tauren, and at
 - ☒ each of these **geleziac** radiation layers, there forms what is called a Orba-ta
 - ☒ remember there's little **geleziac** bands in between each ... this is where we end
-

Page: 194

- ☒ 2, and 3 **geleziac** fields and Urtha"s D-1, 2, and 3 geleziac fields
 - ☒ 2, and 3 **geleziac** fields So, for this one, I'm gonna bring it back
 - ☒ back to the **geleziac** states inside of a PartikE, as it also applies to
 - ☒ the 15 layers? **Geleziac** layers? We have these bands are the Elemental Bands. You
 - ☒ form of crystallized **geleziac** radiation. They are both on the microcosm inside of us,
 - ☒ these 3, the **geleziac** crystallized Orba-ta bands in-between form the 5 Elemental

Page: 195

☒ goes with the **geleziac** layers right and the crossovers and that kind of stuff

-

Page: 247

Page: 249

- ↳ the D-3 **geleziac** radiation levels, would not be out to the surface layer

Page: 303

Page: 304

- ↳ has a full **geleziac** structure Now, we'll look at what are called the **geleziac**

- are called the **geleziac** layers, or geleziac radiation layers of the PartikE photo-generator
 - geleziac layers, or **geleziac** radiation layers of the PartikE photo-generator cell. We will
 - of the 15 **geleziac** layers and the 15 bands that form in between them.

 - 9 inner proto-**geleziac** layers of the PartikE and then there are 6 layers
-

Page: 305

- 6 outer photo-**geleziac** layers. So we have proto-geleziac-proto-gel radiation layers
 - we have proto-**geleziac**-proto-gel radiation layers on the inside that form the
 - are the same **geleziac** radiation layers. [next graph] [CD 6, Track 1]
-

Page: 306

- gives you the **geleziac** layers. It also will give you ... and there's other
 - relationships between the **geleziac** bands in the PartikE, and the same applies to the
 - 15layer structure-15 **geleziac** layers-and in a minute we will look at what
 - we have 15 **geleziac** layers of the PartikE core of the Tauren and they
 - do with theTa **geleziac** layer, which, I believe is layer seven, in the geleziac
 - seven, in the **geleziac** templates. There's a whole bunch of text that goes after
-

Page: 307

- also through the **geleziac** states It takes you from sparks to harmonic keys to
-

Page: 308

- And those 15 **geleziac** layers of the PartikE, because that is the core encryption
 - on the 15 **geleziac** layers that are inside of the Tauren. So there's a
 - with the 15 **geleziac** radiation layers, first that appear within the first PartikE, and
-

Page: 309

- connected to the **geleziac** radiation layers ... you can anchor those and keep them
-

Page: 310

- again the 15 **geleziac** layers, right? Now, at a certain point after the Yunasai,
 - this 15 layer **geleziac** body structure of the Par-TE"-KEi grids. The ParTE"-
 - are not just **geleziac** radiation layers, but they are geomantic mathematically coded geometric layers,
 - Yunasai of this **geleziac** replica body, photo generator cell body, that is the Par-

Page: 311

- just the layers, **geleziac** radiation layer replicas times big now, because we're in a
 - the others are **geleziac** radiation, these are crystallized radiation bands. So you have **geleziac**
 - So you have **geleziac** radiation layers and bands when you're talking about the small
 - Da-OR" type **geleziac** state was, and an A-Da"-Ma type **geleziac** state,
 - Da"-Ma type **geleziac** state, and you put those two substances together, you would
-

Page: 313

- from the 15 **geleziac** layers and rings of the Par-TE"-KEi body, and
-

Page: 314

- Par-TE"-KEi **geleziac** radiation templates. You've got the Rasha bodies Par-TE"-KEi
-

Page: 316

- of those 15 layers **geleziac** things anywhere from the tiniest one that is the PartikE,
-

Page: 317

- has a 15 layer **geleziac** structure, a PartikE structure So you have to take three
-

Page: 323

- the 15 layer **geleziac** templates of the PartikE, and then explained how they became
-

- became the larger **geleziac** templates of the Par- TE"-KEi dark matter body systems
-

Page: 324

- together between the **geleziac** templates and the structure of the planetary body and its
-

- with the 15 **geleziac** layers, and the 15 crystalline bands between them and those
-

- and those 15 **geleziac** layers form five Elemental Commands, which later become the templates
-

Page: 325

- changing interrelationships between **geleziac** states and forming other types of units that come from
-

- with the 15 **geleziac** layers and the 15 geleziac bands of the Par-TE"-
-

- and the 15 **geleziac** bands of the Par-TE"-KEi template. So, we've got
-

- seven through 12 **geleziac** layers of the Par-TE"-KEi body form. [next

-

Page: 338

- we ourselves have **Geleziac** Partiki bodies, and so does our planet- what we're going

to the 15-**geleziac** layer structure, the fact that there's a Prana Seed at of these 15-**geleziac** layers that interface to form the matter planes of the to the 15 **geleziac** layers, we have the 15 **geleziac** layers. Each of them have the 15 **geleziac** layers. Each of them has a name. The name has of the 15 **geleziac** layers. There is a point where, I believe in one the number one **geleziac** layer, all the way out to the number 15 **geleziac** the number 15 **geleziac** layer. Each of them have their own. Let's see if do with these **geleziac** layers in our own bodies. When you get out to

Page: 215

of the 15 **geleziac** layers and our rings and spans between them, we can

Page: 216

them with 15 **geleziac** layers- each one of them, forming parts of the core.

has the 15 **geleziac** layers, all right We're going to go through that quickly

Page: 234

has the 15 **geleziac** layers, the 9 inner and the 6 outer layers, and

Page: 235

center the 15 **geleziac** layers. The Tauren, because of the polarity involved in these, be the 15 **geleziac** layers and there's a specific ratio between them as far of even the **geleziac** layers is not random, and they're not all the same

Page: 236

had the 15 **geleziac** layers and they are part of the Tauren. They exist

- came, the original **geleziac** layers of the PartikE. And we have, going from one

 - associated with the **geleziac** layer below it and above it, so it will be
-

Page: 237

- from those 15 **geleziac** layers they actually form from the bands. They form the
 - start with the **geleziac** layers and the groups of 3 bands between them on the
 - with the layers, **geleziac** layers and the krystal bands. When that becomes the RaSh

 - now. But these **geleziac** layers, they're gel-like layers where Consciousness begins to gel
 - is from those **geleziac** layers that eventually the Light Body structure builds. But also,
 - framework of 15 **geleziac** layers at a certain point, and Rash a Body, which
 - at the 15 **geleziac** layers with their resonance names and their geleziac types, the

Page: 339

- 004821] Anyway, 15 **geleziac** layers. This is looking at the same thing without showing
 - as the 15 **geleziac** layers of the PartikE, little PartikE inside of the Tauren.
 - do with those **geleziac** layers actually rubbing through each other and sparking. When the
 - in through the **geleziac** layers of the PartikE little photo cell inside, and that
-

Page: 340

- we've got 15 **geleziac** layers and they would be the white places in between
 - are considered the **geleziac** layers. In between each of those-because these layers are
 - they spin, the **geleziac** stuff that they're made out of rubs through, one rubs
 - band between two **geleziac** layers that has crystallized properties of both of those geleziac
 - both of those **geleziac** layers. When we get into the larger Rasha Body structure
 - become the Rings, **geleziac** Rings and what are called the Spans. And when we
 - in between the **geleziac** layers, on the larger Rash a Body structure are called
 - we have 15 **geleziac** layer templates that start with the little PartikE inside of
-

Page: 341

- photogenerator cell, 15 **geleziac** layers in the center, and makes sparks. Well those sparks
 - of those 7 **geleziac** layers. And the names of things tend to come from
 - PartikE in the **geleziac** layers that are at the center of the Tauren and
-

Page: 345

- has the 15 **geleziac** layers, and it has the 12 Fire Lines in it

Page: 346

- ☒ Tauren, that 15 **geleziac** layer thing. So that has the 12 Fire Lines and
 - ☒ against the 15 **geleziac** layers, it makes sparks. And then when it opens, it
-

Page: 350

- ☒ point, that same **geleziac** structure is now being manifested as a Par-TE"-KEi
 - ☒ remember, the 15 **geleziac** layers. Then the next thing that happens are 6 Pops,

Page: 357

- ☒ it brings the **geleziac** states together in the Rash a Body, forming not just

Page: 365
