 the D-4 **pulse**. We need to head that off at the pass, or

Page: 72

 already a pre-**pulse**, I felt it come through right after dinner, it was

 that kind of **pulse** before, was when they activated the Wesedrak Spear of Destiny

 was a Bourgha **pulse** coming in probably a pre-pulse, as they are sending

 probably a pre-**pulse**, as they are sending stuff from the Bourgha Matrix through

 things that these **pulses** can do, they attempted a reanimation, I don't know if

Page: 73

 pulses, the Triangulation **pulse** that they had sent to try to take back the

 to send the **pulses** into Giza that will start the forced Bardoah process so

 those kinds of **pulses**. So the first technique that we will end up doing

 why they can **pulse** into that- it is already compromised. On the D-31 level

Page: 74

 currents and the **pulses** from the Bourgha Matrix, the Triangulation pulses, and these are

 Matrix, the Triangulation **pulses**, and these are what's going to be progressively coming in.

 so when they **pulse** it, to try to split it and cause the ...

 There is a **pulse** coming through this one. What that means is, they're aiming

 That was a **pulse** through the big one, so it wasn't hitting the emotional

 is that they **pulsed** her so hard that first it created an accretion and

 they threw the **pulse** so hard and fast that, that it threw the blood

 is what these **pulses** can do, it's heinous; it's disgusting what they can do

 A- and B-**pulses** and they are feeding them in an Arc directly into

 right before the **pulse** came over and hit us, when they took those out

Page: 93

Page: 107

 we are getting **pulsed** with what they're are calling a D-1 frequency of

Page: 112

 BPR"s-the base **pulse** rhythms-that control the ... what are called the??? so

Page: 120

 from there the **pulse** will create and get stronger and they'll probably amplify them

Page: 151

 in the base **pulse** rhythm. And it was funny because we had the radio

 a particular base **pulse** rhythm and you could feel it accelerate in your body"s

Page: 154

 there is a **pulse** of some sort coming in. Not directly at us but

Page: 159

Page: 185

 When the Tauren **pulses**, it pulls in. When it"s in its expanded state, it"s

 pull in and **pulse** and that"s when they spark and then they go into

 and then it **pulses** back out and it releases a burst of sparks that

Page: 188

 with how many **pulses** of the Tauren create how many sparks. Those sparks align

Page: 193

 six contraction/expansion **pulses** and replications and it creates ... and I'm not sure

Page: 308

 they'll use certain **pulses** to tap that line. You'll get half a line that's

Page: 116

 when the Red **Pulse** was coming, and it's just like, everything stands still ...

Page: 117

 into that Base **Pulse** Rhythm all right. So it's good to work with the

Page: 140

 like a "**pulse** through" on occasion, and that's when you might get like

Page: 148

 in waves like **pulses** and then stops. This is transmuting stuff in the bone

Page: 152

 BPR, the Body **Pulse** Rhythm ... the base pulse rhythm is a little bit

 ... the base **pulse** rhythm is a little bit high in the Shield. All

 this, the base **pulse** rhythm of the Shield after we've climbed up to the

Page: 156

 picking up Base **Pulse** Rhythm actually, as we wait here. The AdonA are going

Page: 172

 -like little **pulse** streamers- and then made this huge- going up, I can't

Page: 204

 Sparks, the Tauren **pulses**, it contracts in and makes Sparks and then pulses back

 Sparks and then **pulses** back out and contracts in. It makes and collects Sparks

Page: 238

 it's called a **pulse**, right It contracts in and it makes a spark and

 lines. So one **pulse** creates a spark that then goes phhtt, and becomes 12 little

 up with 12 **pulses**, you create a set of 12, 12 point sparks so

 the first 12 **pulses**. The next thing that happens is, there's a larger contraction

 when the 12 **pulse** hits, there's enough quantum generated that it makes the whole

Page: 239

 more this thing **pulses** and makes more sparks and makes more sets of harmonic

Page: 240

 on the next **pulse** they both go back in, come back out You keep

Page: 241

 Tauren starts its **pulse** phasing where it generates sparks and creates takeyon cycles. So

 or the 12 **pulses** that made 12 sparks. The MCEO Freedom Teachings® Series

 form a spark **pulse** current that begins what's called the Krystal Spiral. The Krystal

Page: 243

Page: 304

-  catch a blue **pulse** coming off, like an aqua blue pulse, the Aqualene color.
-  an aqua blue **pulse**, the Aqualene color. When you take that back one step,
-  they would first **pulse** in, and eventually, when you're going into Krystar activations ...

Page: 305

-  they'll actually be **pulses** of frequency that are coming through the eyes. They will

Page: 306

-  literally, the 12 **pulses** coming through, where they'll be on the full 12 axis,

Page: 313

-  but like in **pulses**. Then we started getting green divers. People. Lots of there's

Page: 329

Page: 341

-  PartikE, and each **pulse** creates a set of 12 sparks and it fills the

Page: 343

-  where the PartikE **pulses**, it makes sparks, the sparks build up to form Harmonic

Page: 346

-  I think 12 **Pulses**, every pulse creates a set of 12 sparks and after
-  12 Pulses, every **pulse** creates a set of 12 sparks and after 12 pulses
-  and after 12 **pulses** you get a set of 144 sparks, and that's enough

Page: 350

-  Yunasai doing its **pulse** cycle, generate enough quantum, popping off into Source and coming
-  these 6 layers **pulse** and interact with each other, and again, they pull into

Page: 351
