 have had to **release** this information, and show how it stands next to the

 not usually even **released** out in the Outer Domains as information, because they are

 were going to **release** bursts of things that were toxic, radiation levels that were

 it, it can't **release**. It has to circulate. Now it hits a buffer field,

---

Page: 20

 wave that was **released** when the first opening of what's called Ring 1 occurred.

---

Page: 32

 a major pulse **released**, and then some other strange stuff. So, I don't know

---

Page: 37

---

 and when it **releases** again it lets the sparks go and when it does

---

Page: 39

---

 and every pulse **releases** a burst of sparks and after 12 sparks you get

---

Page: 48

---

 just wasn't being **released**, actually. The next thing that happens ... you have number

---

Page: 58

---

 and sparks and **releases** ... sparks a prana unit and sends that as backflow,

---

Page: 71

---

 why I haven't **released** any of this stuff. It's just barely legible to put

---

Page: 95

 of controlled Net **release**. Because if you just shut the things off and block

 kind of controlled **release** of the Nets. I think. If not, they're preparing us

---

Page: 96

 them before we **release** them. But they showed them in relation to not only

---

Page: 106

 doing. If we **release** the Nets progressively on a base pulse rhythm that works

 maps. Before I **release** any of these for publication, I want to make sure

---

Page: 120

 ring pulse is **released** from the Sun in Spring of 2008. We'll already have

 that burst is **released**, even if some of it still gets through, the transmutation

 to Source. It **releases** a flow of mana energy. Prana is the stuff that

---

Page: 140

---

 backflow return is **released**, after the seed atom receives its prana spark, and releases

 prana spark, and **releases** its mana spark, there's stuff that happens where it creates

 it triggers the **release** from the seed atom of a mana spark. The mana

 ... now that **releases** something called a ManU spark. So something happens, you have

 one. Then they **release** a huge ManU spark, and that goes back down as

---

Page: 141

 creation point, that **releases** an Eck spark, a positive charge Eck spark, which is

 vibration that is **released**. They are called the OrEa tones. As the OrEa vibration

 not supposed to **release** stuff from these classes, just because some of it it'll  
 say, please, don't **release** most of this stuff to people. There's going to be  
 it will be **released** to the public. But anyway, um, what you're going to  
 is a wave **released** at that point that is still carried on the live

---

Page: 293

---

 that will be **released** in the larger workshops that everybody can come to, when

---

Page: 330

 when the wave **released**. And you will still get it because that recording was

 Ring Waves that **release**, and in our solar system it's going to be about  
 each Ring Wave **releases** one layer of the 15 layers of the Rasha Body

 when the contraction **releases** and the three Partikl come back out, the sparks move  
 and sparking and **release** of contraction And those sparks go somewhere. Sometimes they'll  
go

 it opens, it **releases** those sparks to the Fire Lines. So it will be

 it's going to **release** those so the split, there is split in the Milky

 what is being **released**. This is a harness, and we all have one of

 life, if you **release** these seals and that one, together, they create the 6-

 If you can **release** the seal, the set of seals here, and this center

 once they are **released** the entire ... this releases, the arcs will come back

 entire ... this **releases**, the arcs will come back up. So, a portion of

 are open, that **releases** that series of seals that altogether is the 666 seal

 666 seal which **releases** all those petals. It releases each little star point on

 those petals. It **releases** each little star point on the petals. If you can

 we're going to **release**. It will not take long, they're just waiting for actually,
