 is how thought **manifestation** works. The universe, the Cosmos, has been created in the

 we are literally **manifesting** our "ahead of us", ahead of us, as we

 with trying to **manifest** with thought intention and those kind of things, why so

 we are seriously **manifesting** our hologram as we go, how is it that it

 Source, and the **manifest** body structure or Spirit Body structure. So, they open a

 in the EtorA **manifest** side and then 3 Adashi bodies coming back, 1, 2,

 is, after a **manifestation** has moved through the Core Cycle, through the Inner Cycle,

 as you are **manifesting** along this Event Horizon and coming outward, the same time

 consciousness that is **manifesting** on the AdorA side and coming out this way. And

 also have a **manifestation** out here in the AdorA side and you would, together,

 Light Body that **manifests** through the Spirit Body to form the matter bodies. So,

Page: 96

 the Adjugate Twin, **manifest** AdorA side, and the EtorA side. The Eiradonis of the

---

Page: 97

 where the matter **manifests** as light, comes out, slows down, becomes crystallized into what

 Creation Point, was **manifested** from. That means, if you can reawaken in yourself that

 in to the **Manifest** Body: the Light Body and then the Matter Body. There

 just literally, holographically **manifest**. You can do amazing things in the Halls. I don't

 state and non-**manifest** state. And when you change that, which means if you

 within anything that **manifested**. What we are doing is turning them back on. So,

---

Page: 102

 when we enter **manifestation**. And, the same applies to stars and planets. The same

 God Source, the **manifest** Body of God Source. Hold on a second; here come

 live in the **Manifest** Body of God Source that exists within the Consciousness Field

 side, are the **manifest** in the Spirit. You have the same thing running on

---

Page: 107

 the immediate, core **manifestation** of that perfect imprint. And, I think we're going to

 is the perfect **manifestation** of whatever pattern it was? It would be stored there,

Page: 108

 of; your four, **manifest**, at the center of your Spirit Body. We actually have

---

Page: 109

---

 whole process of **manifesting** that is taking place in both, that can be broken

 half on the **manifest** side, and half would be on the Spirit side. Notice,

 the expansion ... **manifest** EtorA, and the AdorA, coming back this way. The Manifest

 this way. The **Manifest** and the Spirit, each one of them would have that,

 out into non-**manifestation** in the Source Field. And, then it comes back and

---

Page: 115

 together into a **manifestation**. But, on a cosmic level, we're talking on a cosmic

---

Page: 116

---

 into the non-**manifest** consciousness field of Source, and then Source sends an equal

 self as we **manifest**. So, we have portions, as we grow and expand. Right

 out as, literally, **manifest** Krysted beings. And, their entire system, their entire Ecka-Veca  
 trip out into **manifestation**, and you haven't made it yet, through a Starfire Turnaround,

Page: 120

 and you could **manifest** yourself as anything you chose. (0:11:54) Now,

---

Page: 123

---

 other way, a **Manifest** AdorA Body, with its spiritual part going behind it. Which  
 have the EtorA **Manifest**, the EtorA Spirit on the AdorA side. Then, you'd have  
 have the AdorA **Manifest**, and the EtorA Spirit, here. And those are the parts:

---

Page: 124

---

 and The BorA, **Manifest**, together in the center, into this state. We are in  
 look at the **manifest** side of the AdorA, these would be the Manifest AdorA,  
 would be the **Manifest** AdorA, and these would be the Spirit of AdorA. Remember,  
 where the EtorA **Manifest** side is. So, the Spirit of AdorA is running through  
 running through the **Manifest** of BorA, and vice versa. And each one of these

---

Page: 125

---

 you are in **Manifest** EtorA vector one. So, you're here. Just number them like  
 going around clockwise: **Manifest** EtorA vector one, if you follow that across, your Ad  
 would be, the **Manifest** AdorA one, in vector six. And it is literally bringing  
 that reality and **manifestation** takes place in. And when you bring them together, it

---

Page: 128

---

 fit into a **manifest**-station framework, right, within its own large consciousness field. So,

---

Page: 137

 for one thing **manifesting**. And, that's before you have the full Light Body around

 time not being **manifest** and floating around like conscious air and that kind of

 this represents the **manifest** body of God Source. And what's beyond the creation point

 is the non-**manifest** consciousness field of God Source. Together they are what God

 progressively, what was **manifest** in the RashaLAe Body, which would be the fullest expansion  
 fullest expansion into **manifestation** of form, right? The Rash aLAe Body turns into the

 this is the **manifest** part and this is the eternal consciousness field of the

 in order to **manifest** a part of itself in an experience that would be

 on the outside **manifest** part of the creation point door. There's actually two more  
 that connect the **manifest** side to what is called spirit, which is the force  
 to the outer **manifestation** It's a different quantity, and I'm just trying to learn

---

Page: 63

---

 the cycle of **manifestation**, how we project our hologram out, and then it cycles

---

Page: 65

---

 you can also **manifest** things at will, and that really saves a lot of  
 its imprint and **manifest** it without killing anything. Where you can breathe air instead  
 something, you can **manifest** a hologram of it and experience it directly without killing  
 out into the **manifest** stage. In here, we have the ... it's hard to

 smaller than the **manifest** body that once that reach a certain level of creation,

---

Page: 69

 3 out in **manifestation**, 2/3 behind the creation point door. That would give  
 going out into **manifestation**, and this was the stuff that was the reflection of

---

Page: 70

 this side, the **manifest** side of the creation point door. We started out here  
 meaning out into **manifestation**, and when we go through Starfire, we go from 3!

 fields are holographic **manifestation** fields Earth was one. Earth is one. There was another

Page: 114

 which is the **manifest** Light Body Structure. But where did that Light come from

Page: 115

 are 2/3rds **manifest**, 1/3rd not manifest, all right, in terms of how

 1/3rd not **manifest**, all right, in terms of how we think of manifestation.

 we think of **manifestation**. There's a ... behind ... if you look at the

 be considered "**manifest**," not "materialized" There's a difference between being "manifest"

 between being "**manifest**" and "materialized" But, what comes out the Light Body

 Body Structure is **Manifest**, and there's a structure behind it that is considered not

 is considered not **manifest**, therefore in "Spirit form " But Spirit form still

 of what is **manifest** on the outside. So it is still differentiated from the

 outward from the **Manifestation** Point, to how much is being pulled backward, all right.

 going outward into **manifestation**, and then there is counter-force, and this is where

 about 2/3rds **manifest** when you add up their entire quantum. When you add

 pretty much fully **manifest**, but they dip in and out of this structure And

 Spirit that did **manifest** into the body ... not just that can go back,

 and still be **manifest** but progressively de-densify its matter state And then if

 know, Light Body **Manifest** Structure in order to hopefully regenerate it. What you just

 Cycles, and then **manifest** back out These are considered ... the Eyugha Cycles are

 outside of the **Manifestation** Point or the Creation Point Door. But the Spirit is

---

Page: 120

---

 RaSha Body, right that **manifests** outward the Light Body structures we've been dealing with in

 outer Light Body, **Manifest** Light Body structure and the outer Matter Form that forms

 Matter Template, will **manifest** out here. And it really isn't "dark matter," it

 it wasn't in **manifest** expression at all, and it is ... it's 2/3rds

 matter is actually **manifested** within it. If there had been more time, once I

 Point and how **manifestation** is projected outward, and then comes back in. These are

 hologram is actually **manifested** from. At the end of that information we would find

---

Page: 121

---

 techniques of direct **manifesting** ... of learning to manifest little things or conditions in

 of learning to **manifest** little things or conditions in our lives. To learn

 to get our **manifestation** power back. And the reason why we've been cut off

 you're in a **manifest** state, and they broke it down into, say a 48-

---

Page: 128

---

 dealing with a **manifesting** force or thrust going outward and spiritual thrust pulling backward.

---

Page: 129

---

 Reaches of any **Manifestation** So what we have here, we're gonna see ... these

 as Spirit and **manifest** part out into Light Body Structure. This is before you

---

Page: 130

---

 Force, or the **Manifestation** Force and that interacts with the Eira Force which is

 pulling against the **manifesting** side that actually creates the Force of Gravity. And there

 step out into **manifestation**, step a little bit back into Spirit, step a little

 bit out into **manifestation** ... it creates the structure for various different types of

---

Page: 131

---

 you actually have **manifest**, and what part of it is actually available for materialization,

 of itself in **manifestation** and 1/6th of itself behind the Creation Point Door

 is out in **manifestation** and how much of it is pulling back, and that's

 side is in **manifestation**, what's on this side is in that Spirit place. This

 quantum out in **manifestation** on the outside of the Creation Point Door, and the

---

Page: 132

---

 will form the **Manifestation** Force and the part that's behind it will form the

 part of itself **manifest**, one part Partikl Manifest Now if you divide 3 into

 one part Partikl **Manifest** Now if you divide 3 into 3 you end up  
 3 of itself **manifest** and the other 2/3 of its quantum, whatever that  
 what's on the **manifest** side and what's pulling back on the Spirit Side. So  
 Power on the **manifest** side and 1/3 of that Power in Spirit Again,  
 are outside in **manifestation** and 1/3 of it is left in Spirit The  
 out on the **manifest** side of Creation Point Door. Its only connection to the  
 of itself in **manifestation** ... um ... this one had 3/3 of itself  
 of itself in **manifestation** (referring to last one discussed- Atmic), this one has

---

Page: 133

---

 of itself in **manifestation** and 1/3 back in Spirit All right, so it  
 12 are in **manifestation**, which means 8 Partikl Powers in Manifestation and you have  
 Partikl Powers in **Manifestation** and you have 1!3 in Spirit, which means 1!  
 2 is in **Manifestation** and 1/2 is not in Manifestation So you're 1/  
 is not in **Manifestation** So you're 1/2 behind the Creation Point Door and  
 Partikl Power in **manifestation** and 7.5 Partikl Power in Spirit. And notice, the Spirit  
 of whatever is **manifesting** on the outside of the Creation Point Door, all right.  
 3 Partikl, in **Manifestation** and the Power of 15 Partikl behind it Ah ...  
 Partikl on the **Manifest** side ... Power of, righLand a Power of 15 Partikl  
 one ... on **Manifestation** Side and 3 and a 1/2 on Spirit Side.

---

Page: 134

---

 are in the **Manifest** and they're at a different angle than the rest of  
 happening on the **Manifest** Side and on the Spirit Side. So you got 3  
 Spirit, and the **Manifest** Side of it So, got the 7 Suns that are  
 that in the **Manifest** Side of the Creation Point Door. This one is called  
 side on the **Manifest** Side and the ElorA are the lower frequency side on  
 side on the **Manifest** Side. This thing also spins ... it leaves sparks but

---

Page: 135

---

 "audible" or **Manifest** Sound. Because this is the Manifestation Line, right, where you're  
 this is the **Manifestation** Line, right, where you're coming into Manifestation, and they have  
 you're coming into **Manifestation**, and they have their other side of themselves in Spirit  
 light, with finite **manifestation** But on the 7th Day, God was very, very busy

---

Page: 136

---

 reflection of the **Manifest** .. or it's actually not even, not exactly a reflection

 companion of the **Manifest** This is where Spirit lives. This is where all that  
 is out in **Manifestation**, is our Spirit Body. And that is the part that  
 a Structure that **manifests** within and it manifests around us. This is the Spirit  
 within and it **manifests** around us. This is the Spirit Part of the counter-  
 Light Bodies are **manifested**, there is a certain level of currents that comes through

---

Page: 137

---

 of Consciousness in **manifestation**, half of it in Spirit and they create a balance  
 a balance between **Manifest** and not-Manifest, which means between the thrust going  
outward  
 Manifest and not-**Manifest**, which means between the thrust going outward and the pull  
 you know, into **manifestation** and never return until space dust or be sucked back  
 never got to **manifest** itself This is the point of quantum equilibrium. And this

---

Page: 138

---

 what's on the **Manifest** Side of the Door and what's on the Spirit Side  
 Side to the **Manifest** Side and back again Eventually, after you have all the  
 outward into the **manifest** and open here, also, going back outside the Krist Body,

---

Page: 139

 1/2 in **Manifestation** and 1/2 in Spirit Leach one form a Current of  
 part of our **manifest** anatomy as well. So remember, this construct, if you look

 Source going into **manifestation** and becoming a densified substance, still within the Consciousness Field

 say, 1/3 **Manifest** and 2/3 of the consciousness in Spirit form You

 the consciousness in **Manifest** form, the other 1/2 in Spirit form You come

 2/3 in **Manifest** form and 1/3 in Spirit form And when you

 the consciousness in **Manifest** form and none in Spirit form, but connected to the

 part of the **Manifest** Body of Source, but this is where it is very

 is 3/3 **Manifest** density and zero Spirit back into de-densification, where you

 to 2/3 **Manifest** Body and 1/3 back in Spirit alright. When you  
 from 2/3 **Manifest** and 1/3 in Spirit to 1/2 in Spirit  
 1/2 in **Manifest**. Then here you'd move into 1/3 in Manifest and  
 1/3 in **Manifest** and 2/3 in Spirit, and then when you back  
 to within the **Manifest** Body of Source. And that part of us is indelible

---

Page: 211

 from 3!3 **Manifest** and 0 Spirit into 2/3 Manifest and 1/3  
 into 2/3 **Manifest** and 1/3 Spirit-- that would be Transfiguration 1. The  
 can enter and **manifest** in any of the cycles at any point in time.  
 body, in the **Manifest** Body of Source, that at any time your consciousness can

 and Urtha, all **manifest** Lightbody structure, has a set of core gates that are

 physical body into **demanifestation**, and recharge and replication. So, this is the way that

---

Page: 214

 from 3!3 **Manifest** density, to biologically 2!3 Now, that doesn't mean you  
 structure of a **Manifest** Body, such as a sun or planet, you have four

---

Page: 216

---

 all of our **manifest** forms that we know of, are. Then we have these  
 ourselves that is **manifest** in an atomic state in the mental body of Earth,

Page: 217

 body structure that **manifests** the planes from this, there have been mutations done to  
 the light body **manifest** matter structure up here, put on opposite rotation of particle

 start to see **manifest** in the clouds. And yes, there are gates We used

 out into the **manifesting** domains and, so there are waves that come and go  
 are waves of **manifesting** that come on the end of a backflow wave that  
 in the simultaneously **manifesting** space-time, and they will still stay there. Everything is

 is inherent to **manifesting** through thought cognition, we were born into the outer domains  
 domains as a **manifestational** expression of that thought of the self that we were  
 3/3rds in **manifestation** and zero thirds in spirit where, in the Edonic level  
 two thirds in **manifestation** and one third in spirit, so there's still a direct

---

Page: 232

 the chemical telluric **manifestation** and the D-3 is the overlay. And then there  
 birth out into **manifestation** the light body structure, and the full light body structure  
 that everything is **manifest** on here. And the templates back here that form what  
 design upon which **manifest** things like subatomic particles and atoms are created from, exist

---

Page: 233

 much going into **manifestation**, that would be the manifestation current, and then this much  
 would be the **manifestation** current, and then this much going back into spirit, say  
 1/3rd in **manifestation**, 2/3rd in spirit, there's a ratio between the two

Page: 234

 The push of **manifestation** to the pull back of spirit and it gives you

 comes out and **manifests** in the larger body because in the larger RaSh a  
 later when these **manifest** outward into light body, full light body structure in the  
 in the outer **manifestation** levels. These are the Oriea, dark light vibration fields So

 here. They are **manifest** in a larger form when we get to the larger  
 cycles. Existence in **manifestation** is electrical and electricity is really Ecktricity and it has  
 turns itself into **manifest** expression. All right, anyway, next one. [graph] The MCEO

 whatever that is **manifesting** through this light body structure. So, triad, Ecousha will be

---

Page: 243

 one form of **manifest** form, the others will break down but still go outward

---

Page: 247

 the circulation between **manifest** and nonmanifest has been cut, and that's what the Metatronic  
 between manifest and **nonmanifest** has been cut, and that's what the Metatronic teachings teach

Page: 251

 Mana out into **manifestation** This also has to do with the manifestation process. They  
 do with the **manifestation** process. They haven't gotten into that yet but I've seen  
 you how to **manifest** stuff eventually by understanding the cycles and whether you make  
 you can actually **manifest** things or events or whatever. So, that's part of eventually

---

Page: 252

 light body that **manifests** on it- where whatever is in the outer light body

---

Page: 253

 RaSh a body **manifests** itself outward. This is the dark matter pattern behind the

---

Page: 256

---

 now it is **manifesting** in the structure of the RaSh a body, and all

---

Page: 259

---

 What this **manifests** as when it becomes the elemental template or the density  
 the, this would **manifest** as the air commands or the gasses and the 13-

---

Page: 262

 that govern and **manifest** outward into the Light Body Level ... into the particles  
 Elements, that would **manifest** from that. These would be elements that this would be  
 you know, will **manifest** out. They will give it to us in words that

---

Page: 264

 Body, the Outer **Manifest** Light Body Structure forms And the first thing that it

---

Page: 265

---

 have 4 clockwise **manifesting** fields and counter clock ... corresponding in the same place  
 the Matter Itself **Manifests**. Cause we are inside of our Light Body. Our Light

---

Page: 266

---

 and it would **manifest** out through the whole thing. I get a feeling there

---

Page: 271

---

 the uh ... **manifest** Body of Kryst or Krist, as it's often, you know,  
 Thrust of the **Manifest** Form and the Pull Back that the Spirit Body is  
 have 2/3rds **manifest** and 1/3rd back. That would give you a different  
 that keep the **Manifest** Universe together. And it's because of the Pull from the

---

Page: 272

---

-  its energy in **manifestation** and zero of its energy in that Spirit Body Form
  -  2/3rds in **manifest**, but 1/3rd in Spirit So this is the first,
  -  you're out in **Manifestation** in these Forms. If a being can't make the, the
- 

Page: 274

---

-  things that were **manifest** physically to us. So it, it's really ... it's, it's
- 

Page: 278

---

-  being before the **manifestation** of the Tauren, but after the first triad is formed
  -  in the outer **manifestations** But, where it comes from, where it first starts has
  -  pushed, thrust into **manifestation**, and how much is being pulled back into the Spirit
  -  door of the **manifest** into the Spirit body. And if you can understand the
  -  field before the **manifestation** parts that become the light body are formed, that would
- 

Page: 279

---

-  comes out into **manifestation** It does exist within as an individuated space within the
  -  within the non-**manifest** eternal consciousness field of Source, and then from that and
  -  field, emerges the **manifest** side that becomes the light body structure that becomes the
- 

Page: 280

---

-  like here's where **manifest** is. You're in the manifest and somewhere back behind there
  -  You're in the **manifest** and somewhere back behind there through the creation point is
  -  out on the **manifest** side, and this would be the stuff going back into
  -  are further into **manifestation**, some of which are further back into Spirit. And this
- 

Page: 281

---

-  between Spirit and **manifestation** So, if you understand that Spirit and the undifferentiated consciousness
  -  is where the **manifest** side takes place. This is really difficult to draw the
- 

Page: 282

---

-  the line in **manifest**, and this is the line in Spirit- on that side
  -  Spirit that's not **manifest** The first Cousha has Y, of its quantum in manifest
  -  its quantum in **manifest** and Y, of its quantum in Spirit Its quantum is 3
  -  and half in **manifestation** The first replica, we'll call it Cousha rep. 1, replication
  -  3rd out in **manifestation** and 2/3rds back in Spirit The MCEO Freedom Teachings

 is out in **manifestation** and 2/3rds is back in Spirit so if you

 is out in **manifestation**, 2/3rds of 3 is in Spirit pulling that way,

 that way and **manifestation** pushing this way. There"s a differential between the numbers and

 one Partiki in **manifestation** and 2/3rds of it, 2/3rds of 3, which

 holding that- the **manifestations** built on the manifest side of it, into manifestation When

 built on the **manifest** side of it, into manifestation When you get to a

 of it, into **manifestation** When you get to a quantum set, and I don"t

 sit half in **manifestation** and half outside of it, and they are specified quantum

 its out in **manifestation**, 2/3rds of it is in Spirit, which is different

 have 1/3rd **manifest** and 2/3rds in Spirit of whatever its quantum would

---

Page: 284

 itself out in **manifestation** and 1 /3rd of itself in Spirit, so 2/

 of 6 in **manifestation**, 2/3rds of quantum 6, 1/3rd of quantum 6

 it out in **manifest** side, and none of it in Spirit form This gives

 with 2/3rds **manifest** and 1/3rd in Spirit- so you have 2/3rds

 be the core **manifest** ones on the manifest side. So, we have, so far

 ones on the **manifest** side. So, we have, so far we"ve gone on through

 power out in **manifestation**, and 7.5 Partiki power in. This is an equilibrium unit

 of 15, Y, **manifest** and Y, in Spirit. Next one. [graph] [OVO-R

 6th of it **manifest** and 5/6ths of it on the Spirit side so

 3 Partiki in **manifestation** Now, it gets really weird, if this weren"t enough. Here"s

 3 Partiki in **manifestation**, and 15 Partiki power in Spirit. So, you would get

 times- on the **manifest** side you would get 7 times, the 7 times rep

 would be 21 **manifest** quantum, and then you"d have 15 times 7 gives you

 I believe, 105 **manifest** quantum, or not manifest quantum, on the Spirit side. So,

 quantum, or not **manifest** quantum, on the Spirit side. So, this gives you the

 you the 21 **manifest** and 105 Spirit ratios, here, and it creates, I won"t

 power of three **manifest**, but it creates what are called the 7 Suns, 1-

---

Page: 286

 and this actually **manifests** right down into our microcosm of our bodies and the

 door between the **manifest** and the Spirit So this, the Eye of God construct

 line between the **manifest** part of creation, and the Spirit part of creation, that

---

Page: 287

---

 and this is **manifesting** in light radiation form So, this is a different form

 and half in **manifestation** Then you have the times 1 rep which is the

 1/3rd in **manifest** and 2/3rds in Spirit. So, that one is here.

 the door in **manifestation**, and behind the door in Spirit. And this gives you

 way out in **manifestation**, and sphere 4 is here, colors would really help with

---

Page: 288

 Between Spirit and **manifest**, and I don't know exactly what it does other than

 between Spirit and **manifest** So, what we're going to be doing is actually traveling

---

Page: 289

---

 itself that are **manifest** as those things. So, it is a different quality. You

---

Page: 292

---

 stands between the **manifest** side and the- it is the seed of the of

 is in the **manifest** side, part of which is manifest and the Spirit side,

 of which is **manifest** and the Spirit side, part of which is Spirit The

---

Page: 293

 strange mural is **manifesting** itself through me on our wall. We had the one,

---

Page: 294

---

 being 3/3rds **manifest** and zero in Spirit body, to a full Starfire Adashi

 to 2/3rds **manifest** and 1/3rd in Spirit This is like halfway to

 its 3/3rds **manifest** into a state of half manifest and half in Spirit

 state of half **manifest** and half in Spirit This is the point; they're calling

---

Page: 299

 side is the **manifest** side. The flows combine the spirit and the manifest in

 spirit and the **manifest** in different proportions characteristic to the quantum, and stuff that

 imprint, and it **manifests** itself into the manifestation of a gene code imprint, that

 itself into the **manifestation** of a gene code imprint, that brings the literal Eye

 down into a **manifest** expression form in the form of eye structures that ...

 not as densely **manifest** It would correspond with the All urea and I believe

 that the whole **manifestation** transduction sequence circulates. So, it is also where manifestation occurs.

 is also where **manifestation** occurs. It's a similar process as how the eyes work  
 things exhale into **manifestation** and come back in -how the hologram is actually

---

Page: 300

 and out into **manifestation**, and manifesting into the matter forms that are living within,  
 into manifestation, and **manifesting** into the matter forms that are living within, or structured

---

Page: 301

 the two thirds **manifest** and one third state So, you'd still have physicality, but

---

Page: 308

 bringing them into **manifestation** in a three dimensional manifest form, as if taking an  
 a three dimensional **manifest** form, as if taking an idea of a hologram, and

---

Page: 321

 both healing and **manifestation** power, as well as very accelerated slide potential of the

Page: 324

 coming into frequency **manifestation** through the art image The art image -we will

---

Page: 331

 come out into **manifestation** from the Spirit Body. So what we'll do is-because

Page: 332

 Planetary Core actually **manifests** in the fertilization process where our first cell, what is

 where you can **manifest** things directly like people, friends and things. Yes, but you

 coming out into **manifestation**, and the other one would be the counter manifestation that

 be the counter **manifestation** that keeps it in balance. That would have the EirA

 are 1/2 **Manifest** and 1/2 in Spirit, and you pull into Rash

 into the physically **Manifest** Body and that is what we're aiming to do- as

 where you're actually **manifested** outside. The MCEO Freedom Teachings® Series Presented by Adashi

-  it's not, Source **manifestation** doesn't come into expression until Partikl1 is split by Partikl
-  motion. The First **Manifestation** equals back-flow return Spark 1, the atmic. Its 360
-  it's 2!3 **Manifest** and 1!3 Spirit. Now here is where, to get
-  to the first **manifestation** back-flow return- now a back-flow spark is one
-  that's the first **manifestation**, that's when whatever that quantum was that was sent back
-  of quarks that **manifest** here that science has seen as far as, it's this

-  and the Body **Manifest** form -the Body Manifest has to do with energies
-  -the Body **Manifest** has to do with energies that expand out in front
-  here is the **Manifest** side, this has to do with probably ManA based currents
-  is 1/2 **Manifest** and 1/2 Spirit and that forms Ketheric Matter. So
-  is 2/3 **Manifest** and 1/3 in Spirit And Partikl 2 is 1/
-  is 1/3 **Manifest** and 2/3 in Spirit So they each bring a different

-  its quantum is **Manifest** and 2!3 of it is in Spirit So you
-  power. 1!3 **Manifest** which means quantum of 1 Partikl power positive in Manifestation
-  power positive in **Manifestation** and 2 Partikl power in Spirit So this, you can
-  than there is **manifestation** thrust going outward. If you had a positive G-force,
-  the power of **manifest** thrust, going out, turning around and then pushing back against
-  back against the **manifestation** current coming out So gravity is actually formed by what
-  what was the **manifest** current say from the pulse before going all the way
-  interfacing with the **manifesting** current that is coming out this way and literally creating
-  quantum from the **Manifest** force equal to itself and holds that back. Whatever is
-  energy or the **manifesting** energy expressing outward that is held back by the pull
-  part of the **manifesting** energy. If you have ManA going out and ManA splits
-  beginning of literally **manifestation** of matter and the conditions of tension and release that

-  of 3, one **manifest** and two pulling back. That gives you a positive 1
-  3 of it **Manifest** and 1!3 of it in Spirit This creates what
-  power, 2/3 **Manifest** means 4 Partikl power Manifest, 2 Partikl power in Spirit,
-  4 Partikl power **Manifest**, 2 Partikl power in Spirit, and that is positive 4
-  3/3 in **Manifestation** and 0 in Spirit, 0 behind the Creation Point Door.

 power, 3/3 **Manifest** and 0 in Spirit Which is, it's a really pushing  
 of 12,2/3 **Manifest**, 1!3 Spirit which means 8 in Manifestation and 4  
 means 8 in **Manifestation** and 4 in Spirit Partikl power and that gives us  
 15, 1/2 **Manifest** and 1/2 Spirit This is interesting, when you got  
 of 15-is **Manifest** pushing forward 1/2 of it, 7.5, is pulling back,

---

Page: 389

---

 quantum 1/3 **Manifest** 2/3 Spirit gives you a negative 12 Gforce, which  
 Partikl power positive **manifest** Partikl equals 21, alright This is this times 7 equals  
 21 Partikl power **Manifest**, 15 Partikl power in Spirit from 6 times 7, equals  
 structure Spirit side, **Manifest** side .. If you will notice, now each of these  
 way out in **manifestation** -then you got 4 that goes here, you see  
 them are in **Manifest** You got 5 here, you got 6 here, and then

---

Page: 390

---

 In fact they **manifest** from a configuration like this that we have on a  
 Field and the **Manifest** Body. And it is opening those chambers that allows for  
 flowing outward toward **Manifestation** and you have ones flowing backward towards Spirit  
When we

---

Page: 391

---

 like Spirit and **Manifest** pull together and replicate quantum right there. And when they  
 becoming the differentiated **manifesting** Consciousness Field of Source. So it allows the  
quantum to  
 there, that is **Manifest** side over here, so this is front and that's back,

---

Page: 392

---

 between Spirit and **Manifest** And here are the same Kathara grids if you put  
 Spirit than in **Manifest** and this one has more Manifest than in Spirit So  
 one has more **Manifest** than in Spirit So that is considered the Spiritual Eye,  
 represent the Living **Manifest** Spirit Body of the Eternal Kryst, the KaRaYa Sa Ta

---

Page: 394

---

 of the door **Manifest**, so you have KaLA. That is where you get these  
 its journey from **manifest**- cause remember it sparked out here, this is the Manifest  
 this is the **Manifest** side and this is the Spirit side of Creation Point  
 its journey from **Manifest** to Spirit initiating creation of the atomic and etheric domain

---

Page: 395

---

 and 1/2 **Manifest** And in the core of the Core you actually have  
 a 1/3 **Manifest** and 2/3 in Spirit This gives you the Core.  
 have the Inner **Manifest** and that's 1/2 and 1/2 and that's Ketheric.  
 middle 2/3 **Manifest**, 1/3 Spirit, that is Telluric-Atomic. So you have  
 or the Outer **Manifest**, 3/3 Manifest, 0 in Spirit Now each of these  
 Manifest, 3/3 **Manifest**, 0 in Spirit Now each of these simultaneously forms with  
 has 0 in **Manifestation** and 3/3 in Spirit, so it's actually another body.  
 same time it's **manifesting**, you have the 4 E-Yana Bodies, 1 -see,  
 Point, Transfiguration 1 **Manifest**, which is this point right here. So that KaLA Spark-

---

Page: 397

---

 3 Yan-Yun **Manifestation** Seeds that form the Spirit Seed Atom. So here is

---

Page: 398

---

 LUma Eterna can **manifest** into the body structure And the problem here is we

---

Page: 399

---

 Body and the **Manifest** And it's also what allows the Spirit to pass Home

 it's leaving a **Manifestation** So we, because we have had this closed in our

 Sala. On the **Manifest** Side, it's called the Sila and that's the Silica and

---

Page: 400

---

 first 8 Eternal **Manifest** Cells of the Spirit Body, all right, and these connect

---

Page: 401

---

 one representing the **Manifest** Side. Now the one we've been looking at, we have

 at, we have **Manifest** in the front here, and the Spirit in the back,

 Cells that literally **manifest** the currents that form the different Domains. From here, they're

 and that's the **manifest** that's template spirit for that, and that's manifest. But there's

 that, and that's **manifest**. But there's something with these and they do something, and

---

Page: 403

---

 it into a **manifest** form, but that form will have boundaries within the expanse

---

Page: 405

---

 Light Body that **manifests** larger. From that you would have layers of these that

 which is the **manifest** eternal body of Kryst And tomorrow we'll look more probably

---

Page: 408

---

 There is a **Manifest** Spirit Body that stands between the Spirit Body and the  
 it becomes "**manifest**" and then it becomes "materialized" into matter So, we

---

Page: 409

---

 through into the **manifest** forms that carry this configuration, the natural configuration of the

---

Page: 410

---

 a 3-dimensionally **manifest** hologram. But it's enough to understand that they interface with

---

Page: 411

---

 us, everything in **manifestation**, are connected to and actually reside within. So, it's kind  
 Light Body and **Manifest** Body that exist within that larger structure, but that is  
 what is the **manifest** body of Source ... and that manifest body of Source  
 ... and that **manifest** body of Source is the Krystar entity or the LUma-

---

Page: 412

---

 realize we, our **manifestation** fits in here, going upward here, past our manifestation, past  
 here, past our **manifestation**, past span 12.5, into the 13, 14, 15 fields, we

---

Page: 413

---

 it will actually **manifest** around us, so we'll be inside of the Adashi 1  
 our body, our **manifest** body, "manifest" in these spaces. However, when we look  
 manifest body, "**manifest**" in these spaces. However, when we look at our embodied

---

Page: 414

---

 the Light Body **manifests** the material body. So, I just wanted you to see

---

Page: 415

---

 cycles as your **manifest** field, that would imply this would be fully activated. But

---

Page: 416

---

 And on the **manifest** side there would be 6 Ma-Ta-EI's. And you

---

Page: 418

---

 it, as the **manifest** Now, if we were looking at ourselves that way, and  
 diagrams where "**manifest**" is going that way and "spirit" is back there,  
 you got the **manifestation** going out this way and at the same time, from

 a current of **manifesting** going out in front of us, and then the Spirit

---

Page: 419

---

 that's where the **manifesting** currents would come through. And that's where the Spirit manifesting

 where the Spirit **manifesting** currents would come through, going in the opposite direction all

 know the "**Manifestation** Transduction Sequence," well they're starting to show us more in

 will hold matter **manifestation**. But, if the Spirit doesn't come in, this body will

---

Page: 420

---

 and the natural **Manifest** Body. So, first we're going to see what it's supposed

 frequencies are, we're **manifest** in here and eventually we would manifest and grow ourselves

 eventually we would **manifest** and grow ourselves out into full expansion into it. And

---

Page: 421

---

 we'd have the **Manifest** Currents moving forward and the Spirit Currents moving back from

 by which we **manifest** existence as we go forward in time that has to

 was on the **Manifest** Side, looking at it from the side, and whatever was

 that determines the **manifest** side and the spirit side. So here, at this line,

 which is the **manifestation** current, gets stepped down to become a materialization current called

---

Page: 422

---

 base-1 0 **manifestation**, when you cut the rest off from it. The Ma-

 your Spirit Body, **manifests**, and the currents are going this way, facing that way.

 this is the **manifesting** body here ... part of the Spirit that turned around

 part of the **manifestation** energy coming back on a return, creates this body. This

 Body that is **manifest** in the embodied Spirit body, which is the Eiradonis body.

---

Page: 423

---

 have our physical **manifest** body here. Behind it, we have the Eiradonis that should

 creates the physical **manifest**, you have the Eiradonis template body here, that, that is

 things that are **manifest** right in our bodies that connect to these frequencies. And,

 they would each **manifest** a part of the body from that Cousha; part of

 part of the **manifest**. And each one would have a key part in the

---

Page: 424

---

 that create the **manifestation** and the materialization are the ones that are riding on

 the things that **manifest** on the EirA current are going backwards from that point,  
 the Spirit Domains **manifest**. So, if we can understand this, understand that there is  
 10 quantum's worth **manifest** as "matter body" and there's still the void of  
 that makes the **manifestation** go like this, where the Spirit body is facing the

---

Page: 439

---

 body structure that **manifests** on the Rasha structure That's what the vertical maps are

Page: 440

 that were already **manifest** in our EckaNeca system It was at this point of

---

Page: 443

 part of it **manifests** in the ElorA side, part on the AdorA side, and

---

Page: 469

 for the ElorA **manifest** side. Just like the Ecoushic Record would hold the Divine  
 for the AdorA **manifest** side. So, we have the Akashic Record as the core  
 event horizons, one **manifesting** out this way, and one manifesting out this way. One  
 way, and one **manifesting** out this way. One will be ElorA and one will  
 say if the **manifestation** was moving this way, projecting outward from the center, this  
 to form a **manifest** ElorA field, the Spirit Body of the ElorA would manifest  
 the ElorA would **manifest** over here. Over here would also be the manifest AdorA  
 also be the **manifest** AdorA body, and the Spirit of the AdorA body would  
 AdorA body would **manifest** here with the ElorA manifestation, and that would be the  
 with the ElorA **manifestation**, and that would be the Eiradonis Body. Now, only if

 Body and the **manifest** body are supposed to phase together naturally into the center,

---

Page: 471

 on the AdorA **manifestation**, if you wanted to do that with your body. Well,

 mean it was **manifesting** in my life, and people were coming at me in

 of it is **manifest** on the ElorA side and half of it is manifest

 of it is **manifest** on the AdorA side, so from one side you only

 the Spirit Body **manifests** first before the Light Body manifests. So that ... this

 the Light Body **manifests**. So that ... this is the process by which not

---

Page: 13

 comes out into **manifestation** through the Core, the Inner, and the Middle and Outer

---

Page: 15

---

 of it is **manifest** and how much of it is, let's say, in AdorA

Page: 17

 with that, with **manifesting** and de-manifesting. Because we'll actually know the structure. It's

 manifesting and de-**manifesting**. Because we'll actually know the structure. It's a lot more

 the like reverse **manifestation** of what you were aiming for. It's because of the

---

Page: 23

---

 bring a ManA **manifestation** and its Adjugate together. When you bring them together it

 allows for the **manifestations** on both sides to pull into wholeness into the center,

 different state of **manifest** being, where you can be all over at once, and

 and you can **manifest** yourself as anything or nothing and all of that kind

---

Page: 27

 the AdorA side **manifestations**. Just like their Spirit Body is over here with us,

 us, because their **manifest** body is there, and their Spirit Body is our Eiradonis.

---

Page: 28

---

 energy consciousness is **manifest** as the stuff we know as matter. And really ...

---

Page: 30

---

 out again into **manifestation**. It is the process by which Star Gate passage is

 back out into **manifestation**, and individuality, and then come back into light and go

---

Page: 38

---

 literally holding into **manifestation**. So, there's certain things that you can get a bit

---

Page: 40

---

 right, and two **Manifest** Bodies, completely together: Manifest and Eiradonis, Manifest and Eiradonis; then,

 Bodies, completely together: **Manifest** and Eiradonis, Manifest and Eiradonis; then, the two sets together

 Manifest and Eiradonis, **Manifest** and Eiradonis; then, the two sets together in the center.

---

Page: 49

---

 this where we **manifest**, it would imply, first of all, that our Spirit manifested

 that our Spirit **manifested** out on this Vector in the AdorA System. And, it

 is an AdorA **Manifestation** in the AdorA System, over here. And that is what

---

Page: 52

---

 within the Cosmic **Manifest** Spirit-Ecka Location Map of Cosmic Light Body with the

---

Page: 53

---

 means are the **Manifest** Vectors have a specific Vector Line set; they run the

 Adjugate is the **manifest** one on the opposite side, on AdorA. We have another

---

Page: 54

---

 on, in the **Manifestation**, through the Eckashi Expansion Cycles, or through the Expansion Cycles,

 that actually form **manifest** bodies. This applies to planets and stars, and those kinds

---

Page: 55

---

 solar, or any **manifest** body, you have at the 9.5 level, is where it

 part of the **Manifest** Body. And the Outer Layers form the Atmosphere. So, here's

 the stuff that **manifests** from the Sixth Geleziac Layer that has sets of Gates

---

Page: 56

 system, it's physically **manifest**. Then, we have the Sha-La 3 that is part

---

Page: 57

---

 is a physically **manifest** system that resembles Earth, but was here, actually, before Earth

Page: 58

---

Page: 81

---

 that creates a **manifest** space the things from here can move into there but

---

Page: 86

---

 the AdorA side, **manifest** AdorA side, are called the Adjugate Sites. For every Spanner

---

Page: 97

---

 would be your **manifest** ManA in the EtorA side, and across that same Vector

 would have the **Manifest** System of your Adjugate; so they'd be Adjugates, and then

 you have the **Manifest** Spirits. The Manifest Spirit is, if your Adjugate is over

 Manifest Spirits. The **Manifest** Spirit is, if your Adjugate is over here, its Spirit

 you have a **manifest** system and its Eiradonis, that is a Conduit Twin Set.

 Adjugates are 2 **manifest** ones that are on the same Vector-one on AdorA,

 Twins are the **manifest** system plus its Ad jugate Spirit Eiradonis with it, alright.
