 to Urtha, the **Spanner**-? gate, which is the one remaining gate link into Urtha,

 to go through **Spanner**-? to get to Urtha. We have quite a while to

Page: 45

 about the 12 **Spanner** Gates that run between Earth and Urtha. Let's say there

 are not exactly **Spanners**, but they would correspond with D-13, D-14 and
 just call it **Spanner** -15 for now. We will call it a Spanner
 call it a **Spanner** Gate for now but it is actually different It is
 that connection to **Spanner**-15. Urta, which was in the South Atlantic, which is
 was connected to **Spanner** -14. And there is a place called Shala, not
 is connected to **Spanner**-13. We are sitting on it This has to do

Page: 46

 the 3 primary **Spanner** Gates-the 13, 14, and 15. They did not make

Page: 48

 went with the **Spanner** Gates so they had in their DNA templates the Spanner
 DNA templates the **Spanner** Gate codes. This is why we can open Spanner Gates
 we can open **Spanner** Gates from this side because we still carry in our
 here going after **Spanners**-13, 14, and 15. They got control of the Core

Page: 49

 that was the **Spanner**-15 shield. Only the Earth end of it, but what
 to close the **Spanner** link. The Earth side of the 15 gate had to
 Earth to Urtha **Spanner** Gates to open whether or not we were being attacked
 sitting in the **Spanner**-? zone, we are also in the Shala-13 zone. The

Page: 53

 rapidly activated, the **Spanner**-11 set in Ireland and they took control of Spanner
 took control of **Spanner** 11 that got its Threshold running at full throttle and
 11 connection that **Spanner**-11 set The MCEO Freedom Teachings® Series Presented by

Page: 54

 won't ever get **Spanner** -11 open but we've got 2/3rd control of
 to open into **Spanner**-. So the big one to protect and hold is Spanner-?
 and hold is **Spanner**-? with its connection to Shala-13, which is that 3rd
 3rd core gate, **Spanner**+ gate, that goes directly into Urtha and that is why

Page: 61

 can become a **Spanner**, whether some day whenever their natural time is they will

Page: 66

 is where the **Spanner** -13, 14 and 15 gates plug into. This is

Page: 73

 instead of a **Spanner** path out So this is real serious stuff, and what

Page: 78

 to have the **Spanner** Gates between Earth and Urtha open. It's been a long

Page: 79

 we get the **Spanner** networks at least partially open ... well, Spanner-?. Now ...

 open ... well, **Spanner**-. Now ... we got D-2 elemental and D-3

Page: 80

 to be a **Spanner**, which is someone that can take the physical body through,

Page: 90

 Arc- 7 and **Spanner**-? potential, which means they would have been able to use

 having to activate **Spanners** and everything. They are going to tell us more about

 not only the **Spanner**-7link, but it is the Spanner-13link. So, that is

 it is the **Spanner**-13link. So, that is why there has been this like

Page: 91

 basically how a **Spanner** Gate works in the sense of there are upper chambers

 Shala-13 and **Spanner**-? was opened during FOL, the lower chamber began its opening

Page: 95

 gate is where **Spanner**-? plugs in over here. Notice this one again. It shows

 here you have **Spanner** -7 set, it connects where you have the tilt

 would allow the **Spanner**-? set to come up, and interface with the natural SG-

Page: 110

 doing this on **Spanner**-7. Now, if we think of the Spanners ... if

 think of the **Spanners** ... if you see this little trail of seals and

Page: 111

 they are like **Spanner** Gates. Now a Spanner Gate would span. We haven't gotten

 Gates. Now a **Spanner** Gate would span. We haven't gotten into the diagrams that

 chambers of the **Spanner** Gate- but basically a Spanner Gate would run with the

 but basically a **Spanner** Gate would run with the frequency of the particular fire

 was connected to **Spanner-?** is connected to fire line-7, which is the only
 that is the **Spanner-?** gate that we are looking at, which would be where

Page: 114

 on line-7, **Spanner-?** if we invite them in, they will come in whatever

Page: 115

 to train a **Spannerteam** that will be able to make the physical journey because

Page: 119

 are only opening **Spanner-7**. So, there's probably all sorts of terrain in all

Page: 125

 Adashi Chamber of **Spanner-?** has been opened and made passable. You and the Tribe

 become Spanners-a **Spanner**'s path is a path where you will be ... you

 gonna open the **Spanner**-? Gate and if we don't open Spanner-7, none of
 we don't open **Spanner**-7, none of the others are gonna open and nobody
 half of the **Spanner**-? tunnel and without the other half you can't connect them
 and make a **Spanner** Gate, right? So, it's like well great We have no

Page: 161

 that means that **Spanner** -7 will be able to open. And if Spanner-?
 open. And if **Spanner**-? opens, that means there will still be the potentiality of
 for Starfire If **Spanner**-? is not able to stay open-we've got it open-
 physically to become **Spanners** where they can span the distance between Earth and Urtha
 the potential of **Spanner** -7 working so we can keep the ascension potential,

Page: 164

 managed to get **Spanner**-? open. We are now opening the rings of the seals

Page: 165

 one of the **Spanner** Gates fast, but if Lone Star Fall didn't happen for

Page: 167

 core of the **spanner** systems So they're not exactly spanner gates, they work a
 they're not exactly **spanner** gates, they work a little different But the Spanners actually
 different But the **Spanners** actually run off those three gate connections because they run

Page: 181

 the only viable **Spanner** Gate potential at this point. And again the Spanner Gates
 And again the **Spanner** Gates ... there are 12 of them that would normally
 one left is **Spanner**-. We'll see a little bit more when we come back
 specific link that **Spanner**-? connects into Urtha's natural Planetary Star Gate 7, which is
 that site and **Spanner**-? can open and link, it will keep the passages open

 Alon-7, the **Spanner**-? Gate. All right, so we will still have all those

Page: 197

 we can get **Spanner**-? open, hold it open and progressively release the Aquareion seals

Page: 204

 this is what **Spanner**-? connects into through 13 which would be at the core.

 We will do **Spanner** briefing #3 which takes from where we were tonight

 here and why **spanner**-? works through here is its because it is connected to

 connected into the **Spanner**-? set, the Arc-7 set and the HUB-7 set

 will allow the **Spanner**-? set of gates and allow an access through from Earth

 be Spanner-?. The **Spanners** refer to the-it"s another word for orbs. Orbs have

Page: 340

 ... now the **Spanner** Gates are the ones that are connected to the Aurora

 right now, is **Spanner-?**. **Spanner-?** on Earth will connect into what would be- if

 referred to as **Spanner** Gates, and they have to do with the orbs which

 they can run **Spanner-?** through. So, Arc-7 can connect into HUB-7 on

 we"re doing a **Spanner** Gate connection. The Spanner Gate connection is one that requires

 Gate connection. The **Spanner** Gate connection is one that requires activation of the RaSh

 what are called **Spanner** Gates. Spanner Gates open between Earth and Urtha, there are

 called Spanner Gates. **Spanner** Gates open between Earth and Urtha, there are 12 of

 and that is **Spanner-?**. It is connected to Arc-7 which is located in

 Gate systems The **Spanner** Gates you are learning to "span" in 12 Tribes

Page: 401

 is open through **Spanner-?** right now. You have within your own body, your RashaLAe

 pass through a **Spanner** Gate between Earth and Urtha. Spanner Gates are natural, they

 Earth and Urtha. **Spanner** Gates are natural, they are something that occur organically within

 because of the **Spanner-?** connection. They are Crystal Temples, Selenite Crystal Temples and they

 ShAion-7 and **Spanner-?** plug in, through. So we would have this, this would

Page: 37

 ran the 7 **Spanner** chamber of the Astura, when we were in Peru, because

Page: 39

 will continue the **spanner** training Anyway ... I"ll get back to this. Stairway to

Page: 47

 That is what **spanners** is about, activating the spanners between the rings of the
 about, activating the **spanners** between the rings of the RashaLAe, which is activating in

Page: 72

 to activate the **spanners** on Sol, which is what we call our sun, down

Page: 76

 fully activate the **Spanner** Network and that means all 12. That's a lot of

Page: 78

 literally follow the **Spanner** Gates all the way out to get to Urtha's surface

Page: 85

 the Adashi the **Spanner** 7 gate that is open, alright? All of the gates

 of the 12 **spanner** gates, only 7 was able to open because it would

 open all the **Spanners**. So, I believe they're beginning the process of opening all

 all of the **Spanners** but they will do it as slowly as possible but

Page: 86

 they're the one **spanner** gate that has been opened. We've been going from the

 to activate the **spanner** gates and that means it will activate the natural Rash

Page: 94

 This is the **Spanner** loop. Each of the Astura Passages has a Spanner loop

 Passages has a **Spanner** loop where that, remember it just came to here before?

 and Cuzco open, **Spanner** ?loop could open. Once the Spanner 7 loop could

 open. Once the **Spanner** 7 loop could open because we were activating with the

Page: 95

 they had their **Spanners** activated, they were hijacking these and reversing the currents in

Page: 96

 right, that's the **Spanner** loop. OK. OK. I would rather explain it this way

 this. That's the **spanner** loop, all right. So, the Astura passage becomes a Spanner

 passage becomes a **Spanner** passage that has the ability to link in through so

 one of the **Spanners** here or even Spanner 7 is what we've been using,

 here or even **Spanner** 7 is what we've been using, Spanner 7 here and
