 for the Human, **Indigo**, and Aquari races, this Eternal Form will manifest as the

Page: 16

 and most "**Indigo-Human**" Cloister races of Earth (as well as certain

Page: 18

 strands (Aquari, **Indigo** Types 1 and 2, and upgraded Angelic Humans), the Ascension

Page: 28

 (Aquafereion descent) **Indigos** and Humans of Earth, through which we would progressively awaken

Page: 47

 would be the **Indigo** Lines, if they would like to go directly to Urtha

 form, the original **Indigo** form didn't, we didn't have body parts down there exactly

 our Cloister Race **Indigo** lines one from each of the Cloisters, not just one

 a couple of **Indigos** from Earth a male and a female would couple and

 get together, the **Indigo** couple then there would be an energy exchange done. And

Page: 48

 Human and the **Indigo** line at this point. So we had the first groups

 groups were the **Indigo** Cloister Races who went into the Aquari lines and they

 Human and the **Indigo** Races here. We wouldn't be here talking about it if

Page: 61

 running in the **Indigo** shield itself to hold groups of 48. So the 12

 activating in the **Indigo** shield already- they started in Shasta actually. What we are

Page: 65

 things that the **Indigo** shield can do here, because the Indigo shield ... any

 here, because the **Indigo** shield ... any race shield ... it looks like a

Page: 66

- 📄 **Indigo"s** have the ability to activate on the Urtha BPR This
 - 📄 and the whole **Indigo** shield is like an even bigger one that is actually
 - 📄 the whole collective **Indigo** shield is larger, I think, than the Earth"s shield itself
 - 📄 Angelic Human and **Indigo** Races here. So, if we look at this a little
-

Page: 69

- 📄 because you are **Indigo** with Aquari coding, because if you weren"t you wouldn"t be
-

Page: 72

- 📄 capable in the **Indigo** shield of beginning ... we have begun the process of
 - 📄 the process of **Indigo** Shield Key Activation, we can anchor for the Beloveds that
-

Page: 73

- 📄 though they are **Indigo** and they are Aquari Indigo, they still have a vulnerability
 - 📄 they are Aquari **Indigo**, they still have a vulnerability to be hit by those

-

Page: 79

- 📄 Command here, the **Indigo** shield can, using the elementals that are not corrupted from

Page: 84

- 📄 out through the **Indigo** shield first, and then from there out to the Human

-

Page: 86

- 📄 Certain strains of **Indigos** and Humans carry attachments, and it takes like several generations

Page: 88

- 📄 Human lines and **Indigo** lines here. They are part Indigo and they are partAquari,
 - 📄 They are part **Indigo** and they are partAquari, and I think they come in

Page: 93

- 📄 trying to harm **Indigos** at all at this point. There is one thing the

Page: 94

 the Azurites, the **Indigo** shield is the Cavalry Earth level. But we have the

Page: 119

 where they brought **Indigo** Cloister couples there up through whatever gate interface they used

Page: 152

 or Drak people. **Indigos** have part of that in them. If we don't own

Page: 165

 have got the **Indigo** Shield out through one of the Spanner Gates fast, but

 rings of the **Indigo** Shield out as well, into black hole fall And that's

Page: 166

 Angelic human and **Indigo** race lines of Seeding 3 Earth and also in Seeding

 Angelic Human and **Indigo** races were destroyed through the Thousand Years War. That's why

Page: 167

 Cloister race or **Indigo** and Angelic Human lines from that bio-regenesis assistance that

 Angelic Humans and **Indigo** race lines to go through code reversal very, very quickly.

 Angelic Human and **Indigo** race lines. Together as a collective we hold the keys

Page: 170

 Human lineage and **Indigo** Cloister lineage to give us the potential of the Aquareion

Page: 173

 Angelic Human and **Indigo** races on this planet, the Kristiac races were in trouble

Page: 174

 to harness the **Indigo** and Angelic Human lines of Earth and use them as

 Races of Cloister-**Indigo**-Human. And later they became the 12 Feather Races when

Page: 187

 of .. the **Indigo** Shield is activating with Urtha on its first set of

 getting in the **Indigo** Shield, the Indigo Shield is activating its dark matter template

 Indigo Shield, the **Indigo** Shield is activating its dark matter template with Urtha in

Page: 188

 Starfire, that the **Indigo** Shield is keyed, not to Earth Shield directly, but to

 with Urtha's-the **Indigos** are-and that is why there is still hope on

 we can, as **Indigos**, activate our Light Body structure So we're not just activating

Page: 196

 only something that **Indigo"s** have the potential to run fully. Because only the Cloister

Page: 197

 But the Earth **Indigo"s** of descent from Aquari can. And that is why we

Page: 203

 to reach the **Indigo** Shield that is here. [graph] On a bigger scale,

Page: 204

 are, the more **Indigo** you probably are and the more you are pulling in

 and the more **Indigo** coding in the body the more you will be pulling

Page: 205

 and into the **Indigo** Shield to hold this link. So when we are working

Page: 241

 just for the **Indigo** Shield, that we have got the first run of the

Page: 254

 reason why the **Indigo** Shield is activating so quickly, is it's bringing all of

Page: 262

 line that are **Indigos** on this Planet, but Indigos that were a specialized group

 this Planet, but **Indigos** that were a specialized group of Indigos that were crossed

 specialized group of **Indigos** that were crossed with the Aquafereion Races of .. or,

 the Aquafereion Line **Indigos** here, and 1/2 of which are held by the

 the Aquafereion descendant **Indigos** as a collective where they can literally run, as long

Page: 265

 of either the **Indigo** Cloisters that were hybridized with the Urtha Aquari races, or

 ascension codes-the **Indigos** and the Angelic Humans were. And if it ever came

Page: 267

 level of the **Indigo** Shield ... this is part of the Indigo Shield, but

 part of the **Indigo** Shield, but it's bigger than the Indigo Shield. At this

 bigger than the **Indigo** Shield. At this point, the Aquafereion Shield, which is the

 the Hybridized Aquari **Indigo** Shield, is supporting the Indigo Shield, which is supporting the

 is supporting the **Indigo** Shield, which is supporting the Angelic Human Shield, which is

Page: 274

 races of the **Indigos**, the Aquari Indigos that stay on Earth to hold this

 Indigos, the Aquari **Indigos** that stay on Earth to hold this surrogate RaSh aLAe

Page: 275

 have Aquari Line **Indigo** soul groups running around [chuckles]. We have all sorts

Page: 301

 this planet, the **Indigos** of this planet, had lost so much of their DNA

 into, first the **Indigo** Cloister line of Earth, and they started that in 11

Page: 302

 that we, being **Indigos** on Earth, came from. Or, you might be, if you're

 not a full **Indigo**, if you're not Indigo, you might be an Angelic Human

 if you're not **Indigo**, you might be an Angelic Human that was also crossed

 10,500 the Aquari **Indigos** were put on Earth, 10,000 BC we had the Angelic

Page: 312

 Aquaferion require an **Indigo** template. But some portion of this, the 12 Tribe Angelic

Page: 332

 presence of the **Indigos**, as I described before, being on the planet, the Indigos

 the planet, the **Indigos** with the Aquari coding, the ones who carry the coding

Page: 335

 encryption, from an **Indigo** encryption by feel. And at first you can't, but as

Page: 336

 a bunch of **Indigos** and that's their core imprint, but everybody is saying "

 but I'm an **Indigo.**" We need to recognize that. So, anyway, we will get

Page: 341

 able, through the **Indigo** Shield, to anchor Prana here and to be able to

Page: 342

 Aquaferion shield, the **Indigos** with the Aquari codes on this planet have the ability

Page: 345

a team of **Indigo** Aquari on planet that can hold that kind of activation

Page: 353

 Urtha's core. The **Indigo** shield and the Aquari shield, are keyed to Urtha and

Page: 359

 I mean the **Indigos** here, and particularly the Aquarian indigos here that have been

 particularly the Aquarian **indigos** here that have been in places like that before and

Page: 360

 the Aquari coded **Indigos** on the planet. There's also a corresponding layer that goes

 are from the **Indigo** Cloister lines, which the Aquari codes, because those are needed

Page: 362

 whole collective of **Indigos**, particularly the Aquari line Indigos, nobody would be getting out

 the Aquari line **Indigos**, nobody would be getting out to Urtha. Nobody would be

Page: 363

 lines, particularly of **Indigos**, and you might have a clear line, at least partially

Page: 369

 collective Aquari-line **Indigos** on the planet that will activate a large, surrogate shield

Page: 372

 and eventually the **Indigo** Aquaris will leave ... if they can't hold it then

Page: 373

 that are not **Indigo** coded. It's a big story and it's a bit too

 Yellow, Green, Blue, **Indigo**, Violet yeah, the same thing. It's the natural line up

Page: 388

 for, in the **Indigo** host shield, the Aquari Indigo host shield, to allow for

 shield, the Aquari **Indigo** host shield, to allow for the bands within the Earth

Page: 394

 our ability as **Indigos**, as Indigo children that carry the coding that can do

 as Indigos, as **Indigo** children that carry the coding that can do this, to

Page: 395

 Planet, who are **Indigos** which would be Human with Indigos, with Indigo Cloister with

 be Human with **Indigos**, with Indigo Cloister with also what are called the Aquari

 with Indigos, with **Indigo** Cloister with also what are called the Aquari Codes which
 all not only **Indigo** Coding but also Aquari Indigo Coding which means you are
 but also Aquari **Indigo** Coding which means you are connected to a Race, a

Page: 400

 The whole collective **Indigo** Shield is still going to be here for a while

Page: 406

 Angelic Human and **HumanIndigo** Cloister from Earth so they are more closely human as

Page: 409

 activating in the **Indigo** Shield and in the Aquafereion Shield. So it is already

Page: 410

 Human imprint, the **Indigo** imprint, any of the Kristiac Race imprint is the silicate
 particularly that have **Indigo** and Aquari coding, this was almost even more natural to
 difference between the **Indigo** and the Angelic Human you had 12-Strand pattern Angelic
 Strands of the **Indigos** alright. They had more strand capacity So any ones with-

Page: 411

 it is like **Indigo** times 3, where you are able to run the Aqualene

Page: 451

 the Aquari Coded **Indigo** Shield here on the Planet is allowing the frequencies to

Page: 452

 you know Cloister **Indigos** ... carry the Aquari Codes. It was only ones that

Page: 455

 happening in the **Indigo** Shield. Once we have that in the Indigo Shield and
 that in the **Indigo** Shield and are holding the Host for Earth it will

 activations of the **Indigo** Shield, the Aquari Codes in the Indigo Shield and that
 Codes in the **Indigo** Shield and that will then spread to holding the Host

Page: 467

 in the Aquafereion **Indigo** Shield and we will be able to hold a Host

 the Aquafereion Earth **Indigo** Host Shield also begins transmutation of the D1 Derma NET,

 are pulling the **Indigo** Shield out early. We are aiming for the Starfire period

 to where the **Indigo** Shield and the Aquafereion Shield will be removed from Earth.

 you know the **Indigo** Lines, so it's a hybrid, Aquafereion is a hybrid. And
 has been enough **Indigos** functional here- and I say more Indigos because most of
 I say more **Indigos** because most of the work was pitched at a frequency
