 and the bio-**regensis** program-this is where we find out our "caveman"  
 the Anunnaki bio-**regensis** programs. The Anunnaki had created certain hybrid races that gave  
 those attempted bio-**regensis** attempts ... a lot of them failed and they became

 carry the general **bioregenesis** codes of Aquari from Seeding 3 -this seeding that

 Krystal Heart healing **regenesi**s, you would simply be able to teach them, so they  
 to trigger cellular **regenesi**s at a rate we've never had before with Kathara or

Page: 20

 of the rapid **regenesi**s Because what is happening is with the fact The MCEO

Page: 21

 a very rapid **regenesi**s upgrade. We're all being given the Krystal Heart codes. Which  
 it's activated, this **regenesi**s as well. So, it gives them a chance not to

 nurseries. Because the **bioregenesis** nurseries of souls who can't make it off this planet

---

Page: 42

---

 a chance for **regensis** This will be their last chance for regensis, where they  
 last chance for **regensis**, where they can get enough to possibly slide. If they

Page: 72

---

 a lot of **regensis** that took place as well, so it was a victory  
 who could be **regensis**, or rehabbed in as far as their gene codes, to

Page: 73

---

 they attempted a **regensis** and the best case scenario the regensis would have helped  
 case scenario the **regensis** would have helped so it never got this far, but

---

Page: 74

---

 But the **regensis** of the Kristiac codes via the Aquaferion race line that  
 we're doing the **regensis** here of getting the Krist codes back into the human

---

Page: 76

---

 with the bio-**regensis** here and getting our slide gates open. So, it's a

Page: 112

 begin the Cellular **Regensis** Process that will be needed in order to be able

 potential for cellular **regensis**, working with the Core Flows and the Krist Flows. Because

 healing of the **regensis**, and we're just starting that And we'll start it with

Page: 165

 places--either the **bioregenesis** interventions that were given during Seeding-3 between 11.500 BC

---

 the Aquaferion hybrid **regensis** lineage, that was a combination of the Bhendi Aurora Races

 more rapid bio-**regensis** and potentially, at some point, even beginning to at least

Page: 185

---

 opportunity for the **regensis**, the genetic regensis, and they are going to begin teaching  
 regensis, the genetic **regensis**, and they are going to begin teaching us. They already

---

Page: 187

---

 deal with the **regeneration** You know how to understand what is happening, they'll keep

---

Page: 189

---

 the more cellular **regeneration** you'll be able to do. So we're involved in a

Page: 215

 were from the **regeneration** experiment. The first line of them were raised on Urtha

Page: 295

 much faster bio-**regeneration** for us, but what it will do is it will

 it for cellular **regeneration** and for healing things that were out of alignment with
