 that means a **wave** is incoming and it's a wave that moves through all

 will be a **wave** of ones ... they literally are still alive and their

 that is a **wave** of chemical that forms in the atoms and in the

Page: 348

 think there are **waves**- [to Az]I think your son saw this- remember

 talking about those **waves** of little tiny molecular movement light? I think that's connected

 you can see **waves** coming-of little light dots-coming up off the surface

Page: 357

 some kind of **wave** was incoming Alright, is this the other guys? They said

Page: 361

 to get this **wave** where you feel like your blood sugar is crashing and

 ride the Starfire **wave**. So we will be able to go back and forth

 will be evac **waves** that go out from all sorts of places on the

Page: 362

 of animals, like **waves** of evacs with, say, 50 or 100 animals going, they

Page: 382

 form a crystal **wave**. What the visual that we are going to use before

Page: 383

 this little crystal **wave** that floats in to this doorway, the doorway again is

 looks like a **wave** pattern, a transparent wave pattern where the air actually looks

 pattern, a transparent **wave** pattern where the air actually looks like it's rippling in

 to move the **wave** which means they're going to draw us in. We are

 looks like a **wave** if you were standing looking form the side, it would

 look like this **wave** of lovely crystals just. .. that used to be standing

Page: 386

 a crystal particle **wave** moving into your palm. When you feel that the ray

 moving as a **wave** again- out the door, laying in our crystals. Now we

-  before following the **wave**, anyway. I will keep talking until I hit a certain
 -  runs a carrier **wave** that will allow you a level of supported RashaLae Body
 -  run the carrier **wave** journey That is for this group, you will have your
 -  carries the carrier **wave** that will allow for the RashaLae Body activation. This is
-

-  is the carrier **wave** Journey and even if you have done it before at
 -  was a carrier **wave** and this is why they have us run this, there
-

-  call them Ring **Waves** start to periodically burst out from the Core of the
 -  starts Those Ring **Waves** would send gamma ray bursts into our Solar System from
-

-  is the second **wave** of 12 Tribes Classes that have up to 48 people
-

-  on the return **wave** Home. Now it is a long Journey, I mean there
 -  pick up the **wave**, it is like an Aqualene Transmission wave that will allow
 -  an Aqualene Transmission **wave** that will allow you to frequency ride and will allow
 -  to catch that **wave** and use it on your own even when you're not
-

-  are using scalar **wave** electro-magnetic technology in order to create a biological harness
-

-  start talking, a **wave** comes through as far as the information I'm supposed to
 -  carry and that **wave** comes through keyed to the encryption of the group shield
-

-  interrupted and the **wave** is flowing it is just like .. gone. Sorry about
-

-  focus for my **wave** of transmission to come in on so I can word
 -  have the natural **wave** flow with the group. And, if the group was like
 -  on an average **wave** that everybody can catch the knowledge on, it was like
-

 on a fast **wave**, to get it to say the right thing. PartikE, PartikI,
 been after a **wave** of kind of, like K2-3 was kind of like
 like a glaze **wave**. So much information with so much detail that it's like

Page: 470

 pick-up the **wave** because it literally is an Adashi Ascension Wave that is
 an Adashi Ascension **Wave** that is building. And the Journey 1, that wave is
 Journey 1, that **wave** is when it released and that is where everybody's got
 recording. When that **wave**, the point in space-time here when that wave actually
 here when that **wave** actually released and it's still carried, the encryption is still

Page: 482

 provided with another **wave**, I think, of information. It's not yet fully finished as

Page: 485

 to start, the **wave** is going to start moving fast and hopefully it will,

Page: 493

 a really fast **wave** that could be really difficult to speak. Alright. Good. Now,

Page: 497

 catch your Adashi **Waves** back and ... what is neat is once you get
 the Urtha's Adashi **Wave**, others won't There is going to be lots of us

Page: 499

 with the live **wave** coming through. And this one is exciting Because, I have

Page: 509

 anchoring as the **wave** comes through and then takes it and embellishes what the

 activations when the **wave** comes in. If you ever get those, and you think

Page: 6

 begins called ring **waves**, that are a form of gamma rays, that emerge like

Page: 7

 to be ring **waves** coming off the Sun. They would fry us within 50

 what the ring **waves** that are going to start coming off the Sun will

 The first Bardoah **wave** that is due to come off the Sun is due

Page: 8

 right when the **wave** comes through it comes out right verbally, but if we

Page: 12

 literally, the gamma **waves** that are sent out by the central sun, talk to

Page: 18

 have the same **wave** that was given through. It carries certain frequency- that will

Page: 21

 started releasing ring **waves** and radiation things. Those ring waves and radiation things- what

 things. Those ring **waves** and radiation things- what they do, is they loosen the

 and ride the **wave** back into the next level in that it came from

 it catches that **wave** 250 years from now ... will be able to go

Page: 33

 go with the **wave**, because- before, every time we do a The MCEO Freedom

Page: 34

 with. And the **wave** comes through and I go up on break, and I'm

Page: 42

 is no back **wave**. Something called the Eiron point closes permanently. When that happens,

Page: 49

 the next Adashi **wave**, the next Starfire Wave, where the entire system went back.

 the next Starfire **Wave**, where the entire system went back. So, you always go

Page: 56

 Sol, the Sun's **wave** of final Bardoah in, that the consciousness field can prepare

Page: 64

 of these gamma **waves**, ring waves. They start coming out into the rings and

 gamma waves, ring **waves**. They start coming out into the rings and making the

Page: 71

 with the frequency **waves** coming in. So, if I'm walking around like this that's

Page: 79

 the Solar Bardoah **wave** at the end of the Bardoah cycle. And at that

Page: 87

 take that last **wave** of them out So it's really interesting and there was

 catch the next **wave** in, in pieces, so" Right? No biggy. It's like you're

 get that Bardoah **wave** because that's what I want because I don't want my

Page: 97

 great to like **wave** them in front of security kind of things, ya know

Page: 98

 There's a tidal **wave** of technical information that is still pouring in, washing all

Page: 113

 Collective, whatever Collective **Wave** you came out of That can be scary for some

Page: 116

 I remember this **wave** coming when the Red Pulse was coming, and it's just

Page: 119

 ride Urtha's StarFire **Wave** out, that's ok. That's what the New Earth field is

Page: 135

 Creation. Riding a **wave** in where we can go in to this Creation Point,
 the Direct Cognition **Wave** because the words just aren't touching it real well. (
 bit of a **wave** of extra information that has a feel to it that

Page: 137

 are called Transfiguration **Waves** and they are the Core Waves, or we call them
 are the Core **Waves**, or we call them Plasma Waves as well, from which
 call them Plasma **Waves** as well, from which Electro-Magnetic waves forms, so it
 which Electro-Magnetic **waves** forms, so it also the Birth of Electro-magnetism. These
 Space-Time EM **Waves**, so this is the generator of the EM Force and

Page: 148

 that comes in **waves** like pulses and then stops. This is transmuting stuff in
 be periods of **waves** where there's a purging of the structure that is no

Page: 169

 a series of **waves** given off they are called the Ring Waves or Bardoah
 called the Ring **Waves** or Bardoah Ring Waves that are gamma ray bursts that
 or Bardoah Ring **Waves** that are gamma ray bursts that are given off as

Page: 170

 Its 1st Ring **Wave** will be the Ring-1 Wave when its 1st level,
 the Ring-1 **Wave** when its 1st level, its Level-1 RaSha Template separates
 that, a ring **wave** burst and that is still due in somewhere in the

Page: 177

 our Adashi Return **Wave** ... Our Adashi Return Wave wouldn't be the return wave
 Our Adashi Return **Wave** wouldn't be the return wave from these systems We couldn't
 be the return **wave** from these systems We couldn't ride a full Adashi on

Page: 178

 catch the Ascension **Waves**, you need to follow where they go and they will
 these deep mourning **waves** because I love Earth you know despite all the nasty
 doubt there are **waves** of grief that have been moving through the Indigo Shield

Page: 180

 If a consciousness **wave**, say the Spirit of a planet that is embedded within
 solar last Bardoah **wave** and bring everything out with it It is called the

 ride a Bardoah **Wave** without its body, it is a death transition, but where
 the same time **wave** out again Because if all things were happening simultaneously right,

Page: 181

 that last Bardoah **Wave** of the Solar Gate and in that period anything that

Page: 202

 just ride the **wave**, you know I don't think about what is going to

Page: 204

 here comes the **wave, heatwave** ... OK, next one please. [graph] [OVD-

Page: 210

 that last Bardoah **Wave** that goes backwards and it sends a stream of energy

Page: 212

 catching the **wave** of Bardoah going out, a natural way of Bardoah going

 a natural Bardoah **Wave**, your template will be held long enough to connect with

 ride a natural **wave** that's going back in, if you can keep yourself calm

 in that field **wave** that is going back in, and re-attach yourself to

Page: 214

 before the full **wave**. So, there's all sorts of things that we're going to

Page: 216

 just starts the **wave**, right? Anyway, we have the solid inner core that corresponds

Page: 230

 come in on **waves- waves** that come through the Krystal Spiral from Source. There

 certain types of **waves** where, when you have, an Adashi cycle complete. Goes through

 will be another **wave** of consciousness sent out into the manifesting domains and, so

 so there are **waves** that come and go waves of consciousness. There are waves

 come and go **waves** of consciousness. There are waves of manifesting that come on

 consciousness. There are **waves** of manifesting that come on the end of a backflow

 of a backflow **wave** that was an ascension wave that went in, so we're

 was an ascension **wave** that went in, so we're all part of these cycles

 sets of standing **waves** that create the experience of evolution through the domains. So,

Page: 236

 not like EM **waves** like we think of it That's way after we get

Page: 240

 form the electromagnetic **waves** all the way out here in the outer domains, all

Page: 252

 give off ring **waves** at it releases one ring, ring one, it'll start from

Page: 273

 the last Bardoah **wave** of the body. And when ... Bardoah, remember, means separating

 that last Bardoah **wave** of that separation they would be able to ride their

Page: 276

 There is a **wave** released at that point that is still carried on the

 pick up that **wave** in the Shadra Shield together. And it is the one

Page: 279

 one of those **waves**. All right, we are, we've seen this one enough times.

Page: 296

 out on a **wave**. Like, you do this with this ... so we'll be

Page: 329

 for certain pulse **waves** to come through that carry specific data. And the data

 right. When the **wave** comes I'll be up. I'll be back to my usual

Page: 330

 is when the **wave** released. And you will still get it because that recording

Page: 334

 a series of **waves** that are called Ring Waves that release, and in our

 are called Ring **Waves** that release, and in our solar system it's going to

 to get Ring **Waves** and each Ring Wave releases one layer of the 15

 and each Ring **Wave** releases one layer of the 15 layers of the Rasha

 process of Ring **Waves** burns up the hydrogen field much, much faster than they

Page: 342

 here comes a **wave**. I'm picking up speed now, I can feel it! [

Page: 349

get the rider **wave** to come out If you just tried to open the

Page: 354

-  15 different Ring **Waves** that release each of the 15 layers of the Rash
 -  that final Bardoah **Wave** that will allow the Spirit that entered the Light Body
 -  Its first Ring **Wave** will be probably around Hetharo of 2008, so it is
-

Page: 387

-  hit the next **wave** that is going out So that push is actually the
-

Page: 401

-  creates a Transfiguration **Wave**. Now this is just one set of 3 of one
-

Page: 402

-  these are Transfiguration **Waves** ... that these actually ... you have ManA coming out
 -  ... create Transfiguration **Waves** that, as they expand and contract, they release electro-magnetic
 -  release electro-magnetic **waves** in whatever domain frequency they're in, and they build up
-

Page: 405

-  that first Ring **Wave** com in" in and what might that mean (chuckles),
-

Page: 444

-  heat The speed **wave** is corning This is where I'll probably start talking a

Page: 468

-  and particles- particle **wave** light kind of things, electromagnetic frequency. With understanding that the
-

Page: 475

-  the progressive ring **waves** that are going to come in from the Solar Bardoah
 -  the Solar Bardoah **waves**. We've talked about those before There will be a solar

 The Bhardoah ring **wave** is coming off the sun so that ought to be

 until the second **wave** of 12 Tribes classes but everything is expedited these days,

Page: 12

 starts its ring **wave** releases. We will be able to because of this particular

 called the Celestalline **Wave**. And this is where the whole thing goes into the

 with a new **wave** of rebirth, and the old wave that went in pops

 and the old **wave** that went in pops back out on reverse spin in

 with the Celestalline **Wave** releases, and everything goes to the center, it's called the

Page: 17

 birth, a new **wave** of creation comes out to where the old one was,

Page: 20

 there's a new **wave** of creation coming out at the same time. So, it's

 when the new **wave** comes out to the Inner, it manifests out to the

 when the old **wave** that had gone in and came back out enters Adashi

 out, the new **wave** is already starting its way out again, and you're going

Page: 21

 actually are time **waves**, transfiguration waves with space-time transfiguration. And it's literally the

 time waves, transfiguration **waves** with space-time transfiguration. And it's literally the process by

Page: 34

of a hard **wave** to ride because it's really high frequency, I mean M-

with the new **wave** "cause that is the wave that the action is

that is the **wave** that the action is about for that class. So, if

do with Celestalline **Waves** and how the Celestalline Wave releases. This is the Hydrolase

how the Celestalline **Wave** releases. This is the Hydrolase Conversion Cycle right here and

is the Celestalline **Wave** Cycle and then they hit this. And this thing that

The Celestalline Atomic **Wave** releases Celestalline Thermos Wave into the REisha-ic Record.
The

releases Celestalline Thermos **Wave** into the REisha-ic Record. The DhaLA-LUma Door opens

Page: 46

from the Ascension **Wave** that had just come in. It sends the Ascension Wave

sends the Ascension **Wave** and its contents back out into the Adashi-1 Cycle,

births another Creation **Wave** out And as we enter Cycle-1 there is Adashi

a new Birth **Wave** that comes out into the Core and I think it

1, the new **wave** starts the Core. When we hit 2, the new wave

2, the new **wave** starts the Inner and they syncopate So I just wanted

Page: 65

catch the next **wave** out So they're trying to help me understand to noL

Page: 70

out as the **wave** was coming, and I was speaking live. They started talking

Page: 71

with the EM **waves** from the Sun, because something was happening with the Sun

Page: 82

the Celestalline Vapor-**Wave**. And it turns into Vapor and goes into the center,

a New Creation **Wave** comes out into the Eyugha Cycles, and then into the

 tonight, the first **wave**. The second wave is coming through during the period the

 harness that Ring **Wave** to accelerate the activation of the Rods, because it takes
 harness that Ring **Wave** coming off the Sun during the Hetharo period, they would
 to harness that **wave**, and of course our guys are planning not to let
 pick up this **wave**, and it's only when it's being released in the Milky

Page: 136

 oh, a heat **wave**. So, what I want to show you here, on this.

Page: 137

 progressively as a **wave** enters the body. And it's you. It's a part of

Page: 144

 we receive these **waves** of energy from what is called the Gha-Fa" Body,

Page: 146

 do with this **wave** coming in is they are going to go into a

Page: 147

 Cord comes a **wave** that is called the Gha-Fa" Wave, or the Bharda

 the Gha-Fa" **Wave**, or the Bharda Wave, that progressively brings in the energies

 or the Bharda **Wave**, that progressively brings in the energies of the AdorA encryption

Page: 148

 and then a **wave** ... the Gha-Fa" from this one will start to

 or Ma-Sha **Wave**, will start coming from the Edonic level, and that will

 when the next **wave** comes in for the, yeah ok, for the Tribe 12

Page: 151

 now the heat **wave**. Anyway, "When the Dhani Tube opens, it sparks open

 the Gha-Fa" **wave** is referring to that Gha-Fa" Body literally beginning to

 the Ma-Sha **wave**. So, that is what takes you through the Ma-Sha

 a mass Ascension **Wave** out of here. We are going have to start getting

Page: 173

 final bit The **wave** is incoming as we've been getting bursts of it but

Page: 174

 really cool. The **Wave** is just beginning and we have about a 20 minute

Page: 179

 But the live **wave** ... this is going to be another one of those

 is when the **wave** was releasing and it stops after that, right That particular

 right That particular **wave** doesn't come again so the first recording when it was

Page: 182

 it's turning into **waveform** And this has to do with it stabilizing in the

Page: 183

 in an undulating **wave** in the air and they're coming in various spaces and

Page: 184

 very big heat **wave**. Right, OK. Now, imagine for a moment that there is

Page: 186

 if in a **wave** and they're coming up this way and off the front

Page: 187

 anchoring the Bharda **Wave**, the first part of- we have entered Stage-2 Bharda

 come back. The **wave** would come back in. But, if you start having or

Page: 235

-

Page: 236

Page: 260

-  opening, the Evac **Wave** will come out and then that cord will close so
-

Page: 261

-  a whole huge **wave** of them coming in. So what is left there is
 -  we're riding the **wave** in. And it send the quantum that was stolen from
 -  catching the Live **Wave** and they'll be able to transmit that Live Wave just
 -  transmit that Live **Wave** just like you will be. And this The MCEO Freedom

-

Page: 263

-  Shield of Mercy **Wave** from the position of our Bi-locate Body pushing forward
 -  sending a transmission **wave** forward And then we're going to ride that transmission wave
 -  ride that transmission **wave** forward and come back from backward in time behind us
 -  return on that **wave** by pushing our Krystar Vehicle from back there back forward
 -  in on that **wave**. And we also get our own missing quantum back as
 -  bringing the whole **wave** of it back so NET Earth gets back what was
 -  Elemental Vapor Heat **Wave**. And when we get back into the body, as we
 -  back with the **wave**. Yeah, that's what just. .. I've a feeling that's going
-

Page: 266

-  until the reverb **wave** passes. OK, and we're waiting for it to open, it's
-

 be periods and **waves** of healing that will occur among the Shield. And there

Page: 12

 opening the Time **Wave** between certain key periods in space-time, we're literally going

 time. There's a **wave** that they are opening that goes back into the Atlantean

 is a Time **Wave** opening between those various periods of time. And it is

Page: 13

 for a Host **Wave** to be transmitted through the entire planet- but also backward

Page: 14

 And the frequency **waves** that will be transmitted during this workshop period by the

Page: 20

 extend a gentle **wave** of Host and of love to individuals. But allowing ourselves

Page: 22

 changing the time **wave** to the new BPR This is phase-1 of it

Page: 23

 do that in **waves**? Yeah. And imagine that you have your big stingray wings

Page: 25

 ... the Time **Wave** of the BPR that's the, you know, the big Leap

 a longer Time **Wave** where there should be more time within that Wave and

 time within that **Wave** and more apparithi turned on per segment of Wave. So

 per segment of **Wave**. So it should begin to change the mad dash, crazy,

 that new Time **Wave** that is opening where we actually might, like say, Well

Page: 66

-  gets into time **wave** theory and a whole bunch of things that probably by
 -  as what time **wave** we're running And also that has to do with where
 -  because certain time **waves** are not open onto the planet right now. After this
 -  will be time **waves** open on this planet that were not open before that
 -  opening a time **wave**, literally, between those space-time locations. And that will counteract
 -  opening the time **wave** that goes into what is referred to as the "
-

Page: 70

-  talked about the **wave** . the standing wave that you are forming when you
 -  . the standing **wave** that you are forming when you do these spins. If
 -  this beautiful vortex **wave**, right? And then you stop too abruptly and it just
 -  And then your **wave** should stay up and not turn into a pancake. Alright?
-

Page: 72

-  to anchor a **wave** here in the center of the White-Blue Shield so
 -  bringing the vertical **wave** in. So when we've got that done and it's ready
 -  call because the **wave** activation is going to take place during each position. Then
 -  anchor that main **wave** that's going to come through, and that's the wave that's
 -  and that's the **wave** that's going to feed the rest of the Shield. So
-

Page: 73

-  Shield! We've got **wave** anchored and it's ready to come your way. So we're
-

Page: 76

-  Solar Bhardoah Ring **Wave-5** that is coming through today on, you know, through
 -  run a tracer **wave** through that, and that's what they're going to use to
-

Page: 83

-  us transmitting a **wave**. And when I'm saying "us" I am referring to
-

Page: 84

-  line of Ring **Wave 5** that is coming through. And that's . that starts
 -  1212 where Ring **Wave 5** starts to release. That's when the FAtalE are beaming
 -  in on Ring **Wave 5** the accelerations of the Reversed Violet Ray that will
-

Page: 86

-  were like silken **waves** of light and you could feel them as conscious. You
-

-  it-down-time **wave** screen in between. It didn't touch how fast the tornado
-  start doing time **wave** thing where they teach us about time waves. It's another
-  us about time **waves**. It's another like 25 years minimum of translations and then

-  a little silky **wave** that kind of tickled down my back and I was
-  of the Metatronic **Wave** running because the Shield was running part Metatronic and part
-  And the Krystic **Wave** would be much slower and broader where it's deeper, there's
-  per segment of **wave**. So it's like time expands and it's just much more
-  needs that time **wave**, and it was being squashed progressively the more Metatronics were
-  but the time **wave** that it was being allowed to come through was being
-  the new time **wave** does include Mondays as part of workshop time. And that

-  the Guardian Time **wave** looks like, as we begin to move toward Impeccability, there

-  Solar Bhardoah Ring **Wave** 5 too So this is where the Beloveds waves will
-  where the Beloveds **waves** will actually start coming in in stronger force because the

-  tone in a **wave** form] That one feels really nice, doesn't it feel nice?

-  doing something. The **waveform** was doing something. It was coming . like you could
-  little compacted time **waves** where everything is like choppy and like this and there's
-  on- but sound **waves** that carry plasma. Yeah. And they showed it to me
-  in the time **waves**. And it was funny because there is a few people,
-  can see sound **waves** which is kind of strange I suppose in 3-Dspeak.
-  often see sound **waves** and the shape of it might be like, you know,

-  the regular sound **wave** like I'm used to seeing sound waves, and the other
-  to seeing sound **waves**, and the other one was doing that but then it
-  those like silken **waves** that I talk about with the plasmas running through. And
-  this undulating sound **wave**. And I'm like Whoa what is that Beloveds? And I
-  called ... sound **waves** that are imbued with plasma. They're like impregnated with balls

 inside the sound **wave** is actually made of plasmas. So this is part of
 it expanded the **wave** form of the sound. The sound took on a different
 I felt the **wave** shift, where everybody's doing a lovely job with the 4
 saw the sound **wave**, especially with that one because I wasn't really looking for
 trans-harmonic sound **wave** which means somehow hit Krystal Spiral tuning with the vocals.

Page: 100

 what's that sound **wave** I just saw? I don't know, right? They'll let us
 that trans-harmonic **wave** across the whole room. I don't know if we can
 an undulating blanket **wave** that was not just like a sound wave this way
 like a sound **wave** this way but a sound platform that was undulating across

Page: 101

 like rippling blanket **wave** and I could feel the balls in the ripples. There
 you watch sound **waves** or even sonar waves, right, on a flat screen? But
 or even sonar **waves**, right, on a flat screen? But it was like looking
 vroom, and the **wave** would have collapsed. So it's like bring it down slowly,
 making SE"Ur standing **wave** pillars, if you stopped too abruptly your beautiful pillar you
 stop sounds, the **wave** form you created stays And you can gently pu II
 the plasma sound **waves** can actually do. They're going to take us more into
 of the time **waves**. And there's inner and outer time waves and all this
 and outer time **waves** and all this kind of stuff And I knew they
 shifting the time **wave** as far as how the time wave runs through our
 how the time **wave** runs through our bodies and how the time wave is
 how the time **wave** is running through the planet 100

Page: 102

 the 55 time **wave** that goes with the Death-Star Merkaba, and then there's

Page: 103

 to begin transmitting **wave**. [Following section not on video] [participants clap for
 anchor like big **waves** and run gates and set gates and stuff We were
 And we transmit **wave** together. And that's . the seat comes in handy because
 it's a longer **wave**, they tend to have us do it sitting because we're,

Page: 104

 to run certain **waves**. So this one they're saying is going to be a

 to run live **wave** through us while running a live technique through me, through
 you know the **wave** comes and the Beloveds" wave comes through me and they
 and the Beloveds" **wave** comes through me and they give me the narration and

Page: 105

 to anchor a **wave**. And they actually started the Blue Shield out in the
 shut up, the **wave** is coming in I Oh dear, I forgot these are

Page: 107

 There are actually **Wave** Riders where they can go back and forth through time,
 so you become **Wave** Riders. And that's the teams that will be literally ...

Page: 108

 to feel the **waves** run, even a little bit, I'm feeling waves go through,
 bit, I'm feeling **waves** go through, especially around my shoulders and my neck and

Page: 109

 up in a **wave**, but it's in a protected field now so the Beloveds

Page: 112

 a rippling sheet **wave** coming under like right beneath the floor level. So they're
 to do a **wave** transmit I'll narrate as we go I think ... We
 from the sheet **wave** below our feet and that is a really pretty, very
 a tri-tone **wave** - sound wave - through the two fields and that's
 wave - sound **wave** - through the two fields and that's going to set

Page: 113

 the plasma sound **waves**. Inside the sound wave there was this ... it looked
 Inside the sound **wave** there was this ... it looked like a ball on

Page: 115

 involves a sound **wave**. Okay, I'm watching so I'm staring off into space and

Page: 120

 AL-Hum-Bhrus **Wave** - which is a particular set of frequencies that goes
 to transmit a **wave** through us. Then there is going to be ... oh

Page: 121

 may have rolling **waves** of thunder. I'm like, okay The Beloveds just said .

 kind of rippling **wave** that's rolling out from this Shield out to the Shield
 gentle and subtle **waves- waveforms-** that I've ever experienced. But there's a real beauty

Page: 122

 eeeeeyyyyyy The light **wave** pulls through. They're next going to do the ... and
 be a tracer **wave** sent down that which is a little bit wider than
 those silken undulating **waves**, and it will come down. It will follow the line

Page: 123

 this like tickle **wave** that gently comes down there. So try to sense that
 now. That tickle **wave** is going to expand outward but backward. So it's actually

Page: 126

 that's when this **wave** activation, you know is done -you would have the

Page: 128

 ride that time **wave** to that timeframe, right, to get out of the war
 will. that time **wave** will expand back and bring the Cosminyahs frequencies back and
 in the time **waves** that are very significant. And at this point, we're linking
 So that time **wave** is available and now we're opening it and making it,
 I'm feeling the **wave** now. But I'm like ready to go curl into a

Page: 131

 5-3 time **wave**. So that is the point It's like a peak point
 end of that **wave** that started yesterday. And that will be the end pulse
 that new time **wave** BPR. And thafs when we begin the process of entering

Page: 147

 on a time **wave** that is the Probability 12 Time Wave of the Host.
 Probability 12 Time **Wave** of the Host. And there will be a period of

Page: 172

 It's a particular **timewave** that's carrying the 12-12-5-3 BPR instead of

Page: 178

 it'll spread a **wave** out this way. And that will actually - because we've
 we transmit that **wave** ... and what we're transmitting to you is the wave
 you is the **wave** that will open the Aquafereion Shield and anybody who had
 receive the big **wave** that the Beloveds are sending through. And part of that

part of that **wave** of the Pillar of Peace will come up and part

time as the **wave** comes down] 177

Page: 179

more like ripple **waves** that are going to come through and amplify what 178
