 final path of **Space-dust** Return? The "choice" is seriously "our own,"

Page: 29

 consumption and eventual **Space-dust** Return. Over long, progressive cycles of M31-HOSTED organic

Page: 50

 the path of **space dust** return before it would be taken into the Wesedrak

Page: 53

 gone back to **space dust** with them because of its proximity because they are

Page: 72

 back to the **space dust** pattern, but they did that to protect us. They

Page: 88

 go back as **space-dust** return, or Starfire return whichever way it went, at

Page: 91

 it does a **space dust** return through a Starfire cycle-its own Starfire cycle.

Page: 92

 rapidly back to **space dust** return They can't continue eating stuff like this, they

Page: 93

 them back to **space dust** instantly. The better option is giving them the option,

 want to do **space dust** and go with the part of Earth that will

Page: 118

 them back into **space dust** if you try to bring them through if they

Page: 164

 back into a **space dust** return spiral, but so would have our matrix way

 go back as **space dust**, you can get everybody off the planet at that

Page: 165

 go back as **space dust**. **Space dust** is blessed too Now there are people

 some day as **space dust**, however this planetary system and this sun system, has

 themselves back as **space dust** as we go through this. This is one of

Page: 168

 fall and eventual **space dust** return But it isn't that severe from the perspective

Page: 170

 would go into **space dust** fall if the Gyrodome technology were applied 450 BYA.

Page: 244

 going back to **space dust** So, this is why for the whole time we

Page: 245

 go back to **space dust** very quickly because we'd be over saturation of frequency

 have gone to **space dust** and would have imploded a long time ago but

Page: 263

 them into a **space dust** return, we would have been dragged in with them.

Page: 266

 brought back to **space dust**, or taken into a fall like Bourgha Assimilation, and

Page: 270

 go back as **space dust** instantly when it tries to pull in with Urtha,

Page: 271

 it will do **space dust** return, if Earth can Hold the Status of a

 goes back to **space dust**. And then when that System goes in its next

 natural Starfire, any **space dust** that's left from anything that did that goes home

 go back as **space dust** and have a free-for-all while you're down

Page: 273

 go home as **space dust**" No [laughs], they don't No, they still really,

Page: 276

 go back as **space dust** "cuz the person throwing energy at me and

 and take the **space dust** path you can do that, nobody's saying you can't,

Page: 278

 it back to **space dust** and do a re-generation before an Eckasha will

Page: 290

 trapped forever until **space dust**, in the victim/victimizer game. So it's Big, what

Page: 344

 would turn to **space dust** instantly as soon as Urtha pulled into the Edons.

Page: 393

 which is a **space dust** return, alright? Now our sciences here have for a

Page: 395

 gone back as **space dust** This was like 450 billion years ago-long, long

 wouldn't have gone **space dust** either. So they gave us time instead of quarantining

 going into its **space dust** return cycles but not all of it is going

Page: 396

 hole Fall and **space dust** return I'm simplifying a lot here, there is a

Page: 398

 can fall to **space dust** return, but Eckashas are eternal. So none of the

 go to instant **space dust** cause that is what would normally happen if a

Page: 430

 as Nova or **space dust** and then on the next natural Starfire for the

 the Eckasha, that **space dust** will be drawn back into Source. Nothing is ever

 units, you know **space dust** Partikl units. They are both considered holy by Source,

 template instead of **space dust** So they are still, their Eckasha has not had

Page: 439

 go back as **space dust** right then, but it would progressively, it would deteriorate

Page: 447

 going back to **space dust** They are now looking for some place to hop

 Matrix is going **space dust**, it is going back to Nova and, you know,

Page: 454

 natural way to **space dust**, right? So this was a learning experience also for

Page: 495

 go back to **space dust** really fast, Alright? So, we are out here. These

Page: 496

 going back as **space-dust**, which is kind of like a spark current that

Page: 42

 everything goes full **space dust** So, there is one opportunity for things that get
 status and complete **space dust** return It's good for them. It's something that they
 it's better than **space dust** return It's something ... a gift that as the

 that is through **space dust** return, where, whatever system you fall in, the body

Page: 60

 come back as **space dust** So, there is a lot ... anyway, I'm not

Page: 64

 Bardoah cycle where **space dust** return will happen. There's a point at the end

Page: 69

 go back to **space dust**, cause the rest on a natural, even on a

Page: 74

 end up in **space dust** return. What they're trying to do is postpone the

Page: 78

 do the full **space dust** path. They will have to .. we're going to

Page: 80

 once you hit **space dust** because then you don't remember it but it's the

Page: 87

 going to go **space dust** it doesn't look at that the way we do.

 That's OK, go **space dust**, ya just catch the next wave in, in pieces,

 to be in **space dust**," right? And it's like, "Don't cry for me,"

Page: 92

 through, not do **space dust** and it can take them with it when it

Page: 118

 back in a **space dust** cycle-a StarFire cycle ... they come back in.

Page: 137

 never return until **space dust** or be sucked back in to Source so it

Page: 271

 actually hit "**space dust** return," but on a System that's naturally functioning on

Page: 272

 end up in **space dust** or they can do a Bardoah at the end

Page: 273

 instead of going **space dust** and shattering here with the Consciousness stuck out here,

Page: 406

 Hole fall and **space dust** return. That Path is available to Earth and whatever

 the route of **space dust** with the Ma-ta-urs that form the matter

 Earth will do **space dust** return with Sol, with our sun, and it will

Page: 484

 not afraid of **space-dust** for myself all right. If that was the worst-

Page: 503

 inevitable return to **space dust** that occurs in a full Black hole Fall, even
 sometimes for that **space dust** return to happen. So you will see this also

Page: 512

 eventually implode to **space dust**, billions of years from now, & when that occurs,
 that occurs, that **space dust** will go back the trail to Andromeda, so the
