

Feb 2, 2017

Also, remember the line that data comes into E'Asha on is *always* tapped. There are literally factions on the planet that have the technology to spy on the line. We used to hear about this when it was stated that data was on "Security Clearance" ... meaning it was withheld until the times during the workshop so that the GA's downstepping could be guaranteed to at least go into/through the fields of people attending the WS that were known to be working the KRYSTHL/Law of One agenda. But it was always known that other factions of Melchizedek were out there listening and waiting to twist the data to their various agendas.

The fact that the data line is tapped has actually been a concern of mine lately with the long delays for releasing data to people who are trying to follow the original teachings. The longer the data is delayed ... the more time the line-listeners have to disseminate the data in a twisted manner to their ground crews.

Feb 9, 2017

I'll answer your question a couple of ways:

After there is a split in the core of the shield, it is prudent to be on the lookout for patterns. For example, the pattern of sudden reversals in the teachings. There have been several. I'll name three important reversals.

Mother Earth -> Father Earth. The teachings always confirmed the organic EirA/in-breath gender of the planet. However, I think Aruba was the first time SP1 suddenly started teaching a gender polarity reversal (the impact of that can not be understated). In Aug 2014 she went further and asserted that she had always been teaching Father Earth.

1/3 ... 2/3 ... now All have ascension potential. The teachings always stated that a maximum of 1/3 of the population has ascension potential and the other 2/3rds have other options. Then after the split the ascension potential was taught in the reverse. Suddenly 2/3rds had ascension potential ("Shift") and the rest were going to "Sift." Extreme discernment would be to wonder what changed? How did billions of people who are not consciously choosing bioregenesis get grandfathered into ascension potential?

Crop Circle goes from KRYSTHL to anti-KRYSTHL and that forms the basis for Virtues 14 & 15 to be introduced. Admittedly seeing this as a reversal does require one to have a more tough-love approach to SP1. But the fact that the introduction of two critical ShA-DahLuun Virtues is based on a sudden

reversal of the geometry of a crop circle that the GA clearly instructed was KRYSTHL ... well, that kind of lack of discernment has been a problem in every other failure of the mission.

Another pattern that always occurs when missions are failing is "Disappearing the Teachings." This has been warned by SP1 herself. She asserted it was a ploy undertaken by the bad Speakers. But the bottom line is that in a very short period of time, the Keylontic Dictionary was forced offline, the Freedom Teachings disappeared from the market, Voyagers went out of print. Ten years of work vanished from public access.

The explanation that remains on the site for why the teachings are no longer available is that certain faces need to be removed as part of the divorce agreement. Respectfully, that is not true. The divorce agreement was provided to the Shield and it only specifies that SP2 & SP3 are forbidden from using SP1's image. Not that she is forbidden from using theirs. Then there was a story line about the missing Masters. Again, respectfully that does not hold water. Copies can be made and marketed/streamed without the original Master.

Another pattern is diminishing transparency. Transparency is a critical part of healing and returning to synocracy and the Law of One. Since the split information has slowed and transparency has dwindled.

Other patterns include:

increased separation - more/smaller splinter groups, and many activated people completely abandoning the teachings for other paradigms

decreased discernment - how many people saw a problem when SP1 walked the Black Road (which was clearly identified as related to activating the Toral Rift) just before the Pope visited the 3 Phi-Ex sites (NY, DC, & Philly) with huge crowds of people?

OK ... so that's enough scary stuff (I have lots more, but I think I've made my point). I do see some very troubling things. And in case you're wondering my point is not to attack E'Asha. To the contrary it is to try to help her finally succeed. It is *hopefully* to help people on the shield recognize their own powerful contribution to the trajectory of the shield.

The speakers to do not choose the trajectory of their shield.

SP1 was right when she said in 2012 that it was NOT the actions of SP2 & SP3 that led to them being put into protectorate status. It was the fact that their shields were pulling on them (IMO this could be because most of the shield passively abdicates accountability and discernment to the Speakers)

What does that mean? Are those who choose to avoid uncomfortable discernment, or just to accept the "new normal" definitions of boogeymen on the Violet Shield making KRYSTHL choices? It seems that most do not hold themselves accountable for *everything* that happens to them, and instead choose to believe divine intervention will pull them out of a multi-level fall (Milky Way fell from Rajna Sun in M31, Earth fell from Tara). Does that sound Self-Sovereign, Self-Actualized, Fearless, Whu-SeN', Pa-SUN...?

What do you think it looks like on the ground when these missions are failing? Do you think there are huge red flags and everyone knows for sure it's failing? ... and they knowingly choose to get trapped in time? Or do you think there is a really intoxicating story about how suddenly everyone is ascending together along with the whole planet?

So, I guess its clear by now that I'm opting not to choose a soft-fluffy response :) We'll see how this goes ... I will respect whatever this group chooses with regard to my participation here. I will not violate freewill choice. I am very accustomed to the shunning machine. Also, please know the tenor and length of this response is not intended to be reflective of you in any way. I don't know you, but maybe now you know me better :)

Now for the GOOD news ...Fail Safe is real. For sure. My understanding is a bit different than what is being taught (shocker, eh?) It is fail safe for the rest of the KRYSTHL worlds ... not Fail Safe for a world that persistently chooses victimizing. And the rest of the good news is we have a TON of teachings on this planet that can individually set us free if we make different choices than we have made every other time when these missions have failed. I am making different choices. I am speaking my truth, I am standing in my power and I am healing myself. My contributions to previous failures was to focus on how my twin was rejecting me and to blame Melchizedek for my pain. No more!

WOW ... that's been pent-up for a couple hundred billion years! Anyway, to answer you question more directly ... I do see the 2017 iteration of the mission as very similar to every other instance (an attempt to trick incarnates into using their freewill choice to get trapped in time) with one significant difference...

Fail Safe is there for people who stick to the basics; who are fully accountable for everything that happens to them; who use discernment (especially about the teachings that came in after the split); who do their own self healing rather than relying on a magic activation (self-healing is brutal, hard work ... but it works!)

And by self-healing I do mean working with your own morphogenetic fields, the ones that manifest this DN1 body. Focusing on fields or codes or activations from some far off place does not feel relevant to healing my contemporary self. Even though I know I have downstepped from far off places, I am

breathing here. So here is where my power is, and here is where I focus. I'll heal my far-off selves when I'm manifestly focused there.

A few more things under the heading of transparency:

1. I stopped doing the KDDL techs at KDDL 1 when I saw SP1 cross left-over-right in the first journey while she was surrounded by the color white. These are both ManA indicators and the whole thing felt reversed to me because she is the EirA Core of the local shield. I still buy/subscribe to KDDL but for information only. I have never projected to the pool for example. I review the KDDL materials with extreme discernment.

2. Similarly I do not accept silver-seed as predominantly related to the in-breath return. Silver is ManA/out-breath. Gold is EirA/in-breath. I've been invoking and self-activating Gold for the past few years. But I must add that may just be me because I have rose anatomy (as opposed to lotus). So, I'm not saying anything about the appropriateness of Silver Seed for anyone else.

3. One reason for me to drop my typically-stealth approach to my work here is because I (along with the Shield of KaLA) was granted evac resulting from a Aug 2016 Council petition. I'm not clear if I will still be here until 2047, but every day I affirm and strengthen my freewill choice to impeccably evac myself entirely from Melchizedek. I am leaving alone, without my twin. I am exiting Melchizedek omnitemporally from this life. So why not speak out, right?

4. Another reason for me to drop stealth is because of what I saw in Rose's interview. I saw something in her that I honestly can't remember ever seeing in any other mission, from any one. She claimed her voice. That's not something I could ignore and still claim I am accountable for everything I experience. Her interview moved me. I had to decide what to do. So I wrote Chris an email

(Sorry, for the length of this post. I have a hard time getting the hang of social media ... seems to want to make it too easy to chop big things into bite-sized pieces.)

Feb 10, 2017

I can totally relate to what you're saying here. Things can get blurry. First let me be completely clear about who is teaching the materials in this iteration of the mission. E'Asha is the one who brings in and teaches.

Feb 14, 2017

Respectfully correcting this very common inaccuracy. K+8 is a moniker invented here in local consciousness to deify people who carry gene code in the lines that were bred by either J12 or his twin Marahari (our biblical names, but we were bred with compromised Melchizedeks prior to biblical times).

In broader consciousness the "K8" label is understood to be part of the mythology that Melchizedek has chosen to believe. It is not a "label" that is used in Council. It is associated with breeding (in many cases through trickery or forcibly) with those who came in from Sun 8 to help Melchizedek avoid being assimilated. And the hook is that this breeding will somehow lead to salvation for all.

Myself and my twin have unfortunately both been involved with this breeding. It has only made things worse, not better. I am not aware of any others who came through Sun 8. But that does not rule out the possibility. I do believe the vast majority of people on the Shield of KaLA came from Sun 6,7 or Sun 4,5. A few came from Sun 1. And a few more came from Sun 2,3.

There is nothing wrong with breeding between races. However, what has been happening here with myself and my twin only dilutes the gene code and potential of all. It is symptomatic of the failure of our mission. We were never supposed to breed. So, there never was supposed to be a "K plus 8" gene code status.

Candidly, I now understand K+8 as more a strategy to spread the virus rather than to cure it. If K+8 was such a panacea then how is it that every mission has failed? This breeding didn't start in biblical times.

It is understandable that many believe that J12's breeding is a path to salvation. There is a lot of consciousness on this planet that worships him as a God. The contemporary teachings are drenched with this mythology. And most people accept the teachings as the word of God.

Please take a moment and compare that belief it to the A&Rs, or the Virtues. It has literally been taught in the contemporary teachings that "we would not have had a chance if it were not for the breeding that Jesh did" ... really? Does that sound self-actualized, self-contained, self-sovereign, Pa-REi'-ta, Pa-SU'N ... I could go on and on.

The message that you ... a sovereign KRYSTHL being, an incarnated spark of God Source ... would be lost/dust without the mythological breeding of savior ... well, that was never the mission. And the fact that is now being taught is symptomatic of the level of compromise in the mission.

Please reconsider the foundational belief that K+8's are anything more than compromised gene code. This is very similar to what was done to fall the Aquari, just on a much larger scale. Local consciousness bred with Aquari and used the cross-bred individuals to infect that Aquari matrix (created Equari).

Similarly, this is an attempt to infect our home. I am standing in front of that and powerfully saying "No thank you" because that is the best way to help Melchizedek and those of us on the Shield of KaLA who

came to try to help. (By the way, I'm not alone in this stance :) But I do understand and respect how my stand could be misinterpreted by people who have bought into that savior mythology.

Also, a simple definition of "Fallen" is anyone who has embodied a compromised Kathara grid. Note: Everyone here is fallen. You can not have a physical body here that is not built with a compromised Kathara grid. We are multiple levels into a Fall here (Procyus, the Rajna Lock sun in M31 fell to create the Milky Way; then Tara fell/blew up to create/blend into this solar system to name just two of the layers inside Mechizedek. Also note that M31 itself was pulled out of a fall and quarantined. The Aquinos Re-gen nursery has been called Andromeda/M31. It is really a fallen part of another, larger body. This is explained in FOL 07 DVD 1, worth really listening to the whole reading. But that part specifically begins around timestamp 2:28:00)

The good news is there is a TON of information available on the planet to understand all of this. The question is how many people are really studying what is here?

The objective (which I know to be achievable) is to re-embody an impeccable Kathara grid.

Respectfully, this needed to be said. It is not meant to be personal, rather to be authentic. Is there room for that here?

just came back to re-read ... still rolling in the waves of this so I wanted to check my own encryption. I'm going to leave this here because transparency is critical at this stage of the mission. But I have to add that I see some of my own healing opportunities in what I typed above.

Easy thing would be to delete it ... but what good would that do? I was just sitting at my desk trying to work on my website and I couldn't get this post out of my head. Took that as a sign to come back and revisit.

So here's the result of my re-read ...

For hundreds of billions of years I have blamed Melchizedek for the issues that arose from the split I chose to experience with my twin (which occurred in broader consciousness and omnitemporally precedes our arrival here in Melchizedek). So, what I typed above includes those unhealed triggers. The main one is whenever anyone identifies my twin as a deity which is how I interpreted Chris' post (probably because he failed to mention that I have also been used to breed K+8).

You see, one of the main tools of the assimilation virus is to devalue and dismiss EirA while deifying and elevating ManA. Hurts.

End result of this post ... I have a brand new batch of scalar wave patterns to trace-tag-heal-and-seal

when I do my techs tonight :)

Anyway ... social media ... is that an accurate name for what happens on Facebook?

Feb 20, 2014

Chart 6C The Six Silent Ascension Avatars
 © Anna Hayes Gruber 5/1999

During the ascension cycle of 2012 AD 6 avatar souls will incarnate on Earth in order to serve various roles within the plan of human ascension and evolution. An avatar soul is a soul essence possessing a minimum level of over-soul consciousness, fully embodied within the physical incarnation; it is a master-soul that incarnates from a position within Harmonic Universe 3 or 4. An avatar will have a minimum of 7 dimensional frequency bands within its genetic imprint, and a minimum of 7th DNA strand activation at birth. The human genetic prototype can hold only 12 dimensional frequency bands within its imprint, a 12-strand DNA code. Avatars will thus have between 7 and 12 DNA strands activated in their genetic code. (The last 12th level avatar to incarnate on Earth was Joshua-12, AKA Jesus Christ/ Sananda - 12BC - 27 AD). The 6 Silent Ascension Avatars assisting in the 2012 ascension cycle will be born approximately 4 years apart beginning in 1992, the last begin born in 2012. Though there will be several other avatar souls incarnating on Earth during this period, the 6 Silent Ascension Avatars hold a very special purpose of realigning the DNA imprint for the human race within the morphogenetic field of the Sphere of Amerit. As their respective soul essences pass through the Sphere of Amerit, the frequency bands carried in their energetic essence will purge mutations from the human DNA imprint, allowing DNA strands 3-7 to realign with the original 12-strand DNA pattern of the HU-2 Turaneusian human prototype. Without the birth of these avatars mutations within the human DNA code would prevent humans from properly assembling and activating the DNA strands and humanity would be unable to achieve acceleration of evolution and ascension to the Bridge Zone, Tara or beyond. Each avatar is assigned to the realignment of one DNA strand, which will be achieved as the soul essence passes through the Sphere of Amerit during fetal integration. When the avatars turn 12 years of age they will begin awakening to their chosen service mission on Earth and by age 22, if their awakening proceeds properly, they are scheduled to begin active service to further the evolutionary development of humans within the Bridge Zone Earth. The success of the ascension program is dependent upon the births of the 6 Silent Ascension Avatars proceeding according to schedule. They are called the Silent Avatars because their identities, religious affiliations and geographical locations will be undisclosed to the public during the ascension period. Their identities will not be revealed until they have reached the age of 35 and their service missions come into mass awareness.

AVATAR #	DATE OF BIRTH	SOUL ESSENCE NAME	SOUL ESSENCE LEVEL	DNA STRAND #	TURNS 33
1	1/26/1992	LAU CHA-SAN	7 th LEVEL AVATAR	STRAND 2	2025 AD
2	6/24/1996	BRAMHARAN NUKHA-TA	8 th LEVEL AVATAR	STRAND 3	2029 AD
3	6/26/1998**	JEHOVAN-AHMORA	9 th LEVEL AVATAR	STRAND 4	2031 AD
4	9/9/2004-T	ALLUREA-DOH-MELCHOR	10 th LEVEL AVATAR	STRAND 5	2035AD-T
5	7/22/2008-T	REION-BEN-AZARTAN	11 th LEVEL AVATAR	STRAND 6	2041AD-T
6	5/5/2012	SANANDA-BEN-JEVOH	12 th LEVEL AVATAR	STRAND 7	2045AD

T = birth is scheduled for this date, but may occur any time earlier, most likely following the birth of the previous avatar. Birth must occur no later than scheduled date. Birth will remain as scheduled unless circumstances warrant change.
 ** = avatar 3 was not scheduled to birth until 2000 AD, but Earth's emergence the birth 2 years early to open the 2nd seal on the Arc of the Covenant, so the ascension schedule could remain on course. NOTE: There will also be 144,000 = "Indigo Children" born between 1999 - 2017. They will carry the 6 DNA strand/Pandisian Race imprint, that of the fully encoded HU-2 soul essence. They represent D-6 soul essence and will birth via the frequencies of the D-6 Silian Spiral, which falls within the inter-dimensional bridge light wave spectrum, thus their name. Activation of the 6th DNA strand of a minimum of 144,000 individuals is essential for Earth's passage into the Bridge Zone. The D-6 souls will birth on Earth to serve in fulfilling this requirement. The 6 Silent Avatars and Indigo Children are born via Palaidorian Birthing Contracts and Contract Seeds.

Note, in the beginning of the teachings the family affiliations of both J12 & J9 included the "JEVOH/JEHOV..." encryption. Also note that J9's family was identified (here and in other places in the teachings) as "AHMBRA" ... hmmm ... J9 appears to be AlHumBra, and they both appear to have affiliations with Jehovian family lines. (Remember Jehovani was the God Seed that monadically reversed and gave us Metatron).

Also note the important detail at the very bottom of the page. The Covenant of Palaidor is the "Covenant" referred to when people are talking about the Arc of the Covenant. Many people erroneously assume that is the Emerald Covenant which is about the return to the Law of One. Nope. It's the Palaidorian covenant which was orchestrated by the Ra Confederacy and included the creation of the Turaneusian race.

So how might this change your opinion of the teachings, if at all? Does this spark any discernments?

And the now for the potentially expansive questions ... :)

Does this help you see how we're all in the same boat? Does this make you consider that fearing/blaming the "boogeyman" (and using those fears to drive separation) may not be a very effective healing strategy?

(this post of material copyrighted to E'Asha Ashyana ARhAyas is made in accordance with Fair Use copyright rules)

Feb 20, 2017

Yes. I have a deeply personal understanding of the reason for the long history of feuding between J12 and his twin (who was used to breed the "other grail line" with J9, which was part of a secret arrangement between the MCEO and the Galactic Federation - pg 7 in the Christmas Story booklet). Our feud has led to the failure of our mission here in Melchizedek. So, I agree that both grail lines have a long history of viewing the "other" as "boogeymen"

But that is the broader mission. Focusing on local consciousness (Melchizedek) ... are you aware that the MCEO incarnated in contemporary Earth is an Elohim order? SP1 says she is Elohim in the Egypt Workshop.

DVD1 29:10 "We were a part of one of the Elohim Families"

DVD1 2:09:15 "Most people do not know I'm an Elohim"

In the Egypt Workshop SP1 reveals that she is pretending not to be Elohim at the beginning and end of the first lecture.

DVD1 18:33 "I will begin to solidify all those concepts so you begin to understand who I am. There are things that I have not released even in the workshops but I will release with this group ..."

DVD1 2:08:35 "I've talked to this group at a higher level as far as no holds barred than I usually do. I usually am very, very careful how much of my personal self I let you know about because I don't want to overwhelm you with a level of a paradigm of self-understanding that doesn't make sense to you yet"

Could SP1 be trying to protect people here from understanding that we are *all* fallen?

Viewing this with a great deal of compassion it is totally understandable why she chose to pretend to be Elohei while she was also teaching that Elohim are "the bad guys". But over the years did the

pretending get out of hand? That's for each person to decide for themselves.

And what about those in her trusted inner circle who knew the truth about the Elohim status of core shield and facilitated the pretending? What accountability might they have?

There are other quotes from the Egypt WS where SP1 says that she represents herself as Elohei.

DVD1 29:15 "We are part of a family that calls itself Elohei because we retained a complete connection to Source" *(see footnote below)

Again ... it is totally understandable why SP1 chose to conceal her Elohim identity. She had a big job to do ... and it would be even more difficult to say "I'm Elohim and the Elohim family wars have brought this matrix to the brink of extinction several times ... but here, please follow my teachings"

And if this race, this matrix ... and possibly Melchizedek itself is going to make the snap-shift turn-around that was discussed in the Aug 2014 workshop, then respectfully the origins and effects of the pretending that was encrypted into the teachings from the beginning must be brought into the light of day and understood.

There is great love in broader consciousness for Melchizedek and it's potential to heal. But the free will choice of incarnates must be honored. And at the moment the shield appears to be using its free will choice to avoid the difficult discernments (such as what I've mentioned here) and also to embrace the shattered status of the local Indigo Shield.

Is there any chance for that to change???

* The idea of SP1 representing her part of the Elohim family as Elohei can also be considered/understood by realizing that she was trained by the Priests of Ur. But her training occurred in Hawaii.

Interesting because Hawaii is Lemurian grids ... so that should have been the Priests of MU. hmmm ...

The answer for this disconnect may appear in Voyagers where it was explained that a group of remorseful Alanian former Priests of UR made their way over to Lemuria when they realized the impending calamity on Tara.

So it makes sense for there to be some lingering Alanian Priests of UR on Lemurian grids on Earth. Could SP1 be part of the group of remorseful Alanians who wanted to fix what happened on Tara?

(the Egypt WS has two versions. The very old version that was produced on VHS tape had a lot more content (including video of the fieldtrips to the pyramids) so the time stamps may be different in that version. These timestamps come from a DVD that I bought in 2011)

Feb 20, 2017

Simply put ...

I'm saying the fallen status of Elohim (as fallen Elohei) has been in the teachings from the beginning.

But for reasons only known to her, SP1 chose to pretend to be Elohei (respectfully based on her own words in the Egypt WS)

And I'm wondering how different the mission might have gone without the pretending.

Feb 20, 2017

Also, there is plenty of evidence that this world is many layers into a fall. For example, Procyus (Rajna Lock Sun in M31) fell to create the Milky Way Galaxy. And then parts of Tara fell to become blended into this solar system. So that's two layers of fall right there.

We have also been taught many times that this entire Ecka-Veca is falling (2007 Workshops including 12 Tribes transcripts)

So, it would be reasonable to expect that people responsible for running this mission would be fallen Elohim who are trying to fix the mess. I do think E'Asha began this mission to try to fix the problems.

I think the best chance for Jehovani/Metatron to heal would be if the Melchizedek God Seed was able to turn this whole thing around. That's because Melchizedek is the #12 God Seed and therefore carries max frequency which could fix reversals in the lower numbered God Seeds.

I do think there is still a chance for Melchizedek to heal. And I think a big step in that direction would be maximizing the healing on this Shield which at the moment seems to be embracing a shattered status.

Somehow the idea of healing among the various factions of what used to be the Indigo Shield has been

accepted as unhealthy, even dangerous. That's puzzling to me. But I accept the free will choice of shield members.

Feb 22, 2017

Yes, there are many other paradigms in God Source.

But we're focused here, in a world/matrix/God Seed that is infected with the assimilation virus. So let's look at what this "Assimilation Virus" is ... it's really pretty simple. The Kathara grid is the core radiation template for the KRYSTHL material worlds. It has 15 flashline sequences of partiki phasing that literally manifest the material worlds.

In virus infected worlds there is distortion in the Kathara grid. You can say that the "Assimilation Virus" itself is a distorted Kathara grid which interferes with the proper functioning of the manifestation process -- the flashlines are blocked, reflected, refracted, reversed ... all kinds of mutations.

And when manifestation happens on a distorted Kathara grid a lot of bad things can happen. One of the main issues for us here is damaged Aparthi, which is morphogenetic energy receivers (basically our senses). Sense is a responsibility in the A&Rs. We are supposed to have 12 senses online (Transfiguration is a sense). But most people here have just 5 senses. Because we are all built with damaged Kathara grids, we all suffer from a lack of senses to accurately detect *and manifest* our shared hologram.

Remember we also project the manifest worlds through the transduction sequence which traverses our morphogenetic fields which are built with damaged Kathara grids.

Another way to say this:

Damaged Kathara Grid = Fallen

Everyone breathing on this planet has a body built with a damaged Kathara grid (or you could not be breathing on this planet)

So (and this is the part that is difficult for most to accept) everyone on this planet has experienced at least one level of manifesting on a broken kathara grid. Everyone here is fallen.

(I think one reason this is so difficult for KSers to accept is because of the pretending not to be Elohim

that I discussed in another thread ... but let's stay focused :)

So ... you can see where there might be a lot of opportunity for really big problems. I watched my interview and I immediately realized that was the first time I had ever spoken my understanding of the virus out loud. So, I apologize that I did not do such a good job. Because the answer to your question should have been delivered in the interview.

You are asking about the source for the damage to the Kathara grid and if it originated in the Mechizedek God Seed. I can answer the second part definitively. No, the virus did not originate in Mechizedek. However, I sincerely believe that Mechizedek may be using its free will choice to choose to be assimilated into the virus (primarily by using free will choice to avoid discernments, and accountability and disappearing/or not using the basic teachings as I did discuss in the video).

The other part of your question is more complex ... did the damage to the Kathara grid afflict the KRYSTHL worlds from some other paradigm in God Source (e.g. the Chaos paradigm, or some other)? I honestly do not know the answer to that question.

Based on my current understanding, I would say it is equally possible that the virus originated inside a KRYSTHL world as outside of one. I say this because of the fundamental paradox in the KRYSTHL codes ... Order with completely free will choice. That can create a situation where somehow freewill was used to cause the first omnitemporal breach of the Kathara grid. So I just don't know how/where/when this all started.

I hope that answers your question. Thank you for asking!

Feb 24, 2017

I think you got a copy of my biblical breeding chart. It is worth noticing that there were actually three (not two) different birthdays for John the Baptist in the teachings (citations below).

Interesting to note that the one born in 46 BC would have been 15 at the time of the dark flowering fictitious birthday (as was mentioned in the May 2012 WS). And somewhere in the teachings SP1 explains that the pronunciation of the Greek name Ioannes is "Jons" (spelled-out YonEs in Christmas Story booklet).

Meanwhile, the version of John the Baptist known as Azuria would have been 11 at the time of the Dark-flowering birthday.

46 BC Birth of Ioannes (John the Baptist)

2001-12 Real Christmas Story pg 5

2012-05 Sliders 12 Pt 3 Pillar of Peace (Final session approx 9 mins)

42 BC Birth of Azuria (John the Baptist)

2001 Masters Templar Stewardship pg 208-209

31 BC Birth of John the Baptist

1999 Voyagers 1 pg xxxix

2001 Masters Templar Stewardship pg 272

2012-05 Sliders 12 Pt 3 Pillar of Peace (Final session approx 9 mins)
