 using the combined **Threshold** and Metatronic technologies, the Beast technologies. They were able to

 relation to the **Threshold** grid, it surrounds the wider eastern Phoenix area. It has

Page: 42

 in this particular **Threshold** issue that has been engaging our attention a little bit

Page: 43

 activation of the **Threshold** grids here. There has been something recently that has occurred,
 going into the **Threshold** technologies. The The MCEO Freedom Teachings® Series Presented by

Page: 44

 **Threshold** technologies have the ability to interface with something called the
 in terms of **Threshold**- the Threshold grids are being plugged into the time-rip

Page: 46

 we took the **Threshold** Tower Cluster here and turned it 2/3 into bend-
 the power of **Threshold** to 1/3 What they are trying to do is
 ability to overrun **Threshold** but when both sides start throwing current at each other
 will run through **Threshold** that need to be done and I'm excited about this

Page: 50

 bend-back of **Threshold** would allow for that to occur so the Earth shield

Page: 51

Page: 53

 amplification of the **Threshold** grids that are spinning on the Kristiac spin from this
 take the Spanner-? **Threshold** Cluster in this area, but because of the amplification. They

 that got its **Threshold** running at full throttle and they used that to take

Page: 54

 them. So the **Threshold** Towers that were placed at Arc-12 are now coming

Page: 58

 machine and the **Threshold** grids, and the perversion that has happened to the elemental

 getting drawn into **Threshold** and through the time-rips. So when we are dealing

Page: 64

 Radiation Layer & **Threshold** Beast NET Fields It was hard enough visually going through

Page: 66

 are coming in **Threshold**. So, if you can think of the PartikE as if

Page: 69

 are connected into **Threshold** and these are the things that are being amped now

Page: 73

 take back the **Threshold** grids in the Phoenix area to go after Shala that

Page: 76

Page: 79

 used through the **Threshold** on the Kristiac spin, we used the 3-3-3,

 them, into the **Threshold** protection field, so they don't get taken down with the

 agenda through the **Threshold** Spiral. So, it's a big thing we are in the

Page: 82

 of the BeaST-**Threshold** machine, the Belts. This one is the Derma-NET that

Page: 83

 as turning the **Threshold** back around 2/3, so they are taking personal whacks

Page: 90

 been calling the **Threshold**-? Tower Cluster. This was meant to interface with our Arc-

Page: 91

 the 2/3 **Threshold** bend-back will be protected from that fall and will

 the 2!3 **Threshold**, which got this whole thing starting to spin at this

 as well because **Threshold** is continuing its one third activation. But at least 2!

 of the falling **Threshold** grids have been turned back around and are being used

 been receiving the **Threshold** signals. As we run more of the Krystal River frequencies,

Page: 154

 grids from the **Threshold** cycling with a little help from the E-Umbic races,

Page: 156

 FOL, then the **Threshold** side decided to make a play. And they were going

 middle of their **Threshold** spiral running the grids, but we got it, but if

Page: 157

 still can't amplify **Threshold** enough to take the rest of it down into full

Page: 158

 frequencies that these **Threshold** grids-now that they are connecting into the EUMBIC Time Rips-

Page: 164

 that harnesses the **Threshold** currents-turns 2/3 of them back into bend-back

Page: 165

 take and activate **Threshold** and plug it into their time rip technology and take

 a hold of **Threshold** and use it to absorb this matrix, that 2/3

Page: 167

 mutations in case **Threshold** was activated, which would rapidly cause, even Angelic Humans and

Page: 178

 go directly after **Threshold**. We went through a major thing right before 12 Tribes

Page: 179

 going to do **Threshold** map later. Yeah, we could put that up now and

 a cluster of **Threshold** Towers that were intended to get control of this cluster

Page: 180

 a set of **Threshold** Glass Towers, all right, that run a set of 6 outer

 part of the **Threshold** run, the reversed matrix run tower set that were meant

 towers activated on **Threshold** so they couldn't take the whole thing connected into the

 they're taking the **Threshold** reverse currents, reversing them back and turning into them a

 There's still 1/3 **Threshold** reversed current running from the Bourgha matrix through the Time

Page: 181

 interface through this **Threshold** Matrix in order to connect the rip up into, you

Page: 188

 activation of the **Threshold** grids-the **Threshold** Metatronic Grids on this planet. That has

 **Threshold** grids-the **Threshold** Metatronic Grids on this planet. That has made it so

Page: 189

 taken in to **Threshold** and down into Wesedrak and Bourgha Fall, it will not

Page: 197

 getting caught in **Threshold**. It is a very sacred process and it is an

 get stuck in **Threshold**. [graph] We have shown a bit about Elemental Command.

Page: 199

 part of the **Threshold** machine mess. These layers would normally give this is why

Page: 200

 being run by **Threshold** and the BeaST machines that is literally creating a harness

Page: 202

 BeaST and the **Threshold** machine. So, this is part of the mutation on this

Page: 222

 are running the **threshold** spiral. So if you feel those currents, just move away

 running from the **threshold** hibernation zones. So you will be very safe and protected

Page: 231

 those in the **threshold** fields that can pick your mind and create themselves in

Page: 241

 going into full **Threshold** Wesedrak and than Bourgha blackhole fall and assimilation or yes,

Page: 245

 due to the **Threshold** frequencies and also- not just the Threshold, the Threshold has

 not just the **Threshold**, the Threshold has only been recently started up, but because

 the Threshold, the **Threshold** has only been recently started up, but because of the

 BeaST and the **Threshold** technologies and they have gone pretty far So anyway, these

Page: 252

 in through the **Threshold**. It will use and amplify the cross-back currents

 being drawn through **Threshold** into the Wesedrak and then into Bourgha Matrix. So that

Page: 253

 the Wesedrak-Bourgha-**Threshold** thing. But when the ones that go into Starfire go

Page: 261

 drama of the **Threshold** people and that. And that ETA of "light at

Page: 263

 because of the **Threshold** technologies that we've been talking about for about a year

Page: 270

 dragged down by **Threshold** into one of the other Matrices. And the one that's

 one that's got **Threshold** is the Bourgha Matrix. Because of this An-Sha-T

Page: 273

 go back on **Threshold**. It would turn the bend-back, back around. And it

 latching into the **Threshold** technology that was implanted in this system, and they were

Page: 278

 Matrix into the **Threshold** apparatus that were here and into Threshold to take over

 here and into **Threshold** to take over the BeaST apparatus that the other guys

 the BeaST, through **Threshold**, by linking the Time-Rip Triangulation through. So, there's nothing

Page: 287

 inferior That's all **Threshold** pattern. That's all rubbish. You don't need that. So we'll

Page: 298

 and created the **Threshold** Technologies in order to link the Time-Rip Technologies to

Page: 300

 to take the **Threshold**-that links the Time-Rip Technology that links to the

Page: 306

 compared to the **Threshold** Spiral or the Metatronic Spiral that is also called the

Page: 332

 and Metatronicked and **Thresholded** to the point where Earth itself can't hold any activation

Page: 341

 harnessed by the **Threshold** grids, it is not capable of undergoing its core Prana

Page: 345

 hooking into our **Threshold** Spiral. But what is going to happen instead is they

Page: 347

whole thing into **Threshold**. That's how they are planning to do the Threshold fall,

 to do the **Threshold** fall, to orchestrate it Once we can stop those currents

Page: 364

 chases. They are **Threshold** chases. And they have actually been used to run Threshold,

 used to run **Threshold**, to activate ... to try to take back the Threshold

 take back the **Threshold** towers, actually, when they think they are working with our

Page: 392

 machine and the **Threshold** machine activations and the black hole technologies and all that

Page: 398

 activation and the **Threshold** machine activations but this last thing that has occurred with

Page: 402

 machine and the **Threshold** machine, progressively we were, that heritage was taken away from

Page: 413

 machine and the **Threshold** machine black hole technologies. These are the DNA NET's and

Page: 429

 beginnings of the **Threshold** technology started there. Much later after the Fall of Metatron

 hybrid technology of **Threshold** technology from the Bourgha Matrix which is Time-Rip technology

Page: 437

 beginning of the **Threshold** technology. They created on Parallel Earth- they took over Parallel

Page: 438

 technology, you have **Threshold** technology on Parallel Earth that plugged into what was called

 development of the **Threshold** technology. So they put in the Threshold what was known

 put in the **Threshold** what was known as the Golden Serpent Grids in Parallel

 is why the **Threshold** technologies, once they were in, could not be removed. You

Page: 439

 a series of **Threshold** gate systems that were meant for specific reasons of assimilating

 enough- was the **Threshold** technology, cause that brought the Bourgha Matrix into the game.

 but leave the **Threshold** out of it I" At this point we're in the

- have BeaST and **Threshold** activating together and we are entering the Last Stand of

Page: 447

- and ultimately the **Threshold** and the big agenda behind those agendas was the Bourgha
- they could activate **Threshold** and plug them all in together and take all of
- away leaving their **Threshold** behind and The MCEO Freedom Teachings® Series Presented by

- beginning of using **Threshold**. They were used to cause the Atlantian and Lemurian
Holocausts
- corrupted by the **Threshold** technologies. So Ruta-15 Earth side fell to the control
- technology together, the **Threshold** technology. During this period this group of Thetans that worked with

Page: 449

- plugged into the **Threshold** mechanics from the Tauren- upside down Tauren, the whole thing

Page: 450

- setting up the **Threshold** Tower structures that are centered in Tempe that we started
- oh no the **Threshold** is activating" and even the BeaST people-the Metatronic people
- happy about the **Threshold** activating either. So this has been a very convoluted and

Page: 451

- the BeaST and **Threshold** together so they can could go after Earth and Urtha,

Page: 453

- combination of the **Threshold** and the BeaST technologies put together and those NET's split

 the BeaST and **Threshold** technology in order to take Urtha and the whole thing

Page: 467

 BeaST and the **Threshold** into the grids because they did access the Par-TE"-

Page: 518

 machine and the **Threshold** technologies combining with their fib-of-no-chi spiral and

 in was using **Threshold** technologies combined with the BeaST ... was reversed. And that

 up with the **Threshold** activations where they had harnessed it during I believe ...

 in 2006; the **Threshold** Towers. So, this progressive mess ... these are the nasty

Page: 524

 the BeaST and **Threshold** technologies progressively over a long periods of time until they
